March 31, 2026

This brochure provides information about the qualifications and business practices of Westwood Management Corp. If you have any questions about the contents of this brochure, please contact us at (214) 756-6900 or complianceapproval@westwoodgroup.com. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority.

Additional information about Westwood Management Corp. also is available on the SEC's website at www.adviserinfo.sec.gov.

Westwood Management Corp. is an SEC registered investment adviser. Registration does not imply a certain level of skill or training.

Item 2 – Material Changes

The following reflect the changes made since the other than annual update on April 9, 2025:

Item 4 – Advisory Business

- Updated strategies, strategy definitions, risks
- Provide additional on Westwood Management’s trade rotation policies

Item 5 – Fees and Compensation and Throughout:

- Relabeled and clarified definitions used to describe relationships and shared services among Westwood Management and affiliated entities
- Updated strategies, minimum accounts sizes and fee schedules
- Clarified description of valuation policies to note use custodian pricing data

Item 8 - Methods of Analysis, Investment Strategies and Risk of Loss

- Updated strategies, strategy investment objectives, strategy risks and risk definitions
- Added additional disclosures about employee and other affiliated persons’ investment in private funds

Item 12 – Brokerage Practices

- Updated the disclosure to more clearly reflect the use of shared services and employees with Westwood Management’s affiliates
- Updated to reflect the revised role and structure of Westwood’s Trade Order Management Committee

Item 14 – Client Referrals and Other Compensation

- Added additional detail to the disclosure about placement arrangements

Item 3 – Table of Contents

Item 16 - Investment Discretion	46
Item 17 - Voting Client Securities	47
Item 18 - Financial Information.....	48

Item 4 - Advisory Business

Westwood Management Corp. (“Westwood Management”) is an investment advisory firm that has been in business since 1983. Westwood Management is a wholly owned subsidiary of Westwood Holdings Group, Inc. (“WHG”), a publicly held company listed on the New York Stock Exchange since July 1, 2002. WHG’s subsidiaries include the following entities: Broadmark Asset Management, LLC (“Broadmark”), an SEC-registered investment adviser and CFTC-registered commodity trading advisor and commodity pool operator; Salient Advisors, LP (“Salient Advisors”) an SEC-registered investment adviser and CFTC-registered commodity pool operator; Salient Capital, LP (“Salient Capital”), an SEC-registered broker-dealer; Westwood Advisors, L.L.C. (“Westwood Advisors”), an SEC-registered investment adviser; Westwood Trust, a Texas-chartered trust company headquartered in Dallas, Texas. Salient Advisors, Salient Capital, Westwood, Westwood Advisors and Westwood Trust are wholly owned by WHG. Broadmark is a majority-owned subsidiary of WHG. In addition, WHG owns 50% of The Salient Zarvona Energy Fund GP, LP, an SEC-registered investment adviser and private fund sponsor. As of March 31, 2026, Salient Advisors is expected to be removed as the adviser to the Westwood Broadmark Tactical Plus Fund in the second quarter of 2026, deregistered as a commodity pool operator, and renamed Westwood Private Capital Partners, LP and eventually to take the management and oversight of WHG’s alternative investment funds business line from Westwood Advisors.

In November 2022, WHG completed the acquisition of the asset management business of Salient Partners, LP and its subsidiaries (generally, “Salient”). Salient, based in Houston, Texas with an office in San Francisco, California, provided investment advisory services through Salient Capital Advisors, LP and Forward Management, LLC, both SEC-registered investment advisers. Pursuant to the transaction, WHG and its subsidiaries acquired substantially all of the assets of Salient and its subsidiaries. Generally, investment advisory agreements with Salient Capital Advisors and Forward Management were assigned to Westwood Management upon client notice and consent. In addition, WHG also purchased all of the equity ownership in Salient Advisors, Salient Capital and Forward Securities as well as Salient’s equity ownership in The Salient Zarvona Energy Fund GP, LP. Forward Securities has since been deregistered as a broker-dealer and dissolved.

WHG purchased all of Salient’s minority interest in Broadmark and also purchased additional equity ownership of Broadmark in January 2023, giving WHG a majority ownership stake in Broadmark.

Westwood Management provides portfolio management services to individuals, investment companies, pension and profit-sharing plans, trusts, estates, charitable organizations, corporations, state and municipal government entities, pooled investment vehicles, and sovereign wealth funds. Westwood Management provides investment management services to investment companies; including open end mutual fund and exchange traded funds; private funds and other pooled investment vehicles both directly as the primary investment adviser and on a sub-advised basis when retained by a fund’s investment adviser. Westwood Management provides investment management services to clients by providing ongoing implementation of its investment strategies, or in the case of model portfolios or other non-discretionary services, provides ongoing updates to its investment advice. Generally, in the case of model portfolio services, Westwood Management provides investment recommendations to other advisers in the form of a model portfolio which these advisers have full discretion to implement for their own clients.

Westwood Management tailors its services to specific client needs. Westwood Management carries out its investment management responsibilities in accordance with the investment guidelines and policy directives provided by the client. In these written guidelines, clients may impose restrictions on investing in certain securities or types of securities. Clients may also impose restrictions on investments in certain industries, sectors, or asset classes.

Westwood Management typically implements and monitors an institutional client's guidelines by entering restrictions in its trade compliance system that interfaces with its trade order management system. At account setup and as client guidelines are revised, a Compliance Officer identifies all guideline restrictions and inputs the information into the trade compliance system. Restrictions entered into the trade compliance system are checked and verified by Portfolio and Compliance Teams. The trade compliance system electronically monitors and enforces guideline restrictions including stock, industry, and sector specific restrictions. The Compliance Officer and investment personnel monitor account guidelines on a daily basis via the trade compliance system. Any restrictions that cannot be entered into the trade compliance system are monitored manually and reported to the Portfolio Teams on a periodic basis. In addition, Westwood Management reviews all institutional accounts on an annual basis to ensure that the investment guidelines are current and correctly entered into the trade compliance system and that other client preferences and account attributes are correctly entered into the appropriate system.

Westwood Management provides portfolio management services for wrap fee programs and other separately managed account platforms (including platforms that charge separate fees for investment advice and brokerage services) for the following investment strategies:

- Westwood AllCap Value SMA
- Westwood Balanced SMA
- Westwood Broadmark Tactical Growth SMA
- Westwood Broadmark Tactical Plus SMA
- Westwood Fixed SMA
- Westwood Income Lite SMA
- Westwood Income Opportunity SMA
- Westwood High Income SMA
- Westwood LargeCap Value SMA
- Westwood MLP C-Corp SMA
- Westwood MLP Custom SMA
- Westwood High Conviction SMA
- Westwood MLP Income SMA
- Westwood MLP SMA
- Westwood Platinum SMA
- Westwood SmallCap Value SMA
- Westwood Quant SMA
- Westwood SMidCap Value SMA
- WEBs NDW Defined Volatility Sector Rotation Model SMA

Strategies in these programs are implemented substantially the same as in Westwood Management's institutional accounts; however, wrap account and separately managed account

trades are not aggregated with Westwood Management's other trades because they typically trade on the sponsors' platforms or have directed brokerage relationships.

Wrap program sponsors and other investment advisers receiving Westwood Management model portfolios are primarily responsible for evaluating suitability and adhering to client-imposed investment restrictions. Dual contract separately managed accounts are generally subject to a minimum account size requirement of \$25,000 to \$250,000 depending on the strategy. Program sponsors for UMA, wrap fee or other SMA platforms generally determine account and strategy minimum requirements.

Westwood Management is typically compensated for its services in wrap fee and other managed account programs by receiving a portion of the fees charged to clients by program sponsors. The fee is typically based on the sponsor's assets under management attributable to Westwood Management's investment strategies and is calculated and paid by the sponsors.

Investment Opportunity Allocation

Westwood Management's investment strategies and advisory services are provided across a variety of types of relationships including mutual funds, ETFs and other pooled investment vehicles, institutional separate accounts, separately managed accounts and model portfolio-based separately managed account programs or platforms ("Model Portfolio Programs") in which Westwood Management's model portfolios are implemented and traded by the Sponsor or other brokerage firm ("Model Program Sponsor"). Westwood Management has designed a rotational process designed to achieve an equitable allocation of investment opportunities among its advisory clients for strategies available through wrap programs, other separately managed account platforms and Model Portfolio Programs. This practice is generally referred to as Westwood's Trade Rotation Policy even though, in the case of Model Portfolio Programs, Westwood does not conduct the trading.

For purposes of implementing its Trade Rotation Policy, Westwood has established three groups of account or relationship types based on how Westwood implements investment services:

- The Institutional Trade Rotation Group which includes mutual funds, ETFs (if traded by Westwood), other collective investment vehicles and most institutional separate accounts;
- The Managed Account Group or MAG Trade Rotation Group which includes non-institutional separately managed accounts, which are typically smaller accounts and includes SMAs on wrap program and similar managed account platforms of other sponsoring institutions, traded by Westwood as well as certain smaller institutional separate accounts; and
- The Model Portfolio Rotation Group consists of Model Portfolio Programs.

Westwood Management trades or provides model portfolio updates, as applicable, to these account groups based on an order set each calendar month. Subject to exceptions summarized below, all internal model updates started during the month will be implemented in that order and the order is indexed for the following month such that the group that traded second during the month will trade first during the next month, the group that traded third will trade second and the group that traded first will trade third.

Westwood ETFs are updated by means of a model portfolio updated by Westwood Management which is then implemented and maintained by a trading sub-advisor. ETF trading by the trading sub-advisor is not included in Westwood Management investment allocation policy.

Westwood Management has set a threshold of a 50 basis points model change as the trigger for its Trade Rotation policy. Changes in the internal model portfolio associated with an investment strategy which do not result in a cumulative model weight change of at least 0.50% from the prior model portfolio update are typically not rotated. For model updates below this threshold, Westwood Management typically implements trading in institutional accounts first, followed by the MAG Trade Rotation Group second and by providing updated models third.

Relationships in which Westwood Management provides a model portfolio to Westwood Trust or Westwood Advisors but which are traded by Westwood Management's Dallas-based trading team will be included in the MAG Trade Rotation Group for purposes of the Trade Rotation Policy.

For the Model Portfolio Rotation Group, in lieu of trading, Westwood Management notifies the Model Program Sponsors by providing an updated model portfolio pursuant to the normal model delivery process for each program. Westwood Management provides an updated model portfolio to all model portfolio recipients as contemporaneously as practicable.

Except as noted below, the following U.S. value strategies are covered by the Trade Rotation Policy:

- AllCap Value
- LargeCap Value
- MLP SMA
- SmallCap
- SMidCap

Trades and model portfolio updates in these strategies will be subject to the trade rotation policy if a strategy has accounts in more than one of the rotation groups. Strategies that do not have accounts in more than one of these groups are not subject to the Trade Rotation Policy.

Westwood Management will generally assume that a Model Program Sponsor has completed trading on the earlier of: (1) two trading days have passed since Westwood Management delivered a model update, (2) the Model Program Sponsor confirms that it has completed its implementation of the model update, or (3) Westwood Management determines that sufficient time has elapsed for a Model Program Sponsor to have completed implementation of a model update based on a reasonable estimate of the aggregate quantity of shares to be executed by the Model Program Sponsors and observed trade volume.

The Trade Rotation Policy does not apply to the following scenarios:

- Trades based on cash flows and corporate actions;
- New issues, such as IPOs and secondary offerings;

- In certain scenarios, such as material news events, in which Westwood Management determines to implement trades and model updates contemporaneously; or
- If a strategy subject to rotation is participating in a trade with a strategy not subject to rotation, Westwood Management may trade outside of the applicable rotation sequence with an equitable adjustment for future trades.

Only non-directed accounts that Westwood Management trades directly will participate in IPOs, other new issues and secondary offerings. Generally, accounts in the MAG Trade Rotation Group will be considered as directed and therefore will not participate in IPOs, other new issues or secondary offerings. However, new positions within the internal model portfolio resulting from participation in the new issue will typically be implemented after completion of the new issues trades in the MAG Trade Group and in the Model Portfolio Group in the relevant order then applicable.

Trading in Multi-Asset SMA Accounts: Income Opportunity SMA, and Multi-Asset Income SMA

Westwood Management generally updates and trades accounts assigned to the following multi-assets strategies once a month: Income Opportunity SMA, and High Income SMA. Due to use of ETFs or mutual funds to gain fixed income exposure, these Multi-Asset SMA strategies are traded as separate strategies from their respective institutional strategies and trades for the same security are not typically subject to aggregation or rotation with institutional accounts.

Tactical Growth Accounts

Tactical Growth accounts are traded primarily using volume-weighted average pricing orders and similar trading strategies for exchange traded funds in which substantially all advisory accounts participate. Therefore, trades for the Tactical Growth Strategy are typically not rotated among types of clients. The Tactical Growth Strategy is implemented by Westwood Management on a discretionary basis based on a model portfolio provided by Broadmark Asset Management, LLC, acting as a non-discretionary sub-adviser to Westwood Management.

Assets under Management and Non-Discretionary Services

Westwood Management provides non-discretionary services to certain clients on a case-by-case basis.

As of December 31, 2025, Westwood Management managed 223 accounts on a discretionary basis with a value totaling approximately \$12,457,042,246. Westwood Management did not have any non-discretionary assets under management. However, Westwood Management provides non-discretionary investment advice through several model portfolio programs as well as with respect to MLP PE SMA accounts. The total amount of assets under advisement in model portfolio programs as of December 31, 2025 was \$941,721,251.

Item 5 - Fees and Compensation

Westwood Management offers investment advisory services for a percentage of assets under management and, for some strategies, performance-based fees or a combination of performance-based fees and a percentage of assets under management. Westwood Management does not have a standard fee schedule for sub-advised accounts. Fees may be negotiable depending on the size of the account, the complexity of the issues involved, and the breadth of services requested. The minimum account size may be waived at Westwood Management's discretion. Minimum account requirements for wrap and retail separately managed accounts are described in Item 4 above.

The following fees apply to new institutional separately managed accounts:

ALLCAP VALUE (Minimum Investment: \$25 MM)	0.60% on the first \$50 million
ALTERNATIVE INCOME (Minimum Investment: \$50 MM)	0.65% on the first \$50 million
BALANCED (Minimum Investment: \$25 MM)	0.625% on the first \$25 million
CREDIT OPPORTUNITIES (Minimum Investment: \$25 MM)	0.80% on the first \$50 million Also available with a performance fee to qualified clients on a case-by-case basis.
CUSTOM ASSET ALLOCATION (No minimum investment)	1.00% up to \$750,000
INCOME OPPORTUNITY (Minimum Investment: \$25 MM)	0.80% on the first \$25 million
INTERMEDIATE FIXED INCOME (Minimum Investment: \$10 MM)	0.40% on the first \$10 million
MIS REAL ASSET INCOME (Minimum Investment: \$10 MM)	0.10% in addition to index license fees
MULTI ASSET INCOME (Minimum Investment: \$50 MM)	0.50% on the first \$50 million
LARGECAP VALUE (Minimum Investment: \$25 MM)	0.50% on the first \$50 million
MIDCAP VALUE (Minimum Investment: \$25 MM)	0.65% on the first \$50 million
MLP & ENERGY INFRASTRUCTURE (Minimum Investment: \$25MM)	0.75% on the first \$50 million

MLP INCOME SMA (Minimum Investment: \$25 MM)	0.75% on the first \$50 million
MLP TOTAL RETURN	Available only through Westwood Salient private funds. Fee information is disclosed in applicable Private Placement Memorandum.
MLP TOTAL RETURN TE	Available only through Westwood Salient private funds. Fee information is disclosed in applicable Private Placement Memorandum.
MLP SMA (Minimum Investment: \$25 MM)	0.75% on the first \$25 million
PLATINUM STRATEGY (Minimum Investment:\$1 MM)	0.55% on the first \$10 million
REAL ESTATE INCOME (Minimum Investment: \$25 MM)	0.75% on the first \$50 million
SMALLCAP VALUE (Minimum Investment: \$25 MM)	0.75% on the first \$100 million
SMIDCAP VALUE (Minimum Investment: \$25 MM)	0.75% on the first \$50 million
TACTICAL GROWTH (Minimum Investment: \$25 MM)	0.75% on the first \$50 million
TACTICAL PLUS (Minimum Investment: \$25 MM)	0.75% on the first \$50 million

The following fee schedule applies for model portfolio arrangements:

AllCap Value SMA	0.50%
Multi-Asset Income SMA	0.50%
Income Opportunity SMA	0.50%
LargeCap Value SMA	0.30%
MidCap Value SMA	0.40%
MLP SMA	0.40%
SmallCap Value SMA	0.50%
SMidCap Value SMA	0.45%
Tactical Growth SMA	0.55%

Model portfolios fees are negotiable and may be lower or tiered depending on the platform's asset potential, advisor base and operational complexity, and the breadth of services and support required by Westwood Management.

Billing Practices

It is Westwood Management's normal practice to bill separately managed accounts quarterly in advance and pooled investments monthly in arrears. However, the billing method is negotiable. Former clients of Salient Capital Advisors are billed as provided in the applicable advisory agreements. Westwood Management has several wrap fee/retail managed account relationships in which, with the pre-approval of the sponsor, Westwood Management reports fees to the custodian, who pays Westwood Management directly from account assets.

Fee calculations are typically based on the market value of an account as provided in the applicable agreement. If management of an account begins at any time other than the start of the calendar quarter, then the first quarterly fee is prorated. Upon termination by either party, fees are prorated to the date of termination and any portion of prepaid fees attributable to the period following the effective date of termination is refunded to the client, generally via a payment to the custodian to be credited to the client's account.

To the extent that fees are based on the market value of the account, Westwood Management calculates fees based on the ending market value for the billing period. Westwood Management values the securities using an independent outside pricing vendor who furnishes primary listing exchange pricing. Pricing is compared monthly with the pricing provided for each account respective custodian with materials differences reviewed by the Valuation Committee and with follow up or remediation as determined by the Valuation Committee on a case by case basis. In some instances, securities for which quotations are not readily available are addressed by an internal Valuation Committee that has been established to review valuation issues. The purpose of the Valuation Committee is to meet periodically and resolve any issues regarding valuation and pricing of securities. The Valuation Committee sets the policies and procedures around Westwood Management's standard pricing function, including sources, markets, and methodology for all of Westwood Management's standard security types. The Valuation Committee is responsible for approving and documenting any methodology used to price complex securities where Westwood Management goes outside of its normal pricing sources, including any manual pricing. The Valuation Committee has final approval of any new security types that have not previously been traded. Securities that may require manual pricing could affect fee calculations for both asset-based fee arrangements and performance-based fee arrangements.

