**Item 4 – Advisory Business**

**Introduction**

Principal AM is a diversified global asset management organization providing an expanded range of diverse investment capabilities through a network of specialized investment teams and affiliates. Capabilities encompass an extensive range of equity, fixed income, currency, alternative investments, and asset allocation services. Principal AM, is an indirect wholly owned subsidiary of Principal Financial Group, Inc. (NASDAQ: PFG)

**Principal AM’s Services**

Principal AM provides investment advisory services to institutional investors and individuals on a discretionary or non-discretionary basis. Principal AM has divided its investment management operations into several distinct investment teams across equities, fixed income, currency, real estate, listed infrastructure, alternative investments, and asset allocation services. Principal AM also serves as an investment adviser for Principal Funds, Inc., Principal Variable Contracts, Inc., Principal Exchange-Traded Funds and, for the Scholars Edge 529 plan, Principal AM serves as investment manager. Principal AM also provides fund administration services for Principal Funds, Inc. and Principal Variable Contracts, Inc. Principal AM may hire affiliated or non-affiliated investment advisers to provide discretionary investment advisory services in a sub-advisory capacity. For example, Principal AM serves as a “manager of managers” on behalf of certain Principal Funds. In its capacity as a manager of managers, Principal AM recommends the hiring and firing of sub-advisory firms and provides ongoing oversight of such sub-advisory firms in connection with the services provided to the Principal Funds.

Principal AM also provides additional investment services to clients as described more fully in the Principal Global Advisors section in “Item 5 – Fees and Compensation.”

Principal AM generally provides continuous investment advice based on the defined investment strategies, objectives, and policies of its clients. These arrangements are documented through an investment management agreement, investment policy statement, or investment guidelines, which incorporate investment management restrictions and guidelines developed in consultation with each client, as well as any additional services required by the client. These restrictions and guidelines customarily impose limitations on the types of securities that may be purchased and the percentage of account assets that may be invested in certain types of securities. Clients may also choose to restrict investment in specific securities or groups of securities for social, environmental, or other reasons. Principal AM also provides certain non-discretionary services to clients such as model portfolios.

Prospective clients or investors may also access our services indirectly by purchasing interests in Principal Funds or other commingled vehicles advised or sub-advised by Principal AM or an affiliate (e.g., private funds, collective investment trusts, exchange-traded funds (“ETFs”), or open-end or closed-end investment companies) rather than establishing a direct relationship through an investment management agreement.
Clients or investors should consider the features of these options and their own specific needs and circumstances when determining the most suitable investment and should carefully review the offering documents of these investment vehicles to understand the investment objectives, strategies, and risks of each vehicle.

Prospective clients or investors may also purchase our services indirectly by purchasing investment management or discretionary trustee services from Principal Trust Company or Principal Bank, rather than establishing a direct relationship through an investment management agreement.

For our private funds, investment advice is provided directly to the funds subject to the discretion and control of the funds’ general partners (or analogous party), and not to investors in the fund based upon their individual needs. Fund investors may have conflicting investment, tax, and other interests with respect to their investments in the fund. As a consequence, conflicts of interest may arise in connection with decisions made by Principal AM that may be more beneficial for one investor than for another investor, especially with respect to investors’ individual tax situations. In selecting and structuring investments appropriate for a private fund, Principal AM and the private fund’s general partner (or analogous party) will consider the investment and tax objectives of the applicable private fund, not the investment, tax, or other objectives of any investor individually.

Principal AM from time to time enters into side letter arrangements with certain investors in private funds. Side letters provide such investors with different or preferential rights or terms of the private fund. Such differences and preferences may include but are not limited to, different fund fee structures, and other preferential economic rights, information rights, waiver of certain confidentiality obligations, co-investment rights, redemption, certain rights or terms necessary in light of particular legal, regulatory or policy requirements of a particular investor, additional obligations and restrictions with respect to structuring particular investments in light of the legal and regulatory considerations applicable to a particular investor, or preferential liquidity or transfer rights. Except as otherwise agreed with an investor or otherwise set out in the private fund’s organization documents, Principal AM and its affiliates are not required to disclose the terms of side letter arrangements with other investors in the same private fund.

The organizational documents of a private fund establish complex arrangements among the funds, Principal AM, investors, and other relevant parties. From time to time, questions may arise regarding certain parties’ rights and obligations in certain situations, some of which may not have been contemplated upon the negotiation and execution of such documents. In some instances, the operative provisions of the organizational documents, if any, may be broad, silent on relevant provisions, conflicting, ambiguous, and vague and may allow for multiple reasonable interpretations.

While Principal AM will construe the relevant provisions in good faith and in a manner consistent with its fiduciary duty to the fund and legal obligations, the interpretations used may not be the most favorable to the private fund investors.

Services required by Principal AM’s private funds may, for certain reasons including efficiency and economic considerations, be outsourced in whole or in part to third parties, in each case at the discretion of Principal AM or their general partners (or analogous parties).
Principal AM and its affiliates have an incentive to outsource such services at the expense of the private funds to, among other things, leverage the use of Principal AM’s personnel.

Such services may include, without limitation, investor reporting, private fund administration and accounting, custodial, valuation, and legal. Outsourcing may not occur universally for all private funds and accordingly, certain costs may be incurred by one private fund for a third-party service provider that is not incurred for comparable services by other private funds.

**Separately Managed Accounts (“SMA”)/Wrap Programs**

Principal AM provides investment advisory services to a variety of managed account programs, including separately managed accounts or wrap fee programs, unified managed account programs, and model portfolio programs (collectively, “Managed Accounts”). There are several different types of Managed Account programs offered by third-party broker-dealers, banks, or other investment advisers affiliated with broker-dealers (“Program Sponsors”). In discretionary Managed Account programs, Principal AM is responsible for implementing its investment recommendations. Principal AM may handle the placement of trades for certain accounts with brokers other than the Program Sponsor or its affiliate(s) (e.g., through “step outs”), but typically the majority of trades will be directed to the Program Sponsor or its affiliate(s) for execution. In “Model-Delivery” Managed Account programs, Principal AM is retained by the Program Sponsor to provide non-discretionary research and portfolio recommendations that are not tailored to any program participant. The Program Sponsor has discretion to accept, modify, or reject Principal AM’s recommendations and assumes the responsibility to implement transactions for Managed Accounts. Principal AM generally does not have information regarding participants in Model-Delivery Managed Accounts.

Generally, for Managed Accounts comprised of ERISA plan clients, Principal AM’s services are ordinarily described in the ERISA plan client’s contract with the Program Sponsor and/or in the Program Sponsor’s program brochure.

**Asset Allocation Service**

Principal AM provides asset allocation advice and other investment advisory services to qualified retirement plans funded with annuity contracts purchased from Principal Life Insurance Company (“Principal Life”). These specific clients are contract holders of group variable annuity contracts issued by Principal Life. The clients, as annuity contract holders, have an option to invest in various separate accounts established by Principal Life. Principal AM acts as sub-adviser to Principal Trust Company and Principal Bank, providing asset allocation advice and other investment advisory services to institutional investors.
Services Provided to Non-U.S. Clients

Principal AM may also act as an investment adviser and may conduct marketing activity with respect to clients and prospective clients domiciled in foreign jurisdictions. In some instances, Principal AM may do so without maintaining regulatory licenses or registrations in those jurisdictions, to the extent permitted by applicable law.

Clients and prospective clients in such jurisdictions should consider whether the regulatory framework of their own jurisdiction imposes restrictions upon them regarding hiring an investment adviser that does not hold local regulatory licenses or registrations. Clients and prospective clients should also consider whether the regulatory framework to which Principal AM is subject provides sufficient protections given that Principal AM may not be subject to the regulatory framework with which they are familiar in their own jurisdiction.

Global Asset Management

Principal AM may utilize services from, and provide services to, our United States (U.S.). affiliates and non-U.S. affiliates. These services may include investment advisory services, client relations, investment monitoring, accounting administration, investment research, and trading. To facilitate this collaboration, Principal AM has entered into sub-advisory agreements, intercompany agreements, and “participating affiliate” arrangements with certain non-U.S. affiliates. Each U.S. affiliate is registered with the U.S. Securities and Exchange Commission (“SEC”) and each non-U.S. affiliate is registered with the appropriate respective regulators in their home jurisdictions. Under participating affiliate arrangements, certain employees of Principal AM’s non-U.S. affiliates serve as “associated persons” of Principal AM when providing certain of these services, including placing orders for clients, and in this capacity are subject to Principal AM’s oversight and supervision.

Assets Under Management

Principal AM managed $270,815,767,914 in discretionary assets and $8,292,728,777 in non-discretionary assets as of December 31, 2022.

Item 5 – Fees and Compensation

Principal AM’s fees generally depend on the services being provided. Principal AM offers its services for compensation based primarily on a percentage of assets under management or on a fixed fee basis. Principal AM may negotiate and charge different fees for different accounts. For example, Principal AM may consider a variety of factors when offering discounted fee schedules to certain clients, including but not limited to the totality of the client’s (and/or their affiliates’) relationship with Principal AM or its affiliates, the number of accounts managed, the size or asset level of the account(s), the nature of services rendered, the country of domicile, and any special requirements of the account(s) managed. For clients with whom Principal AM has agreed to provide the lowest fee rate charged to any other similarly situated client, all these factors,
including the totality of Principal AM’s relationship with a client and/or its affiliates, may be taken into consideration in determining whether a client is similarly situated to another. Principal AM may also consider the impact such arrangements could have on agreements that have previously been entered into with other clients.

In addition, fees and allocations are often fixed, fixed plus performance, or performance only. Certain fixed fees are required to be paid up front. For an additional discussion of performance-based fees and allocations, please refer to Item 6 (“Performance-Based Compensation and Side-by-Side Management”) of this Brochure.

