This Pricing Statement has been lodged with and registered by the Monetary Authority of Singapore (the “Authority”). The Authority assumes no responsibility for the contents of this Pricing Statement. Registration of this Pricing Statement by the Authority does not imply that the Securities and Futures Act (Cap. 289) of Singapore (the “SFA”), or any other legal or regulatory requirements, have been complied with. Please refer to the paragraph headed “References to Noteholders” in the section headed “The Documents which constitute the Prospectus” in Part 1 of the Base Prospectus for a discussion relating to the usage of the terms “Noteholders”, “you”, “investors” and “prospective investors” in this Pricing Statement.

Offer Period: From 11.00 a.m. on 9 October 2006 to 4.30 p.m. on 3 November 2006 or such earlier or later date as may be determined by the Issuer, after consultation with the Arranger, in its absolute discretion.

If the Issuer reduces or extends the Offer Period, the expected Fixing Date and Issue Date will also be changed. The Issuer will notify the Distributors of the new expected end of the Offering Period, Fixing Date and Issue Date on or before the Original Fixing Date.

Note Type/Applicable Annex: First-to-Default Note Type. The Applicable Annex for the Notes is the Annex for First-to-Default Note Type.

Issue Size: The total principal amount of Notes of each Tranche to be issued will be determined by the Arranger in its absolute discretion on the Fixing Date in light of market interest in the Notes and will be recorded and be available for inspection at the office of the Arranger set out on page i above as soon as practicable after the Issue Date.

Issue Price: 100 per cent. of the principal amount of the Notes (the “**Issue Price**”).

Issue Date: The Issue Date is expected to be 16 November 2006 and may be changed as described under “**Offer Period**” above.

Fixing Date: Expected to be 7 November 2006 (the “**Original Fixing Date**”) and may be changed as described under “**Offer Period**” above.

Change of Fixing Date and/or Issue Date, or cancellation of issuance:

The Issuer, after consultation with the Arranger, may in its absolute discretion decide on or before the Fixing Date to issue or not to issue any or all Tranche(s), in light of general market interest in the Notes. This discretion may be exercised irrespective of whether any change of the Fixing Date and/or Issue Date has been made as described under “Offer Period” above.

If the Issuer decides not to issue any or all Tranche(s), monies paid by applicants in respect of the affected Tranche(s) will be returned to the Distributors within 7 Singapore, London and New York Business Days after the originally scheduled Issue Date. The Issuer will notify the Distributors as soon as practicable after the Fixing Date. See the paragraphs headed “Cancellation of the issue of any of the Tranches of Notes” and “Refund of Application Monies” in the section headed “Application Procedures” in this Pricing Statement.

Notwithstanding the determination by the Arranger of the total principal amount of Notes of a Tranche to be issued on the Fixing

Date, the Issuer, after consultation with the Arranger, may at any time between the Fixing Date and the then expected Issue Date exercise its absolute discretion to change the Issue Date. Where more than one Tranche is to be issued, the Issue Date of a Tranche may be changed independently of the Issue Date of the other Tranche(s). Such right to change the Issue Date will apply in addition to the right to change the Fixing Date. If the Issuer so changes the Issue Date of any Tranche(s), it will notify the Distributors on or before the then expected Issue Date.

Notwithstanding the above:

- (a) upon (i) a notice being given to the Noteholders in respect of the occurrence of a Credit Event or (ii) a Mandatory Redemption Event occurring or (iii) an Event of Default occurring, the Notes will cease to bear any interest from the Interest Payment Date immediately preceding the Event Determination Date or, as the case may be, the date on which a Mandatory Redemption Event occurs or, as the case may be, the date on which an Event of Default occurs (or, if the Event Determination Date, Mandatory Redemption Event occurs or the Event of Default occurs prior to the first Interest Payment Date, no interest will be payable on the Notes); and
- (b) upon the exercise of an Issuer Call Option in respect of a Tranche of Notes, no interest will be payable on such Tranche of Notes after the Call Redemption Date in respect of such Issuer Call Option.

If an Interest Payment Date falls on a day which is not a Business Day, then payment of the interest or principal due on that day will be made on the first Business Day after that day. Clearing System:

The Central Depository (Pte) Limited (with a link to the Euroclear system)

For a description of how investors will hold the Notes, please see the section headed “Custody Arrangements for the Notes” in Part 1 of the Base Prospectus.

However, where your Distributor is Hong Leong Finance Limited and you do not have an account with CDP, your Notes may be custodied with a third party custodian (and not with Hong Leong Finance Limited). You should discuss with Hong Leong Finance Limited the custody arrangements for your Notes in these circumstances.

Neither the Issuer nor the Arranger accepts any responsibility for the provision of custody services or for any consequences of, or arising from, the use of investment accounts or custody services.

Notices:

So long as the Notes are represented by the Global Notes which are registered in the name of CDP or a nominee for the common depository for Euroclear and/or Clearstream, notices required to be given to Noteholders (including in relation to the occurrence of a Credit Event, a Mandatory Redemption Event or an Event of Default) may be given by their being delivered to entitled accountholders in CDP, Euroclear and/or Clearstream in the following manner:

- (a) if the relevant Clearing System permits notices to entitled accountholders to be sent through such Clearing System, the notices will be sent in such manner; and
- (b) if the relevant Clearing System does not so permit, the notices will be given either by mail to the entitled accountholders or by publication in a daily newspaper of general circulation in Singapore approved by the Trustee.

Please note that investors who hold their investment in Notes through a Distributor will need to rely on their Distributor (as entitled accountholders) to communicate such notices to them.

A copy of each notice given by the Issuer in respect of the Notes (to Noteholders or, in the case of notices regarding a reduction or extension of the Offer Period or a change of the Fixing Date or the Issuer Date, to the Distributors) will be made available for inspection as set out under the paragraph headed “Display Documents” under the section headed “Additional Information about the Offering” in this Pricing Statement.

Swap Agreement/ Swap Guarantee:

To enable the Issuer to meet its payment obligations under the Notes, the Issuer will enter into a Swap Agreement with Morgan Stanley Capital Services Inc. as Swap Counterparty. The obligations of the Swap Counterparty will be guaranteed by Morgan Stanley as Swap Guarantor pursuant to the Swap Guarantee. (See the sections headed “Summary of the Swap Arrangements” and “Overview of the parties to the Programme — The Swap Counterparty, the Forward Counterparty and the Swap Guarantor” in Part 1 of the Base Prospectus.)

The Notes will not be obligations of and will not be guaranteed by either the Swap Counterparty or the Swap Guarantor. The Swap Guarantee comprises a guarantee only in respect of the Swap Counterparty’s payment of all amounts due and payable to the Issuer under the Swap Agreement.

Under the terms of the Swap Agreement, the Swap Counterparty has the right to transfer the Swap Agreement, by way of novation, to an affiliate of the Swap Counterparty provided that the Issuer will continue to have the benefit of the Swap Guarantee after such transfer.

Forward Agreement/Forward Guarantee:

The Issuer will enter into a Forward Agreement with Morgan Stanley & Co. International Limited as Forward Counterparty in connection with the issue of the Notes. The obligations of the Forward Counterparty will be guaranteed by the Swap Guarantor pursuant to the Forward Guarantee.

If an Issuer Call Option is exercised in relation to a Tranche of Notes, the Issuer will, pursuant to the Forward Agreement, deliver to the Forward Counterparty the Underlying Assets in respect of such Tranche of Notes and in return receive a cash amount equal to the principal amount of such Underlying Assets. The Issuer will pay to the Swap Counterparty such cash amount it receives from the Forward Counterparty and the Swap Counterparty will pay to the Issuer an amount equal to the principal amount of the relevant Tranche of Notes plus any accrued interest up to the Call Redemption Date in respect of such Issuer Call Option to enable the Issuer to meet its obligations under such Notes. See the sections headed “Summary of the Forward Agreement” and “Overview of the parties to the Programme — The Swap Counterparty, the Forward Counterparty and the Swap Guarantor” in Part 1 of the Base Prospectus for further details.

Security:

Pursuant to the provisions of the Principal Trust Deed and a supplemental trust deed to be entered into between, amongst others, the Issuer and the Trustee on or about the Issue Date (the “**Second Supplemental Trust Deed**”, and together with the Principal Trust Deed, the “**Trust Deed**”), the Issuer will grant Security over the Charged Assets described below to the Trustee. The Trustee shall hold such Security on behalf of the Secured Creditors.

Charged Assets:

- A fixed charge of its rights attaching to or relating to the Underlying Assets and all sums derived therefrom (see the section headed “Information on the Underlying Assets” in Part 1 of the Base Prospectus and this Pricing Statement);
- an assignment of all its rights, title and interest under the Swap Agreement, the Swap Guarantee, the Forward Agreement, the Forward Guarantee and the Agency Agreement, including all its rights against the Custodian, to the extent they relate to the Underlying Assets, including, amongst others, all rights to the delivery of such Underlying Assets against the Custodian or any Clearing System; and
- a fixed charge of all sums (i) received under the Swap Agreement, the Swap Guarantee, the Forward Agreement and the Forward Guarantee and (ii) held by the Principal Paying Agent or the Custodian to meet payments due in respect of the Notes.

Secured Creditors:

The claims of the Trustee, the Custodian, the Principal Paying Agent, the Swap Counterparty and the Forward Counterparty against the Issuer will rank prior to the claims of the Noteholders under the Notes in the application of all monies received in connection with the realisation or enforcement of the Charged Assets (please see further the paragraph headed “Order of Priorities” in this section below). In realising the Charged Assets, the Trustee is obliged to act in accordance with the directions of the Instructing Creditor.

