

Mr James Nicopoullos - Biography

Mr James Nicopoullos is a Consultant Gynaecologist and Sub-specialist in Reproductive Medicine & Surgery as well as the Clinical Director at the Lister Fertility Clinic.

Mr Nicopoullos is widely published in peer-reviewed international journals with more than 35 publications on topics such as male fertility, management of viral infections and sub-fertility, low ovarian reserve, ovarian hyper stimulation, premature ovarian failure, effect of progesterone levels and other markers of successful fertility treatments.

He is a regular speaker at national and international conferences, regular contributor of fertility support networks, acts as a reviewer for a number of peer-reviewed journals and is an active member of the Royal College of Obstetricians and Gynaecologists, European Society of Human Reproduction and Embryology and a committee member of the British Fertility Society.

He continues to combine his clinical commitments with an ongoing research program and as Clinical Director, has a key role in ensuring ongoing excellence of care within the unit as part of the quality management team. He is also a member of the HFEA Licensed Centres Panel.

He is highly experienced in all aspects of reproductive medicine, with a particular interest in those complicated cases the unit is often referred. He also specializes in the overall management of gynaecological disorders such as polycystic ovarian syndrome, recurrent miscarriage, premature ovarian failure and menopause that have a reproductive element at their core, as well as leading the clinic's egg freezing/fertility preservation program.