Billing for performance-based fees are described below in Item 6.

In addition to Westwood Management's fees discussed above, clients will incur brokerage fees and other transaction costs, as well as any fees charged by the clients' custodians. See the section titled "Item 12 – Brokerage Practices" below.

Additional Investment Advisory Fees – Mutual Fund Clients

Some advisory clients may be invested in mutual funds and/or exchange traded funds which assess fees that would be in addition to those imposed by Westwood Management for investment advisory services.

Item 6 - Performance-Based Fees and Side-By-Side Management

Westwood Management charges asset-based fees for most accounts and offers performance-based fees for certain strategies. Performance-Based Fees are only available to clients that are “qualified clients” as defined in SEC Rule 205-3 under the Investment Advisers Act of 1940 (17 C.F.R. §275.205-3) and for whom Westwood Management determines performance-based fees are suitable.

Other Performance Based Fees

Westwood Management currently has a limited number of relationships for which it receives other performance-based fees including accounts established with “Sensible Fees”, performance-based fees previously offered by Westwood Management. Generally, performance-based fee structures for institutional accounts are available to clients who have at least \$500 million under management with Westwood Management (or \$50 million under management for the Market Neutral Income strategy) at the time that performance-based fees are agreed upon, or who have a long-standing relationship with Westwood Management. Certain Westwood Management clients who are former clients of Salient Capital Advisors or Forward Management also have performance-based fee arrangements as provided in the applicable advisory agreements. Other performance-based fees are calculated quarterly or annually in arrears based on performance for the defined performance period.

Disclosures Relating to Performance-Based Fees

Westwood Management recognizes that incentive compensation associated with performance-based fee arrangements creates the risk for potential conflicts of interest.

- Performance-based fees may create an incentive for Westwood Management to make riskier or more speculative investments than would be made under a different fee arrangement or to allocate investments having a greater potential for higher returns to accounts of those clients paying the higher performance fee. It is Westwood Management’s policy not to favor the interest of one client over another. Westwood Management addresses the conflicts of interest created by “side-by-side management” with performance-based fee accounts by requiring portfolio decisions to be made on a strategy-specific, internal model portfolio basis. Westwood Management also addresses this risk through disclosure and through its risk and other internal reviews.
- Investment performance for accounts with performance-based fees is measured relative to the selected benchmark. This creates an incentive for Westwood Management to select a benchmark that may not be appropriate for the strategy, such as one for an asset class that may be expected to underperform over time. Westwood Management addresses this

conflict of interest primarily through disclosure, its risk and other internal reviews and by limiting the availability of Westwood Management Performance-Based Fees to eligible clients.

- Although performance-based fees may reduce or eliminate the fees received by Westwood Management if a portfolio does not outperform the associated benchmark, Westwood Management's fee arrangements do not compensate clients or refund prior fees in the event of underperformance.
- Westwood Management Performance-Based Fees are usually based on the relative performance of Westwood Management's strategy as compared to the benchmark. It is possible that both Westwood Management's strategy and the benchmark may lose significant value and that Westwood Management could still earn a significant performance-based fee based on the relative difference in performance.

Westwood Management portfolio managers often manage multiple client accounts in each Westwood Management strategy. The fee rates for accounts managed according to the same strategy vary and in some strategies some clients pay asset-based fees while others pay performance-based fees. The portfolio managers' management of other accounts gives rise to potential conflicts of interest in connection with their management of one client's investments, on the one hand, and the investments of the other clients' accounts, on the other. The other accounts may have the same investment objective as the particular client. Therefore, a potential conflict of interest arises as a result of the identical investment objectives, whereby the portfolio manager could favor one account over another. Another potential conflict could include the portfolio manager's knowledge about the size, timing, and possible market impact of trades, whereby a portfolio manager could use this information to the advantage of other accounts and to the disadvantage of the client. Westwood Management has established policies and procedures designed to ensure that the purchase and sale of securities among all accounts it manages are fairly and equitably allocated over time. Westwood Management's trade allocation policy is to aggregate client transactions where possible when it is believed that such aggregation may facilitate Westwood Management's duty of best execution, as applicable. Client accounts for which orders are aggregated receive the average price of such transaction. Any transaction costs incurred in the transaction are shared pro rata based on each client's participation in the transaction. Westwood Management generally allocates securities among client accounts according to each account's pre-determined participation in the transaction. Westwood Management's policy prohibits any allocation of trades that would favor any proprietary accounts, affiliated accounts, or any particular client(s) or group of clients over any other account(s).

Accounts managed in wrap account programs and retail managed account programs are not included in the aggregated trades described above. Investment opportunity allocation practices for these programs are described in Item 4.

Item 7 - Types of Clients

See the section titled “Advisory Business” above for a description of the types of clients to which Westwood Management generally provides investment advice. With the exception of the Custom Asset Allocation strategy and SMA and dual contract accounts, Westwood Management has initial investment requirements typically ranging from \$2.5 million to \$25 million depending on the mandate. Clients are able to negotiate this requirement, and the minimum may be waived at Westwood Management’s discretion.

Item 8 - Methods of Analysis, Investment Strategies and Risk of Loss

U.S. Value Investment Strategies

The investment philosophy for Westwood Management’s U.S. Value Team can be summarized by the following core principles:

- Investing in undervalued, high-quality businesses can generate a return premium resulting in lower absolute downside risk and superior risk-adjusted returns.
- Superior business models have sustainable competitive advantages that can consistently generate returns on capital in excess of the cost of capital.
- High quality businesses have better opportunities to reinvest cash flows, pursue M&A and return capital to investors, creating long-term value for shareholders.
- Quality performs better during periods of volatility resulting in lower downside risk.
- Identifying the intersection of quality and value requires a fundamental active, multifaceted approach analyzing profitability and financial strength, specifically across industries.
- Valuation methods using cash flows and earnings is essential to determine intrinsic value — making valuation critical to realizing the return premium.

Multi-Asset Investment Strategies

Westwood Management’s multi-asset investment philosophy and approach is based on effectively marrying bottom-up, fundamental security selection and top-down macroeconomic views to achieve an optimal risk-adjusted outcome for our investors. The process utilizes both fundamental and quantitative tools to evaluate macro, micro, and technical conditions across a wide range of asset classes to determine our portfolio construction.

Westwood Management places a high degree of emphasis on tactical allocation, supported by its proprietary signals, and downside risk-management to navigate changing market environments. Westwood Management’s tactical approach also provides flexibility over time to prioritize areas of opportunity while avoiding those with less attractive valuations. Tactical allocations combined with idiosyncratic security returns are the key sources of returns, rather than traditional beta, to achieve potentially greater diversification and risk-adjusted returns. Westwood Management believes these are key tenets to achieving its investment objectives and fully realizing the true

diversification benefits of multi-asset investing. Westwood Management's investment approach was designed to be simple, liquid and transparent, without a heavy use of derivatives, which allows investors to understand how, where and why Westwood Management is taking risk in order to meet their objectives.

Note that investment strategy and other important information about the Salient MLP Total Return Fund, L.P., and the Salient MLP Total Return TE Fund, L.P., is disclosed in each fund's Private Placement Memorandum and is not included below.

Descriptions of each strategy are as follows:

AllCap Value Strategy

Investments in equity securities of approximately 50 to 80 companies benchmarked to the Russell 3000 Value Index.

Alternative Income Strategy

Multi-strategy process seeking to generate positive absolute returns through a short duration yield portfolio of global convertible securities, convertible arbitrage and macro hedging.

Balanced Strategy

For the Balanced strategy, the broad equity investment universe is generally all stocks greater than \$5 billion in market capitalization. The broad fixed income investment universe is the Barclays Aggregate Index which includes securities such as US Treasuries, Government Agencies, Mortgage-Backed Securities, Investment Grade Corporate and Asset Backed Securities. The strategy invests in approximately 40 to 60 equity securities and approximately 30 to 60 debt securities.

Custom Asset Allocation Strategy

For the Custom Asset Allocation strategy, Westwood Management utilizes a diversified strategy that is customizable based upon each client's individual objectives and constraints. Westwood Management typically deploys a balanced investment allocation utilizing a combination of domestic and international equity and investment-grade fixed income securities.

Credit Opportunities Strategy

The Credit Opportunities Strategy targets investment returns through capital appreciation by making opportunistic investments in debt securities, which may include distressed or defaulted securities, and is typically expected to hold 20 to 30 positions.

Multi-Asset Income Strategy

Multi-asset approach utilizes primarily non-investment grade corporate bond exposure, coupled with modest equity exposure in order to generate both investment income and capital appreciation.

Multi-Asset Income SMA Strategy

Multi-asset approach utilizes primarily non-investment grade corporate bond exposure, coupled with modest equity exposure in order to generate both investment income and capital appreciation. The Multi-Asset Income SMA strategy is designed to offer a strategy that is similar to Westwood

Management's institutional Multi-Asset Income strategy in a format that can be implemented for individual SMA accounts and model portfolio programs. To do so, the strategy will generally use ETFs or mutual funds to gain exposure to the MLP asset class and certain types of fixed income securities.

Income Opportunity Strategy

Bottom-up, multi-asset strategy focused on providing investors attractive returns by balancing the need for income, capital appreciation and downside risk through security selection and sector rotation.

Income Opportunity SMA Strategy

Multi-asset strategy that invests across multiple bond sectors including convertibles and income producing equity securities. The Income Opportunity SMA strategy is designed to offer a strategy that is similar to Westwood Management's institutional Income Opportunity strategy in a format that can be implemented for individual SMA accounts and model portfolio programs. To do so, the strategy will generally use ETFs or mutual funds to gain exposure to the MLP asset class and certain types of fixed income securities.

Intermediate Fixed Income Strategy

For the Intermediate Fixed Income strategy, Westwood Management invests in fixed income securities that are, in the aggregate, investment grade securities of corporate and government issuers and commercial paper and mortgage- and asset-backed securities. The strategy invests in approximately 40 to 60 debt securities.

LargeCap Value Strategy

Investments in equity securities of approximately 40 to 60 companies benchmarked to the Russell 1000 Value Index.

MidCap Value Strategy

Investments in equity securities of approximately 50 to 80 companies benchmarked to the Russell Midcap Value Index.

MIS Real Assets Strategy

The Westwood Real Assets Strategy seeks capital appreciation by investing in securities of companies involved in the four pillars of real assets: energy, real estate, natural resources or infrastructure.

Energy companies include those involved in exploration and production of oil, natural gas, and coal, as well as companies involved in refining, transportation and storage of raw materials.

Real estate companies include real estate investment trusts (REITs) and similar REIT-like entities. A real estate company derives its revenues from ownership, development, construction, financing, management, or sale of commercial, industrial, or residential real estate and land.

Natural resources companies include those that own, produce, refine, process, transport and market natural resources, including gold and precious metals, steel and iron ore production, chemicals and forest products.

Infrastructure companies include companies involved in owning, developing, constructing, renovating, financing or operating infrastructure assets, which are the physical structures and networks of a community, including water, sewer, and energy utilities, transportation and communication networks, health care facilities, government accommodations, and other public service facilities.

The strategy will use a risk weighting process that seeks to balance investment risks across four pillars, identifying volatility targeting, diversification and inflation protection as the primary investment goals.

Westwood Management may use a third-party index provider to construct or replicate a custom benchmark aligned with this methodology. The strategy will seek to replicate the risk and return characteristics of that index subject to restrictions and other constraints agreed with the client.

MLP & Energy Infrastructure

The Westwood Salient MLP & Energy Infrastructure Strategy seeks to maximize total return (capital appreciation and income). The strategy primarily invests in Master Limited Partnerships (“MLPs”) and MLP-related companies seeking exposure to a broad range of energy infrastructure opportunities. The strategy typically invests in between 30 and 50 securities.

MLP Income SMA Strategy

For the MLP Income SMA strategy, Westwood Management seeks primarily to provide long-term growth of capital and to generate sustainable dividend income through investment primarily in MLPs. Westwood Management will opportunistically use covered calls written on up to 100% of the portfolio. See Use of Margin and Options section below.

MLP Private Equity SMA

The investment objective of the Westwood Salient MLP Private Equity SMA strategy (also referred to as the Private Investment Program) is to earn an attractive return on invested capital. Westwood Management will pursue its investment objective by sourcing and making recommendations of energy private investments to client which Westwood Management believes are suitable for the client's portfolio and investment policies. Westwood Management does not typically exercise discretion on the private investments and the client will consider each investment recommendation on its own merit and complete the required legal documents and investor questionnaires to subscribe to each approved private investment. Eligible investments include direct

private placements, private co-investments, private investment in public equity (“PIPE”) and non-registered convertible preferred equity investments.

Investment in private fund investments through the MLP Private Equity SMA strategy may result in layering of fees such that clients pay investment management fees to Westwood Management as well as to the adviser or sponsor of the private fund investment.

Investments made by clients through the MLP Private Equity SMA strategy are subject to important risk and other disclosure information made in each investment’s private placement memorandum or other subscription documentation.

MLP SMA

The Westwood Salient MLP SMA strategy seeks to maximize total return (capital appreciation and income) by investing in MLPs and energy infrastructure companies. The strategy invests in approximately 20-30 securities.

Platinum Strategy

For the Platinum strategy, Westwood Management typically invests in companies with market capitalizations greater than \$2 billion and seeks to achieve capital appreciation and dividend growth. The strategy invests in approximately 30-50 securities.

Real Estate Income

The Westwood Real Estate Income strategy seeks high current income and potential for modest long-term growth of capital. The strategy invests in preferred equity and bonds of public real estate companies and in real estate investment trust (“REIT”) common stocks. The strategy may also seek opportunities in small capitalization REITs and may use portfolio leverage in pursuit of its objectives. The strategy typically invests in 50 to 70 holdings.

SmallCap Value Strategy

Investments in equity securities of approximately 50 to 70 companies benchmarked to the Russell 2000 Value Index.

SMidCap Value Strategy

Investments in equity securities of approximately 50 to 70 companies benchmarked to the Russell 2500 Value Index.

Tactical Growth

Westwood Management’s subsidiary, Broadmark Asset Management, serves as the sub-adviser to the Westwood Broadmark Tactical Growth strategy. The Tactical Growth Strategy seeks to produce above-average, risk-adjusted returns, in any market environment, while exhibiting less downside volatility than the S&P 500 Index. The strategy invests primarily in a diversified portfolio of instruments that provide exposure to U.S. and non-U.S. equity securities, including shares of exchange-traded funds (“ETFs”). The strategy may also invest in equity securities of U.S. and non-U.S. issuers, which may include emerging market issuers. The strategy may hold a substantial portion of its assets in cash and cash equivalents and in investment grade fixed-income instruments of U.S. and non-U.S. issuers of any maturity.

Tactical Plus

Westwood Management's subsidiary, Broadmark Asset Management, serves as the sub-adviser to the Westwood Broadmark Tactical Plus strategy. The Tactical Plus strategy seeks to produce, in any market environment, above-average risk-adjusted returns and less downside volatility than the S&P 500 Index. The strategy pairs the core long/short equity strategy with a catalyst-driven, policy-focused, long volatility trading strategy designed to find niche opportunities in disruptive changes to market trends and investor behaviors. Exposure can range from a maximum of 200% net long to 100% net short. The strategy invests primarily in a diversified portfolio of instruments that provide exposure to U.S. and non-U.S. equity securities, including shares of exchange-traded funds ("ETFs"). The strategy may also hold futures and options on securities and securities indices, as well as equity securities of U.S. and non-U.S. issuers, which may include emerging market issuers. The strategy may hold a substantial portion of its assets in cash and cash equivalents and in investment grade fixed-income instruments of U.S. and non-U.S. issuers of any maturity.

ESG Factors and the UNPRI

Additionally, WHG is a signatory to the United Nations-backed Principles for Responsible Investment ("UNPRI"). The UNPRI recognize that ESG issues can affect the performance of investment portfolios and must be given appropriate consideration by investors. Accordingly, WHG has articulated how ESG is integrated into Westwood Management's investment process when evaluating investment opportunities.

Use of Margin and Options

Westwood Management may use margin transactions and options transactions for some strategies, including the MLP Custom SMA and MLP Income SMA strategies.

Margin transactions: Westwood Management uses margin transactions as part of certain investment strategies. We may recommend, where appropriate, that a client establish a margin account with the client's broker. In this situation, if we are selling one stock and purchasing another stock with the proceeds, we can use the margin account to make certain that you are not left out of the purchase if we have difficulty completing the sale.

A risk in margin trading is that, in volatile markets, securities prices can fall very quickly. If the value of the securities in your account minus what you owe the broker falls below a certain level, the broker will issue a "margin call", and you will be required to sell your position in the security purchased on margin or add more cash to the account. In some circumstances, you may lose more money than you originally invested.

Option writing: We use options as part of certain investment strategies. An option is a contract that gives the buyer the right, but not the obligation, to buy or sell an asset (such as a share of stock) at a specific price on or before a certain date. An option, just like a stock or bond, is a security. An option is also a derivative, because it derives its value from an underlying asset.

The two types of options are calls and puts:

- A call gives us the right to buy an asset at a certain price within a specific period of time. We will buy a call if we have determined that the stock will increase substantially before the option expires.
- A put gives us the right to sell an asset at a certain price within a specific period of time. We will buy a put if we have determined that the price of the stock will fall before the option expires.

We will use options to speculate on the possibility of a sharp price swing. We will also use options to “hedge” a purchase of the underlying security; in other words, we will use an option purchase to limit the potential upside and downside of a security we have purchased for your portfolio.

We use “covered calls”, in which we sell an option on a security you own. In this strategy, you receive a fee for making the option available, and the person purchasing the option has the right to buy the security from you at an agreed-upon price.

We use a “spreading strategy”, in which we purchase two or more option contracts (for example, a call option that you buy and a call option that you sell) for the same underlying security. This effectively puts you on both sides of the market, but with the ability to vary price, time and other factors.

A risk of covered calls is that the option buyer does not have to exercise the option, so that if we want to sell the stock prior to the end of the option agreement, we have to buy the option back from the option buyer, for a possible loss.

A risk of spreading strategies is that the ability to fully profit from a price swing is limited.