All monies received by the Trustee in respect of the Charged Assets for the Notes will be applied in the following order of priorities:

- (a) First, in payment or satisfaction of the fees, costs, charges, expenses and liabilities incurred by the Trustee or any receiver in preparing and executing the trusts under the notes and the Trust Deed (including any taxes required to be paid, the costs of realising or enforcing any security and the Trustee’s remuneration);
- (b) Secondly, rateably in payment or satisfaction of the fees, costs, charges, expenses and liabilities incurred by the Principal Paying Agent, the Custodian and the Administrator other than those set out in (d) below;
- (c) Thirdly, rateably in meeting the claims (if any) of the Swap Counterparty under the Swap Agreement and the Forward Counterparty under the Forward Agreement (which for this purpose shall include any claim of the Custodian for reimbursement in respect of payments made to the Swap Counterparty under the Swap Agreement or the Forward Counterparty under the Forward Agreement, as the case may be, and relating to sums receivable on the Underlying Assets);
- (d) Fourthly, rateably in meeting the claims (if any) of the holders of Notes and Coupons (as defined in the Master Conditions set out in the Applicable Annex) (which for this purpose will include any claim of the Custodian and the Principal Paying Agent for reimbursement in respect of payment of principal and interest made to holders of Notes and/or Coupons); and
- (e) Fifthly, in payment of the balance (if any) to the Issuer.

INFORMATION ABOUT THE REFERENCE ENTITIES

The Notes are linked to the creditworthiness of the Reference Entities set out below. The Issuer does not have any special access to information in relation to the Reference Entities and prospective investors must rely on publicly available information on the business, financial condition, prospects, creditworthiness, status or affairs of the Reference Entities in deciding whether to make an investment in the Notes.

Except for the disclosure on the credit ratings of the Reference Entities below, neither the Issuer nor the Arranger has conducted or will be conducting independent investigations on the Reference Entities in respect of (i) any legal or regulatory provisions which may materially affect the performance of the Reference Entities, (ii) any significant representations and warranties made concerning the Reference Entities, (iii) any material cross-default provisions relating to the Reference Entities, (iv) the nature and extent of the Reference Entities' exposure to any other entity and (v) the material terms or agreements involving the Reference Entities. Neither the Issuer nor the Arranger makes any representations as to the Reference Entities. Investors should make their own investigations and analysis of the Reference Entities.

Certain limited information on the Reference Entities is provided in "Appendix A — Additional Information on the Reference Entities". The Issuer and the Arranger have taken care to accurately extract such information in the proper form and context but neither the Issuer nor the Arranger are responsible for such information. Further information, such as operations and financial condition, about each corporate Reference Entity can be found on the websites listed in the table below. The information on these websites is not part of this Pricing Statement and neither the Issuer nor the Arranger accept any responsibility for such information, including whether that information is accurate, complete or up-to-date.

Reference Entities which are Asia Sovereign Reference Entities are not companies and as such are not subject to the same on-going regulatory disclosure obligations as the Companies which are listed on a number of stock exchanges. Accordingly, you may find it difficult to obtain information on Asia Sovereign Reference Entities. This will make it more difficult to observe or track any deterioration in the financial or political condition of Asia Sovereign Reference Entities which may impact on its ability to service its outstanding debt obligations.

As at 22 September 2006, each Reference Entity has the credit ratings set out in the following table.

Neither the Issuer nor the Arranger makes any representation as to the accuracy or reliability of the information, save that the Issuer and the Arranger have taken reasonable care to correctly extract and/or reproduce such information in its proper form and context. More information on credit ratings can be found at the websites of Fitch at www.fitchratings.com, S&P at www.standardandpoors.com and Moody's at www.moody's.com.

None of the Issuer, its directors, the Arranger, the Market Agent or the Trustee gives any representation as to the accuracy or reliability of the credit ratings, save that the Issuer and its directors have taken reasonable care to correctly extract and/or reproduce such information from the relevant source of publicly available information.

As at 5 October 2006, none of the ratings of the Reference Entities is subject to negative "CreditWatch" by S&P, or subject to review for possible downgrade on Moody's "Watchlist" or subject to Fitch "Rating Watch" Negative. Please see Appendix B for guidelines issued by S&P, Moody's and Fitch on what each of their ratings, "CreditWatch", "Watchlists" and "Rating Watch" means.

In this Pricing Statement, "S&P" means Standard & Poor's Rating Services, a division of the McGraw-Hill Companies Inc.; "Moody's" means Moody's Investors Service, Inc.; and "Fitch" means Fitch Ratings Ltd.

There can be no assurance that any stated credit rating will remain in effect for any given period or that any such rating will not be revised by the relevant rating agency in the future if, in the relevant credit rating agency's judgement, circumstances so warrant. A downward revision of a credit rating does not of itself constitute a Credit Event.

Up-to-date information on a Reference Entity's ratings can be obtained from S&P (please see www.standardandpoors.com for up-to-date contact details), from Moody's (please see www.moody's.com for up-to-date contact details) and from Fitch (please see www.fitchratings.com for up-to-date contact details).

See the definition of "Reference Obligation" in the Master Conditions for information on substitute Reference Obligations.

Under the terms of the Notes, a Reference Entity may in limited circumstances be replaced with another entity — its successor — which will then become for all purposes a Reference Entity. The circumstances in which this could happen relate to mergers, demergers, spin-offs and similar corporate reorganisations. Further information can be found under "The Reference Entities" in the section headed "Description of First-to-Default Note Type" in the Applicable Annex.

None of the Reference Entities listed above are affiliates of the Issuer.

References to websites

All references to websites in this Pricing Statement are intended to assist prospective investors to access further public information relating to the subject matter indicated. Prospective investors should conduct their own web searches to ensure that they are viewing the most up-to-date information. Information appearing on such websites does not form any part of the Prospectus. None of the Issuer, the Arranger, the Trustee, the Swap Counterparty, the Forward Counterparty, the Market Agent or the Determination Agent accept any responsibility whatsoever that such information, if available, is accurate and/or up-to-date, and no responsibility is accepted in relation to any such information by any person responsible for the Prospectus.

The offer of the Notes by the Issuer is made solely on the basis of the information contained in the Prospectus and prospective investors should exercise an appropriate degree of caution when assessing the value of other information which may appear on such websites.

INFORMATION ABOUT THE ORIGINAL UNDERLYING ASSETS

The following is a summary description of the Underlying Assets in respect of the Notes. Please also refer to the section headed "Information on the Underlying Assets" and the section headed "Risk Factors" in Part 1 of the Base Prospectus.

Original Underlying Assets

On or about the Issue Date, the Issuer will, in consultation with the Determination Agent, invest the entire proceeds of issuance of the Notes in Original Underlying Assets, which will consist of Synthetic CDO Securities which satisfy the following criteria as of the date of investment therein by the Issuer:

- (a) denominated in USD;
- (b) is rated at least AA or Aa2 by at least one of S&P, Moody's and/or Fitch
- (c) is not subject to negative "CreditWatch" by S&P, is not subject to review for possible downgrade on Moody's "Watchlist" and is not subject to Fitch "Rating Watch" Negative;
- (d) is acceptable to the Swap Counterparty as a funding source for the obligations of the Issuer under the Swap Agreement; and
- (e) has a maximum maturity which falls on or prior to the Scheduled Maturity Date of the Notes, provided that if the Issuer, in consultation with the Determination Agent, determines that such Synthetic CDO Securities are not available for investment by it on or about the Issue Date, then the Original Underlying Assets shall consist of:

- (1) Cash Deposits; and/or
- (2) Liquidity Funds which satisfy the criteria set out in "Eligible Investments" below as of the date of investment therein by the Issuer; and/or
- (3) Certificates of Deposit which satisfy the criteria set out in "Eligible Investments" below as of the date of investment therein by the Issuer.

Details on the Original Underlying Assets in which the Issuer has so invested will not be available at the time investors decide to purchase the Notes. However, as soon as practicable after the Issue Date, details (including the issuer(s) and rating(s)) of the Original Underlying Assets (or the rating(s) of the issuer(s) or obligor(s) thereof) will be made available for inspection in accordance with the paragraph headed "Display Documents" in the section headed "Additional Information About the Offering" from the Issue Date. See also the paragraph headed "Discretion of the Issuer to invest in the Underlying Assets" in the section headed "Risk Factors" in Part 1 of the Base Prospectus.

Where the Original Underlying Assets consist of Cash Deposits, Certificates of Deposit and/or Liquidity Funds, the Issuer will, at any time during the tenure of the Notes at which it determines (in consultation with the Determination Agent) that Synthetic CDO Securities satisfying the criteria above are available for investment by the Issuer, (i) in the case of Liquidity Funds or Certificates of Deposit, sell such Liquidity Funds or Certificates of Deposit (provided the amount at which such Liquidity Funds or Certificates of Deposit are sold is at or above their outstanding principal amount) and (ii) reinvest such Cash Deposits and/or the proceeds of such sale in Synthetic CDO Securities which satisfy the criteria set out above. Such Synthetic CDO Securities will then form part of the Underlying Assets.

Eligible Investments

Other than Cash Deposits, for which no additional criteria will apply, Eligible Investments (or the issuer(s) or obligor(s) thereof) must satisfy the following criteria on the date of investment therein:

- (a) any USD denominated securities, including Asset-Backed Securities and Credit Commodity Linked Securities, rated (or issued by an entity rated) at least "Aaa" or "P-1" by Moody's or any successor to the rating business thereof or at least "AAA" or "A-1" by S&P or any successor to the rating business thereof or at least "AAA" or "F1" by Fitch or any successor to the rating business thereof that have a scheduled maturity date falling on or prior to the Scheduled Maturity Date of the Notes, and which are not subject to any negative CreditWatch of S&P, on review for possible downgrade on Moody's Watchlist or placed on "Rating Watch Negative" by Fitch, as applicable, at the time of its acquisition; and/or

(b) any USD denominated Medium Term Notes, CDO Squared Securities or Synthetic CDO Securities rated at least “Aa2/P-1” by Moody’s or at least “AA/A-1” by S&P or at least “AA/F1” by Fitch that have a scheduled maturity date falling on or prior to the Scheduled Maturity Date of the Notes, and which are not subject to any negative CreditWatch of S&P, on review for possible downgrade on Moody’s Watchlist or placed on “Rating Watch Negative” by Fitch, as applicable, at the time of its acquisition; and/or

(d) any USD denominated Liquidity Fund, including, without limitation, any investment vehicle for which the Arranger, the Determination Agent, the Custodian or the Trustee, or an Affiliate of any of them, provides services, provided that at the time such investment is entered into, such fund has a money market fund rating of at least “Aaa/MR1+” by Moody’s and/or at least “AAAm” by S&P and/or at least AAA/V1+ by Fitch, and that such fund distributes interest or dividends on such investment on a regular basis and at least quarterly.