When deciding whether to negotiate a particular fee, Principal AM may also consider its capacity to manage assets in a particular strategy. In addition, Principal AM may offer or make available to certain clients a specified asset level or capacity maximum that Principal AM will allow them to invest in a given strategy. The amount of capacity offered may impact fee negotiations. The negotiation of fees may result in similarly situated clients paying different fees for comparable advisory services.

**Fees for Institutional Clients Accounts**

**Equities Fee Schedules:**

Principal AM’s standard annual fees for investment management services are based on the fair market value of assets under management as outlined in the table below. Published fee schedules shown reflect unaffiliated client portfolios which are individually managed (segregated and discretionary) and subject to the stated minimum accounts sizes. Fees and minimum investment amounts in all categories and ranges can be subject to negotiation as appropriate and may be higher or lower than those described below.

**Fees for Private Funds**

The fees for private funds are called out more fully in the offering documents and may be negotiable based on the agreements between the investor and Principal Global Investors.
Typically, Principal AM Private Fund Investments have annual investment management fees up to 1.5% (calculated either as a percentage of the investor’s account value or as percentage of their invested capital in the Private Fund which typically decline based on the amount of assets invested. Additionally, funds typically pay for all organizational and/or start-up, operating and management costs.

In addition, Private Funds incur organizational and start-up expenses, general partner /management expenses, and expenses, fees and costs connected with the Private Fund’s operations. All of these fees and expenses incurred by Private Funds are in addition to the fees charged to the Private Fund by Principal AM provides for providing investment advisory services. These fees and expenses are paid by the Private Fund and can be substantial. Investors in the Private Funds indirectly bear these expenses as these are paid out of the profits of the Private Fund. PrincipalAM provides and the General Partners/Managers of the Private Funds generally have complete control and discretion over the organizational and start-up expenses, general partner and management expenses, and expenses, fees and costs connected with the Private Funds they sponsor and organize as well as their payment.

Private Fund organizational and start-up expenses, general partner/ management expenses, and expenses, fees and costs connected with the Private Fund’s operations vary widely across the Private Funds sponsored and organized by Principal AM.

Some of the more common types of organizational and start-up expenses include legal, accounting, tax, regulatory filing and compliance, initial capital raising, printing, and other similar fees, costs, and expenses connected to the Private Fund’s formation and launch of operations.

Some of the more common general partner and management company expenses include expenses for ongoing legal, accounting, and tax advice and administration services, including expenses associated with the preparation of the General Partner’s financial statements and tax returns; placement agent fees and expenses); costs and expenses of any Fund advisory board, including travel and all other out-of-pocket costs incurred in connection with any advisory board meetings fees, costs, and expenses incurred in connection with distributions to the Private Fund investors and in respect of reporting to and communicating to the Private Fund’s investors.

**Timing And Structure of Fee Payments**

The timing of fee payments, mutually agreed upon with each client, typically is set forth in the applicable client agreements or in the Private Fund’s relevant governing documents and/or other document, as applicable. Asset-based fees generally are paid monthly, quarterly, or semi-annually, and are generally calculated on the value of the account’s net or managed assets or, in the case of certain closed-end Private Funds, committed capital, invested capital, or other capital calculation.

Investment management agreements are typically terminated by the Adviser or the client with advance notice, as set forth in the relevant governing documents. In the event of the termination of a relationship, unearned fees paid in advance, if any, beyond agreed upon minimum fees, will be refunded to the client. To the extent fees have been earned but not yet billed, such fees will be pro-rated and paid by the client upon termination. In certain cases (e.g., Private Funds, and separate accounts with performance-based fees), fees continue to be paid after termination of the relationship
in accordance with the governing documents, as applicable.

Asset Allocation Fee Schedule:

Principal AM’s standard annual fees for investment management services are based on the value of assets under management as outlined in the table below. Published fee schedules are shown for unaffiliated client portfolios and subject to the stated minimum account sizes. Fees and minimum investment amounts in all categories and ranges can be subject to negotiation as appropriate and be higher or lower than those described below.

Principal AM also allocates retirement plan client assets among separate accounts available within group annuity contracts purchased from Principal Life. Clients can also choose a liability-driven investment portfolio.

For retirement plan allocations, clients pay fees in connection with Principal AM’s investment advisory services. The investment advisory fees exclude any fees related to the management of the individual Principal Life separate accounts. Principal AM’s fees are billed directly to the client. If a client chooses to have Principal AM’s investment advisory fees deducted from the value of their group annuity contract, the tax deferral benefits of the group annuity contract could be diminished.

The standard quarterly investment advisory fee is calculated by multiplying the Ending Balance by the Annual Basis Point Fee divided by four. Ending Balance means the total funds invested in Principal Life separate accounts under the group annuity contract at the end of each calendar year quarter. The Basis Point Fee for a calendar year quarter is determined using total funds invested in Principal Life separate accounts under the group annuity contract as of the last day of the calendar quarter. If these total funds are:

For Fixed Fee Asset Allocation or one time Liability Driven Investing Asset Allocation Strategy on Principal Life Insurance Asset Allocations, the standard fixed fee asset allocation strategy fee is typically between 1,500- 2,500 per allocation.

**Asset Allocation Services with or without Liability Driven Investment Profile on Principal Bank/Principal Trust Platform**

Principal AM also acts either as a directly contract investment manager or as a sub-advisor to Principal Trust Company and Principal Bank, and other affiliates providing asset allocation advice and other investment advisory services to institutional investors. The clients pay fees to either Principal Trust Company and Principal Bank or affiliates. Principal AM’s fees are billed directly to Principal Trust Company and Principal Bank or affiliates and will generally be between 0.05 and 0.38% but can be negotiated on a case-by-case basis.

**Fees for Commingled Vehicles**

Clients may invest in a variety of U.S. and non-U.S. commingled vehicles, including private commingled vehicles. Information regarding advisory fees charged by Principal AM and other expenses payable by investors are set forth in the offering documents for the applicable commingled vehicle.

**Fees for Separately Managed Accounts (SMA)**

The annual management fees paid to Principal AM for SMA strategies generally range from 0.23% to 0.55% of the relevant SMA account holder’s respective accounts. Some SMA programs provide for the wrap fee (including the portfolio management portion payable to Principal AM) to be paid by the SMA account holder before Principal AM renders services to the SMA account holder, while some SMA programs provide for the wrap fee (and Principal AM’s portfolio management portion) to be paid in arrears by the SMA account holder after Principal AM provides services for the period. In the event the SMA program provides for prepayment of fees by the SMA account holder, the SMA account holder is directed to the Program Sponsor’s brochure for information concerning termination and refund conditions and procedures.

In certain situations, as described more fully in Item 4, Principal AM may provide only model delivery services where the primary adviser serves as the manager of the underlying investment models. In these circumstances, the fees are subject to negotiation.

**Fees for 529 Plans**

Principal AM provides investment advisory services to 529 plans sponsored by state governments. Fees for such services are negotiated with the state government sponsoring the plan and, in certain cases, the program managers. More information about the management or administrative fees paid to Principal AM as the investment manager of a 529 plan may be found in each individual plan’s program brochure.

**Other Expenses**

Clients may pay certain expenses such as custodian expenses and brokerage fees (along
with other transaction costs) in addition to Principal AM’s investment management fees. For additional information regarding brokerage fees and other transaction costs, see Item 12.

**Item 6 – Performance-Based Fees and Side-by-Side Management**

Certain Principal AM accounts are charged performance fees in accordance with the conditions and requirements of Rule 205-3 of the Investment Advisers Act of 1940, as amended (the “Advisers Act”). Any such performance fees will be negotiated on an individual basis with the client. Principal AM is willing to consider incentive fees in appropriate circumstances. In measuring client assets for the calculation of performance-based fees, realized and unrealized capital gains and losses are included depending upon contractual provisions.

Performance-based fee arrangements can create an incentive for Principal AM to recommend investments that could be riskier or more speculative than investments that would be recommended under a different fee arrangement. Such fee arrangements also create an incentive for Principal AM to favor client accounts that pay performance-based fees over other accounts in the allocation of investment opportunities, and to aggregate or sequence trades in favor of such accounts.

Principal AM manages investments for a variety of clients including pension funds, retirement plans, mutual funds, ETFs, large institutional clients, 529 plans, real estate, listed infrastructure, interval funds, Managed Accounts, and private funds. Potential conflicts of interest can arise from the side-by-side management of these clients based on differential fee structures.

Principal AM seeks to mitigate these conflicts by managing accounts in accordance with applicable laws and its policies and procedures, which are designed to ensure all clients are treated fairly, and to prevent any client or group of clients from being systematically favored or disadvantaged in the allocation of investment opportunities. Principal AM’s policies and procedures regarding allocation of investment opportunities and trade executions are described below in “Item 12 - Brokerage Practices.”

**Allocation and Co-Investments**

Principal AM provides investment services to multiple clients who can have substantial overlap in investment strategies and who may compete for potentially limited investment opportunities. The Firm offers investment opportunities to each client in accordance with the applicable provisions of each client’s constituent documents including co-investments by the firm and its affiliates.

If allowable by the relevant offering documents, Principal AM or its affiliates are authorized to, in their sole discretion, provide co-investment opportunities to one or more current or future co-investors as well as certain limited partners or other investors of any Private Fund Client, Firm-sponsored Funds (or investors thereof), Principal AM, or its affiliates and direct or indirect owners, officers and employees thereof, or other third parties. Co-investors will be determined by Principal AM in its sole discretion and could include current or future limited partners or other investors of any Private Fund Client, Firm-sponsored Funds (or investors thereof), Principal AM and direct / indirect owners, officers and employees thereof, and/or
third parties.

Co-investment opportunities will be offered on a case-by-case basis, to the extent available and appropriate; however, Principal AM and its affiliates will be under no obligation to offer any such opportunity to any limited partner or other investor of a Private Fund Client, or other potential co-investor.