Principal Risks

As with all investments, investing in securities involves risk of loss that clients should be prepared to bear. The principal risk factors affecting client funds are set forth, by strategy, in summary format below. The following summaries are more detailed explanations of such risks. Clients and prospective clients should carefully review the detailed explanations of each type of principal risk.

Note that risk information and other important information about the Salient MLP Total Return Fund and the Salient MLP Total Return TE Fund is disclosed in each fund’s Private Placement Memorandum and is not included below. Risk information about the strategies underling Westwood’s ETFs are disclosed in each fund’s prospectus and SAI.

Asset-Backed Securities Risk – Payment of principal and interest on asset-backed securities is dependent largely on the cash flows generated by the assets backing the securities, and asset-backed securities may not have the benefit of any security interest in the related assets.

Bank Loans Risk – Investments in bank loans (through both assignments and participations) are generally subject to the same risks as investments in other types of debt instruments, including, in many cases, investments in junk bonds. There may be limited public information available regarding bank loans and bank loans may be difficult to value. If the portfolio holds a bank loan through another financial institution or relies on a financial institution to administer the loan, its receipt of principal and interest on the loan may be subject to the credit risk of that financial institution. It is possible that any collateral securing a loan may be insufficient or unavailable, and that the portfolio’s rights to collateral may be limited by bankruptcy or insolvency laws. In addition, the secondary market for bank loans may be subject to irregular trading activity, wide bid/ask spreads, and extended trade settlement periods, which may cause the portfolio to be unable to realize the full value of its investment in a bank loan. Bank loans may not be considered “securities,” and purchasers therefore may not be entitled to rely on the anti-fraud protections of the federal securities laws.

Borrowing Risk – Borrowing for investment purposes creates leverage, which will exaggerate the effect of any increase or decrease in the market price of securities in the portfolio and, therefore, may increase the volatility of the portfolio. Money borrowed will be subject to interest and other costs (that may include commitment fees and/or the cost of maintaining minimum average balances). These costs may exceed the gain on securities purchased with borrowed funds. Increased operating costs, including the financing cost associated with any leverage, may reduce the portfolio’s total return. Unless the income and capital appreciation, if any, on securities acquired with borrowed funds exceed the cost of borrowing, the use of leverage will diminish the investment performance of the portfolio.

Cash and Cash Equivalents Risk – It is part of a portfolio’s investment strategy to, at times, hold a substantial portion of its assets in cash and/or cash equivalents, including money market instruments. Under certain market conditions, such as during a rising stock market, this strategy could have a negative effect on the portfolio’s ability to achieve its investment objective. To the extent that the portfolio invests in a money market fund, the portfolio will indirectly bear a proportionate share of the money market fund’s expenses.

Concentration Risk – The account may have its investment concentrated in issuers of one or more particular industries. There is a risk that those issuers (or industry sector) will perform poorly and negatively impact the account. Concentration risk results from maintaining exposure (long or short) to issuers conducting business in a specific industry. The risk of concentrating investments in a limited number of issuers in a particular industry is that the account will be more susceptible to market, economic, political, regulatory, and other conditions and risks associated with that industry than an account that does not concentrate its investments and invests more broadly across industries and sectors.

Convertible Securities Risk – The value of a convertible security is influenced by changes in interest rates (with investment value declining as interest rates increase and increasing as interest rates decline) and the credit standing of the issuer. The price of a convertible security will also normally vary in some proportion to changes in the price of the underlying common stock because of the conversion or exercise feature.

Corporate Bond Risk – Corporate bonds respond to economic developments, especially changes in interest rates, as well as perceptions of the creditworthiness and business prospects of individual issuers.

Credit Risk – The risk that the issuer of a security or the counterparty to a contract will default or otherwise become unable to honor a financial obligation. The credit rating or financial condition of an issuer may affect the value of a fixed income debt security. Generally, the lower the credit quality of a security, the greater the perceived risk that the issuer will fail to pay interest fully and return principal in a timely manner. If an issuer defaults or becomes unable to honor its financial obligations, the security may lose some or all of its value. The issuer of an investment-grade security is considered by the rating agency to be more likely to pay interest and repay principal than an issuer of a lower quality bond. Adverse economic conditions or changing circumstances may weaken the capacity of the issuer to pay interest and repay principal.

Cyber Security Risk – Westwood Management and its clients may be subject to cyber security risks. Those risks include, among others, theft, misuse or corruption of data maintained online or digitally; denial of service attacks on websites; the loss or unauthorized release of confidential and proprietary information; operational disruption; or various other forms of cyber security breaches. Cyber-attacks against, or security breakdowns of Westwood Management or its service providers may harm Westwood Management clients; potentially resulting in, among other things, financial losses, the inability of Westwood Management and/or its clients to transact business, violations of applicable privacy and other laws, regulatory fines, penalties, reputational damage, reimbursement or other compensation costs, and/or additional compliance and remediation costs. Cyber security risks may also affect issuers of securities in which a client invests, potentially causing the client's investment in such issuers to lose value. Despite risk management processes, there can be no guarantee that a client will avoid losses relating to cyber security risks or other information security breaches.

Debt Instruments Risk – Debt instruments are generally subject to credit risk and interest rate risk. Credit risk refers to the possibility that the issuer of a security will be unable to make interest payments and/or repay the principal on its debt. Interest rate risk refers to fluctuations in the value of a fixed-income security resulting from changes in the general level of interest rates. When the general level of interest rates goes up, the prices of most fixed-income securities go down. When

the general level of interest rates goes down, the prices of most fixed-income securities go up. Derivatives related to debt instruments may be exposed to similar risks for individual securities, groups of securities or indices tracking multiple securities or markets. Both debt securities and debt-related derivative instruments may be exposed to one or more of the following risks:

- **Credit Risk** – Credit risk refers to the possibility that the issuer of the security will not be able to make principal and interest payments when due. Changes in an issuer’s credit rating or the market’s perception of an issuer’s creditworthiness may also affect the value of the Portfolio’s investment in that issuer. The degree of credit risk depends on both the financial condition of the issuer and the terms of the obligation. Securities rated by the rating agencies in the four highest categories (Fitch, Inc. (“Fitch”) (AAA, AA, A, and BBB), Moody’s Investors Service, Inc. (“Moody’s”) (Aaa, Aa, A, and Baa) or S&P® Global Ratings (“S&P”) (AAA, AA, A, and BBB)) are considered investment grade, but they may also have some speculative characteristics, meaning that they carry more risk than higher rated securities and may have problems making principal and interest payments in difficult economic climates. Investment grade ratings do not guarantee that bonds will not lose value.

- **Extension Risk** – Extension risk is the risk that, when interest rates rise, certain obligations will be paid off by the issuer (or obligor) more slowly than anticipated, causing the value of these securities to fall. Rising interest rates tend to extend the duration of securities, making them more sensitive to changes in interest rates. The value of longer-term securities generally changes more in response to changes in interest rates than shorter-term securities. As a result, in a period of rising interest rates, securities may exhibit additional volatility and may lose value.

- **Interest Rate Risk** – The yields for certain securities are susceptible in the short-term to fluctuations in interest rates, and the prices of such securities may decline when interest rates rise. Interest rate risk in general is the risk that prices of fixed-income securities generally increase when interest rates decline and decrease when interest rates increase. The Portfolio may decline in value or suffer losses if short-term or long-term interest rates rise sharply or otherwise change in a manner not anticipated by the Advisor.

- **Prepayment Risk** – Prepayment risk is the risk that certain debt securities with high interest rates will be prepaid by the issuer before they mature. When interest rates fall, certain obligations will be paid off by the obligor more quickly than originally anticipated, and an investor may have to invest the proceeds in securities with lower yields. In periods of falling interest rates, the rate of prepayments tends to increase (as does price fluctuation) as borrowers are motivated to pay off debt and refinance at new lower rates. During such periods, reinvestment of the prepayment proceeds by the management team will generally be at lower rates of return than the return on the assets that were prepaid. Prepayment reduces the yield to maturity and the average life of the security.

Derivatives Risk – The Strategy’s use of futures contracts, options and swaps is subject to market risk, leverage risk, correlation risk, hedging risk and liquidity risk. Market risk is the risk that the market value of an investment may move up and down, sometimes rapidly and unpredictably. Leverage risk is the risk that the use of leverage may amplify the effects of market volatility on the Strategy’s share price and may also cause the Strategy to liquidate portfolio positions when it

would not be advantageous to do so in order to satisfy its obligations. Correlation risk is the risk that changes in the value of the derivative may not correlate perfectly or at all with the underlying asset, rate or index. Hedging risk is the risk that derivative instruments used for hedging purposes may also limit any potential gain that may result from the increase in value of the hedged asset. To the extent that the Strategy engages in hedging strategies, there can be no assurance that such strategy will be effective or that there will be a hedge in place at any given time. Liquidity risk is described elsewhere in this section. The Strategy's use of forwards and swaps is also subject to credit risk and valuation risk. Credit risk is the risk that the counterparty to a derivative contract will default or otherwise become unable to honor a financial obligation. Valuation risk is the risk that the derivative may be difficult to value. Each of these risks could cause the Strategy to lose more than the principal amount invested in a derivative instrument.

Dividend Paying Stocks Risk – A strategy's emphasis on dividend-paying stocks involves the risk that such stocks may fall out of favor with investors and underperform the market. Also, a company may reduce or eliminate its dividend.

Emerging Markets Securities Risk – Investments in emerging markets securities are considered speculative and subject to heightened risks in addition to the general risks of investing in foreign securities. Unlike more established markets, emerging markets may have governments that are less stable, markets that are less liquid and economies that are less developed. In addition, the securities markets of emerging market countries may consist of companies with smaller market capitalizations and may suffer periods of relative illiquidity; significant price volatility; restrictions on foreign investment; and possible restrictions on repatriation of investment income and capital. Furthermore, foreign investors may be required to register the proceeds of sales, and future economic or political crises could lead to price controls, forced mergers, expropriation or confiscatory taxation, seizure, nationalization or creation of government monopolies.

Equity Risk – Any investment in an equity security is subject to the risk that stock prices will fall over short or extended periods of time. Historically, the equity markets have moved in cycles, and the value of the investment's equity securities may fluctuate drastically from day to day. Individual companies may report poor results or be negatively affected by industry and/or economic trends and developments. The prices of securities issued by such companies may suffer a decline in response. These factors contribute to price volatility, which is the principal risk of investing in any equity security.

ETF Risk – ETFs are pooled investment vehicles, such as registered investment companies and grantor trusts, whose shares are listed and traded on U.S. stock exchanges or otherwise traded in the over-the-counter market. To the extent that a Strategy invests in ETFs, the Strategy will be subject to substantially the same risks as those associated with the direct ownership of the securities comprising the index on which the ETF is based and the value of the Strategy's investment will fluctuate in response to the performance of the underlying index. ETFs typically incur fees that are separate from those of the account. Accordingly, a Strategy's investments in ETFs will result in the layering of expenses such that clients will indirectly bear a proportionate share of the ETFs' operating expenses, in addition to paying asset management fees. Because the value of ETF shares depends on the demand in the market, shares may trade at a discount or premium to their net asset value. Westwood Management may not be able to liquidate the Strategy's holdings at the most optimal time, which could adversely affect the Strategy's performance.

Exchange-Traded Notes (“ETNs”) Risk – The value of an ETN may be influenced by time to maturity, level of supply and demand for the ETN, volatility and lack of liquidity in the underlying market, changes in applicable interest rates, and changes in the issuer’s credit rating. A portfolio that invests in ETNs will bear its proportionate share of any fees and expenses associated with investment in such securities, which will reduce the amount of return on investment at maturity or redemption. There may be restrictions on a portfolio’s right to redeem its investment in an ETN meant to be held to maturity. There are no periodic interest payments for ETNs and principal is not protected. It may be difficult for a portfolio to sell its ETN holdings due to limited availability of a secondary market.

Fixed Income Risk – Fixed income securities are subject to a number of risks, including credit and interest rate risks. Credit risk is the risk that the issuer or obligor will not make timely payments of principal and interest. Changes in an issuer’s credit rating or the market’s perception of an issuer’s creditworthiness may also affect the value of the Strategy’s investment in that issuer. The account is subject to greater levels of credit risk to the extent it holds below investment grade debt securities, or “junk bonds.” Interest rate risk is the risk that the value of a fixed income security will fall when interest rates rise. In general, the longer the maturity and the lower the credit quality of a fixed income security, the more likely its value will decline.

Foreign Currency Risk – As a result of the investments in securities or other investments denominated in, and/or receiving revenues in, foreign currencies, the Strategy will be subject to currency risk. Currency risk is the risk that foreign currencies will decline in value relative to the U.S. dollar, in which case, the value of an account managed in the Strategy would be adversely affected.

Foreign Securities Risk – Investing in foreign companies, including direct investments and through ADRs and Global Depository Receipts (“GDRs”), which are traded on U.S. exchanges and represent an ownership interest in a foreign company, poses additional risks since political and economic events unique to a country or region will affect those markets and their issuers. These risks will not necessarily affect the U.S. economy or similar issuers located in the United States. Securities of foreign companies may not be registered with the U.S. Securities and Exchange Commission (the “SEC”) and foreign companies are generally not subject to the regulatory controls imposed on U.S. issuers and, as a consequence, there is generally less publicly available information about foreign securities than is available about domestic securities. Income from foreign securities may be reduced by a withholding tax at the source, which tax would reduce income received from the securities comprising a client’s portfolio. Foreign securities may also be more difficult to value than securities of U.S. issuers. While ADRs provide an alternative to directly purchasing the underlying foreign securities in their respective national markets and currencies, investments in ADRs continue to be subject to many of the risks associated with investing directly in foreign securities.

Geographic Focus Risk – To the extent that it focuses its investments in a particular country or geographic region, the account may be more susceptible to economic, political, regulatory or other events or conditions affecting issuers and countries within that country or geographic region. As a result, the account may be subject to greater price volatility and risk of loss than a fund holding more geographically diverse investments.

Growth Investing Risk – Growth stocks tend to be more expensive relative to the issuing company’s earnings or assets compared with other types of stocks, reflecting investors’ expectations of future earnings and assets. As a result, they tend to be more sensitive to changes in, or investors’ expectations of, the issuing company’s earnings and can therefore be more volatile.

High Yield Bond Risk – High yield bonds (often called “junk bonds”) are debt securities rated below investment grade. Junk bonds are speculative, involve greater risks of default, downgrade, or price declines and are more volatile and tend to be less liquid than investment-grade securities. Companies issuing high yield bonds are less financially strong, are more likely to encounter financial difficulties, and are more vulnerable to adverse market events and negative sentiments than companies with higher credit ratings.

Industry Specific Risk – The MLPs and Energy Infrastructure Companies, including Midstream MLPs and Energy Infrastructure Companies, in which the portfolio invests, are subject to risks specific to the industry they serve, including, but not limited to the following:

- Fluctuations in commodity prices may impact the volume of commodities transported, processed, stored or distributed.
- Reduced volumes of natural gas or other energy commodities available for transporting, processing, storing or distributing may affect the profitability of a company or MLP.
- Slowdowns in new construction and acquisitions can limit growth potential.
- A sustained reduced demand for crude oil, natural gas and refined petroleum products that could adversely affect revenues and cash flows.
- Depletion of the natural gas reserves or other commodities if not replaced, which could impact the ability of an Energy Infrastructure Company or MLP to make distributions.
- Changes in the regulatory environment could adversely affect the profitability of Energy Infrastructure Companies and MLPs.
- Extreme weather or other natural disasters could impact the value of Energy Infrastructure Company and MLP securities.
- Rising interest rates which could result in a higher cost of capital and divert investors into other investment opportunities.
- Threats of attack by terrorists on energy assets could impact the market for Energy Infrastructure and MLP securities.
- Global events, including particularly in Russia, Ukraine, Western Europe and the Middle East and including government stability specifically, could have significant adverse effects on the U.S. economy, and financial and commodities markets.

Hypothetical Performance Risk – In certain materials, we may present hypothetical or model performance to demonstrate how an MIS strategy might have performed under historical market conditions based on rules-based portfolio construction and assumed allocations. These results do not represent actual trading in a live account and are generated using backtested or simulated data. As such, hypothetical performance is subject to significant limitations, including reliance on assumptions that may not reflect actual market conditions, liquidity constraints, fees, trading costs,

or client-specific objectives. It may also be subject to hindsight bias, backtesting error, and overfitting. Actual results may differ materially, and hypothetical performance should not be relied upon as an indicator of future returns.

Initial Public Offering (“IPO”) Risk – The market value of shares in an IPO may fluctuate considerably or decline shortly after the IPO, due to factors such as the absence of a prior public market, unseasoned trading, the small number of shares available for trading and limited information about the issuer. In addition, there is also a risk that participation in IPOs may have an outsized effect on performance of strategies with lower assets under management that may not be replicable as the assets in such strategies increases.

Inflation-Linked Securities Risk – The value of inflation-linked securities is expected to change in response to changes in real interest rates (the market rate of interest less the anticipated rate of inflation). Real interest rates change over time as a result of many factors, such as currency exchange rates, central bank monetary policies and general economic conditions. In general, the price of an inflation-linked security tends to decrease when real interest rates increase and can increase when real interest rates decrease. Interest payments on inflation-linked securities are unpredictable and will fluctuate as the principal and interest are adjusted for inflation. Any increase in the principal amount of an inflation-linked debt security will be considered taxable ordinary income, even though a Fund will not receive the principal until maturity. Repayment of the original bond principal upon maturity (as adjusted for inflation) is guaranteed in the case of TIPS. For bonds that do not provide a similar guarantee, the adjusted principal value of the bond repaid at maturity may be less than the original principal. There can also be no assurance that the inflation index used will accurately measure the real rate of inflation in the prices of goods and services. A Account’s investments in inflation-linked securities may lose value in the event that the actual rate of inflation is different than the rate of the inflation index. In addition, inflation-linked securities are subject to the risk that the CPI or other relevant pricing index may be discontinued, fundamentally altered in a manner materially adverse to the interests of an investor in the securities, altered by legislation or Executive Order in a materially adverse manner to the interests of an investor in the securities or substituted with an alternative index.