2. Your application for the Notes must be made by way of the printed WHITE “Notes Application Form” and must be accompanied by a duly completed and signed certificate of non-U.S. citizenship and residency (which can be obtained from the Distributor).

3. **You (being a person other than an approved nominee company (as defined in paragraph 6 below)) are allowed to submit application(s) in your own name for a single application for the Notes.**

A person, other than an approved nominee company, who is submitting an application for the Notes in his own name should not submit any other applications for the Notes for any other person. Such separate applications shall be deemed to be multiple applications and shall be rejected.

Multiple applications for the Notes will be rejected. Persons submitting or procuring submissions of multiple applications for the Notes may be deemed to have committed an offence under the Penal Code, Chapter 224 of Singapore and the Securities and Futures Act, Chapter 289 of Singapore and such applications may be referred to the relevant authorities for investigation. Multiple applications or those appearing to be or suspected of being multiple applications, (other than as provided herein) will be liable to be rejected at the discretion of the Issuer.

4. We will not accept applications from any person under the age of 21 years, undischarged bankrupts, sole-proprietorships, partnerships, non-corporate bodies and applicants whose addresses (furnished in their Notes Application Forms) bear post office box numbers. No person acting or purporting to act on behalf of a deceased person is allowed to apply under a securities account with CDP in the deceased’s name at the time of application.

5. We will not recognise the existence of a trust. Any application by a trustee or trustees must be made in his/their own name(s) and without qualification or, where the application is made by way of a Notes Application Form by a nominee, in the name(s) of an approved nominee company or approved nominee companies after complying with paragraph 7 below.

6. **WE WILL ONLY ACCEPT NOMINEE APPLICATIONS FROM APPROVED NOMINEE COMPANIES.** Approved nominee companies are defined as banks, merchant banks, finance companies, insurance companies, licensed securities dealers in Singapore and nominee companies controlled by them. Applications made by nominees other than approved nominee companies will be rejected.

7. **IF YOU ARE NOT AN APPROVED NOMINEE COMPANY, YOU MUST MAINTAIN A DIRECT SECURITIES ACCOUNT WITH CDP OR A SECURITIES SUB-ACCOUNT WITH A DEPOSITORY AGENT AT THE TIME OF YOUR APPLICATION.** If you have an existing securities account with CDP but fail to provide your CDP securities account number or provide an incorrect CDP securities account number in section B of the Notes Application Form, your application is liable to be rejected. Subject to paragraph 8 below, your application shall be rejected if your particulars such as name, NRIC/passport number or company registration number, nationality, permanent residence status and CDP securities account number provided in your Notes Application Form differ from those particulars in your securities account as maintained by CDP. If you are applying through more than one direct securities account with CDP, your application is liable to be rejected.

8. If your address as stated in the Notes Application Form is different from the address registered with CDP, you must inform CDP of your updated address promptly, failing which the notification letter on successful allocation, sent by your Distributor on behalf of the Issuer, will be sent to your address last registered with CDP.

9. You may apply for the Notes using only cash. **You cannot use SRS account moneys or CPF Investible Savings to apply for the Notes.** Each application must be accompanied by a direct debit authorisation to your Distributor in respect of the number of Notes applied for in favour of your Distributor or your Distributor will require you to maintain a balance until the Issue Date or you will be required to deposit funds, which will be held on your behalf by the Distributor, into a designated account, in each case equal to the principal amount of Notes for which you have applied, which upon successful allocation, will be debited by your Distributor in an amount equal to the Notes allocated to you or you will have to comply with such other method of payment stipulated by your Distributor. Applications not accompanied by these forms of payment will not be accepted. No acknowledgement of receipt will be issued for such applications and payments.

10. The refund procedures and mechanism are ultimately dependent on your agreement with your Distributor. Generally, where your application is accepted in part only and where excess moneys have been received, the balance of the application moneys, will be refunded (without interest or any share of revenue or other benefit arising therefrom) to you by ordinary post at your own risk within 14 Business Days after the Fixing Date, provided that the moneys have been received by the Distributor in the designated account.

11. The Base Prospectus and this Pricing Statement and their accompanying documents (including the Notes Application Forms) have not been registered in any jurisdiction other than in Singapore. The distribution of the Base Prospectus and this Pricing Statement and their accompanying documents (including the Notes Application Forms) and the offering or sale of the Notes may be prohibited or restricted (either absolutely or unless various securities requirements, whether legal or administrative, are complied with) in certain jurisdictions under the relevant securities laws of those jurisdictions.

The Notes have not been and will not be registered under the US Securities Act 1933, as amended (the “**Securities Act**”) and include Notes in bearer form that are subject to U.S. tax law requirements. Subject to certain exceptions, the Notes may not be offered or sold within the United States or to, or for the account or benefit of, US persons (as defined in Regulation S under the Securities Act (“**Regulation S**”)). The Notes are being offered outside the United States to non-US persons (including institutional and other investors in Singapore) in reliance on Regulation S. **The Issuer reserves the right to reject any application for Notes where the Issuer believes or has reason to believe that such application may violate the securities laws of the United States or any other jurisdiction or any applicable legal or regulatory requirements.**

No person in any jurisdiction outside Singapore receiving the Base Prospectus and this Pricing Statement or their accompanying documents (including the Notes Application Forms) may treat the same as an offer or invitation to subscribe for any Notes.

12. The Issuer reserves the right to reject any application which does not conform strictly to the instructions set out in the Base Prospectus and this Pricing Statement and the Notes Application Form, or with the terms and conditions of this Pricing Statement or, in the case of an application by way of a Notes Application Form, which is illegible, incomplete, incorrectly completed or which is accompanied by an improperly drawn authorisation.

13. The Issuer reserves the right to treat as valid any applications not completed or submitted or effected in all respects in accordance with the instructions set out in the Base Prospectus and Pricing Statement (including Notes Application Forms), and also to present for payment or other processes all remittances at any time after receipt and to have full access to all information relating to, or deriving from, such remittances or the processing thereof.

Without prejudice to the rights of the Issuer, the Distributors, as agents of the Issuer, have been authorised to accept, for and on behalf of the Issuer, such other forms of application as the Distributors may, in consultation with the Issuer and the Arranger, deem appropriate.

14. The Issuer, in consultation with the Arranger, has the right to reject or to accept, in whole or in part, or to scale down or to ballot any application, without assigning any reason therefor, and neither the Issuer nor the Arranger will entertain any enquiry and/or correspondence on its decision. In deciding the

basis of allocation, the Issuer will give due consideration to the desirability of allocating the Notes to a reasonable number of applicants with a view to establishing an adequate market for the Notes.

15. No definitive Notes will be issued to successful applicants. You irrevocably authorise CDP, if required, to complete and sign on your behalf as transferee any documents required for the issue or transfer of the Notes allocated to you.

The CDP securities account of such successful applicants (whether held directly or through Depository Agents) shall be credited with the principal amount of the Notes subscribed. In this case, it is expected that CDP will send to each successful applicant at his own risk, within ten Business Days after the close of the Issue Date, a statement showing that his CDP securities account has been credited with the principal amount of Notes allocated to him. This will be the only acknowledgement of application moneys received and is not an acknowledgement by the Issuer.

16. You irrevocably authorise CDP and your Distributor (where applicable) to disclose the outcome of your application, including the number of Notes allocated to you pursuant to your application, to the Issuer, the Arranger and any other parties so authorised by CDP, the Issuer and the Arranger.

17. Any reference to “you” or the “Applicant” in this section shall include an individual, a corporation, an approved nominee company and trustee applying for the Notes by way of a Notes Application Form.

18. By completing and delivering a Notes Application Form in accordance with the provisions herein, you:

(a) irrevocably offer, agree and undertake to subscribe for the amount of Notes specified in your application (or such smaller number for which the application is accepted) at the Issue Price of USD5,000 for each Tranche A Note and SGD5,000 for each Tranche B Note and agree that you will accept such Notes as may be allocated to you, in each case on the terms of, and subject to the conditions set out in the Base Prospectus (including the Applicable Annex) and this Pricing Statement;

(b) agree that you have read through and understand the terms and conditions set out in this “Application Procedures” section;

(c) agree that the aggregate amount for the Notes applied for is due and payable to the Issuer upon application;

(d) agree that you will make payment upon successful allocation of the Notes;

(e) warrant the truth and accuracy of the information contained, and representations and declarations made, in your application, and acknowledge and agree that such information, representations and declarations will be relied on by the Issuer and the Arranger in determining whether to accept your application and/or whether to allocate any Notes to you;

(f) agree and warrant that you have completed and successfully discharged the know-your-client requirement imposed by your Distributor;

(g) agree and warrant that your application will comply with and be fully consistent with all laws and regulations, credit policies, guidelines and restrictions applicable to you;

(h) agree and warrant that you have not relied on the Arranger or any of its affiliates in assessing the merits, risk and suitability of your application;

(i) agree and warrant that you have conducted your own suitability checks and procedures for your application; and

(j) agree and warrant that if the laws of any jurisdictions outside Singapore are applicable to your application, you have complied with all such laws and none of the Issuer and the Arranger will infringe any such laws as a result of the acceptance of your application.