Principal AM has provided certain senior management and investment team members with opportunities to co-invest alongside Private Fund Clients and separate accounts managed by Principal AM or its affiliates and could offer similar co-investment opportunities in the future. Co-investments can be offered by Principal AM or its affiliates in their discretion to the extent that: (i) the size of an investment opportunity exceeds the aggregate desired allocation to the Client(s) for which the opportunity would be appropriate; and/or (ii) there is adequate interest from prospective Investors, including co-investors. Co-investments can be structured through investment vehicles or similar arrangements organized to facilitate such investments for legal, tax, regulatory, or other purposes (each, a “Co-Investment Vehicle”). A Co-Investment Vehicle could include an entity that invests side-by-side with a Private Fund Client or into which a Private Fund Client invests together with other co-investors, each entities and/or co-investors which could be managed by, or otherwise affiliated with, Principal AM or its affiliates.

Certain investors co-investing with a Private Fund Client can invest on different and/or more favorable terms when compared to such Private Fund Client, and could have interests or requirements that conflict with, and adversely impact, such Private Fund Client. Principal AM will generally seek to cause such Private Fund Client, and other Principal AM related investors, to participate in any co-investment and any related transaction on comparable economic terms vis-a-vis the underlying opportunity to the extent Principal AM deems appropriate, subject to legal, tax, regulatory, and other similar considerations. Such comparable participation is not necessarily appropriate in all circumstances. The Private Fund Client could participate in such investment on different and potentially less favorable economic and/or non-economic terms than such parties (or that the Private Fund Client would participate in, if such parties were not co-investors) if Principal AM deems such participation as being otherwise in the Private Fund Client’s best interests.

Item 7 – Types of Clients

Principal AM provides portfolio management services to individuals, high net worth individuals, corporate pension and profit-sharing plans, Taft-Hartley plans, charitable institutions, foundations, endowments, municipalities, registered mutual funds, private investment funds, ETFs, trusts, sovereign wealth funds, foreign funds, supranational, central banks, collective investment trusts, wrap programs, insurance separate accounts, life insurance company general accounts, fund of funds, 529 plans, real estate, listed infrastructure, interval funds and other U.S. and international institutions. Some of Principal AM’s clients are affiliates. Principal AM is a sub-adviser to Principal Trust
Company and Principal Bank providing asset allocation advice and other investment advisory services to institutional investors.

Principal AM also provides asset allocation and other investment advisory services to qualified retirement plans funded with group annuity contracts purchased from Principal Life.

Generally, the minimum account size for opening and maintaining an individually managed equity portfolio/account is $10-50 million and is based on the type of strategy used for the client’s portfolio.

Generally, the minimum account size for opening and maintaining an individually managed fixed income portfolio/account is $25-50 million and is based on the type of strategy used for the client’s portfolio.

Principal AM reserves the right in its sole discretion to accept client accounts with fewer initial assets.

The minimum account size for all Separately Managed Accounts in which Principal AM participates is generally $100,000, although the investment minimum differs from program to program and is determined by the Program Sponsor, not Principal AM.

**Item 8 – Methods of Analysis, Investment Strategies and Risk of Loss**

Investing in securities involves risk of loss that clients should be prepared to bear. Each of the investment strategies listed below is subject to certain risks. There is no guarantee that any investment strategy will meet its investment objective.

**EQUITIES**

Principal AM has various equity teams that offer a number of actively managed and systematic strategies, all utilizing equity securities to help meet its clients’ investment objectives and goals. Principal AM is generally a long-only manager. The vast majority of the portfolios are discretionary. Please refer below to “Item 16 – Investment Discretion” regarding discretion over client accounts.

Equity teams provide client-focused investment solutions spanning equity markets worldwide. This process generally utilizes internally generated fundamental research that focuses on bottom-up stock selection within a sophisticated comparative framework. The entire scope of research encompasses over 10,000 companies, large and small, in emerging and developed markets, although the universe of companies relevant to any single investment strategy will typically be smaller. The use of technical methods of analysis can also be used within the research. The proprietary systems include some data sourced from outside investment research specialists. Teams of investment analysts are organized by regions and industry sectors globally. Their research plays an integral part in the selection of securities for the client portfolios.

Research teams reference many sources when analyzing a company, including but not
limited to investment publications on general economic conditions, financial publications from the investment banking industry, corporate annual reports and regulatory filings, and meetings with senior management of companies whose stocks in which the specialized investment teams have invested or are being considered for investment when deemed appropriate or as necessary, in the teams’ judgement.

The types of equity securities typically utilized for these strategies include common stock (exchange traded, over the counter and initial or follow-on offerings) issued by U.S. and non-U.S. corporations or other issuers. The specialized investment teams can utilize different instruments, at their preference, to fulfill their selection including but not limited to: (1) American Depositary Receipts and Global Depositary Receipts, if liquidity is suitable; (2) open-end funds and ETFs for cash equitization purposes and to gain exposure to certain markets; (3) closed-end funds, participation notes, private placement securities and rights and warrants on equity securities (although rare); and (4) forward currency contracts to hedge the exposure of foreign currency fluctuations in the equity portfolios.

Principal AM’s philosophy is that equity markets are not perfectly efficient, and therefore provide opportunities to add value through fundamental research and active risk management. Our strategies are built on the belief that bottom-up stock selection is the most reliable and repeatable source of consistent competitive performance over time. To that end, the lead portfolio manager for each strategy collaborates directly with the investment analysts regarding the output of their analysis and is ultimately responsible for security selection and for the individual weighting of each portfolio holding.

Risk management is embedded in the investment processes of each distinct investment team. The portfolio managers have a number of risk management systems/tools at their disposal, each serving a different purpose within the portfolio construction process. These systems monitor risk and guidelines (in terms of region, country, currency, sector, industry, market capitalization distribution, style factor distribution, beta sensitivity and individual position weights) in each client’s portfolio. Generally, the portfolio management teams monitor portfolio risk exposures through a series of weighting constraints relative to each portfolio’s benchmark and each portfolio’s overall characteristics and individual security holdings. Furthermore, the risk management tools allow Senior Management of the specialized investment teams to view portfolio positioning for their respective strategies at any time. The Chief Investment Officers for equity are charged with supporting risk management efforts that quantify the portfolio managers’ success in achieving risk and return objectives for the accounts they manage. Prospective clients should be aware that no risk management system is fail-safe, and no assurance can be given that risk frameworks employed by the specialized investment teams will achieve their objectives and prevent or otherwise limit substantial losses. There is also the risk that the investment approach taken will be out of favor at times, causing strategies to underperform other strategies or funds that also seek capital appreciation but use different approaches to the stock selection and portfolio construction process. A further discussion of the risks inherent in our equity strategies is provided below.

Principal AM offers a broad range of global and regional equity strategies across developed and emerging markets, specified market segments and style preferences,
which include, but are not limited to:

**International Equity Strategies**

*Diversified International Equity, International Opportunities Equity, International Responsible Equity*

These strategies offer a broad exposure to equity investment opportunities outside the U.S. They are active core strategies including moderate strategic allocations to emerging markets. The “Responsible” designated strategy also incorporates certain specific industry exclusions and carbon related ESG enhanced features.

*International Core Equity, International Growth Equity*

These strategies can provide broad exposure to selected equity investment opportunities in developed markets outside of the U.S. utilizing a disciplined active approach. The growth-oriented strategy is focused on delivering growth without excessive valuation premiums.

*International Small Cap, International SMID Equity*

These strategies provide diversified exposure among selected smaller capitalization companies in developed regions outside the U.S. utilizing a disciplined active core approach.

*European Equity, European Responsible Equity*

These strategies offer a broad exposure to European equity investment opportunities (inclusive of the United Kingdom, and excluding European emerging markets), utilizing a disciplined active core approach. The “Responsible” designated strategy also incorporates certain specific industry exclusions and carbon related ESG enhanced features.

*Global Opportunities Equity, Global Responsible Equity*

These strategies invest in companies domiciled in the United States, developed international and emerging market countries, with broad latitude to focus on our highest conviction investment opportunities across the world. The “Responsible” designated strategy also incorporates certain specific industry exclusions and carbon related ESG enhanced features.

*International Strategic Beta*

The International Strategic Beta Index strategy is passively managed and replicates a rules-based “strategic beta” index designed by Principal AM. The proprietary index incorporates a factor-based approach to generating potential outperformance relative to traditional, capitalization weighted indexes. The strategy can be tailored to specific client needs and objectives. A specialty version that invests in U.S. and non-U.S. companies that derive a high proportion of revenue from the Millennials generation is also available.

Each of the above strategies can be tailored to include emerging market country exposure upon request.
Emerging Markets Equity Strategy

*Global Emerging Markets Equity, Emerging Global Leaders Equity, Emerging Markets Ex-China*
These strategies can provide diversified exposure among companies within growing segments of the economy in emerging markets countries and focused on delivering growth without excessive valuation premiums.

Global Equity Strategies

*Global Opportunities Equity, Global Responsible Equity*
These strategies invest in companies domiciled in the United States, developed international and emerging market countries, aiming to provide long-term risk adjusted returns, and with broad latitude to focus on our highest conviction investment opportunities across the world.

*Global Smaller Companies Equity*
The Global Smaller Companies Equity strategy invests in developed and emerging market economies. It is focused on investing in small and mid-capitalization companies and managed to provide broadly diversified portfolios by region, country, and sector. This strategy is also available in a value-oriented format.

Domestic Equity Strategies

*U.S. Small Cap, U.S. Small Cap Select, U.S. Small Cap Select Value*
The objectives of these strategies are to provide a diversified exposure among selected smaller capitalization U.S. companies. The U.S. Small Cap and U.S. Small Cap Select strategies are core offerings while the U.S. Small Cap Select Value strategy has value-oriented characteristics.