Interest Rate Risk – Changes in interest rates are a factor that could affect the value of an investment. Rising interest rates tend to cause the prices of fixed income securities (especially those with longer maturities) to fall. Risks associated with rising interest rates are heightened given that interest rates in the U.S. are at, or near, historic lows. The concept of duration is useful in assessing the sensitivity of a fixed income investment to interest rate movements, which are usually the main source of risk for most fixed income investments. Duration measures price volatility by estimating the change in price of a debt security for a 1% change in its yield. For example, a duration of five years means the price of a debt security will change about 5% for every 1% change in its yield. Thus, the longer the duration, the more volatile the security. Fixed income debt securities have a stated maturity date when the issuer must repay the principal amount of the bond. Some fixed income debt securities, known as callable bonds, may repay the principal earlier than the stated maturity date. Fixed income debt securities are most likely to be called when interest rates are falling because the issuer can refinance at a lower rate.

Investment in Money Market Mutual Funds Risk – The portfolio invests in money market mutual funds. While government money market funds seek to transact at a \$1.00 per share stable net asset value, certain other money market funds transact at a fluctuating net asset value, and it is

possible to lose money by investing in money market funds. Further, money market funds may impose a fee upon redemption or may temporarily suspend redemptions if the fund's liquidity falls below a required minimum because of market conditions or other factors. Investments in money market funds are not insured or guaranteed by the FDIC or any other government agency.

Investment Style Risk – Westwood Management pursues a “value style” of investing. Value investing focuses on companies with stocks that appear undervalued in light of factors such as the company's earnings, book value, revenues or cash flow. If Westwood Management's assessment of market conditions, or a company's value or its prospects for exceeding earnings expectations is inaccurate, the client could suffer losses or produce poor performance relative to other investment strategies and products. In addition, “value stocks” can continue to be undervalued by the market for long periods of time.

Large-Capitalization Company Risk – The large capitalization companies in which the Account may invest may lag the performance of smaller capitalization companies because large capitalization companies may experience slower rates of growth than smaller capitalization companies and may not respond as quickly to market changes and opportunities

Leverage Risk – If a portfolio makes investments in futures contracts, forward currency contracts and other derivative instruments, the futures contracts and certain other derivatives provide the economic effect of financial leverage by creating additional investment exposure, as well as the potential for greater loss. If a portfolio uses leverage through activities such as borrowing, entering into short sales, purchasing securities on margin or on a “when-issued” basis or purchasing derivative instruments in an effort to increase its returns, the portfolio has the risk of magnified capital losses that occur when losses affect an asset base, enlarged by borrowings or the creation of liabilities, that exceeds the net assets of the portfolio. The net asset value of a portfolio when employing leverage will be more volatile and sensitive to market movements. Leverage may involve the creation of a liability that requires a portfolio to pay interest. A portfolio may also be required to pay fees in connection with borrowings (such as loan syndication fees or commitment and administrative fees in connection with a line of credit) and it might be required to maintain minimum average balances with a bank lender, either of which would increase the cost of borrowing over the stated interest rate.

Liquidity Risk – Certain securities may be difficult or impossible to sell at the time and the price that the Strategy would like. The Strategy may have to accept a lower price to sell a security, sell other securities to raise cash instead or give up an investment opportunity, any of which could have a negative effect on Strategy management or performance.

Management Risk – A strategy is actively managed and depends heavily on Westwood Management's analyses of markets, interest rates or the attractiveness, relative values, liquidity, or potential appreciation of particular investments made for the strategy's portfolio. The strategy could experience losses if these judgments prove to be incorrect. Additionally, legislative, regulatory, or tax developments may adversely affect management of the strategy and, therefore, the ability of the strategy to achieve its investment objective.

Market Risk – Market risk is the risk that the markets on which the Fund's investments trade will increase or decrease in value. Prices may fluctuate widely over short or extended periods in response to company, market or economic news. Markets also tend to move in cycles, with periods of rising and falling prices. If there is a general decline in the securities and other markets, your

investment in the Fund may lose value, regardless of the individual results of the securities and other instruments in which the Fund invests.

Market Events Risk – Events in the U.S. and global financial markets, including actions taken by the U.S. Federal Reserve or foreign central banks to stimulate or stabilize economic growth, may at times, and for varying periods of time, result in unusually high market volatility, which could negatively impact the account’s performance and cause the account to experience illiquidity, shareholder redemptions, or other potentially adverse effects. Reduced liquidity in credit and fixed-income markets could negatively affect issuers worldwide. Banks and financial services companies could suffer losses if interest rates rise or economic conditions deteriorate.

MLP Risk – MLPs are limited partnerships in which the ownership units are publicly traded. MLPs often own several properties or businesses (or own interests) that are related to oil and gas industries or other natural resources, but they also may finance other projects. To the extent that an MLP’s interests are all in a particular industry or industries, such as the energy industries, the MLP will be negatively impacted by economic events adversely impacting that industry or industries. Additional risks of investing in an MLP also include those involved in investing in a partnership as opposed to a corporation, such as limited control of management, limited voting rights or tax risks. In addition, MLPs may be subject to state taxation in certain jurisdictions which will have the effect of reducing the amount of income paid by the MLP to its investors. Investment in MLPs may result in the layering of expenses, such that clients will indirectly bear a proportionate share of the MLPs’ operating expenses, in addition to paying asset management fees and expenses. Energy companies are affected by worldwide energy prices and costs related to energy production. These companies may have significant operations in areas at risk for natural disasters, social unrest and environmental damage. These companies may also be at risk for increased government regulation and intervention, energy conservation efforts, litigation and negative publicity and perception.

Model and Data Risk – Given the complexity of the investments and strategies of the portfolio, Westwood Management and/or the Sub-Advisor, as appropriate, rely heavily on quantitative models (both proprietary models developed by Westwood Management and/or Sub-Advisor, and those supplied by third-party vendors) and information and data supplied by third-party vendors (“Models and Data”). Models and Data are used to construct sets of transactions and investments and to provide risk management insights.

When Models and Data prove to be incorrect or incomplete, any decisions made in reliance thereon expose the portfolio to potential risks. The success of relying on such models may depend on the accuracy and reliability of historical data supplied by third party vendors.

All models rely on correct market data inputs. If incorrect market data is entered into even a well-founded model, the resulting information will be incorrect. However, even if market data is input correctly, “model prices” will often differ substantially from market prices, especially for securities with complex characteristics, such as derivative securities.

Mortgage-Backed Securities Risk – Mortgage-backed securities are affected by, among other things, interest rate changes and the possibility of prepayment of the underlying mortgage loans. Mortgage-backed securities are also subject to the risk that underlying borrowers will be unable to meet their obligations.

Mutual Fund Risk – Mutual funds involve risk of loss, and there is no guarantee that a mutual fund will achieve its goals. The mutual fund adviser’s (and/or subadviser’s) judgments about the markets, the economy, or companies may not anticipate actual market movements, economic conditions, or company performance, and these judgments may affect the return on the investment. The value of an investment in a mutual fund is based on the value of the securities the fund holds. These prices change daily due to economic and other events that affect particular companies and other issuers. These price movements, sometimes called volatility, may be greater or lesser depending on the types of securities the fund owns and the markets in which they trade. The effect on a fund of a change in the value of a single security will depend on how widely the fund diversifies its holdings.

Operational Risk - A strategy is exposed to operational risks arising from a number of factors, including, but not limited to, human error, processing and communication errors, errors of the strategy’s service providers, counterparties or other third parties, failed or inadequate processes and technology or systems failures. Westwood Management seeks to reduce these operational risks through controls and procedures. However, these measures do not address every possible risk and may be inadequate to address these risks.

Options Risk – Investments in options may be subject to the risk that the adviser does not correctly predict the movement of an option’s underlying stock. Option purchases may result in the loss of part or all of the amount paid for the option plus commission costs. Option sales may result in a forced sale or purchase of a security at a price higher or lower than its current market price.

Overseas Exchanges Risk – A portfolio may engage in transactions on a number of overseas stock exchanges. Market practices relating to clearance and settlement of securities transactions and custody of assets can potentially pose an increased risk to a portfolio and may involve delays in obtaining accurate information on the value of securities. A portfolio may engage in transactions in the stock markets of emerging market countries. Emerging market country stock markets, in general, are less liquid, smaller, and less regulated than many of the developed country stock markets. Purchases and sales of investments may take longer than would otherwise be expected on developed stock markets and transactions may need to be conducted at unfavorable prices.

Portfolio Turnover Risk – Due to its investment strategy, the Strategy may buy and sell securities frequently. Such a strategy often involves higher expenses, including brokerage commissions, and may increase the amount of capital gains (in particular, short-term gains) realized by the Strategy. Shareholders may pay tax on such capital gains.

Preferred Stock Risk – Preferred stocks are sensitive to interest rate changes and are also subject to equity risk, which is the risk that stock prices will fall over short or extended periods of time. The rights of preferred stocks on the distribution of a company’s assets in the event of a liquidation are generally subordinate to the rights associated with a company’s debt securities.

Regional Focus Risk – To the extent that it focuses its investments in a particular geographic region, the Strategy may be more susceptible to economic, political, regulatory or other events or conditions affecting issuers and countries within that region. As a result, the Strategy may be subject to greater price volatility and risk of loss than a strategy holding more geographically diverse investments.

REIT Risk – REITs are pooled investment vehicles that own, and usually operate, income-producing real estate. REITs are susceptible to the risks associated with direct ownership of real

estate, such as the following: declines in property values; increases in property taxes, operating expenses, interest rates or competition overbuilding; zoning changes; and losses from casualty or condemnation. REITs typically incur fees that are separate from asset management fees and expenses. Accordingly, investment in REITS will result in the layering of expenses such that investors will indirectly bear a proportionate share of the REITs' operating expenses in addition to asset management fees and expenses. Some REITs may have limited diversification and may be subject to risks inherent in financing a limited number of properties. REITs depend generally on their ability to generate cash flow to make distributions and may be subject to defaults by borrowers and to self-liquidations. In addition, a REIT may be affected by its failure to qualify for tax-free pass-through of income under the Internal Revenue Code of 1986, as amended (the "Code"), or its failure to maintain exemption from registration under the 1940 Act.

Restricted and Illiquid Securities Risk - Certain securities generally trade in lower volume and may be less liquid than securities of large established companies. These less liquid securities could include securities of small- and mid-sized non-U.S. companies, high-yield securities, convertible securities, unrated debt and convertible securities, securities that originate from small offerings, and foreign securities, particularly those from companies in emerging markets. If a security is illiquid, a portfolio may not be able to sell the security at a time and/or price at which the Advisor and/or the Sub-Advisor, as appropriate, might wish to sell, which means that the portfolio could lose money. In addition, the security could have the effect of decreasing the overall level of the portfolio's liquidity. Further, the lack of an established secondary market may make it more difficult to value illiquid securities, which could vary from the amount a portfolio could realize upon disposition.

Restricted securities are securities that are subject to legal or contractual restrictions on resale and include equity or fixed-income securities of U.S. and non-U.S. issuers that are issued through private offerings without registration with the SEC, including offerings outside the United States. Restricted securities may be illiquid. However, some restricted securities may be treated as liquid, although they may be less liquid than registered securities traded on established secondary markets.

Renewable Energy Companies Risk – Renewable energy companies may be more volatile than companies operating in more established industries. Renewable energy companies are subject to specific risks, including, among others: fluctuations in commodity prices and/or interest rates; changes in governmental or environmental regulation; reduced availability of renewable energy sources or other commodities for transporting, processing, storing or delivering; slowdowns in new construction; seasonal weather conditions, extreme weather or other natural disasters; and threats of attack by terrorists on certain renewable energy assets. Certain investments may be dependent on U.S. and foreign government policies, including tax incentives and subsidies. The above factors could also impact the ability of renewable energy companies to pay dividends comparable to those paid by other Energy Infrastructure Companies. Certain valuation methods used to value renewable energy companies have not been in widespread use for a significant period of time and may further increase the volatility of certain renewable energy company share prices.

Royalty Trust Risk – Westwood Management may invest in royalty trusts on behalf of client accounts. A royalty trust generally acquires an interest in natural resource companies and distributes the income it receives to the investors of the royalty trust. A sustained decline in demand for crude oil, natural gas and refined petroleum products could adversely affect income and royalty

trust revenues and cash flows. Factors that could lead to a decrease in market demand include a recession or other adverse economic conditions, an increase in the market price of the underlying commodity, higher taxes or other regulatory actions that increase costs, or a shift in consumer demand for such products. A rising interest rate environment could adversely impact the performance of royalty trusts. Rising interest rates could limit the capital appreciation of royalty trusts because of the increased availability of alternative investments at more competitive yields. The investment in royalty trusts may result in the layering of expenses such that investors will indirectly bear a proportionate share of the royalty trusts' operating expenses, in addition to paying asset management fees and expenses. Royalty trust operating expenses are not reflected in the fee table and example in the Prospectus.

Short Sale Risk – The portfolio may take a short position in a derivative instrument, such as a future, forward or swap. A short position on a derivative instrument involves the risk of a theoretically unlimited increase in the value of the underlying instrument. The portfolio may also from time to time sell securities short, which involves borrowing and selling a security and covering such borrowed security through a later purchase. A short sale creates the risk of an unlimited loss, in that the price of the underlying security could theoretically increase without limit, thus increasing the cost of buying those securities to cover the short position. There can be no assurance that the securities necessary to cover a short position will be available for purchase.

Small- and Mid-Capitalization Company Risk – The small- and mid-capitalization companies in which Westwood Management may invest may be more vulnerable to adverse business or economic events than larger, more established companies. In particular, investments in these small- and mid-sized companies may pose additional risks, including liquidity risk, because these companies tend to have limited product lines, markets and financial resources, and may depend upon a relatively small management group. Therefore, small- and mid-cap stocks may be more volatile than those of larger companies. These securities may be traded over-the-counter or listed on an exchange.

Small-Capitalization Company Risk – The small-capitalization companies in which Westwood Management may invest may be more vulnerable to adverse business or economic events than larger, more established companies. In particular, investments in these small-sized companies may pose additional risks, including liquidity risk, because these companies tend to have limited product lines, markets and financial resources, and may depend upon a relatively small management group. Therefore, small-cap stocks may be more volatile than those of larger companies. These securities may be traded over-the-counter or listed on an exchange.

Sub-Advisor Risk – The portfolio is subject to management risk because it relies on the Sub-Advisor's ability to pursue the portfolio's objective. The Sub-Advisor will apply investment techniques and risk analyses in making investment decisions for the fund, but there can be no guarantee that these will produce the desired results.

Tax Law Change Risk – Changes in tax laws or regulations, or interpretations thereof in the future, could adversely affect the portfolio or the MLPs and Energy Infrastructure Companies in which the portfolio invests. Any such changes could negatively impact the portfolio. Legislation could also negatively impact the amount and tax characterization of distributions received by the client.

BA/Dollar Roll Risk – Although the securities that are delivered in TBA transactions must meet certain standards, there is a risk that the actual securities received by the Account may be less favorable than what was anticipated when entering into the transaction. Default by or bankruptcy of a counterparty to a TBA transaction would expose the Account to possible loss because of adverse market action, expenses or delays in connection with the purchase or sale of the pools of mortgage pass-through securities specified in the TBA transaction. Whether or not the Account takes delivery of the securities at the termination date of a TBA transaction, it will nonetheless be exposed to changes in the value of the underlying investments during the term of the agreement. Also, the Account’s portfolio turnover rate and transaction costs are increased when the Account enters into dollar roll transactions.

U.S. Government Securities Risk – Investments in U.S. government obligations may include securities issued or guaranteed as to principal and interest by the U.S. government, or its agencies or instrumentalities. Payment of principal and interest on U.S. government obligations may be backed by the full faith and credit of the United States or may be backed solely by the issuing or guaranteeing agency or instrumentality itself. There can be no assurance that the U.S. government would provide financial support to its agencies or instrumentalities (including government sponsored enterprises) where it is not obligated to do so. In addition, U.S. government securities are not guaranteed against price movements due to changing interest rates.

Volatility Risk – The account may have investments that appreciate or decrease significantly in value over short periods of time. This may cause the account’s value to experience significant appreciations or decreases in value over short periods of time.

Warrants Risk – Warrants are instruments that entitle the holder to buy an equity security at a specific price for a specific period of time. Warrants may be more speculative than other types of investments. The price of a warrant may be more volatile than the price of its underlying security, and an investment in a warrant may offer greater potential for capital loss than an investment in the underlying security. A warrant ceases to have value if it is not exercised prior to its expiration date.

Item 9 - Disciplinary Information

Westwood Management and its management persons have not been involved in any disciplinary events.

Item 10 - Other Financial Industry Activities and Affiliations

Westwood Management has three affiliated SEC-registered investment advisers: Westwood Advisors, L.L.C.; Salient Advisors, LP and Broadmark Asset Management, LLC. In addition, Westwood Management is also affiliated with Westwood Trust, a trust company chartered by the Texas Department of Banking, and Salient Capital, LP, a registered broker-dealer. Each of these affiliates is, except for Broadmark Asset Management, LLC, a wholly owned subsidiary of Westwood Management’s parent company, WHG. WHG owns approximately 80% of Broadmark Asset Management, LLC. Westwood Management, along with Broadmark, is the investment

adviser for the Westwood Funds family of mutual funds. Salient Advisors is expected to be renamed as Westwood Private Capital Partners, LP.

Westwood Trust provides trust and fiduciaries services including investment management to its trust clients and uses commingled common trust funds and collective investment trusts (“Westwood Trust Commingled Funds”) to do so. Westwood Management has a sub-advisory agreement with Westwood Trust pursuant to which Westwood Management serves as a sub-adviser to some of the Westwood Trust Commingled Funds.

Salient Advisors, L.P. is the investment adviser to the Westwood Salient Tactical Plus Fund for which Broadmark Asset Management, LLC acts as investment sub-adviser of which WHG owns approximately 79% of the equity. Salient Advisors, L.P. is registered as a Commodity Pool Operator with the National Futures Association (“NFA”) and U.S. Commodity Futures Trading Commission (“CFTC”). Broadmark Asset Management, LLC, is registered as a Commodity Trading Advisor with the NFA and CFTC.

Westwood Advisors, LLC serves as the investment adviser to the Salient MLP Total Return Fund and the Salient MLP Total Return TE Fund and has delegated investment management responsibilities to Westwood Management. WHG PF Holdco, LLC, a direct and wholly-owned subsidiary of WHG is general partner of each of these funds. Clients are solicited to invest in the Salient MLP Total Return Fund and the Salient MLP Total Return TE Fund. Current and anticipated Westwood Energy Secondaries vehicles have been or are expected to be structured through series LLC and limited partnership vehicles, with affiliated general partner or managing member entities and related sponsor economics as described in the applicable governing documents and the adviser’s separate Private Funds Advisory Services Brochure. Westwood Management’s strategies are also available to managed accounts established for clients of Westwood Advisors.