19. The Issuer and the Arranger will not hold any application in reserve.

20. The Issuer and the Arranger will not allocate any Notes on the basis of this Pricing Statement later than six months after the date of registration of this Pricing Statement.

21. Additional terms and conditions for applications by way of Notes Application Forms are set out in the section entitled “Additional Terms and Conditions for Application using Printed Application Forms” below.

Additional Terms and Conditions for Application using Printed Application Forms

Applications by way of Notes Application Forms shall be made on and subject to the terms and conditions of the Base Prospectus (including the Applicable Annex) and this Pricing Statement, including but not limited to the terms and conditions appearing below as well as those set out under the earlier section of this “Application Procedures” section.

1. Your application for the Notes must be made using the **WHITE** Notes Application Form accompanying and forming part of this Pricing Statement and must be accompanied by a duly completed and signed certificate of non-U.S. citizenship and residency (which can be obtained from the Distributor). We draw your attention to the detailed instructions contained in the respective Notes Application Forms and this Pricing Statement for the completion of the Notes Application Forms, which must be carefully followed. **The Issuer reserves the right to reject applications which do not conform strictly to the instructions set out in the Notes Application Forms and this Pricing Statement or to the terms and conditions of this Pricing Statement or which are illegible, incomplete, incorrectly completed or (where applicable) which are accompanied by improperly drawn authorisations.**

2. You must complete your Notes Application Forms in English. Please type or write clearly in ink using **BLOCK LETTERS**.

3. You must complete all spaces in your Notes Application Forms except those under the heading “**FOR OFFICIAL USE ONLY**” and you must write the words “**NOT APPLICABLE**” or “**N.A.**” in any space that is not applicable.

If you are an individual, you must make your application using your full name as it appears in your identity card (if you have such an identification document) or in your passport and, in the case of corporations, in your full names as registered with a competent authority. If you are not an individual, you must complete the Notes Application Form under the hand of an official who must state the name and capacity in which he signs the Notes Application Form. If you are a corporation completing the Notes Application Form, you are required to affix your Common Seal (if any) in accordance with your Memorandum and Articles of Association or equivalent constitutive documents. The Issuer reserves the right to require you to produce documentary proof of identification for verification purposes.

5. You (whether an individual or corporate Applicant, whether incorporated or unincorporated and wherever incorporated or constituted) will be required to declare whether you are a citizen or permanent resident of Singapore or a corporation in which citizens or permanent residents of Singapore or any body corporate constituted under any statute of Singapore having an interest in the aggregate of more than 50% of the issued share capital of or interests in such corporations. If you are an approved nominee company, you are required to declare whether the beneficial owner of the Notes is a citizen or permanent resident of Singapore or a corporation, whether incorporated or unincorporated and wherever incorporated or constituted, in which citizens or permanent residents of Singapore or any body corporate incorporated or constituted under any statute of Singapore have an interest in the aggregate of more than 50% of the issued share capital of or interests in such corporation.

6. Capitalised terms used in the Notes Application Forms and defined in the Base Prospectus and this Pricing Statement shall bear the meanings ascribed to them in the Base Prospectus and this Pricing Statement.

7. By completing and delivering the Notes Application Form, you agree that:

(a) in consideration of the Issuer having distributed the Notes Application Form to you and by completing and delivering the Notes Application Form before the close of the Offer Period or such other time or date as the Issuer may, in consultation with the Arranger, decide:

(i) your application is irrevocable;

(ii) your remittance will be honoured on first presentation and that any moneys returnable may be held pending clearance of your payment without interest or any share of revenue or other benefit arising therefrom; and

(iii) you represent and agree that you are not a U.S. person (within the meaning of Regulation S);

(b) all applications, acceptances or contracts resulting therefrom shall be governed by and construed in accordance with the laws of Singapore and that you irrevocably submit to the exclusive jurisdiction of the Singapore courts;

(c) in respect of the Notes for which your application has been received and not rejected, acceptance of your application shall be constituted by written notification by your Distributor on behalf of the Issuer and not otherwise, notwithstanding any remittance being presented for payment by or on behalf of the Issuer;

(d) you will not be entitled to exercise any remedy of rescission for misrepresentation at any time after acceptance of your application;

(e) reliance is placed solely on information contained in Part 1 of the Base Prospectus, the Applicable Annex and this Pricing Statement and that none of the Issuer and the Arranger or any other person involved in the offer of the Notes shall have any liability for any information not so contained;

(f) you consent to the disclosure by the relevant Distributor of your name, NRIC/passport number or company registration number, address, nationality, permanent resident status, CDP securities account number and application amount to the Issuer, CDP, the Arranger and the Market Agent; and

(g) you irrevocably agree and undertake to subscribe for the number of Notes applied for as stated in the Notes Application Form or any smaller number of such Notes that may be allocated to you in respect of your application. In the event that the Issuer decides to allocate any smaller number of Notes or not to allocate any Notes to you, you agree to accept such decision as final.

Steps for applications for the Notes by way of printed Notes Application Forms

1. Your application for the Notes by way of printed Notes Application Forms **MUST** be made using the **WHITE** Notes Application Forms.

2. You must:

(a) duly complete and sign the Notes Application Form, in accordance with the terms and conditions of this Pricing Statement, and submit the Notes Application Form to your Distributor; and

(b) either fill up a direct debit authorisation in favour of your Distributor in respect of the Notes subscribed for or ensure that you maintain a balance, at least until the Issue Date, equal to the Notes subscribed for in your account with your Distributor or deposit funds, which will be held on your behalf by the Distributor, into a designated account, which upon successful allocation, will be debited by your Distributor in an amount equal to the principal amount of Notes allocated to you or you will have to comply with such other method of payment stipulated by the Distributor.

3. Applications that are illegible, incomplete or incorrectly completed or accompanied by improperly drawn authorisation are liable to be rejected.

4. No acknowledgement of receipt will be issued for any application or remittance received.

Cancellation of the issue of any Tranches of Notes

In relation to each Tranche of Notes, the Issuer may determine on the Fixing Date in its absolute discretion after consultation with the Arranger that the Notes of that Tranche should not be issued. Following any such determination, the offering of such Tranche of Notes shall be cancelled. In such event, no Notes of

such Tranche shall be issued and the Arranger shall so notify the Distributors as soon as practicable after the Fixing Date and any subscription monies held in an account with a Distributor shall no longer be held for the purposes of the subscription of Notes of the relevant Tranche and the Distributors shall return such subscription monies paid by the applicants in accordance with “Refund of Application Monies” below.

For the avoidance of doubt, the cancellation of the offering of one Tranche will not affect the offering of the other Tranche.

The Distributors shall notify all affected applicants as soon as practicable upon receiving a notice from the Issuer in respect of any non-issuance of any or all Tranche(s) of the Notes.

Refund of Application Monies

If any subscription monies are to be refunded in any of the circumstances described in this Pricing Statement, payment will be made by the Distributors on behalf of the Issuer to the applicants in accordance with the relevant Distributor’s normal operating procedures without interest and at the risk of the applicants within 14 Business Days after the Fixing Date. Such payment will be made in the currency in which the Notes are denominated by bank transfer or by cheque, unless otherwise agreed between the relevant applicant and his Distributor.

Confirmations to be given by investors

By giving application instructions to any Distributor for the purchase of any Notes, prospective investors will be deemed to confirm to the Distributor, the Arranger and the Issuer that, amongst other things, they:

- **understand** that in respect of the Tranche B Notes, the applicable Early Redemption Amount payable to Noteholders on the occurrence of a Mandatory Redemption Event or the Credit Event Redemption Amount as adjusted (as more fully described in the paragraph headed “Procedure for the redemption of the Notes following a Credit Event” in the section headed “Summary” of this Pricing Statement) payable to Noteholders following the giving of notice to the Noteholders of the occurrence of a Credit Event, as the case may be, will be subject to an exchange conversion risk arising from the conversion of such redemption amounts into SGD at the prevailing USD/SGD exchange rate as determined by the Determination Agent, acting for and on behalf of the Issuer;
- **understand** there will be a time delay between the Determination Agent’s declaration of a Credit Event and the payment of the Credit Event Redemption Amount. Such payment may occur after the Scheduled Maturity Date;
- **understand** that the Notes will not be principal protected or guaranteed by the Issuer or any other party and accept the risk that (i) (subject to the terms and conditions of the Notes) the principal of the Notes will only be payable in respect of those Notes which are held until the Scheduled Maturity Date or in respect of those Tranche(s) of Notes the Issuer has exercised the Issuer Call Option relating to such Tranche(s) of Notes, (ii) interest will only be payable in respect of the Notes in issue on the relevant Interest Payment Dates, and (iii) the redemption amounts payable to them following notice of the occurrence of a Credit Event or the occurrence of an Issuer’s Event of Default or a Mandatory Redemption Event (as the case may be) is likely to be substantially less than the principal amount of their Notes; and
- **understand** that in the event that any of the Original Underlying Assets or Reinvested Eligible Investments are redeemed, in whole or in part, at or above their outstanding principal amount including any accrued interest in accordance with their terms for any reason whatsoever by the issuer of such Original Underlying Assets or Reinvested Eligible Investments, as the case may be, (or, in the case of Original Underlying Assets in the form of Cash Deposits or Liquidity Funds, redeemed or repaid for any reason whatsoever (as the case may be)) prior to the Scheduled Maturity Date, the proceeds of redemption or repayment will be paid into the account of the Issuer with the Custodian and that such account may or may not be interest bearing. The Determination Agent, acting for and on behalf of the Issuer, may at its sole and absolute discretion reinvest the proceeds of redemption or repayment in Eligible Investments.

By giving application instructions to any Distributor for the subscription of any Notes, prospective investors will also be deemed to have made the confirmations to the Distributor, the Arranger and the Issuer as set out under the paragraph headed “Confirmations to be given by investors” in the section headed “The Distributors and Investors Confirmations” in Part 1 of the Base Prospectus.