*Small Cap Growth, Smid Cap Growth, and Mid Cap Growth*
The growth strategies focus primarily on stocks within the market capitalization ranges of the Russell Mid Cap Growth Index, Russell 2500 Growth Index and Russell 2000 Growth Index, respectively. The strategies focus on leading indicators of fundamental business improvement that drive eventual reported results, and continuously monitor changes in fundamentals and expectations. The strategies strive to invest in companies poised to exceed investors’ expectations and sell or avoid those whose fundamentals signal disappointment relative to expectations. Each strategy seeks long term growth of capital and aims to outperform its relevant index over a 3–5-year market cycle.

*MidCap, Blue Chip, Focused Equity*
The MidCap, Blue Chip, and Focused Equity strategies are designed for investors seeking equity investment opportunities irrespective of benchmark orientation. The strategy focuses primarily on long-term ownership of high-quality businesses with sustainable competitive advantages, owner-operator management, and discounted valuations.

*U.S. Strategic Beta Indexes*
These strategies are passively managed and replicate rules-based “strategic beta” indexes designed by Principal AM. The proprietary indexes incorporate a factor-based
approach to generating potential outperformance relative to traditional, capitalization weighted indexes. U.S. Strategic Beta Indexes are available that provide exposure to one or more groups of factors. Specialty versions are also available including one that allocates among a universe of innovative mid and small cap healthcare companies. Mega cap and small cap specialty versions of the U.S. Strategic Beta Indexes are also available. Fee schedules for specialty versions are available upon request.

**Capital Appreciation**
The Capital Appreciation strategy seeks long-term growth of capital by investing in common stocks of companies across the capitalization spectrum.

**Equity Income**
The Equity Income strategy seeks a relatively high level of current income and long-term growth of income and capital by investing primarily in the common stocks of U.S. large-cap companies.

**Concentrated Mid-Cap**
The Concentrated Mid-Cap strategy seeks long-term growth of capital by investing primarily in the common stocks of U.S. companies in the medium market capitalization range.

**SMID Equity Income**
The objective of the SMID Equity Income strategy is to seek a relatively high level of current income and long-term growth of income and capital by investing primarily in common stocks of small and mid-cap U.S. companies.

**Passive Index Strategies**

In addition to actively managed strategies, Principal AM also manages passive capitalization-weighted index replication strategies. Fee schedules for index replication strategies are available upon request.

**Fixed Income**

Principal AM manages strategies covering a full range of global fixed income securities, including products that integrate multiple fixed income sectors (multi-strategy) as well as products that emphasize a single fixed income sector.

The fixed income multi-strategy services focus on U.S. dollar-denominated securities as well as fixed income securities issued outside the U.S. and denominated in multiple currencies benchmarked to a range of short, intermediate, and long duration strategies.

The single sector focused strategies include global and U.S. dollar-denominated strategies focused on investment grade corporate credit, high yield securities, emerging market debt, municipals or government and government-related bonds. Principal AM believes superior returns are best achieved through the integration of rigorous fundamental research, a global
perspective and disciplined risk management. These common threads serve as the three cornerstones of the fixed income process:

**Macro/Risk Perspective**
A broad approach to identifying macro trends and inconsistencies.

**Investment Research Framework**
A consistent comparative framework based on fundamentals, technical, valuations, and independent internal research, which is used throughout the investment process and facilitates communication as well as portfolio positioning.

**Risk Management**
A comprehensive, multi-dimensional approach to risk management at each stage of the investment process. A further discussion of the risks inherent in our fixed income strategies is provided below.

**Use of Derivatives**
While derivatives are not a distinct strategy, periodically Principal AM uses derivatives if permitted by the client. Common fixed income derivatives used include credit default swaps (“CDS”), interest rate swaps, treasury futures, TBA (To Be Announced MBS Forward), collateralized debt obligations (“CDO”), and currency swaps, among others. Principal AM utilizes the exchange traded and over-the-counter markets, and derivatives are primarily used for asset replication, hedging and structured products.

**Fixed Income Strategies**

**Bank Loans**
The Bank Loan strategy seeks to provide a return consisting of income and capital appreciation over the long term primarily through security selection. Investments are in U.S. dollar denominated floating rate bank loan securities.

**Emerging Market Bond**
The Emerging Market Bond strategy focuses on independent, forward-looking fundamental analysis of both sovereign and corporate credits within the context of the global business cycle. The goal of the strategy is to add value to an actively managed emerging markets debt portfolio.

**Global Bonds**
The Global Bonds strategy aims to exploit global bond market opportunities through assessment of the global business/growth cycle and the relative position of individual countries within the cycle. The goal of the strategy is to add value to an actively managed global bond portfolio. The strategy includes Global Bonds, Global Corporate Plus, Global Investment Grade Corporate, Global Credit Opportunities, Global Short Duration Credit and Global Short Duration Fixed Income.

**High Yield**
The High Yield strategy tactically allocates across the high yield spectrum, focusing on the individual ratings of securities. The goal of the strategy is outperformance of
the benchmark over a three to five-year period with a below market level of volatility. High yield strategies include High Yield Traditional, Global High Yield, High Yield Opportunistic, High Yield, High Yield Quality Constrained and Short Duration High Yield. This strategy is subject to greater credit quality risk than securities that invest in higher rated fixed income securities and should be considered speculative.

**Investment Grade Corporate Credit**
The Investment Grade Corporate Credit strategy is built upon a forward-looking credit research process to identify quality issuers in the investment grade universe. This strategy benefits from a dedicated team of credit analysts and high yield specialists to add value to an actively managed credit portfolio. This strategy includes Investment Grade Corporate.

**Long Duration**
The Long Duration strategy seeks to provide consistent outperformance through an active management strategy capturing multiple sources of excess returns. The goal of the strategy is to add value to an actively managed long duration portfolio. This strategy includes Long Duration Fixed Income Credit Emphasis, Long Duration Core Plus, Long Duration Investment Grade Corporate.

**Multi-Sector Fixed Income**
The Multi-Sector Fixed Income strategy seeks to provide consistent risk-adjusted returns through balancing the understanding of the quantitative risks with the associated return opportunities. The goal is to provide consistent alpha created through sector allocation, security selection and structural positioning/asset replication. This strategy includes Core Plus Bond Opportunistic, Core Plus Bond, Corporate Plus, Core Plus Universal and Core Plus Long-Term Focus.

**Municipal Bonds**
The Municipal Bond strategies invest in securities issued by, or on behalf of, state or local governments, and other public authorities and are tax-exempt. The strategies invest in a broad array of municipal bonds with varying maturities. Municipal strategies include Municipal California Fixed Income, Municipal Fixed Income and Opportunistic Municipal.

**Securitized Debt**
Mortgage-Backed Securities strategy invests primarily in Fannie Mae, Freddie Mac, and Ginnie Mae agency mortgage-backed securities (MBS), with the ability to invest in treasuries, U.S. agencies, asset-backed securities (ABS) and non-agency MBS. This strategy invests entirely in U.S. based issuers. The Government & High-Quality Fixed Income strategy seeks to provide a high level of current income consistent with stability and liquidity by investing primarily in securities issued by the U.S. government, its agencies and instrumentalities and other high-quality MBS.

**Stable Value**
The Morley Stable Value strategy seeks to provide capital preservation and stable, competitive returns through the consistent application of three factors: a disciplined investment process that combines top-down economic research with fundamental bottom-up security analysis; a focus on building high-quality, well diversified portfolios
by wrap provider, investment manager and mandate; and a commitment to risk
management.

**Systematic**
The Systematic strategies utilize the primary factor of default risk as a filter, in
conjunction with a portfolio optimizer, to systematically construct a diversified debt
portfolio to capture higher yield with lower credit losses than a passive strategy.
Our Systematic strategies may invest across multiple fixed income sectors or focus
on one sector such as emerging market or high yield.

**Asia Credit**
The Asia Credit strategy seeks to maximize total returns from investing in a broad range of
Asian credits across investment grade and high yield issuers. The strategy focuses on
delivering returns via asset allocation between high yield and investment grade, duration
management, and bottom-up security selection. The strategy is actively managed with
emphasis on relative value trading and harnessing liquidity premium in Asia credit.

**Asia High Yield**
The Asia High Yield strategy aims to provide a return consisting of income and, over a
market cycle, capital growth, focusing on a combination of carry, macro, and bottom-up
credit selection. The strategy focuses on delivering income accompanied with risk
management to attempt to minimize downside risk. The strategy seeks to achieve its
overall objective by investing in Asia high yield fixed income securities primarily, and it also
allocates tactically across the broader high yield spectrum including emerging markets and
developed high yield.

**Principal Alternative Credit**
Private Credit seeks to provide strong yield and return over comparable public
corporate bonds, while also focusing on preservation of capital. Performance will
primarily come from security selection with a significant amount of return generated
from coupons.

The Principal Alternative Credit – Direct Lending strategy focuses on core middle
market and lower middle market lending opportunities and seeks to achieve solid
potential risk-adjusted returns by prioritizing an intentional approach to portfolio
construction.

**Other Strategies**
The Investment Grade Opportunistic strategy is a global investment grade credit
strategy that invests primarily in global investment grade corporate bonds and
opportunistically in some lower rated issuers maintaining an average portfolio credit
quality of BBB or higher. This strategy uses thematically driven security selection to
build highly concentrated portfolios and is implemented on a best ideas basis.

Passive Strategies seek to mimic the indices they track, providing similar risk and return
statistics while minimizing tracking error.

The Short-Term Income strategy seeks to provide a high level of current income
consistent with stability and liquidity by investing primarily in high quality short-term
fixed income securities that are deemed to be investment grade at the time of purchase.

The Ultra Short High Quality and Ultra Short Enhanced Yield strategies invest in short duration securities across multiple fixed income sectors, including those not typically included in traditional money market funds, with the goal to provide yield benefits and necessary liquidity.

