

# Sustainable Solutions

We focus on five key sustainability challenges globally: Climate Change, Resource Management, Health & Wellbeing, Inclusion, and Safety & Security. Within each of these are subcategories, as outlined below.

Our global sector analysts have estimated the % of revenues and CAPEX generated from products and services that help to solve these sustainability challenges.

- **Climate Change:** Renewable Energy; Energy Efficiency; Hydrogen (Green / Blue); CCUS; Green Mobility; Energy Storage; Climate Insurance
- **Resource Management:** Food; Waste; Water; Other (PET, metals, etc.)
- **Health & Wellbeing:** Healthy Eating & Exercise; Treating & Preventing Illnesses
- **Inclusion:** Education; Digital Inclusion; Financial Inclusion & Wellbeing
- **Safety & Security:** Data & Cyber Security; Product Safety