Prospective investors will be required to confirm that they have read and understood these confirmations and the confirmations contained in the Base Prospectus at the time of applying to a Distributor for the Notes. If prospective investors do not understand the meaning or the reasons why they are being asked to give these confirmations and those confirmations contained in the Base Prospectus, they should seek assistance from their Distributor.

ADDITIONAL INFORMATION ABOUT THE OFFERING

Authorisations

The issue of this Series of Notes was authorised and approved by resolutions of the Board of Directors of the Issuer passed on 25 September 2006.

Use of Proceeds

The Issuer is issuing the Notes in the course of its ordinary business with the intention of providing investors with the opportunity to invest in a structured financial product that provides investors with an exposure to the Reference Entities and the Underlying Assets. Morgan Stanley does not consider this transaction to amount to a fund-raising exercise for Morgan Stanley or its subsidiaries. The entire proceeds of issue of the Notes will be used to invest in the Original Underlying Assets.

Payments

Interest payments and redemption payments of the Notes will be made in USD in respect of Tranche A Notes and in SGD in respect of Tranche B Notes. Each investor who has been allocated the Notes must make arrangements to receive payments in respect of the Notes by credit to a USD account in respect of Tranche A Notes and to a SGD account in respect of Tranche B Notes. Definitive Notes, or certificates representing the Notes, will not be issued to individual investors (except in very limited circumstances). The total principal amount of the Notes of each Tranche will initially be represented by interests in a Global Note, which will be registered in the name of CDP. Accordingly, investors who have been allocated the Notes and who do not have an account at such clearing system must make arrangements for their Notes to be held in custody with an account holder (or an indirect account holder) of CDP (which initially must be one of the Distributors).

Taxation

Prospective investors are advised to read the section headed "Taxation" in Part 1 of the Base Prospectus which contains a summary of certain taxation provisions under Singapore, Cayman Islands and Jersey law. Prospective investors are also advised that no Singapore stamp duty will be payable on the issue or subsequent transfer of any of the Notes.

The provisions in the section headed "Taxation" in Part 1 of the Base Prospectus are accurate as at the date of this Pricing Statement.

No Material Adverse Change — Issuer

There has been no material change in the financial position or operations of the Issuer and no material adverse change in the prospects of the Issuer, in each case since its date of incorporation on 30 November 2005. The Notes described in this Pricing Statement are being issued as Series 2 under the Programme. As at the date of this Pricing Statement, the Issuer does not have any hire purchase commitments, guarantees or other material contingent liabilities, bank overdrafts or other similar indebtedness.

Display Documents

For so long as any Notes remain outstanding and with effect from the dates set out in the following paragraph, the following documents as well as the documents listed in the section headed "General Information" in Part 1 of the Base Prospectus will be available during usual business hours on any day (Saturdays, Sundays and public holidays in Singapore excepted), for inspection (requests for photocopies will be subject to a reasonable fee which reflects the cost of making a copy) at the offices of the Arranger specified on page i of this Pricing Statement:

(i) information relating to the Underlying Assets including the rating(s) (if any), the terms and conditions, the information memorandum or memoranda or other offering document(s) relating to such Underlying Assets (if such documents have been prepared) and regarding where investors could obtain information relating to the performance of the issuer(s) of the Underlying Assets on an on-going basis together with any further information which is available to, and may be disclosed by, the Arranger; and

(ii) a copy of any notice given by the Issuer or the Arranger in respect of the Notes pursuant to the Programme or as otherwise provided for in this Pricing Statement.

The documents listed in (i) and (ii) above will be available for inspection as aforesaid with effect from the Issue Date. None of the documents listed above form part of the Prospectus.

APPENDIX B

CREDIT AND STABILITY RATINGS

None of S&P, Moody's and/or Fitch has consented to the information set out in this Appendix B. Neither the Issuer nor the Arranger makes any representation as to the accuracy or reliability of the information set out in this Appendix B, save that the Issuer and the Arranger have taken reasonable care to correctly extract and/or reproduce such information in its proper form and context. More information on credit ratings can be found at the websites of S&P at www.standardandpoors.com, Moody's at www.moody.com and Fitch at www.fitchratings.com.

CREDIT RATINGS

A credit rating is a current assessment by a credit rating agency of a company's or a country's overall financial capacity (its creditworthiness) to pay its financial obligations (i.e. its debts). This assessment focuses on the company's or the country's capacity to meet its financial commitments as they become due. It does not apply to any specific financial obligation.

There can be no assurance that any stated credit rating will remain in effect for any given period or that any such rating will not be revised by the relevant rating agency in the future if, in the relevant credit rating agency's judgment, circumstances so warrant. A downward revision of a credit rating does not of itself constitute a Credit Event.

It should be noted that a credit rating is not a recommendation to purchase, sell, or hold a financial obligation issued by an obligor (a company or country), as the rating agencies do not comment on market price or suitability for a particular investor.

Investors should note that a downgrade in respect of any of the Reference Entities does not of itself equate to, or result in, the occurrence of a Credit Event.

The following are guidelines issued by S&P, Moody's and Fitch on what each of their ratings means and have been extracted from the websites and reports of the Rating Agencies:

S&P Long-Term Issue Credit Ratings

Issue credit ratings are based, in varying degrees, on the following considerations:

- Likelihood of payment — capacity and willingness of the obligor to meet its financial commitment on an obligation in accordance with the terms of the obligation;
- Nature of and provisions of the obligation;
- Protection afforded by, and relative position of, the obligation in the event of bankruptcy, reorganization, or other arrangement under the laws of bankruptcy and other laws affecting creditors' rights.

The issue rating definitions are expressed in terms of default risk. As such, they pertain to senior obligations of an entity. Junior obligations are typically rated lower than senior obligations, to reflect the lower priority in bankruptcy, as noted above. (Such differentiation applies when an entity has both senior and subordinated obligations, secured and unsecured obligations, or operating company and holding company obligations.) Accordingly, in the case of junior debt, the rating may not conform exactly with the category definition.

AAA

An obligation rated 'AAA' has the highest rating assigned by S&P. The obligor's capacity to meet its financial commitment on the obligation is extremely strong.

AA

An obligation rated 'AA' differs from the highest-rated obligations only to a small degree. The obligor's capacity to meet its financial commitment on the obligation is very strong.

A

An obligation rated 'A' is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher-rated categories. However, the obligor's capacity to meet its financial commitment on the obligation is still strong.

BBB

An obligation rated 'BBB' exhibits adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the obligor to meet its financial commitment on the obligation.

BB, B, CCC, CC, and C

Obligations rated 'BB', 'B', 'CCC', 'CC', and 'C' are regarded as having significant speculative characteristics. 'BB' indicates the least degree of speculation and 'C' the highest. While such obligations will likely have some quality and protective characteristics, these may be outweighed by large uncertainties or major exposures to adverse conditions.

BB

An obligation rated 'BB' is less vulnerable to nonpayment than other speculative issues. However, it faces major ongoing uncertainties or exposure to adverse business, financial, or economic conditions which could lead to the obligor's inadequate capacity to meet its financial commitment on the obligation.

B

An obligation rated 'B' is more vulnerable to nonpayment than obligations rated 'BB', but the obligor currently has the capacity to meet its financial commitment on the obligation. Adverse business, financial, or economic conditions will likely impair the obligor's capacity or willingness to meet its financial commitment on the obligation.

CCC

An obligation rated 'CCC' is currently vulnerable to nonpayment, and is dependent upon favorable business, financial, and economic conditions for the obligor to meet its financial commitment on the obligation. In the event of adverse business, financial, or economic conditions, the obligor is not likely to have the capacity to meet its financial commitment on the obligation.

CC

An obligation rated 'CC' is currently highly vulnerable to nonpayment.

C

A subordinated debt or preferred stock obligation rated 'C' is currently highly vulnerable to nonpayment. The 'C' rating may be used to cover a situation where a bankruptcy petition has been filed or similar action taken, but payments on this obligation are being continued. A 'C' also will be assigned to a preferred stock issue in arrears on dividends or sinking fund payments, but that is currently paying.

Plus (+) or minus (-)

The ratings from 'AA' to 'CCC' may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the major rating categories.

S&P Short-Term Issue Credit Ratings

A-1

A short-term obligation rated 'A-1' is rated in the highest category by S&P. The obligor's capacity to meet its financial commitment on the obligation is strong. Within this category, certain obligations are designated with a plus sign (+). This indicates that the obligor's capacity to meet its financial commitment on these obligations is extremely strong.

A-2

A short-term obligation rated 'A-2' is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher rating categories. However, the obligor's capacity to meet its financial commitment on the obligation is satisfactory.

A-3

A short-term obligation rated 'A-3' exhibits adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the obligor to meet its financial commitment on the obligation.

B

A short-term obligation rated 'B' is regarded as having significant speculative characteristics. Ratings of 'B-1', 'B-2', and 'B-3' may be assigned to indicate finer distinctions within the 'B' category. The obligor currently has the capacity to meet its financial commitment on the obligation; however, it faces major ongoing uncertainties which could lead to the obligor's inadequate capacity to meet its financial commitment on the obligation.

B-1. A short-term obligation rated 'B-1' is regarded as having significant speculative characteristics, but the obligor has a relatively stronger capacity to meet its financial commitments over the short-term compared to other speculative-grade obligors.

B-2. A short-term obligation rated 'B-2' is regarded as having significant speculative characteristics, and the obligor has an average speculative-grade capacity to meet its financial commitments over the short-term compared to other speculative-grade obligors.

B-3. A short-term obligation rated 'B-3' is regarded as having significant speculative characteristics, and the obligor has a relatively weaker capacity to meet its financial commitments over the short-term compared to other speculative-grade obligors.