**Asset Allocation**

Principal Asset Allocation, an asset allocation team within Principal AM, primarily provides asset allocation services, which includes recommendations relating to overall asset class selection, risk management, asset class rebalancing and manager selection within asset classes, both within and outside of Principal AM. Principal Asset Allocation can utilize asset classes in their modeling such as U.S. and foreign equity, U.S. and foreign fixed income, cash equivalents, and real estate with further differentiation based on market capitalization (as an example, large-cap vs. small-cap) and/or investment style (as an example, value vs. growth) as well as other asset subclasses. The asset allocations for retirement plan clients holding a group annuity contract include Principal Life and unaffiliated separate account investment options. Principal Asset Allocation also makes recommendations and allocations to underlying investment strategies as detailed below.

Principal Asset Allocation conducts detailed analyses and review of the appropriateness of the exposure and weightings of each asset class within a specific client’s portfolio or mandate based upon the agreed upon parameters of each individual investment management agreement.

Principal Asset Allocation will assess current asset class weightings based upon any number of individual factors and make adjustments to those allocations over time. In identifying potential areas of investment, Principal Asset Allocation takes into consideration the ability of an asset class to provide capital appreciation, the ability to generate current income, certain diversification characteristics of the asset class, the potential need for capital preservation and/or certain risk hedging characteristics when making its allocation recommendations.

Principal Asset Allocation also evaluates the risk premium associated with each asset class or sector in an effort to determine the appropriateness of the allocations related to the overall intended risk profile and strategy of the client. Principal Asset Allocation employs an asset allocation approach to portfolio construction as client assets are allocated across one or any number of predetermined separate accounts or commingled funds. Principal Asset Allocation primarily utilizes mutual funds, unit investment trusts, separate accounts, ETFs and/or other commingled funds that are typically sub-advised by affiliated managers.

The portfolio construction process includes a comprehensive analysis of manager style for each of the asset classes employed in the asset allocation strategy, based on their portfolio returns and holdings.
Principal Asset Allocation conducts a rigorous investment due diligence process on each affiliated manager, and on other managers who might be specified by the client. This due diligence takes into account qualitative factors; quantitative factors; an assessment of each manager’s style against our medium-term view on markets; and finally, an assessment of their ability to manage the investment risk in their holdings.

After a portfolio is initially constructed, Principal Asset Allocation monitors the aggregate portfolio as well as the underlying managers for each asset class on an ongoing basis to determine that the asset allocation model continues to operate within each client’s stated investment guidelines. The asset class selection and risk management analyses are used to determine both the timing of portfolio rebalancing and the magnitude by which allocations are allowed to drift away from neutral target allocations. Portfolio rebalancing recommendations typically rely on a combination of fundamental and quantitative inputs within pre-established risk parameters and rebalancing is employed generally as a risk reduction measure rather than a tactical measure.

Investment Solutions a team within Principal AM, primarily provides asset allocation services to pension and profit-sharing plans, Taft-Hartley plans, foundations, endowments, municipalities, and institutional investors, and qualified retirement plans. These investment vehicles are funded by group annuity contracts issued by Principal Life or Collective investment Trusts, Corporate Owned Life Insurance (COLI), mutual funds, pension plans, endowments and foundations, or other investments that may be sponsored or managed by an affiliate.

Investment Solutions utilizes a long-term, strategic outlook toward investment markets and builds efficient, well-diversified portfolios for clients. The investment market outlook utilizes both historical-based and forward-looking return forecasts to establish future return expectations for various asset classes. These various asset classes are then combined and optimized into an array of efficient portfolios with distinct risk and return characteristics.

Investment Solutions implements the core asset allocation strategy based on information provided by a client as it relates to their goals and objectives. Based upon that information, the Investment Solutions team selects the specific investment options that meet the client’s goals and objectives.

**Risks**

The risks set forth below represent a general summary of certain material risks involved in the investment strategies we offer. If applicable, please refer to the risks in the offering documents for a more detailed discussion of the risks involved in an investment in any pooled vehicle. Not all material risks will be applicable to each strategy.

**American Depository Receipts and Global Depository Receipts Risk:** American depository receipts (“ADRs”) are receipts issued by a U.S. bank or trust company evidencing ownership of underlying securities issued by non-U.S. issuers. ADRs may be listed on a national securities exchange or may be traded in the over-the-counter
market. Global depository receipts (“GDRs”) are receipts issued by either a U.S. or non-U.S. banking institution representing ownership in a non-U.S. company’s publicly traded securities that are traded on non-U.S. stock exchanges or non-U.S. over-the-counter markets. Holders of unsponsored ADRs or GDRs generally bear all the costs of such facilities. The depository of an unsponsored facility frequently is under no obligation to distribute investor communications received from the issuer of the deposited security or to pass through voting rights to the holders of depository receipts in respect of the deposited securities. Investments in ADRs and GDRs pose, to the extent not hedged, currency exchange risks (including blockage, devaluation, and non-exchangeability), as well as a range of other potential risks relating to the underlying shares, which could include expropriation, confiscatory taxation, imposition of withholding or other taxes on dividends, interest, capital gains, other income or gross sales or disposition proceeds, political or social instability or diplomatic developments that could affect investments in those countries, illiquidity, price volatility and market manipulation. In addition, less information may be available regarding the underlying shares of ADRs and GDRs, and non-U.S. companies may not be subject to accounting, auditing and financial reporting standards and requirements comparable to, or as uniform as, those of U.S. companies. Such risks may have a material adverse effect on the performance of such investments and could result in substantial losses.

Asset-Backed Securities Risk: General downturns in the economy could cause the value of asset-backed securities to fall. In addition, asset-backed securities present certain risks that are not presented by mortgage-backed securities. Primarily, these securities may provide a strategy with a less effective security interest in the related collateral than do mortgage-backed securities. Therefore, there is the possibility that recoveries on the underlying collateral may not, in some cases, be available to support payments on these securities.

Automated Rebalancing and Trading Risk: Certain strategies rely on computer models, data inputs and assumptions in generating trade orders. Statistical investing models rely on back-tested information and, thus, may not operate as expected or intended when events having few or no historical antecedents occur, and, accordingly, may generate losses another manager could have been able to avoid. Likewise, use of algorithms and other rebalancing technology may result in a portfolio that may be more aggressive or more conservative than necessary or incorrectly trigger or fail to initiate rebalancing. Changes to algorithmic code may materially affect a client’s account and may not have the desired effect over time.

Concentration Risk: A strategy that concentrates investments in a particular industry or group has greater exposure than other strategies to market, economic and other factors affecting the industry or group.

Counterparty Risk: Under certain conditions, a counterparty to a transaction, including derivative instruments, could fail to honor the terms of the agreement, default and the market for certain securities or financial instruments in which the counterparty deals may become illiquid. To help mitigate counterparty risk, Principal AM utilizes collateral agreements, as required, by clients or applicable regulations.
Credit Quality Risk: Failure of an issuer to make timely interest or principal payments, or a decline or perception of a decline in the credit quality of a bond can cause a bond’s price to fall, lowering the value of a strategy’s investment in such security. The lower a security’s credit rating, the greater the chance that the issuer of the security will default or fail to meet its payment obligation.

Cybersecurity and Operational Risk: With the increased use of technologies such as the Internet to conduct business and the sensitivity of client information, investment strategy and holdings, a portfolio is susceptible to operational, information security and related risks. In general, cyber incidents can result from deliberate internal or external attacks or unintentional events and are not limited to gaining unauthorized access to digital systems, and misappropriating assets or sensitive information, corrupting data, or causing operational disruption, including the denial-of-service attacks on websites. Cyber security failures or breaches either internally at Principal AM or externally by a third-party service provider or at or against issuers of securities in which the portfolio invests have the ability to cause disruptions and impact business operations. Such events could potentially result in financial losses, the inability to transact business, violations of applicable privacy and other laws, regulatory fines, penalties, reputational damage, reimbursement, or other compensation costs, and/or additional compliance costs, including the cost to prevent cyber incidents.

Principal AM has developed a Business Continuity Program (the “Program”) that is designed to minimize the disruption of normal business operations in the event of an adverse incident impacting Principal AM or its affiliates. While Principal AM believes that the Program is comprehensive and should enable it to reestablish normal business operations in a timely manner in the event of an adverse incident, there are inherent limitations in such programs (including the possibility that contingencies have not been anticipated and procedures do not work as intended) and under some circumstances, Principal AM and its affiliates, any vendors used by Principal AM or its affiliates or any service providers to the portfolios Principal AM manages could be prevented or hindered from providing services to the portfolio for extended periods of time. These circumstances may include, without limitation, acts of God, acts of governments, any act of declared or undeclared war or of a public enemy (including acts of terrorism), power shortages or failures, utility or communication failure or delays, labor disputes, strikes, pandemics, epidemics, shortages, supply shortages, and system failures or malfunctions. These circumstances, including systems failures and malfunctions, could cause disruptions and negatively impact a portfolio’s service providers and a portfolio’s operations, potentially including impediments to trading portfolio securities. A portfolio’s ability to recover any losses or expenses it incurs as a result of a disruption of business operations may be limited by the liability, standard of care and related provisions in its contractual arrangements with Principal AM and other service providers.

Derivatives Risk: A small investment in derivatives could have a potentially large impact on a strategy’s performance. The use of derivatives involves risks different from, or possibly greater than, the risks associated with investing directly in the underlying assets. Derivatives can be highly volatile, illiquid, and difficult to value and there is the risk that changes in the value of a derivative held by a strategy will not correlate with the underlying instruments or the strategy’s other investments. Transactions in derivatives (such as options, futures, and swaps) have the potential to increase
volatility, cause liquidation of portfolio positions when not advantageous to do so and produce disproportionate losses. All derivatives used for hedging purposes involve basis risk. This occurs when the value of underlying hedging instrument moves differently (not perfectly correlated) than the corresponding item being hedged.

**Duration Risk:** Duration is a measure of the expected life of a fixed income security and its sensitivity to changes in interest rates. Generally, securities with longer durations or maturities are more sensitive to changes in interest rates than securities with shorter durations or maturities, causing them to be more volatile. Conversely, fixed-income securities with shorter durations or maturities will be less volatile but may provide lower returns than fixed-income securities with longer durations or maturities.