Salient Capital, LP, a subsidiary of WHG, is an SEC-registered broker-dealer and FINRA member. Certain Westwood Management employees are also registered representatives of Salient Capital and engage in sales activities with respect to the Westwood Funds and ETFs; Westwood Management affiliated private funds; and third party ETFs and private funds. Salient Capital acts as the distributor for the affiliated private funds Salient MLP Total Return Fund and the Salient MLP Total Return TE Fund as well as a placement agent for other unaffiliated private funds.

WHG GP Holdco, LLC is a wholly-owned subsidiary of WHG and is the general partner of both Salient Capital, LP and Salient Advisors, LP.

Westwood Management makes limited use of swaps, futures and other derivatives in its Alternative Income Strategy and potentially other Multi Asset Strategies. Westwood Management relies on available regulatory exemptions from registration with the U.S. Commodities Futures and Trading Commission and National Futures Associations as a Commodity Trading Advisor.

Broadmark Asset Management, LLC is an SEC-registered investment adviser and CFTC-registered commodity trading advisor and commodity pool operator. Broadmark acts as sub-adviser to Westwood Management or Salient Advisors for certain of the Westwood Funds as well as to other investment advisory clients whose accounts are managed in the Tactical Growth strategies. Broadmark is based in Dallas, Texas and San Francisco, California.

The Salient Zarvona Energy Fund GP, LP is an SEC-registered investment adviser and joint venture owned 50% by WHG and 50% by Zarvona Energy, LP. The Salient Zarvona Energy Fund GP, LP is the investment adviser and sponsor to certain private funds managed by Zarvona Energy and its affiliates. Neither Westwood Management nor any of its affiliates provide investment advice for these funds. Certain Westwood Management employees are members of the investment committee of the Salient Zarvona Energy Fund GP.

Clients are Solicited to Invest in Affiliated Partnerships: Affiliated persons of Westwood Management are members of the general partner of various private investment vehicles (as discussed above) and affiliated advisers, which themselves manage other registered investment companies and private pooled investment vehicles. Certain clients of Westwood Management are solicited to invest (by the affiliated persons) in such other registered investment companies or private pooled investment vehicles. In such instances, our affiliated advisers and/or affiliated persons of Westwood Management may receive additional compensation.

Investment Team Revenue Sharing Program: Westwood Management has established a revenue share program in which Westwood Management's investment teams pay a portion of revenue received by Westwood Management and its affiliates across all investment products and services of their respective investment strategies. This revenue includes investment management fees and performance fees received through investment advisory affiliates. For Westwood Management's Energy investment team, this revenue also includes carried interest from affiliated private funds as well as placement fees and other brokerage fees received by Salient Capital, LP for third party private fund investments.

Westwood Sales Bonus Compensation Program: Westwood Management compensates its sales employees through a sales compensation program that is based on a combination of new sales and ongoing revenue received by Westwood Management and its affiliates across all investment products and services. New sales typically included new advisory assets and also sales of affiliated mutual funds, affiliated private funds and unaffiliated private funds.

Clients should be aware that the receipt of additional compensation itself creates a conflict of interest and may affect the judgment of Westwood Management and these individuals when making recommendations and when determining when and how to provide portfolio management services. Further, more detailed disclosure of such conflicts of interest is contained in Part 2A of Form ADV of the relevant adviser affiliate and the Private Placement Memorandum of the relevant fund or other fund disclosure materials, if applicable.

Item 11 - Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

Westwood Management has adopted the Code of Ethics (the "Code"), which was adopted by the Board of Directors of WHG pursuant to SEC Rule 204A-1 expressing the commitment to ethical conduct. The Code is applicable to all WHG subsidiaries, and its officers, directors, and employees ("Affiliated Persons"), who provide shared services to Westwood Management. The Code is administered on a group-wide basis and is based on the principle that Affiliated Persons owe a fiduciary duty to clients to conduct their personal securities transactions in a manner that does not

interfere with client portfolio transactions or otherwise take advantage of their relationship with clients, and which reflects the principle referenced above. The Code requires Affiliated Persons to pre-clear all personal securities transactions (with certain exceptions described below), political contributions, and outside business activities, and to report gifts and entertainment through the Chief Compliance Officer (CCO).

The Code generally requires Affiliated Persons to pre-clear their personal securities transactions. However, pre-clearance is not required for: (a) participation in an ongoing automatic investment plan or an issuer's dividend reinvestment or stock purchase plan, (b) participation in any transaction over which Affiliated Persons had no influence or control (mergers, inheritances, gifts, etc.), (c) share of registered open-end investment companies other than shares of investment companies advised or sub-advised by Westwood Management or its affiliates.

The Code generally prohibits Affiliated Persons from purchasing or selling individual securities for their own account that are owned in a Westwood Management or an affiliate strategy, with a limited exception for *de minimis* trades. This exception allows Affiliated Persons to personally transact in securities that are owned in a Westwood or affiliate strategy, if the security has a market capitalization greater than \$5 billion and the value of the trade is no more than \$10,000 or 100 shares, whichever is larger. Affiliated Persons are limited to a maximum of three such *de minimis* trades per month; *de minimis* bond trades may be consolidated within a calendar month, with approval. While allowing Affiliated Persons the ability to transact in individual securities that are owned in Westwood Management or an affiliate strategy has the potential to create a conflict of interest for Westwood Management or an affiliate clients, Westwood Management actively addresses the conflict through the use of the above referenced *de minimis* trading rule as well as enforcing a minimum holding period for employees. Affiliated Persons who purchase a security under the *de minimis* exception are prohibited from selling that security for a profit within 60-days of purchasing the security. The Code provides for "black-out periods" during which Affiliated Persons may not purchase or sell a stock that Westwood Management is in the process of purchasing or selling for Westwood Management or an affiliate strategy unless such trade qualifies for the *de minimis* exception. To monitor compliance with its Code of Ethics, the firm's CCO receives duplicate brokerage statements and transaction confirmations for every Affiliated Person with personal brokerage accounts, and all employees must certify on a quarterly basis that they have reported all relevant securities transactions in compliance with the Code. The firm's Compliance department reviews all pre-clearance requests, all initial, quarterly and annual disclosure certifications and the trading activities on behalf of all Westwood Management and/or affiliate Strategies with a view to ensuring that all Affiliated Persons are complying with the Code. The Compliance department reviews confirmations from brokers to assure that all transactions affected by Affiliate Persons are affected in compliance with the Code.

The Code also requires certain Affiliated Persons to obtain pre-clearance for all political contributions and outside business activities. The firm's CCO must approve any political contribution before it is made and any outside business activity before the Affiliated Person has engaged in such activity. On an annual basis, Affiliated Persons must submit disclosure certifications regarding their political contributions and outside business activities.

The Code prohibits Affiliated Persons from accepting or giving any gift or other item valued at more than \$100 from any client, competitor, or any person or entity that does business with or on behalf of any client. Affiliated Persons also must report any gift or other item that is given to any client, competitor, vendor or any person or entity that does business with or on behalf of any client. In addition, Affiliated Persons must report accepted offers of entertainment from all such persons or entities. The Code requires Affiliated Persons to certify quarterly that they have reported all gifts and entertainment.

WHG also has an Insider Trading Policy that, along with the Code , prohibits the use of material non-public information in a personal or professional capacity. Westwood Management requires that all Affiliated Persons act in compliance with all applicable Federal and State regulations governing registered investment advisory practices. Any Affiliated Person not in observance of the above may be subject to disciplinary action, up to and including termination. Throughout the year, the Legal and Compliance Team is responsible for, among other things, monitoring

Affiliated Person accounts, personal trading, Code exceptions, and Affiliated Persons transactions of WHG stock.

Westwood Management does not invest client funds in the securities of its parent company, Westwood Holdings Group, Inc.

Affiliated Private Funds:

Affiliated Persons may invest in affiliated private funds alongside clients, subject to review and approval by the CCO and, where applicable, broker-dealer compliance. Employees of WHG or its affiliates are generally permitted to invest at a lower fee as disclosed in the fund documentation but otherwise Affiliated Persons investments generally are expected to be made on the same terms available to other investors, except for sponsor, carried interest or other affiliated arrangements disclosed in the governing documents. The Compliance Team monitors employee co-investment through pre-clearance, account reporting and compliance oversight, although conflicts relating to timing, allocation, capital calls, valuations and distributions cannot be eliminated. Additional information regarding private fund conflicts is contained in the adviser's separate Private Funds Advisory Services Brochure.

The Code permits the CCO to delegate duties under the Code to other members of the Legal and Compliance department.

Upon request, Westwood Management will provide a complete copy of its Code of Ethics to any client or prospective client. Clients can submit requests by contacting their Westwood Management representative or the firm's CCO. It is also posted on WHG's website.

Item 12 - Brokerage Practices

Westwood Management trading and brokerage practices are implemented through its shared services employee agreement with WHG. The trading and brokerage practices, and other

operational and support functions as indicated below are conducted by various affiliated teams or Affiliated Persons employed by WHG.

WHG has an agreement with Northern Trust Integrated Trading Solutions (NTSI) to assume activities around trade execution, matching, settlement, transaction cost analysis and (where applicable) foreign exchange transactions on an outsourced basis. Generally, NTSI handles trading for institutional accounts and some private wealth accounts that do not direct trading to a specific broker-dealer. The Trading Team remains primarily responsible for trading certain fixed income, convertible securities, and derivative instruments, as well as trading for clients with directed brokerage arrangements and for wrap and similar separately managed accounts. The Trading Team is responsible for overseeing the NTSI trade activity to ensure best execution on behalf of all our clients, and to maintain compliance with all applicable ethical, legal and regulatory requirements.

In arranging for the execution of client transactions, the Trading Team, NTSI, and other outsourced trading partner(s) seek to obtain best execution at favorable prices on behalf of its clients. The procedures used to direct client trades to a specific broker incorporate all information that the Trading Team, NTSI and other outsourced trading partner(s) deem relevant, including, without limitation:

- price of the security;
- size and difficulty of the order;
- quality of execution and liquidity services provided by the broker-dealer;
- commission rates;
- broker-dealer's research and investment ideas;
- broker-dealer's ability to obtain a timely execution;
- broker-dealer's execution policies and commitment to providing best execution;
- size and volume of the broker-dealer's order flow;
- reliability, efficiency, accuracy, integrity of the broker-dealer's general execution and operational capabilities; and
- financial condition of broker-dealer.

Broker Selection

Brokers are chosen based on a best execution basis and on the level of research they provide to the firm.

On a semiannual basis, research analysts rank the market data resources, research tools and data feeds they receive based on the value each adds to the analyst and investment process. The Director of Research, along with the Managing Director, Operations & Trading, will review the current

rankings from the groups, client commission directives, and existing contractual commitments, as well as approve new trading partners based on their assessment of all of these inputs.

Westwood Management has established the Trade Order Management Committee (TOMC) to oversee trading:

- The TOMC is responsible for the periodic review of the firm's brokerage and best execution practices for trading conducted by Westwood Management's in-house and outsourced trading teams. The TOMC reviews commission rates on a quarterly basis, and periodically reviews the financial health of brokers. The TOMC is chaired by the Managing Director, Operations & Trading. Membership includes representatives from Trading, Legal & Compliance, Performance & Risk Analytics, Operations and others, such as key vendors, as needed.
- The TOMC is also responsible for the review and monitoring of NTSI's trading activity and the transaction cost analysis (TCA) metrics of such activity. TCA is provided by an independent third party and reviewed by the TOMC at least quarterly. Performance is evaluated against multiple benchmarks, including implementation shortfall, interval volume-weighted average price, and participation-weighted price. Metrics such as price reversion and participation consistency (i.e., how the traders behave in various market environments) are also key measures. Specific trades that perform particularly well or poorly are researched in-depth to understand the performance drivers and unique circumstances. All findings and general TCA are presented to the TOMC and reviewed with NTSI.

Westwood Management does not choose brokers based on their referral of clients to Westwood Management. Westwood Management does not currently receive any referrals of clients from any of the brokers used for client trading or client commissions.

Westwood Management does not direct client trades to Salient Capital, LP, its affiliated broker-dealer.

Research and Other Soft Dollar Benefits

Westwood Management may pay a brokerage commission in excess of that which another broker-dealer may charge for effecting the same transactions in recognition of the value of the brokerage and research services provided by or through the broker-dealer, and such commission costs are borne by the client. The Trading Team will make a good faith determination that the amount of commissions paid is reasonable in relation to the value of the brokerage and research services provided. The brokerage and research services received by Westwood Management or the Trading Team generally include proprietary or third-party research, general economic and market information, portfolio strategy advice, industry and company comments, technical data, evaluations of securities, pricing services, credit research analysis, general reports, consultations, performance measuring data, on-line pricing, brokerage execution-related services, and special

execution capabilities, newswire and quotation, and recommendations as to the purchase or sale of securities.

To the extent that certain items have research and non-research components (“mixed-use”), the Trading Team allocates commissions for only those portions of the service or product that are research or execution-related. This analysis is conducted on a case-by-case basis depending upon the total costs for a service or product and the extent to which the product or service is used by Westwood Management or the Trading Team for research or brokerage execution-related services.

The Trading Team may use the products and services received from broker-dealers to service all Westwood Management accounts. Thus, not all such services may be used for the benefit of the client that pays the brokerage commission which procures the receipt of such research or brokerage services.

The use of brokerage commissions to obtain research and brokerage-related products and services creates a conflict of interest between Westwood Management, its affiliates, and their clients because the clients pay for such products or services, which may not be exclusively for the benefit of advisory clients and which may be primarily or exclusively for the benefit of Westwood Management. To the extent that Westwood Management is able to acquire products and services without expending its own resources (including management fees paid by clients), Westwood Management’s use of commission sharing arrangements would tend to increase its profitability. In addition, the availability of these non-monetary benefits may influence the Trading Team to select one broker-dealer over another to perform services for clients. Moreover, the use of “mixed-use” products or services creates a conflict to the extent that the Trading Team allocates the cost of the product or service to soft dollars.

The Trading Team generally will only use commission sharing for brokerage and research related products and services. Non-brokerage and non-research products and services received by the Trading Team from broker-dealers in connection with client trades will be paid for directly by WHG. Notwithstanding the Trading Team good faith determination that certain products and services are research or brokerage-related, The Trading Team may inadvertently use commissions to pay for non-brokerage or non-research products or services to the extent that the Trading Team’s good faith determination is not accurate.

Westwood Management intends to use commission sharing only for those products and services that fall within the safe harbor provisions of Section 28(e) of the Securities Exchange Act of 1934.

Westwood Management will provide a commission sharing report to clients upon request. Clients may direct Westwood Management as to how to prepare this report.

Directed Brokerage

Westwood Management permits clients (including dual contract) to select brokers to execute securities transactions for the client’s account (known as “directed brokerage”). If the client elects to direct brokerage transactions to a particular broker-dealer, the Trading Team may not be able to aggregate such client’s order with orders for other clients. Consequently, Westwood Management may not be able to obtain best execution for a client that directs brokerage. Further, a client that directs brokerage may pay higher commissions because the Trading Team may not participate in

the negotiation of commission rates for those transactions. For clients that partially direct brokerage to, or otherwise state a preference for, one or more brokers, the Trading Team generally establishes a percentage target for trades to direct to such brokers.

Trade Aggregation and Allocation

Pursuant to Westwood Management's trade allocation policy, on occasions when the Portfolio Team deems the purchase or sale of a security to be in the best interests of more than one of its clients, the Portfolio Team may aggregate multiple contemporaneous client purchase or sell orders into a block order for execution.

Client accounts for which orders are aggregated receive the average price of such transaction, which could be higher or lower than the price that would otherwise be paid by a client absent the aggregation. Any transaction costs incurred in the transaction are shared pro rata based on each client's participation in the transaction. In some cases, this procedure could have an adverse effect on a particular account; however, the results of such procedures will, on the whole, be in the best interests of each of Westwood Management's advisory accounts.

When a decision is made to aggregate orders, the Portfolio Team seeks to allocate securities among Westwood Management's client accounts in a fair and equitable manner. Under Westwood Management's trade allocation policy, securities generally are allocated among client accounts according to each account's pre-determined participation in the transaction, as the Trading Team seeks to allocate transactions before execution of a block order. However, under certain circumstances, trades may not be allocated prior to entering the trade order. In such event, the Portfolio Team will seek to allocate such orders at the earliest practicable time.

Pre-allocated and unallocated block trades that are partially filled are generally allocated on the basis of the relative net assets of the participating accounts. If the aggregate order is partially filled, the Portfolio Team typically will allocate trades on a pro rata basis among the client accounts in proportion to the contemplated allocation in the written record, which may be subject to rounding to ensure that each account receives round lots or minimum increments. Where pro rata allocation is not practicable, the Portfolio Team will allocate trades in a fair and equitable manner taking into consideration such factors as:

- The investment objective, policies and strategy of the account;
- The appropriateness of the investment to an account's time horizon and risk objectives;
- Existing levels of account ownership in the investment and in similar securities; and
- The immediate availability of cash or buying power to fund the investment.

When aggregating trades among client accounts, retail managed account trades cannot be included in the aggregation due to the separate trading platform used for such accounts. Therefore, the Trading Team utilizes a trade rotation policy.

The Trading Team may execute transactions in the same securities on behalf of a number of accounts, including accounts in which Westwood and/or its Affiliated Persons may have a financial interest, such as the mutual funds managed by Westwood Management. Thus, there may be a conflict of interest to the extent that trades are allocated to accounts in which Westwood Management or its Affiliated Persons have a financial interest and are not allocated to other client accounts. These transactions may be executed separately, or they may be aggregated when, in the Trading Team's reasonable judgment, aggregation may result in an overall economic benefit to those accounts in terms of pricing, brokerage commissions, or other expenses.

In general, trades are allocated among Westwood Management's investment strategies on a pro rata basis (to the extent a Portfolio Team decides to participate fully in the trade), for further allocation by each Portfolio Team across that portfolio's eligible accounts. Where pro rata allocation is not practicable, the Portfolio Team will seek to make trade allocations consistent with the factors identified above, and in a fair and equitable manner. Once trades are allocated, they may be reallocated only in unusual circumstances due to recognition of specific account restrictions.