C

A short-term obligation rated 'C' is currently vulnerable to nonpayment and is dependent upon favorable business, financial, and economic conditions for the obligor to meet its financial commitment on the obligation.

S&P Long-Term Issuer Credit Ratings

A S&P issuer credit rating is a current opinion of an obligor's overall financial capacity (its creditworthiness) to pay its financial obligations. This opinion focuses on the obligor's capacity and willingness to meet its financial commitments as they come due. It does not apply to any specific financial obligation, as it does not take into account the nature of and provisions of the obligation, its standing in bankruptcy or liquidation, statutory preferences, or the legality and enforceability of the obligation. In addition, it does not take into account the creditworthiness of the guarantors, insurers, or other forms of credit enhancement on the obligation. The issuer credit rating is not a recommendation to purchase, sell, or hold a financial obligation issued by an obligor, as it does not comment on market price or suitability for a particular investor.

Counterparty credit ratings, ratings assigned under the Corporate Credit Rating Service (formerly called the Credit Assessment Service) and sovereign credit ratings are all forms of issuer credit ratings. Issuer credit ratings are based on current information furnished by obligors or obtained by S&P from other sources it considers reliable. S&P does not perform an audit in connection with any issuer credit rating and may, on occasion, rely on unaudited financial information.

Issuer credit ratings may be changed, suspended, or withdrawn as a result of changes in, or unavailability of, such information, or based on other circumstances. Issuer credit ratings can be either long term or short term. Short-term issuer credit ratings reflect the obligor's creditworthiness over a short-term time horizon.

AAA

An obligor rated 'AAA' has extremely strong capacity to meet its financial commitments. 'AAA' is the highest issuer credit rating assigned by S&P.

AA

An obligor rated 'AA' has very strong capacity to meet its financial commitments. It differs from the highest rated obligors only to a small degree.

A

An obligor rated 'A' has strong capacity to meet its financial commitments but is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligors in higher-rated categories.

BBB

An obligor rated 'BBB' has adequate capacity to meet its financial commitments. However, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the obligor to meet its financial commitments.

BB, B, CCC, and CC

Obligors rated 'BB', 'B', 'CCC', and 'CC' are regarded as having significant speculative characteristics. 'BB' indicates the least degree of speculation and 'CC' the highest. While such obligors will likely have some quality and protective characteristics, these may be outweighed by large uncertainties or major exposures to adverse conditions.

BB

An obligor rated 'BB' is less vulnerable in the near term than other lower-rated obligors. However, it faces major ongoing uncertainties and exposure to adverse business, financial, or economic conditions which could lead to the obligor's inadequate capacity to meet its financial commitments.

B

An obligor rated 'B' is more vulnerable than obligors rated 'BB', but the obligor currently has the capacity to meet its financial commitments. Adverse business, financial, or economic conditions will likely impair the obligor's capacity or willingness to meet its financial commitments.

CCC

An obligor rated 'CCC' is currently vulnerable, and is dependent upon favourable business, financial, and economic conditions to meet its financial commitments.

Plus (+) or minus (-)

The ratings from 'AA' to 'CCC' may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the major rating categories.

CC

An obligor rated 'CC' is currently highly vulnerable.

S&P Short-Term Issuer Credit Ratings

A-1

An obligor rated 'A-1' has strong capacity to meet its financial commitments. It is rated in the highest category by S&P. Within this category, certain obligors are designated with a plus sign (+). This indicates that the obligor's capacity to meet its financial commitments is extremely strong.

A-2

An obligor rated 'A-2' has satisfactory capacity to meet its financial commitments. However, it is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligors in the highest rating category.

A-3

An obligor rated 'A-3' has adequate capacity to meet its financial obligations. However, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the obligor to meet its financial commitments.

B

An obligor rated 'B' is regarded as vulnerable and has significant speculative characteristics. The obligor currently has the capacity to meet its financial commitments; however, it faces major ongoing uncertainties which could lead to the obligor's inadequate capacity to meet its financial commitments.

B-1. Obligors with a 'B-1' short-term rating have a relatively stronger capacity to meet their financial commitments over the short-term compared to other speculative-grade obligors.

B-2. Obligors with a 'B-2' short-term rating have an average speculative-grade capacity to meet their financial commitments over the short-term compared to other speculative-grade obligors.

B-3. Obligors with a 'B-3' short-term rating have a relatively weaker capacity to meet their financial commitments over the short-term compared to other speculative-grade obligors.

C

An obligor rated 'C' is currently vulnerable to nonpayment and is dependent upon favorable business, financial, and economic conditions for it to meet its financial commitments.

CreditWatch

CreditWatch highlights the potential direction of a short-or long-term rating. It focuses on identifiable events and short-term trends that cause ratings to be placed under special surveillance by S&P's analytical staff. These may include mergers, recapitalisations, voter referendums, regulatory action, or anticipated operating developments. Ratings appear on CreditWatch when such an event or a deviation from an expected trend occurs and additional information is necessary to evaluate the current rating. A listing, however, does not mean a rating change is inevitable, and whenever possible, a range of alternative ratings will be shown. CreditWatch is not intended to include all ratings under review, and rating changes may occur without the ratings having first appeared on CreditWatch. The "positive" designation means that a rating may be raised; "negative" means a rating may be lowered; and "developing" means that a rating may be raised, lowered, or affirmed.

Moody's Long-term Obligation Ratings

Moody's long-term obligation ratings are opinions of the relative credit risk of fixed-income obligations with an original maturity of one year or more. They address the possibility that a financial obligation will not be honoured as promised. Such ratings reflect both the likelihood of default and any financial loss suffered in the event of default.

Aaa

Obligations rated Aaa are judged to be of the highest quality, with minimal credit risk.

Aa

Obligations rated Aa are judged to be of high quality and are subject to very low credit risk.

A

Obligations rated A are considered upper-medium grade and are subject to low credit risk.

Baa

Obligations rated Baa are subject to moderate credit risk. They are considered medium-grade and as such may possess certain speculative characteristics.

Ba

Obligations rated Ba are judged to have speculative elements and are subject to substantial credit risk.

B

Obligations rated B are considered speculative and are subject to high credit risk.

Caa

Obligations rated Caa are judged to be of poor standing and are subject to very high credit risk.

Ca

Obligations rated Ca are highly speculative and are likely in, or very near, default, with some prospect of recovery of principal and interest.

Obligations rated C are the lowest rated class of bonds and are typically in default, with little prospect for recovery of principal or interest.

Note: Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification from Aa through Caa. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

Moody's Issuer Ratings: Corporates and Financial Institutions

Issuer Ratings are opinions of the ability of entities to honor senior unsecured financial obligations and contracts. Moody's rating symbols for Issuer Ratings are identical to those used to indicate the credit quality of long-term obligations.

Moody's Short-Term Ratings

Moody's short-term ratings are opinions of the ability of issuers to honor short-term financial obligations. Ratings may be assigned to issuers, short-term programs or to individual short-term debt instruments. Such obligations generally have an original maturity not exceeding thirteen months, unless explicitly noted.

Moody's employs the following designations to indicate the relative repayment ability of rated issuers:

P-1

Issuers (or supporting institutions) rated Prime-1 have a superior ability to repay short-term debt obligations.

P-2

Issuers (or supporting institutions) rated Prime-2 have a strong ability to repay short-term debt obligations.

P-3

Issuers (or supporting institutions) rated Prime-3 have an acceptable ability to repay short-term obligations.

NP

Issuers (or supporting institutions) rated Not Prime do not fall within any of the Prime rating categories.

Note: Canadian issuers rated P-1 or P-2 have their short-term ratings enhanced by the senior-most long-term rating of the issuer, its guarantor or support-provider.

Watchlists

Moody's uses the Watchlist to indicate that a rating is under review for possible change in the short-term. A rating can be placed on review for possible upgrade ("UPG"), on review for possible downgrade ("DNG"),

or more rarely with direction uncertain (“UNC”). A credit is removed from the Watchlist when the rating is upgraded, downgraded or confirmed.

Fitch International Long-Term Credit Ratings

International Long-Term Credit Ratings (“LTCR”) may also be referred to as Long-Term Ratings. When assigned to most issuers, it is used as a benchmark measure of probability of default and is formally described as an Issuer Default Rating (“IDR”). The major exception is within Public Finance, where IDRs will not be assigned as market convention has always focused on timeliness and does not draw analytical distinctions between issuers and their underlying obligations. When applied to issues or securities, the LTCR may be higher or lower than the issuer rating (“IDR”) to reflect relative differences in recovery expectations.

The following rating scale applies to foreign currency and local currency ratings:

Investment Grade

AAA

Highest credit quality. ‘AAA’ ratings denote the lowest expectation of credit risk. They are assigned only in case of exceptionally strong capacity for payment of financial commitments. This capacity is highly unlikely to be adversely affected by foreseeable events.

AA

Very high credit quality. ‘AA’ ratings denote expectations of very low credit risk. They indicate very strong capacity for payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events.

A

High credit quality. ‘A’ ratings denote expectations of low credit risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to changes in circumstances or in economic conditions than is the case for higher ratings.

BBB

Good credit quality. ‘BBB’ ratings indicate that there is currently expectations of low credit risk. The capacity for payment of financial commitments is considered adequate but adverse changes in circumstances and economic conditions are more likely to impair this capacity. This is the lowest investment grade category.

Speculative Grade

BB

Speculative. ‘BB’ ratings indicate that there is a possibility of credit risk developing, particularly as the result of adverse economic change over time; however, business or financial alternatives may be available to allow financial commitments to be met. Securities rated in this category are not investment grade.

B

Highly speculative.

- For issuers and performing obligations, ‘B’ ratings indicate that significant credit risk is present, but a limited margin of safety remains. Financial commitments are currently being met; however, capacity for continued payment is contingent upon a sustained, favorable business and economic environment.
- For individual obligations, may indicate distressed or defaulted obligations with potential for extremely high recoveries. Such obligations would possess a Recovery Rating of ‘R1’ (outstanding).