**Economic and Market Events Risk:** Markets can be volatile in response to a number of factors, as well as broader economic, political, and regulatory conditions. Some of these conditions may prevent Principal AM from executing a particular strategy successfully. For example, a pandemic and reactions thereto could cause uncertainty in financial markets and the operation of businesses, including Principal AM’s business, and may adversely affect the performance of the global economy, induce market volatility, and cause market and business uncertainty and closures, supply chain and travel interruptions, the need for employees and vendors to work at external locations, and extensive medical absences. It is not always possible to access certain markets or to sell certain investments at a particular time or at an acceptable price, thereby impacting the liquidity of a given portfolio. Leverage and most types of derivatives create exposure in an amount exceeding the initial investment, which can increase volatility by magnifying gains or losses. The value of a client portfolio will change daily based on changes in market, economic, industry, political, regulatory, geopolitical, and other considerations. A client portfolio will not always achieve its objective and/or could decrease in value.

**Emerging Markets Risk:** Foreign investment risks are greater in emerging markets than in developed markets. Emerging market investments are often considered speculative. Emerging market countries, including some Latin American countries, may have economic and political systems that are less developed, and can be expected to be less stable than developed markets. For example, the economies of such countries can be subject to rapid and unpredictable rates of inflation or deflation.

**Environmental, Social, and Governance Risks:** Integration of environmental, social and governance (ESG) factors is qualitative and subjective by nature. There is no guarantee that the criteria used, or judgment exercised, will reflect the beliefs or values of any particular investor. Investment teams have a high degree of investment process autonomy and may consider or weight ESG criteria or factors differently (or not at all). For those teams that consider ESG factors as part of the investment process in strategies that are not explicitly ESG-oriented, those ESG factors are generally no more significant than other factors in the investment selection process, such that ESG factors may not be determinative in deciding to include or exclude any particular investment in the portfolio. Information regarding responsible practices or other ESG data differs by source and may not be accurate or complete. Integration of ESG factors may present additional advantages or risks, may not protect against market risk or volatility, and under certain circumstances may detract from investment performance. There is no
assurance that any strategy or integration of ESG factors will be successful or profitable.

**Equity Risk:** Clients are subject to the risk that stock prices will fall over short or extended periods of time, and clients could lose all, or a substantial portion, of the value of their investments. Historically, the equity markets have moved in cycles, and the value of equity securities can fluctuate significantly from day to day. Markets go through periods of rising prices as well as periods of falling prices depending on investors’ perceptions about the economy, interest rates, and the attractiveness of other securities such as bonds or real estate. Individual companies can report poor results or be negatively affected by industry and/or economic trends and developments. The prices of these companies’ securities can decline in response. These factors contribute to price volatility, which is a principal risk of equity investing.

**Fixed Income Risk:** The market value of a fixed-income security may decline due to general market conditions that are not specifically related to a particular company, such as real or perceived adverse economic conditions, changes in the outlook for corporate earnings, changes in interest or currency rates, or adverse investor sentiment generally. The fixed-income securities market can be susceptible to increases in volatility and decreases in liquidity. Liquidity can decline unpredictably in response to overall economic conditions or credit tightening. Increases in volatility and decreases in liquidity may be caused by a rise in interest rates (or the expectation of a rise in interest rates), which are at or near historic lows in the United States and in other countries. An unexpected increase in strategy redemption requests, which may be triggered by market turmoil or an increase in interest rates, could cause the strategy to sell its holdings at a loss or at undesirable prices and adversely affect the strategy’s performance and increase the strategy’s liquidity risk, expenses and/or taxable distributions.

**Foreign Investment Risk:** To the extent that Principal AM invests in companies based outside the U.S., it faces the risks inherent in foreign investing, which includes the loss of value as a result of political or economic instability; nationalization, expropriation, or confiscatory taxation; changes in foreign exchange rates and restrictions; settlement delays and limited government regulation. Adverse political, economic, or social developments could undermine the value of Principal AM’s investments or prevent Principal AM from realizing their full value. Financial reporting standards for companies based in foreign markets differ from those in the U.S. Additionally, foreign securities markets generally are smaller and less liquid than U.S. markets. To the extent that Principal AM invests in non-U.S. dollar denominated foreign securities, changes in currency exchange rates may affect the U.S. dollar value of foreign securities or the income or gain received on these securities. Foreign governments may restrict investment by foreigners, limit withdrawal of trading profit or currency from the country, restrict currency exchange or seize foreign investments. Investments may also be subject to foreign withholding taxes. Foreign transactions and custody of assets may involve delays in payment, delivery or recovery of money or investments. In addition, there is significant market uncertainty regarding Brexit’s ramifications, and the range and potential implications of possible political, regulatory, economic, and market outcomes are difficult to predict. This uncertainty may affect other countries in the EU (European Union) and elsewhere and may cause volatility within the EU, triggering
prolonged economic downturns in certain countries within the EU.

**High Yield Risk:** Strategies that invest in high yield securities and unrated securities of similar credit quality (commonly known as “high yield securities” or “junk bonds”) may be subject to greater levels of credit risk, call risk and liquidity risk than strategies that do not invest in such securities. These securities are considered predominantly speculative with respect to an issuer’s continuing ability to make principal and interest payments and may be more volatile than other types of securities. An economic downturn or individual corporate developments could adversely affect the market for these securities and reduce Principal AM’s ability to sell these securities at an advantageous time or price. An economic downturn would generally lead to a higher non-payment rate and a high yield security may lose significant market value before a default occurs. Issuers of high yield securities may have the right to “call” or redeem the issue prior to maturity, which may cause Principal AM to have to reinvest the proceeds in other high yield securities or similar instruments that may pay lower interest rates. In addition, the high yield securities in which a strategy invests may not be listed on any exchange and a secondary market for such securities may be comparatively illiquid relative to markets for other more liquid fixed income securities. Consequently, transactions in high yield securities may involve greater costs than transactions in more actively traded securities. A lack of publicly available information, irregular trading activity and wide bid/ask spreads among other factors, may, in certain circumstances, make high yield debt more difficult to sell at an advantageous time or price than other types of securities or instruments.

**Inflation and Deflation Risk:** Inflation risk is the risk that the present value of assets or income will be worth less in the future as inflation decreases the present value of money. Deflation risk is the risk that prices throughout the economy decline over time creating an economic recession, which could make issuer default more likely and may result in a decline in the value of a strategy’s assets.

**Interest Rate Risk:** Interest rate risk is the risk that fixed income securities, dividend-paying equity securities and other instruments will decline in value because of changes in interest rates. As nominal interest rates rise, the value of certain fixed income securities or dividend-paying equity securities is likely to decrease. Interest rate changes can be sudden and unpredictable, and a strategy may lose money as a result of movements in interest rates. Fixed income securities with longer durations tend to be more sensitive to changes in interest rates, usually making them more volatile than securities with shorter durations. Therefore, the longer the effective maturity and duration of the strategy’s portfolio, the more the value of your investment is likely to react to interest rates. The values of equity and other non-fixed income securities may also decline due to fluctuations in interest rates.

Certain debt securities, derivatives, and other financial instruments may utilize LIBOR as the reference or benchmark rate for interest rate calculations. As market participants transition away from LIBOR, LIBOR’s usefulness may deteriorate. The transition process may lead to increased volatility and illiquidity in markets that currently rely on LIBOR to determine interest rates. LIBOR’s deterioration may adversely affect the liquidity and/or market value of securities that use LIBOR as a benchmark interest rate, including securities and other financial instruments in which Principal AM invests. Further, the utilization of an alternative reference rate, or the transition process to an
alternative reference rate, may adversely affect the performance of a strategy in which you invest.

**Large Cap Stock Risk:** To the extent a strategy invests in large capitalization stocks, the strategy may underperform strategies that invest primarily in the stocks of lower quality, smaller capitalization companies during periods when the stocks of such companies are in favor.

**Laws, Regulations and Taxation Risk:** Many different regulatory bodies govern our company. We are required to comply with federal securities laws; insurance regulations; employee benefit plan regulation; financial services regulation; U.S. and international tax regulations; environmental, social and governance ("ESG") regulations; and cybersecurity and privacy regulations. Complying with the various regulations can increase our cost of doing business. We could also face potential fines or reputational risk if we do not comply. In addition, changes in tax laws can reduce sales of certain tax-advantaged products or increase our operating expenses. Changes in accounting standards may adversely impact reported results of operations and financial condition. Litigation and tax audits can increase costs and create adverse publicity for us.

**Liquidity Risk:** When there is little or no active trading market for specific types of securities, it can become more difficult to sell the securities at or near their perceived value. In such a market, the value of such securities and the value of your investment may fall dramatically, even during periods of declining interest rates. Liquidity risk also exists when a particular derivative instrument is difficult to purchase or sell. If a derivative transaction is particularly large or if the relevant market is illiquid (as is the case with many privately negotiated derivatives), it may not be possible to initiate a transaction or liquidate a position at an advantageous time or price. The secondary market for certain municipal bonds tends to be less well developed or liquid than many other securities markets, which may adversely affect the strategy’s ability to sell such municipal bonds at attractive prices. Trading limits (such as “daily price fluctuation limits” or “speculative position limits”) on futures trading imposed by regulators and exchanges could prevent the prompt liquidation of unfavorable futures positions and result in substantial losses.

It is also possible that an exchange or a regulator may suspend trading in a particular contract, order immediate liquidation and settlement of a particular contract or order that trading in a particular contract be conducted for liquidation only. Therefore, in some cases, the execution of trades to invest or divest cash flows may be postponed which could adversely affect the withdrawal of assets and/or performance.

