2. to assess the internal guidelines and procedures of MSAS (which include adherence to the relevant provisions of the Notes and the transaction documentation) in respect of the early redemption process setting out the process and control activities over the sourcing and determination of prices, adjustments to prices (if any) and processes to ensure the integrity of the calculations performed in relation to the redemption of the Notes; and
3. to assess whether the process and control activities for determining the occurrence of a mandatory redemption event and the early redemption process as set forth in the internal guidelines and procedures have been adhered to (a) in determining that a mandatory redemption event has occurred and (b) in arriving at the computation of the early redemption amount of the Notes.