CCC

- For issuers and performing obligations, default is a real possibility. Capacity for meeting financial commitments is solely reliant upon sustained, favorable business or economic conditions.
- For individual obligations, may indicate distressed or defaulted obligations with potential for average to superior levels of recovery. Differences in credit quality may be denoted by plus/minus distinctions.

Such obligations typically would possess a Recovery Rating of 'R2' (superior), or 'R3' (good) or 'R4' (average).

CC

- For issuers and performing obligations, default of some kind appears probable.
- For individual obligations, may indicate distressed or defaulted obligations with a Recovery Rating of 'R4' (average) or 'R5' (below average).

C

- For issuers and performing obligations, default is imminent.
- For individual obligations, may indicate distressed or defaulted obligations with potential for below-average to poor recoveries. Such obligations would possess a Recovery Rating of 'R6' (poor).

Fitch International Short-Term Credit Ratings

The following ratings scale applies to foreign currency and local currency ratings. A Short-term rating has a time horizon of less than 13 months for most obligations, or up to three years for US public finance, in line with industry standards, to reflect unique risk characteristics of bond, tax, and revenue anticipation notes that are commonly issued with terms up to three years. Short-term ratings thus place greater emphasis on the liquidity necessary to meet financial commitments in a timely manner.

F1

Highest credit quality. Indicates the strongest capacity for timely payment of financial commitments; may have an added "+" to denote any exceptionally strong credit feature.

F2

Good credit quality. A satisfactory capacity for timely payment of financial commitments, but the margin of safety is not as great as in the case of the higher ratings.

F3

Fair credit quality. The capacity for timely payment of financial commitments is adequate; however, near term adverse changes could result in a reduction to non investment grade.

B

Speculative. Minimal capacity for timely payment of financial commitments, plus vulnerability to near term adverse changes in financial and economic conditions.

High default risk. Default is a real possibility. Capacity for meeting financial commitments is solely reliant upon a sustained, favorable business and economic environment.

Notes to Fitch International Long-Term and Short-Term ratings:

Modifiers "+" or "-"

The modifiers "+" or "-" may be appended to a rating to denote relative status within major rating categories. Such suffixes are not added to the 'AAA' Long-term rating category, to categories below 'CCC', or to Short-term ratings other than 'F1'. (The +/-modifiers are only used to denote issues within the CCC category, whereas issuers are only rated CCC without the use of modifiers.)

Rating Watch

Ratings are placed on Rating Watch to notify investors that there is a reasonable probability of a rating change and the likely direction of such change. These are designated as "Positive", indicating a potential upgrade, "Negative", for a potential downgrade, or "Evolving", if ratings may be raised, lowered or maintained. Rating Watch is typically resolved over a relatively short period.

Performance of Credit Ratings

S&P regularly produces a default study which calculates the incidence of defaults across all rating classes over varying periods.

The S&P default events are similar (but not identical) to the Credit Events applicable in respect of the Notes as set out in the section headed “Technical Definitions” in this Pricing Statement.

S&P records a default:

- on the first occurrence of a payment default on any financial obligation of a company or country; or
- when holders of a company’s or country’s debt accept substitute instruments with reduced interest, longer maturities or any other diminished financial term.

The table below (extracted from the S&P’s 2005 Annual Global Corporate Default Study) shows the cumulative default history for the 4 investment grade rating categories (AAA, AA, A and BBB) from 1 to 6 years. The study is global and covers the period from 1981 to 2004.

For example, if a bond has a S&P’s A rating, the statistical likelihood of default of such bond based on the cumulative historical default history of such bonds between 1981 and 2004 is 0.04 per cent. in the first year following issue, 0.13 per cent. in the second year, 0.24 per cent. in the third year, and so on. The significance of these historical default rates is that there has been a correlation between S&P’s ratings and the incidence of default. That is, the higher the rating the lower the incidence of default.

Cumulative Average Default Rates, 1981-2004 (%)

<u>Rating</u>	<u>Year 1</u>	<u>Year 2</u>	<u>Year 3</u>	<u>Year 4</u>	<u>Year 5</u>	<u>Year 6</u>
AAA	0.00%	0.00%	0.03%	0.06%	0.10%	0.17%
AA	0.01%	0.04%	0.09%	0.19%	0.30%	0.41%
A	0.04%	0.13%	0.24%	0.40%	0.61%	0.84%
BBB	0.29%	0.81%	1.40%	2.19%	2.99%	3.73%

These historical default rates provide a measure of the historical accuracy of S&P’s ratings. However, they are not necessarily, or at all, indicative of the likelihood of a Credit Event occurring to any of the Reference Entities.

FUND STABILITY RATINGS

In respect of money market funds, liquidity funds or similar investment vehicles that principally invest in short term fixed income obligations, each of S&P, Moody’s and Fitch have issued guidelines on the stability ratings applicable to such funds.

S&P Principal Stability Fund Ratings

A S&P Principal Stability fund rating, also known as a money-market fund rating, is a current opinion of a fund’s capacity to maintain stable principal or net asset value. When assigning a Principal Stability rating to a fund, S&P evaluates the creditworthiness of a fund’s investments and counterparties, the market price exposure of its investments, sufficiency of the fund’s portfolio liquidity, and management’s ability and policies to maintain the fund’s stable net asset value by limiting exposure to loss.

A principal stability fund rating (also known as a money market fund rating) is not directly comparable with a bond rating due to differences in investment characteristics, rating criteria, and creditworthiness of portfolio investments. For example, a money market fund portfolio provides greater liquidity, price stability, and diversification than a long-term bond, but not necessarily the credit quality that would be indicated by the corresponding bond rating. Ratings are not commentaries on yield levels. A principal stability fund rating is not a recommendation to buy, sell, or hold the shares of a fund. Further, the rating may be changed, suspended, or withdrawn as a result of changes in or unavailability of information related to the fund.

AAAm

Fund has extremely strong capacity to maintain principal stability and to limit exposure to principal losses due to credit, market, and/or liquidity risks.

AAm

Fund has very strong capacity to maintain principal stability and to limit exposure to principal losses due to credit, market, and/or liquidity risks.

Am

Fund has strong capacity to maintain principal stability, but is somewhat more susceptible to principal losses due to adverse credit, market, and/or liquidity risks.

BBBm

Fund has adequate capacity to maintain principal stability. Nevertheless, adverse market conditions and/or higher levels of redemption activity are more likely to lead to a weakened capacity to limit exposure to principal loss as a result of higher exposure to credit, market and/or liquidity risks.

BBm

Fund has uncertain capacity to maintain principal stability, and is vulnerable to principal losses resulting from its exposures to credit, market, and/or liquidity risks.

Dm

Fund has failed to maintain principal stability resulting in a realized or unrealized loss of principal.

+ or – Ratings may be modified (except 'AAAm') to show relative standing within the rating categories.

Moody's Market Risk Ratings

Moody's Mutual Fund Market Risk ratings are opinions of the relative degree of volatility of a rated fund's net asset value (NAV). In forming an opinion on the fund's future price volatility, Moody's analysts consider risk elements that may have an effect on a fund's net asset value, such as interest rate risk, prepayment and extension risk, liquidity and concentration risks, currency risk, and derivatives risk. The ratings are not intended to reflect the prospective performance of a fund with respect to price appreciation or yield.

MR1

Money Market Funds and Bond Funds rated MR1 are judged to have very low sensitivity to changing interest rates and other market conditions.

MR2

Money Market Funds and Bond Funds rated MR2 are judged to have low sensitivity to changing interest rates and other market conditions.

MR3

Money Market Funds and Bond Funds rated MR3 are judged to have moderate sensitivity to changing interest rates and other market conditions.

MR4

Money Market Funds and Bond Funds rated MR4 are judged to have high sensitivity to changing interest rates and other market conditions.

MR5

Money Market Funds and Bond Funds rated MR5 are judged to have very high sensitivity to changing interest rates and other market conditions.

Note: A "+" modifier appended to the MR1 rating category denotes constant NAV money market funds and other qualifying funds.

Fitch Money Market Fund Ratings

Fitch's money market fund ratings are an assessment of the safety of invested principal and the ability to maintain a stable market value of the fund's shares. Ratings are based on an evaluation of several factors, including credit quality, diversification, and maturity of assets in the portfolio, as well as management strength and operational capabilities.

AAA/VI+

Money market funds have the highest credit quality and safety of principal. Fund management's experience, coupled with fund policies and procedures, indicates safety is extremely strong.

AA/VI+

Money market funds have very high credit quality and safety of principal. Fund management's experience, coupled with fund policies and procedures, indicates safety is very strong.

A/VI+

Money market funds have high credit quality and safety of principal. Fund management's experience, coupled with fund policies and procedures, indicates safety is strong.

BBB/VI+

Money market funds have adequate credit quality and safety of principal. Fund management's experience, coupled with fund policies and procedures, indicates safety is acceptable.

The Trustee shall apply all moneys received by it under the Trust Deed in connection with the

realisation or enforcement of the Security constituted by or pursuant to the Trust Deed in accordance with the following:

- (a) First, rateably in payment or satisfaction of the fees, costs, charges, expenses and liabilities incurred by CDP in carrying out its duties as the Clearing System for the Notes, or the Trustee or any receiver in preparing and executing the trusts under the notes and the Trust Deed (including any taxes required to be paid, the costs of realising or enforcing any security and the Trustee's remuneration);
- (b) Secondly, rateably in payment or satisfaction of the fees, costs, charges, expenses and liabilities incurred by the Principal Paying Agent, the Custodian and the Administrator other than those set out in (d) below;
- (c) Thirdly, rateably in meeting the claims (if any) of the Swap Counterparty under the Swap Agreement and the Forward Counterparty under the Forward Agreement (which for this purpose shall include any claim of the Custodian for reimbursement in respect of payments made to the Swap Counterparty under the Swap Agreement or the Forward Counterparty under the Forward Agreement, as the case may be, and relating to sums receivable on the Underlying Assets);
- (d) Fourthly, rateably in meeting the claims (if any) of the holders of Notes and Coupons (as defined in the Master Conditions) (which for this purpose will include any claim of the Custodian and the Principal Paying Agent for reimbursement in respect of payment of principal and interest made to holders of Notes and/or Coupons); and
- (e) Fifthly, in payment of the balance (if any) to the Issuer.