From time to time, Westwood Management has access to security distributions during an initial or secondary public offering ("IPO"). However, Westwood Management sometimes does not obtain access to a sufficient number of IPO shares so as to make a material allocation of such shares among all of its client accounts for which such investments otherwise might be appropriate. Westwood Management acknowledges the potential conflicts of interest that could arise in such a situation. For example, an account may have higher immediately available cash or buying power and be allocated IPO shares in a preferential manner, an account could be given preference based on the size of the account and the overall effectiveness of an IPO allocation on the performance of that account, or Westwood Management or its Affiliated Persons may have a financial interest in an account and there may be a conflict of interest to the extent IPOs are allocated to these accounts and not allocated to other client accounts.

To mitigate these potential conflicts of interest, portfolio managers allocate IPO shares on a pro rata basis among participating accounts within each investment strategy whose portfolio managers have elected to participate.

The portfolio managers for each strategy have discretion to determine whether their strategy will participate in an IPO. In situations where portfolio managers are not allocating an IPO to all IPO-eligible strategies, portfolio managers will document, prior to or at the time of submitting an indication of interest, which strategies will participate in the IPO, how the decision was made, and why any strategies were omitted. Reasons for non-participation include, but are not limited to, inappropriate sector or geographic exposure, inappropriate market capitalization, inappropriate asset class, inappropriate fit with mandate, insufficient liquidity, or undesirable risk profile for the strategy. Although the portfolio managers seek to define reasons for non-participation in its documentation, certain biases may exist. For example, portfolio managers of a strategy that may be closing imminently may choose not to participate in an IPO for which the strategy is otherwise eligible, instead limiting participation in the IPO to other eligible Westwood Management strategies that will remain open.

The TOMC's responsibilities include, among others, reviewing the documentation of initial IPO allocation decisions against final IPO allocations.

Clients that direct the entirety of their brokerage to a specific broker-dealer, including any wrap account clients, will not participate in IPO allocations.

Portfolio Managers or Portfolio Teams will document each allocation and maintain appropriate books and records.

Step-out Transactions

The Trading Team has the discretion to employ "step-out" procedures to accommodate all clients in an aggregated trade in certain thinly traded stocks, or where best execution would be attained by using a single broker for execution rather than several brokers. In addition, an executing broker for a block trade may step-out a portion of the aggregated trade to a broker when a client has directed that trades be executed or settled through that particular broker. In these circumstances, a broker other than the broker settling a trade may have executed the trade. As a result, clients may incur additional transaction costs.

Agency or Internal Cross Trading

As a general rule, Westwood Management prohibits agency or internal cross trades between accounts. If an agency or internal cross trade situation was warranted, the investment team would work with the trader, the Legal and Compliance Department, and the client, when necessary, to ensure that the cross trade was initiated (with no associated broker commissions for internal crosses) in compliance with the relevant laws and regulations and that the proper contemporaneous documentation was maintained.

Wrap Accounts and Separately Managed Accounts

In wrap account programs and in retail separately managed account programs in which clients pay an asset-based brokerage fee, the Trading Team will typically send trades for these accounts to the sponsor or designated broker for execution.

Item 13 - Review of Accounts

Institutional client reviews are scheduled and structured according to the client's stated guidelines or in response to specific client requests. In the absence of guidelines, client meetings are generally scheduled annually and to a lesser degree, on a semi-annual or quarterly basis. Client reviews generally involve a meeting between the client and the Westwood Management relationship manager to review strategy, objectives, key concerns, and outlooks. The materials reviewed may include, but are not limited to, monthly and/or quarterly performance numbers, portfolio holdings, and summaries setting forth asset mix, cash flow and liquidity requirements, specific guidelines and objectives applicable to the account, and other pertinent matters. In addition to account reviews with the client, the Portfolio Team formally reviews the portfolio on a weekly basis looking at items such as recent events, the performance of each holding, and sector and industry metrics versus the market using a variety of tools including formal attribution analysis. The Portfolio Team also reviews the portfolio to evaluate changes or additions to the portfolio that might be

appropriate. The Portfolio Team meets informally to monitor the portfolio and its holdings. Westwood Management has also established a committee that meets regularly throughout the year to review performance dispersion for each investment management account. The committee also reviews account guidelines on an annual basis to ensure they are current and accurate.

Monthly written reports are distributed based upon client request and generally include an asset statement, performance typically for the month and quarter-to-date, and status of the portfolio. On a quarterly basis, Westwood Management includes all of the above information, as well as an overall review of results for the quarter, year-to-date, and inception-to-date. Westwood Management may also include a strategic forecast, highlighting Westwood Management's investment outlook for the capital markets.

Custom Asset Allocation accounts will receive statements that present account valuation and transactions from the bank or brokerage firm that acts as custodian of their securities. These statements will be provided as contracted for with the custodian. In most cases, the statements are provided monthly, but they may be provided quarterly. These clients also receive quarterly reports from Westwood Management that present quarter-end valuation, asset allocation, account performance information, and fees.

Item 14 - Client Referrals and Other Compensation

Placement Arrangements

Westwood Management has placement arrangements for the Salient MLP Total Return Fund, LP and the Salient MLP Total Return Fund TE, LP. These arrangements create a conflict of interest because Westwood Management has a financial incentive to promote these funds. To address this conflict, Westwood Management provides full disclosure of these arrangements to clients and prospective clients, and evaluates fund recommendations based on the client's objectives, risk tolerance, liquidity needs, and overall portfolio suitability, rather than on compensation considerations. Westwood Management also addresses these arrangements through the use of the affiliated broker-dealer or other permitted placement agent, legal and compliance review, and the restrictions contained in the applicable fund documents and offering materials.

Westwood Funds Shareholder Servicing Plans and Other Payments

In certain instances, Westwood Management may invest client assets in the Westwood Funds. When Westwood Management does invest client assets in the Westwood Funds, no investment management fee is charged on those assets. The following disclosures pertain to the clients invested in the Westwood Funds:

Potential Payments by the Westwood Funds

The Westwood Funds may compensate financial intermediaries for providing a variety of services to shareholders, which may include record-keeping, transaction processing for shareholders' accounts, and other shareholder services. Financial intermediaries include affiliated or unaffiliated brokers, dealers, banks (including bank trust departments), trust companies, registered investment advisers, financial planners, retirement plan administrators, insurance companies, and any other

institution having a service, administration, or any other similar arrangement with the Funds, their service providers, or their respective affiliates. The Funds generally pay financial intermediaries a fee that is based on the assets of each Fund that are attributable to investments by customers of the financial intermediary.

Potential Payments by Westwood

From time to time, WHG and/or its affiliates, in their discretion, may make payments to certain affiliated or unaffiliated financial intermediaries to compensate them for the costs associated with distribution, marketing, administration, and shareholder servicing support for the Funds, to the extent permitted by the SEC and Financial Industry Regulatory Authority (“FINRA”) rules and other applicable laws and regulations. These payments are sometimes characterized as “revenue sharing” payments, are made out of WHG’s resources, and are not paid by the Funds. Any such payments will not change the NAV or price of the Funds’ shares.

Item 15 - Custody

Westwood Management does not maintain custody of client funds or securities other than through the ability to debit fees from client accounts. However, an affiliate, Westwood Trust, which is a qualified custodian, maintain custody of certain common trust funds for which Westwood Management serves as subadviser. Westwood Management reconciles these common funds monthly and reports any differences to Westwood Trust personnel for reconciliation. No other accounts managed by Westwood Management are custodied at Westwood Trust. In addition, Westwood Advisors, also an affiliate of Westwood Management, is the adviser to the Salient MLP Total Return Fund, LP and the Salient MLP Total Return TE Fund, LP, both private funds managed by Westwood Management. WHG PF Holdco, LLC, an affiliate of Westwood Management is the general partner of each of these funds. Westwood Advisors and WHG PF Holdco, LLC are deemed to have custody of the assets of the Total Return Funds by virtue of their respective roles with those funds.

Custody of wrap program, dual contract and Custom Asset Allocation account funds and securities is maintained by a third party custodian selected by the clients. These clients will receive monthly/quarterly account statements from both their custodian and Westwood Management.

Clients should carefully review the statements sent to them by Westwood Management and compare them with account statements sent by their custodian.

Item 16 - Investment Discretion

Westwood Management accepts discretionary authority to manage securities accounts on behalf of its clients pursuant to a signed investment management agreement and any necessary accompanying documentation (*e.g.*, board resolutions, list of individuals authorized to direct disbursements and/or contributions, client’s driver’s license in the case of individuals) and has broad authority to determine, without specific client approval, the amount and type of securities to be bought and sold, the broker-dealer to be used, and the commission rate to be paid to such broker-dealer.

Some common limitations on this authority are as follows:

- (1) any restrictions or prohibitions as set forth in the client investment guidelines;
- (2) the client's request to direct brokerage to a specific broker dealer, which Westwood Management would follow subject to best execution requirements; and
- (3) commission rates which are competitively set by the market.

In wrap fee programs and other retail managed account programs in which clients pay an asset-based brokerage fee, Westwood Management typically sends trades to the program sponsor or designated broker-dealer for execution.

In model portfolio programs, Westwood Management provides a model update that is consistent with the corresponding strategy, but the ultimate discretion to implement those models is exercised by the sponsor or overlay manager.

Westwood Management offers other non-discretionary services to certain clients on request on a case-by-case basis.

Item 17 - Voting Client Securities

Westwood Management proxy voting practices are implemented through its shared service employee arrangement with WHG, which has engaged Broadridge Financial Solutions, Inc., for proxy voting services and Glass Lewis & Co., LLC for proxy research for its clients. Broadridge is a leading provider to the global financial industry for full-service proxy support. Glass Lewis provides complete analysis and voting recommendations on all proposals and is designed to assist investors in mitigating risk and improving long-term value. The analyst team, which has the authority to vote client securities. In most cases, the analyst team agrees with the recommendations of Glass Lewis; however, ballots are reviewed bi-monthly by the analyst team, who may choose to vote differently than Glass Lewis if they believe it in the best interest of Westwood Management's clients.

Westwood Management maintains complete proxy record keeping files for all clients. These files include a listing of all proxy material sent on behalf of clients along with individual copies of each response. Client access to these files can be arranged upon request. A summary of voting will be furnished upon request.

The CCO and Affiliated Persons will identify any conflicts of interests that exist or are perceived to exist between Westwood, its affiliate, Affiliated Persons, and the client and/or client holdings. If a material conflict exists, Westwood Management will determine whether it is appropriate to inform the affected clients, to give the clients an opportunity to vote the proxies themselves, or to address the voting issue through other objective means such as voting in a manner consistent with a predetermined voting policy or the independent third-party Glass Lewis recommendation. Westwood Management will maintain a record of the resolution of any proxy voting conflict of interest.

Clients may request a complete copy of Westwood Management's Proxy Voting policies and procedures by contacting their representative or the firm's CCO.

Clients can retain the authority to vote their securities, or they can request to receive proxy research and voting recommendations and can direct Westwood Management as to how to vote.

Item 18 - Financial Information

Westwood Management does not require or solicit prepayments of more than \$1,200 in fees per client six months or more in advance.

There is no financial condition that is reasonably likely to impair Westwood Management's ability to meet contractual commitments to clients.

Westwood Management has not been the subject of a bankruptcy petition.

Brian O. Casey

Item 2 – Educational Background and Business Experience

Born 1963

M.B.A., Business, University of Texas, Dallas, Texas (2000)

B.S., Finance, Trinity University, San Antonio, Texas (1985)

Mr. Casey has served Westwood as Chief Executive Officer since January 2006, as President since July 2002, and as Director since January 2000. He served Westwood as Executive Vice President from January 2000 to June 2002, as Chief Operating Officer from July 2000 to January 2006 and as Vice President from June 1992 to January 2000. Since July 1996, he has served as Chairman of the Board of Directors and Chief Executive Officer of Westwood Trust, an affiliated trust company chartered by the Texas Department of Banking. From July 1996 until February 2013, Mr. Casey served as President of Westwood Trust. Since July 1, 2002, he has also served as the President and Chief Executive Officer of Westwood Holdings Group, Inc., an NYSE traded company.

Item 3 - Disciplinary Information

Mr. Casey has not been involved in any legal or disciplinary events that would be material to a client's or prospective client's evaluation of Mr. Casey or of Westwood; however, Mr. Casey was named as a defendant in the AGF litigation described in Part 2A, which has been settled.

Item 4 - Other Business Activities

Mr. Casey is not engaged in any other investment-related business other than Westwood Trust, and he does not receive compensation in connection with any business activity outside of Westwood and Westwood Trust. Mr. Casey is not on the investment committee of Westwood and does not make investment-related decisions on behalf of Westwood clients.

Item 5 - Additional Compensation

Mr. Casey does not receive economic benefits from any person or entity other than Westwood and Westwood Trust in connection with the provision of investment advice to clients.

Item 6 - Supervision

The Board of Directors is responsible for supervising Mr. Casey's activities on behalf of Westwood and responding to questions concerning Mr. Casey's advisory activities. Dick Frank, Chairman of the Board, can be reached directly by calling the Dallas office telephone number on the cover of this brochure supplement.

William E. Costello

Item 2 – Educational Background and Business Experience

Born 1960

B.A., Economics, Marietta College, Marietta, OH (1982)

M.B.A., Finance, Boston University, Boston, MA (1987)

Mr. Costello joined Westwood in 2010 and serves as a Senior Vice President, Co-Director of Equity Portfolios. Prior to joining Westwood, he served Boston Company Asset Management as Portfolio Manager/Senior Equity Analyst from 2005 to 2009, Director of Research/Portfolio Manager from 2001 to 2005, and as Equity Analyst from 1997 to 2001. From 1992 to 1997, he served as Senior Equity Research Analyst with Delphi Management, Inc.

Item 3 - Disciplinary Information

Mr. Costello has not been involved in any legal or disciplinary events that would be material to a client's or prospective client's evaluation of Mr. Costello or of Westwood.

Item 4 - Other Business Activities

Mr. Costello is not engaged in any other investment-related business, and he does not receive compensation in connection with any business activity outside of Westwood.

Item 5 - Additional Compensation

Mr. Costello does not receive economic benefits from any person or entity other than Westwood in connection with the provision of investment advice to clients.

Item 6 - Supervision

Matthew Lockridge has been designated as the person responsible for supervising Mr. Costello's activities on behalf of Westwood and responding to questions concerning Mr. Costello's advisory activities. Mr. Lockridge can be reached directly by calling the telephone number on the cover of this brochure supplement.

Matthew R. Lockridge

Item 2 – Educational Background and Business Experience

Born 1979

B.B.A., Finance, Southern Methodist University (2001)

M.B.A, Finance and Accounting, University of Chicago, Graduate School of Business (2008)

Mr. Lockridge joined Westwood in 2010 and serves as a Senior Vice President, Co-Director of Equity Portfolios. Prior to joining Westwood, he served as a Senior Consultant with Deloitte Consulting, LLP from 2001 to 2004, where he assisted clients with various corporate finance and accounting issues. From 2004 to 2010, Mr. Lockridge served as a Managing Director and Partner at Dearborn Partners, LLC, where he was a member of the firm's investment committee and oversaw all investments in the consumer and industrial sectors.

Item 3 - Disciplinary Information

Mr. Lockridge has not been involved in any legal or disciplinary events that would be material to a client's or prospective client's evaluation of Mr. Lockridge or of Westwood.

Item 4 - Other Business Activities

Mr. Lockridge is not engaged in any other investment-related business, and he does not receive compensation in connection with any business activity outside of Westwood.

Item 5 - Additional Compensation

Mr. Lockridge does not receive economic benefits from any person or entity other than Westwood in connection with the provision of investment advice to clients.

Item 6 - Supervision

Brian Casey has been designated as the person responsible for supervising Mr. Lockridge's activities on behalf of Westwood and responding to questions concerning Mr. Lockridge's advisory activities. Mr. Casey can be reached directly by calling the telephone number on the cover of this brochure supplement.

Fred Rowsey

Item 2 – Educational Background and Business Experience

Born 1988

B.A., Economics, Harvard University (2010).

Mr. Fred G. Rowsey joined the firm in 2010 and serves as Vice President for the Adviser

Item 3 - Disciplinary Information

Mr. Rowsey has not been involved in any legal or disciplinary events that would be material to a client's or prospective client's evaluation of Mr. Rowsey or of Westwood.

Item 4 - Other Business Activities

Mr. Rowsey is not engaged in any other investment-related business, and he does not receive compensation in connection with any business activity outside of Westwood.

Item 5 - Additional Compensation

Mr. Rowsey does not receive economic benefits from any person or entity other than Westwood in connection with the provision of investment advice to clients.

Item 6 - Supervision

William Costello has been designated as the person responsible for supervising Mr. Rowsey's activities on behalf of Westwood and responding to questions concerning Mr. Rowsey's advisory activities. Mr. Costello can be reached directly by calling the telephone number on the cover of this brochure supplement.

Todd Williams

Item 2 – Educational Background and Business Experience

Born 1971

B.B.A., Finance, Southern Methodist University (1994)

Mr. Williams joined Westwood in 2002 and serves as a Senior Vice President and Director of Equity Research. Mr. Williams began his professional career with Textron Financial Corp. as a credit analyst. He has also worked with Methodist Hospital and Norsig & Associates as an analyst, and AMR Investments, Inc. as a portfolio manager and credit analyst.

Item 3 - Disciplinary Information

Mr. Williams has not been involved in any legal or disciplinary events that would be material to a client's or prospective client's evaluation of Mr. Williams or of Westwood.

Item 4 - Other Business Activities

Mr. Williams is not engaged in any other investment-related business, and he does not receive compensation in connection with any business activity outside of Westwood.

Item 5 - Additional Compensation

Mr. Williams does not receive economic benefits from any person or entity other than Westwood in connection with the provision of investment advice to clients.

Item 6 - Supervision

Matthew Lockridge has been designated as the person responsible for supervising Mr. Williams' activities on behalf of Westwood and responding to questions concerning Mr. Williams' advisory activities. Mr. Lockridge can be reached directly by calling the telephone number on the cover of this brochure supplement.

Hussein Adatia

Item 2 – Educational Background and Business Experience

Born 1983

B.S., Finance, New York University - Stern School of Business (2005)

Mr. Adatia, Vice President, joined Westwood in 2018 and previously served as a Research Analyst prior to becoming Portfolio Manager in 2019. Prior to joining Westwood, Mr. Adatia worked at Oaklawn Investments as a Managing Director from 2016 to 2018 and was responsible for researching, identifying and investing in a variety of credit products including bank loans, bonds and asset-backed securities. Prior to that, he worked for Archview Investment Group from 2008 until 2015 as a Senior Investment Analyst on the distressed credit team. Mr. Adatia began his career as an Investment Banking Analyst at Citigroup in the Global Communications Group and subsequently joined Citi's Global Special Situations Group where he focused on public market debt and equity investments.

