These notes refer to the financial metrics and/or defined term presented on Slide 13

1. Wallet represents the aggregated reported net revenues of Morgan Stanley and the following peers: Goldman Sachs, JP Morgan, Bank of America, Citigroup, UBS, Deutsche Bank, Credit Suisse, and Barclays. Morgan Stanley’s Wallet Share is calculated as the percentage of Morgan Stanley’s net revenues, excluding DVA (where applicable) to the Wallet
2. European peer results were translated to USD using average exchange rates for the appropriate period; sourced from Bloomberg
3. Peer data has been adjusted for DVA, where it is reported and where applicable. Goldman Sachs’ Equity Sales & Trading results also exclude the Americas Reinsurance business which was sold in 2013
4. Fixed Income Sales & Trading net revenues, exclude: for 2013, the negative impact from DVA of $603 million; for 2014, the positive impact from DVA of $419 million; for 2015, the positive impact from DVA of $455 million. Fixed Income Sales & Trading Net Revenues, excluding DVA is a non-GAAP financial measure the Firm considers useful for analysts, investors and other stakeholders to allow better comparability of period to period operating performance
5. Equity Sales & Trading net revenues, exclude: for 2013, the negative impact from DVA of $78 million; for 2014, the positive impact from DVA of $232 million; for 2015, the positive impact from DVA of $163 million. Equity Sales & Trading Net Revenues, excluding DVA is a non-GAAP financial measure the Firm considers useful for analysts, investors and other stakeholders to allow better comparability of period to period operating performance

Rowe Price
5. Firm Expense Efficiency Ratio represents total non-interest expenses as a percentage of net revenues
These notes refer to the financial metrics and/or defined term presented on Slide 16

1. The attainment of these objectives may be impacted by external factors that cannot be predicted at this time, including macroeconomic and market conditions and future regulations; See also Notice on Slide 2 herein
2. Pre-Tax Margin represents income (loss) from continuing operations before taxes divided by net revenues. Pre-Tax Margin is a non-GAAP financial measure that the Firm considers useful for analysts, investors and other stakeholders to assess operating performance
3. Firm Expense Efficiency ratio represents total non-interest expenses as a percentage of net revenues
4. Capital returns are subject to regulatory approval
5. The calculation of ROE uses net income applicable to Morgan Stanley less preferred dividends as a percentage of average common equity. The ROE target of 10% to 13% excludes intermittent discrete tax items. ROE target, excluding intermittent discrete tax items, is a non-GAAP financial measure that the Firm considers useful for analysts, investors and other stakeholders to assess operating performance
6. The calculation of ROTCE uses net income applicable to Morgan Stanley less preferred dividends as a percentage of average tangible common equity. TCE equals common equity less goodwill and intangible assets net of allowable mortgage servicing rights. The ROTCE target of 11.5% to 14.5% excludes intermittent discrete tax items. ROTCE excluding intermittent discrete tax items and TCE are non-GAAP financial measures that the Firm considers useful for analysts, investors and other stakeholders to assess operating performance