**Loans Risk:** Loans are traded in a private, unregulated inter-dealer or inter-bank resale market and are generally subject to contractual restrictions that must be satisfied before a loan can be bought or sold. These restrictions may impede Principal AM’s ability to buy or sell loans (thus affecting their liquidity) and may negatively impact the transaction price. The types of covenants included in loan agreements generally vary depending on market conditions, the creditworthiness of the issuer, the nature of the collateral securing the loan and possibly other factors. Loans with fewer covenants that restrict activities of the borrower may provide the borrower with more flexibility to take actions that may be detrimental to the loan holders and provide fewer investor protections in the event of such actions or if covenants are breached. A strategy may
experience relatively greater realized or unrealized losses or delays and expense in enforcing its rights with respect to loans with fewer restrictive covenants. Loans may be structured such that they are not securities under securities law, and in the event of fraud or misrepresentation by a borrower, lenders may not have the protection of the anti-fraud provisions of the federal securities laws. Loans are also subject to risks associated with other types of income investments, including credit risk and risks of lower rated investments. Investments in bank loans are subject to the credit risk of both the financial institution and the underlying borrower.

**Mortgage-Related Securities Risk:** Mortgage-related securities are complex derivative instruments, subject to credit, prepayment, and extension risk, and may be more volatile, less liquid, and more difficult to price accurately, than more traditional fixed-income securities. A strategy that invests in mortgage-related securities is subject to the credit risk associated with these securities, including the market’s perception of the creditworthiness of the issuing federal agency, as well as the credit quality of the underlying assets. Although certain mortgage-related securities are guaranteed as to the timely payment of interest and principal by a third party (such as a U.S. government agency or instrumentality with respect to government-related mortgage-backed securities) the market prices for such securities are not guaranteed and will fluctuate. Declining interest rates may result in the prepayment of higher yielding underlying mortgages and the reinvestment of proceeds at lower interest rates can reduce the strategy’s potential price gain in response to falling interest rates, reduce the strategy’s yield or cause the strategy’s share price to fall (prepayment risk). Rising interest rates may result in a drop in prepayments of the underlying mortgages, which would increase the strategy’s sensitivity to rising interest rates and its potential for price declines (extension risk).

**Municipal Securities Risk:** Municipal securities are issued by or on behalf of states, territories, possessions and local governments and their agencies and other instrumentalities and may be secured by the issuer’s general obligations or by the revenue associated with a specific capital project. Both “general obligation” municipal bonds and “revenue” bonds are subject to interest rate, credit and market risk, and uncertainties related to the tax status of a municipal bond, or the rights of investors invested in these securities.

The ability of an issuer to make payments could be affected by litigation, legislation or other political events or the bankruptcy of the issuer. In the event of bankruptcy of such an issuer, a strategy investing in the issuer’s securities could experience delays in collecting principal and interest, and may not, in all circumstances, be able to collect all principal and interest to which it is entitled. In addition, imbalances in supply and demand in the municipal market may result in a deterioration of liquidity and lack of price transparency in the market. At certain times, this may affect pricing, execution, and transaction costs associated with a particular trade. The value of certain municipal securities, in particular obligation debt, may also be adversely affected by rising health care costs, increasing unfunded pension liabilities, changes in accounting standards, and by the phasing out of federal programs providing financial support. Municipal securities may be less liquid than taxable bonds and there may be less publicly available information on the financial condition of municipal securities issuers than for issuers of other securities. The secondary market for municipal securities also tends to be less well-developed or liquid than many other securities markets, a by-product of
lower capital commitments to the asset class by the dealer community, which may adversely affect Principal AM’s ability to sell municipal securities it holds at attractive prices or value municipal securities. Lower rated municipal bonds are subject to greater credit and market risk than higher quality municipal bonds.

**Prepayment Risk:** When interest rates fall, the principal on mortgage-backed and certain asset-backed securities may be prepaid. The loss of higher yielding underlying mortgages and the reinvestment of proceeds at lower interest rates can reduce a strategy’s potential price gain in response to falling interest rates, reducing the value of your investment.

**Small and Mid-Size Company Risk:** Small and mid-size company stocks have historically been subject to greater investment risk than large company stocks. The prices of small and mid-size company stocks tend to be more volatile than prices of large company stocks.

**Sovereign Debt Risk:** A strategy that invests in fixed income instruments issued by sovereign entities may decline in value as a result of default or other adverse credit events resulting from the issuer’s inability or unwillingness to make principal or interest payments in a timely fashion. A sovereign entity’s failure to make timely payments on its debt can result from many factors, including, without limitation, insufficient foreign currency reserves or an inability to sufficiently manage fluctuations in relative currency valuations, an inability or unwillingness to satisfy the demands of creditors and/or relevant supranational entities regarding debt service or economic reforms, the size of the debt burden relative to economic output and tax revenues, cash flow difficulties, and other political and social considerations. The risk of loss to a strategy in the event of a sovereign debt default or other adverse credit event is heightened by the unlikelihood of any formal recourse or means to enforce its rights as a holder of the sovereign debt. In addition, sovereign debt restructurings, which may be shaped by entities and factors beyond Principal AM’s control, may result in a loss in value of a strategy’s sovereign debt holdings.

**Structured Products Risk:** Structured products are complex credit instruments involving a series of CDS or CDOs as an example. The instruments typically have several tranches, and the investing party is potentially exposed to one or several levels of payment risk. The instrument will have provisions which spell out participation in revenue and loss or repayment of principal when certain conditions are experienced by the underlying assets.

**Tax Risk:** Changes to tax laws can result in various risks with regards to investments, with fixed income investments being particularly sensitive to potential tax change implications.

**U.S. Government Securities Risk:** Not all obligations of the U.S. government’s agencies and instrumentality are backed by the full faith and credit of the U.S. Treasury. Some obligations are backed only by the credit of the issuing agency or instrumentality and in some cases, there may be some risk of default by the issuer. Any guarantee by the U.S. government or its agencies or instrumentalities of a security held by the strategy does not apply to the market value of such security. A security backed by the U.S. Treasury, or the full faith and credit of the United States is guaranteed only as to the timely payment of interest and principal when held to maturity. In addition, because many
types of U.S. government securities trade actively outside the United States, their prices may rise and fall as changes in global economic conditions affect the demand for these securities. No assurance can be given that the U.S. government will provide financial support to its agencies and instrumentalities, since it is not obligated to do so by law. Securities issued by U.S. government sponsored enterprises such as FHLMC, FNMA and the Federal Home Loan Bank are not issued or guaranteed by the U.S. Treasury. Yields available from U.S. government securities are generally lower than yields from other fixed income securities.

**Volatility Risk:** The market value of the investments made on behalf of advisory clients may decline unexpectedly due to changes in market rates of interest, general economic or political conditions, industry specific developments, or the condition of financial markets.

Underlying portfolio risks include, but are not limited to, size/style drift and earnings quality for equities; credit quality and interest rate sensitivity for fixed income portfolios; and specific sectors and countries for real estate portfolios. There is also a risk that one, some or all of the underlying portfolios selected for inclusion in the asset allocation models do not meet their stated investment objective or that the overall asset allocation recommendations that are made by Principal Asset Allocation do not perform as expected. Asset allocation advisory services offered to qualified retirement plans funded by group annuity contracts are subject to risks associated with investing in group annuity separate accounts. As with every investment, there is also the risk that the investment decisions made result in the loss of principal and that the investment could be worth less money at the time of redemption than the investor contributed to the portfolio.

Principal Asset Allocation monitors portfolio risk in a number of ways, including the processes detailed above relating to portfolio construction and the ongoing monitoring of the portfolios. Principal Asset Allocation monitors the performance of each underlying manager in the portfolio relative to the benchmark established for each asset class as well as relative to a peer group.

Principal Asset Allocation continually monitors the macro-economic environment to which the asset classes are exposed. The economic environment is a factor in the risk analysis allocation and portfolio rebalancing decisions discussed above.

A variety of software applications are used to monitor the current asset allocation mix in the client’s portfolio to identify the principal sources of portfolio risk, and to verify that the risk/return profile for the portfolio is in agreement with the client’s stated investment objective and applicable guidelines.

**General risks for private real estate debt investments:**

Terms, conditions, fees, expenses, pricing and other general guidelines and provisions are subject to change. As a general matter, commercial mortgage lending entails a degree of risk that is typically only suitable for sophisticated institutional and professional investors for whom such an investment is not a complete investment program and who fully understand and are capable of bearing the risks associated with such strategy. Commercial mortgage lending is subject to the basic risk of lending and direct ownership of commercial real estate
mortgages—borrower default on the loan and declines in the value of the real estate collateral. Defaults can be complicated by borrower bankruptcy and other litigation including the costs and expenses associated with foreclosure which can decrease an investor’s return. Declines in real estate value can result from changes in rental or occupancy rates, tenant defaults, extended periods of vacancy, increases in property taxes and operational expenses, adverse general and local economic conditions, overbuilding, deterioration in the physical condition of the asset, environmental issues at the mortgaged property, casualty, condemnation, changes in zoning laws, taxation and other governmental rules. Commercial mortgage investments are also very dependent on the financial health, operational expertise, and management skills of the borrower.

Investing in private real estate high yield debt involves significant investment risk, including the entire loss of one’s investment. There are many risks inherent in high yield private real estate debt investing that are out of the control of the Fund’s management team, including non-performance by the borrowers leading to investment losses.

**Risks of Investing in Real Estate-Related Investments.** Investments in real estate-related investments, including loans secured by real estate or real estate assets, are subject to various risks, including adverse changes in national or international economic conditions, local market conditions, availability or terms of debt financing, interest rates, environmental laws and regulations, zoning laws, and other governmental rules and fiscal policies, energy prices, the financial conditions of tenants, buyers, and sellers of properties, real estate tax rates and other operating expenses, the relative popularity of certain property types, and the availability of certain construction materials, as well as risks due to dependence on cash flow, acts of God, uninsurable losses and other factors which are beyond the control of the Fund, its general partner or its manager.