In accordance with the Supplemental Trust Deed, the Security for the Notes shall comprise all of the following:

- (i) a first fixed charge in favour of the Trustee over the Underlying Assets and all of the Issuer's rights attaching to or relating to the Underlying Assets and all sums derived therefrom;
- (ii) an assignment by way of first fixed charge in favour of the Trustee of all of the Issuer's rights, title and interest against the Custodian, to the extent they relate to the Underlying Assets;
- (iii) an assignment by way of first fixed charge in favour of the Trustee of all of the Issuer's rights, title and interest under each of the Swap Agreement, the Swap Guarantee, the Forward Agreement and the Forward Guarantee, and any sums received thereunder;
- (iv) a first fixed charge in favour of the Trustee over (a) all sums received under the Swap

Agreement, the Swap Guarantee, the Forward Agreement and the Forward Guarantee; and (b) any sums held by the Principal Paying Agent and/or the Custodian to meet payments due in respect of the Notes; and

- (v) an assignment by way of first fixed charge in favour of the Trustee of the Issuer's rights, title and interest under the Agency Agreement in respect of the Notes and the Underlying Assets, including all sums derived therefrom in respect of the Notes and all rights against the Custodian with respect to the Underlying Assets, including without limitation all rights to the delivery of such Underlying Assets against the Custodian under the Agency Agreement or any applicable clearing system or the operator thereof or against any bank, broker or other intermediary and including all sums and other rights derived from such Underlying Assets.

In realising the Charged Assets, the Trustee is obliged to act in accordance with the directions of the Instructing Creditor as described in Condition 3(c).

Swap Counterparty

(d) Instructing Creditor:

(e) Related Agreements:

- (i) Swap Agreement (including the Credit Default Swap Transaction and the Asset Swap Transaction) and the Swap Guarantee:

In connection with the issue of the Notes, the Issuer has entered into, amongst other things, an ISDA Master Agreement (the "**Swap Master Agreement**") dated as of 7 August 2006 between the Issuer and the Swap Counterparty which Swap Master Agreement benefits from a guarantee (the "**Swap Guarantee**") of the Swap Guarantor dated 7 August 2006. In respect of this Series the Issuer has executed certain confirmations thereto which incorporate the terms of the Swap Master Agreement. The confirmations to the Swap Master Agreement which relate to the Notes comprise a credit default swap transaction (the "**Credit Default Swap Transaction**") and an asset swap transaction (the "**Asset Swap Transaction**"), each dated the Issue Date. The Swap Master Agreement together with the confirmations thereto which relate to the Notes are together referred to herein as the "**Swap Agreement**".

Pursuant to the terms of the Credit Default Swap Transaction the Issuer has agreed to sell credit protection to the Swap Counterparty in relation to the Reference Entities in a notional amount equal to the Principal Amount of the Notes against payment of a premium amount (the "**Credit Default Swap Premium**") and the Issuer has agreed that following the giving of notice of the

occurrence of a Credit Event, it will pay to the Swap Counterparty an amount equal to the Liquidation Proceeds and the Swap Counterparty will pay an amount equal to the Credit Event Redemption Amount.

Furthermore, in connection with the issue of the Notes the Issuer has entered into the Asset Swap Transaction in a notional amount equal to the Principal Amount of the Notes pursuant to which (A) the Issuer has agreed to pay to the Swap Counterparty (i) an amount equal to all distributions in respect of interest or income receivable by the Issuer in respect of the Underlying Assets and (ii) an amount equal to the Credit Default Swap Premium and (B) the Swap Counterparty has agreed to pay to the Issuer an amount equal to all amounts of interest due in respect of the Notes.

(ii) Forward Agreement and the Forward Guarantee:

In connection with the issue of the Notes, the Issuer has also entered into, amongst other things, an ISDA Master Agreement (the “**Forward Master Agreement**”) dated 7 August 2006 between the Issuer and the Forward Counterparty which Forward Master Agreement benefits from a guarantee (the “**Forward Guarantee**”) of the Swap Guarantor dated 7 August 2006. In respect of this Series the Issuer has executed certain confirmations thereto which incorporate the terms of the Forward Master Agreement. The confirmation to the Forward Master Agreement which relates to the Notes comprise a contingent forward transaction dated the Issue Date. The Forward Master Agreement together with the confirmation thereto which relates to the Notes are referred to herein as the “**Forward Agreement**”.

Pursuant to the terms of the contingent forward transaction, if an Issuer Call Option is exercised in relation to the Notes, the Issuer will deliver to the Forward Counterparty the Underlying Assets in respect of the Notes, and the Forward Counterparty will pay to the Issuer a cash amount equal to the principal amount of the Notes.

Each of the Swap Agreement and the Forward Agreement may be terminated early, among other circumstances:

- (a) at the election of the non-defaulting party upon an “Event of Default” under the Swap Agreement or the Forward Agreement, as the case may be, including:
 - (i) the failure of the other party to pay any amount due and payable under the Swap Agreement or the Forward Agreement, as the case may be, and such failure continues for one Business Day (as defined in the Swap Agreement or the Forward Agreement, as the case may be);
 - (ii) non-compliance by the Swap Guarantor with any of its obligations under the Swap Guarantee or the Forward Guarantee, as the case may be, or the

- ceasing of the Swap Guarantee or the Forward Guarantee (as the case may be) to be in full force and effect;
- (iii) the merger of either party or the Swap Guarantor, as the case may be, with another entity and such entity fails to assume all of the relevant party's obligations under the Swap Agreement or the Swap Guarantee, or the Forward Agreement or the Forward Guarantee, as the case may be;
- (b) on the occurrence of certain "Termination Events" under the Swap Agreement or the Forward Agreement, as the case may be, including:
- (i) it becoming illegal for either party to perform its obligations under the Swap Agreement or the Forward Agreement, as the case may be, or for the Swap Guarantor to perform its obligations under the Swap Guarantee or the Forward Guarantee, as the case may be;
 - (ii) if (subject as provided in the Swap Agreement or the Forward Agreement, as the case may be) withholding taxes are imposed on payments made by the Issuer, the Swap Counterparty or the Forward Counterparty under the Swap Agreement and/or the Forward Agreement, as the case may be, which is not avoided by a transfer by the Affected Party (as defined in the Swap Agreement or the Forward Agreement, as the case may be) of its rights and obligations on terms provided in the Swap Agreement or the Forward Agreement, as the case may be;
 - (iii) when the Notes become repayable in whole prior to the Scheduled Maturity Date (other than as a result of the occurrence of a Credit Event or as a result of the exercise of an Issuer Call Option or Swap Counterparty Option);
- (c) where a Credit Event has occurred, the Asset Swap Transaction and the Forward Agreement will terminate on the Event Determination Date; and
- (d) upon the exercise by the Issuer of the Issuer Call Option, or the exercise by the Swap Counterparty of a Swap Counterparty Option, the Asset Swap Transaction and the Credit Default Swap Transaction will terminate on the immediately following Interest Payment Date.

Consequences of Early Termination:

Upon any such early termination of the Swap Agreement or the Forward Agreement (in whole or in part), as the case may be, and such agreement is not replaced on or prior to such termination, the Notes will become repayable and the Issuer, the Swap Counterparty or the Forward

Counterparty (as the case may be) may (subject as set out below and provided, in the case of certain tax events, that the Issuer may first be obliged to use all reasonable endeavours to transfer its obligations) be liable to make a termination payment to the other in respect of the Swap Agreement or the Forward Agreement, as the case may be (regardless, if applicable, of which of such parties may have caused such termination).

Further, under the terms of the Swap Agreement and the Forward Agreement, termination payments will not be payable following termination as a result of the exercise by the Issuer of an Issuer Call Option, the exercise by the Swap Counterparty of a Swap Counterparty Option, or the occurrence of a an Event Determination Date (save in respect of any amounts which should have been paid prior to the date of termination and which remain unpaid).

Where such a termination payment is payable, it will be based on the total losses and costs and/or gains incurred in the termination of the Swap Agreement or the Forward Agreement, as the case may be, and the termination payment would typically take into account the market value of the terminated Swap Agreement or the Forward Agreement, as the case may be, based on market quotations of the cost of entering into a transaction with terms and conditions that would have the effect of preserving the economic equivalent of the respective full payment obligations of the parties under the Swap Agreement or the Forward Agreement, as the case may be.

Regardless of which party makes the determination of the termination payment (if any), there is no assurance that the proceeds from the sale of the Underlying Assets plus or minus, as the case may be, the amount payable by the Swap Counterparty/Forward Counterparty or the Issuer, as the case may be, due to the termination of the Swap Agreement or the Forward Agreement, as the case may be, will be sufficient to repay the principal amount due to be paid in respect of the Notes and any other amounts in respect thereof that are due.

(iv) Exercise of Morgan Stanley Exchange Option:

Following an exercise of the Morgan Stanley Exchange Option by Morgan Stanley & Co. International Limited in respect of any Notes, a pro rata amount of the Swap Agreement and the Forward Agreement corresponding in each case to that proportion of the Notes to be exchanged will be terminated without any termination payment due from either party to the other thereunder.

(f) Parties to Related Agreements (other than Issuer):

Morgan Stanley Capital Services Inc. (the “**Swap Counterparty**”) in respect of the Swap Agreement and Morgan Stanley & Co. International Limited (the “**Forward Counterparty**”) in respect of the Forward Agreement
