## Morgan Stanley Investment Funds

### UK Reporting Fund status information

The following table shows the share classes which have declared Reportable Income for the purposes of UK reporting fund status.

For UK tax purposes, you are treated as receiving income on the “Fund distribution date” set out below. You should therefore include this income in your tax return for the tax year that includes that date.

The amount of income treated as received by you will be the “Excess of reported income” set out below multiplied by the number of shares you held at the date shown under “Reporting Period End” below.

Name of Sub-Fund	Share Class	Reporting Period Start	Reporting Period End	Amount actually distributed to participants per share	Excess of reported income per share over amount actually Distributed	Dates on which distributions were made	Fund distribution Date	Does the fund remain a reporting fund at the date of this report