Item 3 - Disciplinary Information

Mr. Adatia has not been involved in any legal or disciplinary events that would be material to a client's or prospective client's evaluation of Mr. Adatia or of Westwood.

Item 4 - Other Business Activities

Mr. Adatia is not engaged in any other investment-related business, and he does not receive compensation in connection with any business activity outside of Westwood.

Item 5 - Additional Compensation

Mr. Adatia does not receive economic benefits from any person or entity other than Westwood in connection with the provision of investment advice to clients.

Item 6 - Supervision

Adrian Helfert has been designated as the person responsible for supervising Mr. Adatia's activities on behalf of Westwood and responding to questions concerning Mr. Adatia's advisory activities. Mr. Helfert can be reached directly by calling the telephone number on the cover of this brochure supplement.

Scott Barnard

Item 2 – Educational Background and Business Experience

Born 1983

B.S., Finance, University of Colorado at Boulder, Boulder, CO (2006)

Mr. Scott Barnard, CFA, has served as Vice President for the Adviser since joining the Adviser in 2020. Prior to joining the Adviser, Mr. Barnard was an Associate Portfolio Manager at Amundi Pioneer. Mr. Barnard helped design, launch and manage numerous customized investment solutions for both institutional and retail clients during his time at Amundi Pioneer. During his 14-year Amundi tenure, Mr. Barnard also co-created a risk management solution that was utilized across the entire firm for all fixed income portfolios.

Item 3 - Disciplinary Information

Mr. Barnard has not been involved in any legal or disciplinary events that would be material to a client's or prospective client's evaluation of Mr. Barnard or of Westwood.

Item 4 - Other Business Activities

Mr. Barnard is not engaged in any other investment-related business, and he does not receive compensation in connection with any business activity outside of Westwood.

Item 5 - Additional Compensation

Mr. Barnard does not receive economic benefits from any person or entity other than Westwood in connection with the provision of investment advice to clients.

Item 6 - Supervision

Adrian Helfert has been designated as the person responsible for supervising Mr. Barnard's activities on behalf of Westwood and responding to questions concerning Mr. Barnard's advisory activities. Mr. Helfert can be reached directly by calling the telephone number on the cover of this brochure supplement.

Christopher Hartman

Item 2 – Educational Background and Business Experience

Born 1970

M.B.A., Finance, Benedictine University, Lisle, IL (1997)

B.A., Economics, Southern Illinois University, Carbondale, IL (1992)

Mr. Christopher Hartman has served as Vice President for the Adviser since joining the Adviser in 2021. Prior to joining the Adviser, Mr. Hartman served as a Senior Portfolio Manager – Convertible Arbitrage at Aegon Asset Management in Chicago, where he was responsible for portfolio management of Aegon Asset Management Market Neutral Fund and the Legacy Convertible Insurance product strategy. Prior to that, Mr. Hartman worked for Calamos Investments.

Item 3 - Disciplinary Information

Mr. Hartman has not been involved in any legal or disciplinary events that would be material to a client's or prospective client's evaluation of Mr. Hartman or of Westwood.

Item 4 - Other Business Activities

Mr. Hartman is not engaged in any other investment-related business, and he does not receive compensation in connection with any business activity outside of Westwood.

Item 5 - Additional Compensation

Mr. Hartman does not receive economic benefits from any person or entity other than Westwood in connection with the provision of investment advice to clients.

Item 6 - Supervision

Adrian Helfert has been designated as the person responsible for supervising Mr. Hartman's activities on behalf of Westwood and responding to questions concerning Mr. Hartman's advisory activities. Mr. Helfert can be reached directly by calling the telephone number on the cover of this brochure supplement.

Adrian Helfert

Item 2 – Educational Background and Business Experience

Born 1972

B.A., Physics, University of Virginia, Charlottesville, VA (1998)

M.B.A, Finance, Duke University, Durham, NC (2004)

Mr. Helfert has served as Senior Vice President and Director of Multi-Asset Portfolios since January 2019. Prior to joining Westwood, he most recently served as Managing Director and Senior Multi-Asset Portfolio Manager at Amundi in London, where he was responsible for Global Fixed Income strategies. During Mr. Helfert's 13-year Amundi tenure, he also was an investment team leader on absolute return, unconstrained and total return portfolios. Prior to joining Amundi, Mr. Helfert worked at Royal Bank of Scotland, Fidessa and JPMorgan's Asset Management Group.

Item 3 - Disciplinary Information

Mr. Helfert has not been involved in any legal or disciplinary events that would be material to a client's or prospective client's evaluation of Mr. Helfert or of Westwood.

Item 4 - Other Business Activities

Mr. Helfert also serves as the Chief Investment Officer for Westwood's Wealth Management division which consists of affiliated firms Westwood Advisors, LLC and Westwood Trust. Mr. Helfert is not engaged in any other investment-related business and he does not receive compensation in connection with any business activity outside of Westwood and its affiliates.

Item 5 - Additional Compensation

Mr. Helfert does not receive economic benefits from any person or entity other than Westwood in connection with the provision of investment advice to clients.

Item 6 - Supervision

Brian Casey has been designated as the person responsible for supervising Mr. Helfert's activities on behalf of Westwood and responding to questions concerning Mr. Helfert's advisory activities. Mr. Casey can be reached directly by calling the telephone number on the cover of this brochure supplement.

Frank T. Gardner III

Item 2 – Educational Background and Business Experience

Born 1973

B.B.A., University of Texas (1994)

University of St. Thomas (2004)

Mr. Ted Gardner serves as Senior Vice President and Portfolio Manager in the energy infrastructure complex at Westwood. Prior to joining the firm he served as portfolio manager and director of research at RDG Capital LLC, a Houston-based asset management firm specializing in energy infrastructure, prior to its acquisition by Salient Partners, L.P. in 2011. Previously, he served as a research analyst with Raymond James and Associates covering approximately 35 MLPs in the pipeline, midstream, propane, maritime, and coal industries.

Item 3 - Disciplinary Information

Mr. Gardner has not been involved in any legal or disciplinary events that would be material to a client's or prospective client's evaluation of Mr. Gardner or of Westwood.

Item 4 - Other Business Activities

Mr. Gardner has been Senior Portfolio Manager for Westwood Holdings Group, Inc. since November 2022.

Westwood Holdings Group, Inc. is the owner of, or has an ownership interest in, Westwood Management Corp.; Westwood Advisors, LLC; Salient Advisors, L.P.; Broadmark Asset Management LLC; and The Salient Zarvona Energy Fund GP, L.P. ("Affiliated Advisers") as well as other financial services firms. Mr. Gardner is SVP of Westwood Management Corp. as well as an officer and/or employee of the Affiliated Advisers and a shareholder of Westwood Holdings Group, Inc.

Affiliated persons of the Adviser provide investment advice to affiliated mutual funds, private funds and other pooled investment vehicles ("Affiliated Funds"). When appropriate to the needs of clients, Mr. Gardner may recommend (or invest) client assets in the Affiliated Funds. In such instances, the Adviser, an Affiliated Adviser and/or affiliated persons of the Adviser may receive additional compensation. This presents a conflict of interest due to the incentive to recommend Affiliated Funds based on the receipt of direct or indirect compensation by Mr. Gardner. Subject to a written agreement, Mr. Gardner may receive compensation for referring prospective investors to Affiliated Funds. Such agreements will comply with the requirements set out in Rule 206(4)-3 of the Investment Advisers Act of 1940, including (among other things) the requirement that the relationship between the solicitor and the investment adviser be disclosed to the client at the time of the solicitation or referral. Referral fees are a percentage of the annual management fee earned on the individual capital account of referred investors and represent no additional expenses to such investor's account. Salient Advisors, L.P. is registered with the Commodity Futures Trading Commission ("CFTC") as a commodity pool operator ("CPO") and is a member of the National Futures Association ("NFA"). Broadmark Asset Management LLC is registered with the CFTC as a commodity trading advisor ("CTA") and is a

member of the NFA. Affiliated persons of the Adviser are principals and/or affiliated persons of the CTAs/CPO. Mr. Gardner is a registered representative of an affiliated broker-dealer, Salient Capital, L.P. Salient Capital, L.P. serves as placement agent for Affiliated Funds for which the Adviser or an Affiliated Adviser serves as investment adviser and/or general partner or managing member. Neither the Adviser nor investment managers it recommends will use Salient Capital, L.P. to place trades in client accounts. However, Mr. Gardner, in his separate capacity, can effect securities transactions for which he may receive separate, yet customary compensation. Such transactions include the sale of interests in Affiliated Funds managed by the Adviser or Affiliated Advisers. While the Adviser and Mr. Gardner endeavor at all times to put the interest of the clients first as part of their fiduciary duty, clients should be aware that the receipt of additional compensation from Salient Capital, L.P. creates a conflict of interest, and may affect the judgment of Mr. Gardner when making recommendations.

Mr. Gardner is an owner of RDG Capital Holdings, LP. RDG Capital Holdings, LP is not affiliated with Westwood Management Corp. Pursuant to an agreement between RDG and Westwood Holdings Group, Inc., Mr. Gardner receives a share of the investment management fees for certain advisory accounts of Westwood Management Corp. previously managed by a predecessor advisory firm with which Mr. Gardner was associated. This arrangement represents a potential conflict of interest because it creates an incentive to favor some accounts over other accounts. Westwood mitigates this conflict primarily through disclosure and through ongoing oversight of accounts.

Item 5 - Additional Compensation

Except as described above, Mr. Gardner does not receive economic benefits from any person or entity other than Westwood in connection with the provision of investment advice to clients.

Item 6 - Supervision

Matthew Lockridge has been designated as the person responsible for supervising Mr. Gardner's activities on behalf of Westwood and responding to questions concerning Mr. Gardner's advisory activities. Mr. Lockridge can be reached by calling the telephone number on the cover of this brochure supplement.

Gregory A. Reid

Item 2 – Educational Background and Business Experience

Born 1965

Texas A&M University, B.B.A., 1987
Northwestern University, M.B.A., 1991

Gregory A. Reid is the President of Real Assets at Westwood Group in Houston and manages public and private energy investments. Prior to Salient being acquired by Westwood in 2022, Mr. Reid served as the President of Salient Partners from 2011 to 2022 and served as the President of Energy and Real Assets. Prior to Salient, Greg was the Founder and CEO of RDG Capital, LLC, a Houston-based asset and wealth management firm specializing in MLP investments and wealth management and he was the Managing Partner of the Texas office for Telemus Capital Partners.

Item 3 - Disciplinary Information

Mr. Reid has not been involved in any legal or disciplinary events that would be material to a client's or prospective client's evaluation of Mr. Reid or of Westwood.

Item 4 - Other Business Activities

Westwood Holdings Group, Inc. is the owner of, or has an ownership interest in, Westwood Management Corp.; Westwood Advisors, LLC; Salient Advisors, L.P.; Broadmark Asset Management LLC; and The Salient Zarvona Energy Fund GP, L.P. ("Affiliated Advisers") as well as other financial services firms. Mr. Reid is President of Real Assets for Westwood Management Corp. as well as an officer and/or employee of the Affiliated Advisers and a shareholder of Westwood Holdings Group, Inc.

Affiliated persons of the Adviser provide investment advice to affiliated mutual funds, private funds and other pooled investment vehicles ("Affiliated Funds"). When appropriate to the needs of clients, Mr. Reid may recommend (or invest) client assets in the Affiliated Funds. In such instances, the Adviser, an Affiliated Adviser and/or affiliated persons of the Adviser may receive additional compensation. This presents a conflict of interest due to the incentive to recommend Affiliated Funds based on the receipt of direct or indirect compensation. Subject to a written agreement, Mr. Reid may receive compensation for referring prospective investors to Affiliated Funds. Such agreements will comply with the requirements set out in Rule 206(4)-3 of the Investment Advisers Act of 1940, including (among other things) the requirement that the relationship between the solicitor and the investment adviser be disclosed to the client at the time of the solicitation or referral. Referral fees are a percentage of the annual management fee earned on the individual capital account of referred investors and represent no additional expenses to such investor's account. Salient Advisors, L.P. is registered with the Commodity Futures Trading Commission ("CFTC") as a commodity pool operator ("CPO") and is a member of the National Futures Association ("NFA"). Broadmark Asset Management LLC is registered with the CFTC as a commodity trading advisor ("CTA") and is a member of the NFA. Affiliated persons of the Adviser

are principals and/or affiliated persons of the CTAs/CPO. Mr. Reid is a registered representative of an affiliated broker-dealer, Salient Capital, L.P. Salient Capital, L.P. serves as placement agent for Affiliated Funds for which the Adviser or an Affiliated Adviser serves as investment adviser and/or general partner or managing member. Neither the Adviser nor investment managers it recommends will use Salient Capital, L.P. to place trades in client accounts. However, Mr. Reid, in his separate capacity, can effect securities transactions for which he may receive separate, yet customary compensation. Such transactions include the sale of interests in Affiliated Funds managed by the Adviser or Affiliated Advisers. While the Adviser and Mr. Reid endeavor at all times to put the interest of the clients first as part of their fiduciary duty, clients should be aware that the receipt of additional compensation from Salient Capital, L.P. creates a conflict of interest, and may affect the judgment of Mr. Reid when making recommendations.

Mr. Reid is an owner of RDG Capital Holdings, LP. RDG Capital Holdings, LP is not affiliated with Westwood Management Corp. Pursuant to an agreement between RDG and Westwood Holdings Group, Inc., Mr. Reid receives a share of the investment management fees for certain advisory accounts of Westwood Management Corp. previously managed by a predecessor advisory firm with which Mr. Reid was associated. Additionally, through RDG, Mr. Reid also receives carried interest from private funds advised and managed by Westwood's affiliate, Westwood Advisors, for which Mr. Reid serves as portfolio manager. These arrangements represents a potential conflict of interest because they create an incentive to favor some accounts over other accounts. Westwood mitigates this conflict primarily through disclosure and through ongoing oversight of accounts.

Item 5 - Additional Compensation

Except as described above, Mr. Reid does not receive economic benefits from any person or entity other than Westwood in connection with the provision of investment advice to clients.

Item 6 - Supervision

Adrian Helfert has been designated as the person responsible for supervising Mr. Reid's activities on behalf of Westwood and responding to questions concerning Mr. Reid's advisory activities. Mr. Helfert can be reached by calling the telephone number on the cover of this brochure supplement.

Parag Sanghani

Item 2 – Educational Background and Business Experience

Born 1980

B.B.A., University of Texas, Austin, Texas (2002)

M.S., Finance, London Business School, (2010)

Mr. Parag Sanghani serves as Senior Vice President and Senior Portfolio Manager in the Energy infrastructure team at Westwood after joining Westwood as part of its acquisition of the asset management business of Salient Partners, LP. He has over a decade of experience in the financial services industry and specializes in energy infrastructure and related securities. Prior to joining Salient Partners, L.P. in 2011, Mr. Sanghani served as Senior MLP Analyst at Telemus from 2008 to 2009. Earlier in his career, he was a Senior Research Associate at Raymond James Financial, Inc., where he published detailed research on the energy industry and was responsible for coverage of 17 companies across the oil services and coal sectors. He is a CFA® charterholder and is a member of CFA® Society of Houston.

Item 3 - Disciplinary Information

Mr. Sanghani has not been involved in any legal or disciplinary events that would be material to a client's or prospective client's evaluation of Mr. Sanghani or of Westwood.

Item 4 - Other Business Activities

Westwood Holdings Group, Inc. is the owner of, or has an ownership interest in, Westwood Management Corp.; Westwood Advisors, LLC; Salient Advisors, L.P.; Broadmark Asset Management LLC; and The Salient Zarvona Energy Fund GP, L.P. ("Affiliated Advisers") as well as other financial services firms. Mr. Sanghani is SVP of Westwood Management Corp. as well as an officer and/or employee of the Affiliated Advisers and a shareholder of Westwood Holdings Group, Inc.

Affiliated persons of the Adviser provide investment advice to affiliated mutual funds, private funds and other pooled investment vehicles ("Affiliated Funds"). When appropriate to the needs of clients, Mr. Sanghani may recommend (or invest) client assets in the Affiliated Funds. In such instances, the Adviser, an Affiliated Adviser and/or affiliated persons of the Adviser may receive additional compensation. This presents a conflict of interest due to the incentive to recommend Affiliated Funds based on the receipt of direct or indirect compensation by Mr. Sanghani. Subject to a written agreement, Mr. Sanghani may receive compensation for referring prospective investors to Affiliated Funds. Such agreements will comply with the requirements set out in Rule 206(4)-3 of the Investment Advisers Act of 1940, including (among other things) the requirement that the relationship between the solicitor and the investment adviser be disclosed to the client at the time of the solicitation or referral. Referral fees are a percentage of the annual management fee earned

on the individual capital account of referred investors and represent no additional expenses to such investor's account. Salient Advisors, L.P. is registered with the Commodity Futures Trading Commission ("CFTC") as a commodity pool operator ("CPO") and is a member of the National Futures Association ("NFA"). Broadmark Asset Management LLC is registered with the CFTC as a commodity trading advisor ("CTA") and commodity pool operator and is a member of the NFA. Affiliated persons of the Adviser are principals and/or affiliated persons of the CTAs/CPO. Mr. Sanghani is a registered representative of an affiliated broker-dealer, Salient Capital, L.P. Salient Capital, L.P. serves as placement agent for Affiliated Funds for which the Adviser or an Affiliated Adviser serves as investment adviser and/or general partner or managing member. Neither the Adviser nor investment managers it recommends will use Salient Capital, L.P. to place trades in client accounts. However, Mr. Sanghani, in his separate capacity, can effect securities transactions for which he may receive separate, yet customary compensation. Such transactions include the sale of interests in Affiliated Funds managed by the Adviser or Affiliated Advisers. While the Adviser and Mr. Sanghani endeavor at all times to put the interest of the clients first as part of their fiduciary duty, clients should be aware that the receipt of additional compensation from Salient Capital, L.P. creates a conflict of interest, and may affect the judgment of Mr. Sanghani when making recommendations.

Mr. Sanghani is an owner of RDG Capital Holdings, LP. RDG Capital Holdings, LP is not affiliated with Westwood Management Corp. Pursuant to an agreement between RDG and Westwood Holdings Group, Inc., Mr. Sanghani receives a share of the investment management fees for certain advisory accounts of Westwood Management Corp. previously managed by a predecessor advisory firm with which Mr. Sanghani was associated. This arrangement represents a potential conflict of interest because it creates an incentive to favor some accounts over other accounts. Westwood mitigates this conflict primarily through disclosure and through ongoing oversight of accounts.

Item 5 - Additional Compensation

Except as described above, Mr. Sanghani does not receive economic benefits from any person or entity other than Westwood in connection with the provision of investment advice to clients.

Item 6 - Supervision

Matthew Lockridge has been designated as the person responsible for supervising Mr. Sanghani's activities on behalf of Westwood and responding to questions concerning Mr. Sanghani's advisory activities. Mr. Lockridge can be reached by calling the telephone number on the cover of this brochure supplement.

Privacy Notice

FACTS - What does Westwood do with your personal information?

WHY? Financial companies choose how they share your personal information. Federal law gives consumers the right to limit some but not all sharing. Federal law also requires us to tell you how we collect, share, and protect your personal information. Please read this notice carefully to understand what we do.

WHAT? The types of personal information we collect and share depend on the product or service you have with us. This information may include:

- Social Security Number
- Income
- Assets
- Investment Experience
- Account Transactions
- Risk Tolerance

HOW? All financial companies need to share customers’ personal information to run their everyday business. In the section below, we list the reasons financial companies can share their customers’ personal information; the reasons Westwood chooses to share; and, whether you can limit this sharing.

Reasons we can share your personal information	Does Westwood share?	Can you limit this sharing?
For our everyday business purposes - such as to process your transactions, maintain your account(s) or respond to court orders and legal investigations	Yes	No
For our marketing purposes - to offer our products and services to you	Yes	Yes
For joint marketing with other financial companies	Yes	No
For our affiliates’ everyday business purposes - information about your transactions and experiences	Yes	No
For our affiliates’ everyday business purposes - information about your creditworthiness	Yes	Yes
For our affiliates to market to you	Yes	Yes
For non-affiliates to market to you	Yes	Yes

Additional information

For more details on how we protect your personal information, please visit our website at <https://westwoodgroup.com/privacy-policy/>

If you have questions or want to limit our sharing or marketing to you:

For Westwood Trust or Westwood Advisors, LLC clients, call Julie Cooper at 214.624.9621. For Westwood Management clients, call Rolanda Williams at 214.756.6930.

Please note: If you are a new customer, we can begin sharing your information 30 days from the date we sent this notice. When you are no longer our customer, we continue to share your information as described in this notice. However, you can contact us at any time to limit our sharing.

Mail-in Form

If you have a joint account, your choice(s) will apply to everyone on your account unless you mark below.

- Apply my choices only to me
- Apply my choices only to my joint account holder

Mark any/all you want to limit:

- Do not use my personal information to market to me.
- Do not allow any of your affiliates to use my personal information to market to me.

Name

Mail to:

Westwood Holdings Group, Inc.
 ATTN: Data Privacy Group
 200 Crescent Court
 Suite 1200, Dallas, Texas 75201

Who is providing this notice? Westwood Holdings Group, Westwood Management Corp., Westwood Trust, Westwood Advisors, LLC, Salient Capital, LP, Salient Advisors, LP and Broadmark Asset Management, LLC.

How does Westwood protect my personal information? To protect your personal information from unauthorized access and use, we use security measures that comply with federal law. These measures include computer safeguards and secured files and buildings.

How does Westwood collect my personal information? We collect your personal information, for example, when you

- Open an account
- Seek Financial Advice
- Seek Advice about your investments
- Tell us about your investment or retirement portfolio
- Give us your employment history

Why can't I limit all sharing? Federal law gives you the right to limit only

- Sharing for affiliates' everyday business purposes - information about your creditworthiness
- Affiliates from using your information to market to you
- Sharing for non-affiliates to market to you

State laws and individual companies may give you additional rights to limit sharing.

What happens when I limit sharing for an account I hold jointly with someone else? Your choices will apply to everyone on your account - unless you tell us otherwise.

How can I limit the Westwood's Affiliates' marketing to me? You can limit the Affiliates' ability to market products and services to you based on your personal information (such as your income or account history) that they receive from us or other Affiliates by returning the form on the first page of this notice.

How long does my election to limit the Affiliates' marketing remain in effect? Your election to limit marketing to you by our Affiliates will continue indefinitely, until you notify us to change your election.

Definitions

Affiliates: Companies related by common ownership or control. They can be financial and non-financial companies. Our affiliates include Westwood Management Corp., Westwood Trust, Westwood Advisors, LLC, Broadmark Asset Management, LLC, Salient Advisors, LP, and Salient Capital, LP.

Non-Affiliates: Companies not related by common ownership or control. They can be financial and non-financial companies. Westwood only shares information with non-affiliates with your consent or for our or our affiliates' everyday business purposes.

Joint Marketing: A formal agreement between non-affiliated financial companies that together market financial products or services to you. Westwood Trust and Westwood Advisors, LLC enter into joint marketing agreements with unaffiliated financial companies, but these agreements prohibit disclosure of your nonpublic personal information except as may be permitted by applicable law.

Other Important Information

Westwood Trust Department of Banking Disclaimer: Westwood Trust is chartered under the laws of the State of Texas and by state law is subject to regulatory oversight by the Texas Department of Banking. Any consumer wishing to file a complaint against Westwood Trust should contact the Texas Department of Banking through one of the means indicated below:

Privacy Notice Supplement

Because Your Trust Is So Important

This PRIVACY NOTICE supplements the information contained in the Privacy Statement of Westwood Holdings Group, Inc. ("WHG") and its subsidiaries. This Privacy Notice describes the processing of Personal Information that is provided, collected, or shared in connection with our relationship with you, including through this website ("Site"). Your trust is the cornerstone of our relationship. That is why we work so diligently to safeguard your privacy. The information that you provide us is kept in the strictest of confidence. We have no intentions of selling personal information about our clients to third-party businesses. We are proud to make that commitment to you, because your trust is the foundation of our business.

Additionally, this notice is intended to comply with the **California Consumer Privacy Act of 2018**, as amended by the **California Privacy Rights Act of 2020 (collectively, the "CCPA")**, other California privacy laws, and the laws of various states with substantially similar pending or passed legislation. The CCPA was enacted to protect the personal information of California residents. Any terms defined in the CCPA have the same meaning when used in this notice.

All business lines and all employees are expected to adhere to our policies regarding information security. In addition to our Privacy Notice, the following provides further detail on how we use and protect our clients' information. We ask that you read it carefully.

Westwood, we, our, and us, when used in this supplement, shall mean Westwood Holdings Group, Inc., Westwood Management Corp., Westwood Trust, Westwood Advisors, LLC.

You and your, when used in this supplement, shall mean all current and former Westwood clients, prospects, and consumers who have shared personal information with Westwood.

We do not respond to **Do Not Track ("DNT")** signals sent to us by your browser at this time. To learn more about how DNT works, please visit <http://allaboutdnt.com/>.

The Information We Collect

We collect personal information in connection with providing a financial product or service to you. To help the government fight the funding of terrorism and money laundering activities, federal law requires all financial institutions to obtain, verify, and record information that identifies each person who opens an account. Therefore, when you open an account, we collect information that identifies, relates to, describes, is capable of being associated with, or could reasonably be linked, directly or indirectly, with a particular consumer or household ("personal information"). In particular, if indicated with a "yes" below, we have collected the categories of personal information from consumers within the last twelve (12) months:

Category	Categories of Third Parties to Which We Disclose Personal Information for a Business or Commercial Purpose	Categories of Third Parties to Which We May Sell or Share Personal Information	Retention Period
<p>Identifiers.</p> <p>A real name, alias, postal address, unique personal identifiers, online identifier, Internet Protocol address, email address, account name, Social Security number, driver’s license number, passport number, or other similar identifiers.</p>	<p>Affiliates and third-party vendors</p>	<p>We do share this category of personal information. We do not sell this category of Personal Information.</p>	
<p>Personal information categories listed in the California Customer Records statute (Cal. Civ. Code § 1798.80([e])).</p> <p>A name, signature, Social Security number, physical characteristics or description, address, telephone number, passport number, driver’s license or state identification card number, insurance policy number, education, employment, employment history, bank account number, credit card number, debit card number, or any other financial information, medical information, or health insurance information. Some personal information included in this category may overlap with other categories.</p>	<p>Affiliates and third-party vendors</p>	<p>We do share this category of personal information. We do not sell this category of Personal Information.</p>	
<p>Protected classification characteristics under California or federal law.</p> <p>Age (40 years or older), race, color, ancestry, national origin, citizenship, religion or creed, marital status, medical condition, physical or mental disability, sex (including gender, gender identity, gender expression, pregnancy or childbirth and related medical conditions), sexual orientation, veteran or military status, genetic information (including familial genetic information).</p>			
<p>Commercial information.</p>	<p>Affiliates and third-party vendors</p>	<p>We do not sell or share this category of Personal Information.</p>	
<p>Professional or employment related information.</p> <p>Records of personal property, products or services purchased, obtained, or considered, or other purchasing or consuming histories or tendencies.</p>	<p>Affiliates and third-party vendors</p>	<p>We do not sell or share this category of Personal Information.</p>	

We retain Personal Information for as long as we reasonably require it for business and legal purposes. In determining data retention periods, WHG considers contractual and legal obligations, and the expectations and requirements of customers, vendors, suppliers and others who share their Personal Information with us. When we no longer need Personal Information, we securely delete or destroy it.

Personal information does not include:

- Information lawfully made available in government records, such that it is considered publicly available.
- De-identified or aggregated consumer information.
- Information excluded from the CCPA's scope, such as:
 - Health or medical information covered by the Health Insurance and Portability Accountability Act of 1996 (HIPAA) and the California Confidentiality of Medical Information Act (CMIA) or clinical trial data;
 - Personal information covered by certain sector-specific privacy laws, including the Fair Credit Reporting Act (FRCA), the Gramm-Leach-Bliley Act (GLBA) or California Financial Information Privacy Act (FIPA), and the Driver's Privacy Protection Act of 1994.

Use of Personal Information

The reasons that we can share your personal information are set out in the Privacy Notice above. In addition, we may use or disclose the personal information we collect for one or more of the following business purposes:

- To fulfill or meet the reason for which the information is provided. For example, if you provide us with personal information in order for us to determine risk tolerance, we will use that information to determine risk tolerance and an appropriate investment strategy.
- To improve our website performance and how its contents are presented to you.
- For analyzing current products and services and for product development.
- As necessary or appropriate to protect the rights, property or safety of us, our clients, or others.
- To respond to law enforcement requests and as required by applicable law, court order, or governmental regulations.
- As described to you when collecting your personal information or as otherwise set forth in the CCPA.

To evaluate or conduct a merger, divestiture, restructuring, reorganization, dissolution, or other sale or transfer of some or all of our assets, whether as a going concern or as part of bankruptcy, liquidation, or similar proceeding, in which personal information held by us is among the assets transferred. We will not collect additional categories of personal information or use the personal information we collect for materially different, unrelated, or incompatible purposes without providing you notice.

How we Collect Personal Information

We collect your Personal Information in a variety of ways:

- **We May Collect Your Personal Information Directly From You.** For example, if you request information from us.
- **We May Also Collect Personal Information From Third Parties.** For example, we may work with business partners, advertising networks, analytics providers, and search information providers, who may provide us with Personal Information about you.

Protecting Personal Information

Destruction of Sensitive Data. All records and data are properly shredded prior to disposal. Destruction of documents is handled by authorized employees and/or bonded companies when the shredding of large quantities of documents is required.

The Confidentiality, Security, and Integrity of Your Information. At Westwood, we restrict access to information about you to those employees who need to know that information in order to provide products and services to you. We maintain physical, electronic, and procedural safeguards to protect this information. We also understand that clients play a critical role in the protection of online accounts from protecting passwords to keeping your computer updated and patched. We share occasional insights on our cybersecurity site that may be of interest in this regard.

Social Media

Westwood and select Westwood employees maintain profiles and/or pages on various social media platforms, including Twitter, Facebook, YouTube, Google+, Google My Business and LinkedIn (such social media platforms and any similar social media platforms added in the future are referred to hereinafter as the "platforms"). If you choose to "Follow" Westwood on any platforms or take any similar action on another similar platform, you are providing your consent to receive informational updates, including solicitations, from Westwood. To stop receiving this information from Westwood on a platform, you must follow the procedure established by the platform. For example, on Twitter, you must click "Unfollow" on Westwood's profile page.

Retention of Personal Information

We will retain your Personal Information for as long as necessary to fulfill the purposes for which it has been collected, as outlined in this Privacy Notice, or any longer retention period required by law. If you are a California resident, please see the section below titled Notice to California Residents for additional information about how long we retain your Personal Information.

International Use of the Site

The Site is hosted in the United States. If you are visiting this Site from outside of the United States, please note that by providing your Personal Information it is being transferred to, stored, collected, or processed in the United States, where our data center and servers are located and operated.

Links to Third-Party Websites

We are not responsible for the practices employed by any websites or services linked to or from the Site, including the information or content contained within them. We encourage you to investigate and ask questions before disclosing Personal Information to third parties, since any Personal Information disclosed will be subject to the applicable third party's Privacy Notice.

Children

Our Site is not directed at children under the age of 16. We do not knowingly collect Personal Information from children under 16. |

Data Subject Rights

Depending on your state of residency, you may have one or more of the following rights with respect to your personal information:

- **Notice:** You may have the right to be notified of what categories of Personal Information will be collected at or before the point of collection and the purposes for which they will be used and shared.
- **Access:** You may have the right to know what Personal Information we have collected about you and to access such data.
- **Data Portability:** You may have the right to receive a copy of your Personal Information in a portable and readily usable format.
- **Deletion:** You may have the right to delete your Personal Information that we have obtained, subject to certain exceptions.
- **Correction:** You may have the right to correct inaccuracies in your Personal Information.
- **Opt out of certain processing:** You may have the right to opt out of the processing of your Personal Information for purposes of (i) targeted advertising, (ii) the selling or sharing of your Personal Information; or (iii) profiling in furtherance of decisions that produce legal or similarly significant effect concerning you.
- **Limit Use of Sensitive Personal Information:** You may have the right to limit certain uses of Sensitive Personal Information.

To exercise any of these rights available to you, please submit your request through via the options described in the “Exercising Your Rights and Choices” section below. If you are not satisfied with the resolution of your request and you are afforded a right to appeal such decision, you will be notified of our appeal process in our response to your request.

To opt out of marketing emails, you can use the unsubscribe link found in the email communication you receive from us. You may also use the “Contact Us” option within the relevant service to opt out and elect not to receive further emails from us. Please note that, even if you unsubscribe from certain correspondence, we may still need to contact you with important transactional or administrative information, as permitted by law.

Additionally, if you withdraw your consent or object to processing, or if you choose not to provide certain Personal Information, we may be unable to provide some or all of our services to you.

Exercising Your Rights and Choices

To exercise the access and deletion rights described above, please submit a verifiable consumer request to us by either:

- Calling us at 214.756.6900
- Visiting www.westwoodgroup.com

Verification

Only the Consumer or a person legally authorized to act on the Consumer's behalf may make a verifiable consumer request related to personal information. A Consumer may also make a verifiable consumer request on behalf of a minor child.

A Consumer may only make a verifiable consumer request for access twice within a 12-month period. The verifiable consumer request must:

- Provide sufficient information that allows us to reasonably verify the Consumer is the person about whom we collected personal information or an authorized representative.
- Describe the Consumer's request with sufficient detail that allows us to properly understand, evaluate, and respond to it.

We cannot respond to a Consumer's request or provide the Consumer with personal information if we cannot verify the Consumer's identity or authority to make the request and confirm the personal information relates to such Consumer. Making a verifiable consumer request does not require a Consumer to create an account with us. We will only use personal information provided in a verifiable consumer request to verify the requestor's identity or authority to make the request.

The Consumer will be notified if we are unable to verify their identity or authority to make the request.

We will not discriminate against a Consumer for exercising any CCPA rights. Unless permitted by the CCPA, we will not:

- Deny the Consumer goods or services.
- Charge the Consumer different prices or rates for goods or services, including through granting discounts or other benefits, or imposing penalties.
- Provide the Consumer a different level of quality of goods or services.
- Suggest that the Consumer may receive a different price or rate for goods or services or a different level or quality of goods or services.

Response Timing and Format

We endeavor to respond to requests within the time period required by applicable law. If we require more time, we will inform you of the reason and extension period in writing. We do not charge a fee to process or respond to a Consumer's verifiable consumer request unless it is excessive, repetitive, or unfounded. If we determine that the request warrants a fee, we will tell the Consumer why we made that decision and provide a cost estimate before completing the request.

California Shine the Light Law

Under California Civil Code Section 1798.83, individual customers who reside in California and who have an existing business relationship with us may request information about our disclosure of certain categories of personal information to third parties for the third parties' direct marketing purposes, if any. To make such a request, please contact us using the information in the Contact Us section below. Please be aware that not all information sharing is covered by these California privacy rights requirements and only information on covered sharing will be included in our response. This request may be made no more than once per calendar year.

Changes to Our Privacy Notice

We reserve the right to amend this privacy notice at our discretion and at any time. When we make changes to this privacy notice, we will provide notice through email or a posting on our website (www.westwoodgroup.com)

Contact Us

If you have any questions or comments about this notice, our Privacy Statement, the ways in which we collect and use your personal information, your choices and rights regarding such use, or wish to exercise your rights under the CCPA, please contact us at:

WESTWOOD MANAGEMENT CORPORATION POLICIES AND PROCEDURES FOR PROXY VOTING

Policy

Westwood has engaged Broadridge for proxy voting services and Glass Lewis for proxy research for our clients. Broadridge is a leading provider to the global financial industry for full-service proxy support. Glass Lewis provides complete analysis and voting recommendations on all proposals and is designed to assist investors in mitigating risk and improving long-term value. In most cases, we agree with the recommendations of Glass Lewis, however, ballots are reviewed bi-monthly by our analysts and we may choose to vote differently than Glass Lewis if we believe it is in the best interest of our clients.

Procedures

With respect to proxy record keeping, Westwood maintains complete files for all clients. These files include a listing of all proxy material sent on behalf of our clients along with individual copies of each response. Client access to these files can be arranged upon request. A summary of voting is sent to each client on an annual basis.