**Highly Competitive Market for Investment Opportunities.** A private real estate debt fund is based, in part, upon the premise that investments will be available for purchase at prices that Principal AM considers favorable and which are commensurate with a fund’s investment program. The activity of identifying, completing and realizing attractive investment opportunities is highly competitive and involves a significant degree of uncertainty. A fund competes for investment opportunities with other private investment vehicles, as well as the public debt markets, individuals and financial institutions, including investment banks, commercial banks and insurance companies, business development companies, strategic industry acquirers, hedge funds and other institutional investors. It is possible that competition for appropriate investment opportunities may increase and such supply-side competition may adversely affect the terms upon which investments can be made by the Fund. To the extent that current market conditions change or change more quickly than Principal currently anticipates, investment opportunities may cease to be available to a private real estate debt fund.

**General Risks with Investment in Private Funds**

Below is an additional list of some of the broader risks associated with applicable private investments that may be different than investing in public markets.

Private Funds will be subject to investment and liquidity risk and other risks inherent in real estate such as those associated with general and local economic conditions. Notwithstanding the mitigants described herein investors may lose all or a significant portion of their
investment, which may occur as a result of identified or unidentified risks.

Private funds will not be registered under the Securities Act of 1933 as amended, or the securities laws of any U.S. state or otherwise with any U.S. regulatory authority and private funds will not be registered under the Investment Company Act of 1940 as amended, (the “1940 Act”). Consequently, investors in a private fund will not receive the protections of the 1940 Act afforded to investors in registered investment companies. Private funds will utilize leverage. An investor could lose all, or a substantial portion of, the investment. A private funds’s manager or adviser has total investment authority over the fund and may be subject to various conflicts of interest. The ability for an investor to redeem its limited partner interest in a private fund is extremely limited and subject to certain restrictions and conditions under the applicable Limited Partner Agreement. No public market for the sale of limited partner interests exists and such interests, subject to certain limited exceptions, are not transferable. A private fund is not suitable for all investors and does not represent a complete investment program. A private fund is available only to qualified investors who are comfortable with the substantial risks associated with investing. Private funds are speculative investments and are not suitable for all investors, nor do they represent a complete investment program. An investment in private funds includes the risks inherent in an investment in securities, as well as specific risks associated with the use of leverage, short sales, options, futures derivative instruments, investments in non-U.S. securities, junk bonds and illiquid investments. There can be no assurance that an investment strategy will be successful.

**Item 9 – Disciplinary Information**

Registered investment advisers are required to disclose all material facts regarding any legal or disciplinary events that would be material to your evaluation of Principal AM or the integrity of Principal AM’s management.

Regulatory bodies such as state insurance departments, the Securities and Exchange Commission, the Financial Industry Regulatory Authority, the Department of Labor and other regulatory agencies regularly make inquiries and conduct examinations or investigations concerning our compliance with, among other things, insurance laws, securities laws, ERISA and laws governing the activities of registered investment advisers. We receive requests from regulators and other governmental authorities relating to industry issues and may receive additional requests, including subpoenas and interrogatories, in the future.

Information about the Principal AM and its investment management affiliates can be found in Part 1 of each registrant’s Form ADV.

To the best of Principal AM’s knowledge, Principal AM has no information applicable to this item.
Item 10 – Other Financial Industry Activities and Affiliations

Affiliated Entities

Principal AM utilizes personnel or other resources or services of its non-U.S. affiliates, Principal Global Investors (Europe) Ltd., Principal Global Investors (EU) Ltd., Principal Global Investors (Singapore) Ltd., Principal Global Investors (Australia) Ltd., Principal Global Investors (Hong Kong) Ltd., Principal Global Investors (Ireland) Ltd., Principal Global Investors (Switzerland) Ltd., Principal Asset management (Asia) Principal Global Investors (Japan) Ltd. And any other affiliated entities that Principal AM contracts with as appropriate to assist Principal AM in the performance of investment advisory services.

Those advisory affiliates recommend to their clients or invest on behalf of their clients in securities that are the subject of recommendations to, or discretionary trading on behalf of, Principal AM’s clients. Investment professionals from the advisory affiliates render portfolio management, research, or trading services to Principal AM’s clients, including registered investment companies.

Affiliated Investment Advisers

Principal Real Estate Investors, LLC (“Principal Real Estate”) is an investment adviser registered with the SEC. Principal Real Estate offers portfolio management and investment advisory and sub-advisory services for public and private real estate products to affiliated (including Principal AM) and non-affiliated persons.

Principal Enterprise Capital, LLC (“PEC”) is an investment advisor registered with the SEC. PEC invests in Real Estate Operating Companies (“REOCs”).

Principal Advised Services, LLC (“PAS”) is an investment adviser registered with the SEC. PAS provides asset allocation advice implemented with assistance of proprietary algorithms.

Post Advisory Group (“Post”) is an investment adviser registered with the SEC. Post offers services in managing client funds invested in high yield debt securities and distressed securities. Post provides such services as a sub-adviser to Principal AM.

Principal Origin (“Origin”) is an investment adviser registered with the SEC. Origin offers services in managing client funds invested in global (ex U.S.) equity securities.

Spectrum Asset Management, Inc. (“Spectrum”) is an investment adviser registered with the SEC. Spectrum offers services managing client funds invested in preferred securities. Spectrum is also a member of the National Futures Association and registered with the Commodity Futures Trading Commission.

Affiliated Broker Dealers
SAMI Brokerage, LLC ("SAMI"), is a registered broker-dealer and a FINRA (Financial Industry Regulatory Authority) member. Principal AM executes securities transactions for clients through SAMI in certain circumstances, but only in compliance with applicable rules.

Principal Securities, Inc. ("PSI"), is an investment adviser registered with the SEC and a FINRA-registered broker-dealer that markets a variety of proprietary and non-proprietary mutual funds, unit investment trusts and limited partnerships. Principal AM does not execute security transactions with PSI. PSI is an introducing broker-dealer for retail funds business.

Principal Funds Distributor, Inc. ("PFD") is a registered broker-dealer and a FINRA member. PFD serves as a principal underwriter for Principal Funds, Inc., Principal Variable Contracts, Inc., and Principal Exchange-Traded Funds. Principal AM acts as sub-adviser to certain Principal Funds. Principal AM does not execute security transactions with PFD.

**Other Principal Financial Group Affiliated Entities**

The Principal Real Estate Europe Group ("the PrinREE Group"), which was acquired by Principal in April 2018, manages alternative investment funds and separate account mandates investing in European real estate on behalf of investors and clients. The PrinREE Group includes 5 authorized Alternative Investment Fund Managers ("AIFMs"): Principal Real Estate Limited - authorized in the UK by the FCA; Principal Real Estate SAS - authorized in France by the AMF; Principal Real Estate S.À R.L. - authorized in Luxembourg by the CSSF; Principal Real Estate Kapitalverwaltungsgesellschaft mbH and Principal Real Estate Spezialfondsgesellschaft mbH - each of which are registered in Germany by BaFin. Principal Real Estate has a Participating Affiliate Arrangement with the PrinREE Group that allows the PrinREE Group to provide advisory services to PrinREI clients.

Principal Claritas ("Claritas"), an investment adviser in Brazil, specializes in alternative investments and hedge funds in local markets and abroad.

Principal Global Investors Trust Company ("PGI Trust") is an Oregon banking corporation and a trustee of collective investment trusts. PGI Trust, as trustee, retains Principal AM as investment adviser for one or more bank collective investment trusts. For some of the bank collective investment trusts, Principal AM is granted discretion or mandated to retain one or more affiliated investment advisory firms as sub-adviser.

Principal Trust Company is a Delaware trust company providing trust, custodial and administrative services. Additionally, Principal Trust Company serves as a discretionary trustee over a group of accounts where they delegate investment advisory services to Principal AM.

Principal Bank is a FDIC-insured bank that offers a variety of products and services, including Individual Retirement Accounts.

Principal Bank is a federal savings association and Principal Trust Company is a Delaware
trust company. Principal Bank and Principal Trust do business under the name Principal Custody Solutions (“PCS”). In some situations, PCS serves as discretionary trustee to accounts for which PCS delegates investment advisory services to Principal AM. Principal Bank also serves as an affiliated qualified custodian to some of these accounts as well as to other accounts for which Principal AM serves as investment manager.

Principal Life Insurance Company (“Principal Life”) is a licensed insurance company in all 50 states and the District of Columbia. Principal AM manages the Principal Total Market Stock Index Separate Account of Principal Life. Principal AM provides asset allocation advice and other investment advisory services to qualified retirement plans funded with group annuity contracts purchased from Principal Life.

Principal International, Inc. (“PI”) is an affiliate of Principal AM, as both Principal International and Principal AM are direct or indirect wholly owned subsidiaries of Principal Financial Services, Inc. (“PFSI”).

**Other Financial Industry Activities**

Principal AM’s legal entity (PGI) is registered with the Commodity Futures Trading Commission (CFTC) as a Commodity Trading Advisor (“CTA”) and as a Commodity Pool Operator (“CPO”).

PGI operates one or more controlled foreign corporations (“CFC”) of the registered fund for which it acts as a registered CPO and is a member of the National Futures Association (“NFA”). PGI advises qualified eligible persons (“QEPs”) under CFTC Regulation 4.7.

Principal AM is the investment adviser to the Principal Funds, which includes three separate registered investment companies - Principal Funds, Inc., Principal Variable Contracts Funds, Inc., and Principal Exchange-Traded Funds.

Some of Principal AM’s staff are registered representatives of PFD and/or PSI. The staff, in their capacity as registered representatives of PFD and PSI, solicit investment in Principal Funds or in unregistered private investment funds which are sponsored or managed by Principal AM or its affiliates. Only the registered representatives on Principal AM’s distribution staff are eligible to receive sales compensation for any sales of shares of the Principal Funds or interests in unregistered private investment funds. In addition to the sales compensation paid to Principal AM’s distribution staff, Principal Funds and unregistered private investment funds pay advisory fees that are received by Principal AM or its affiliated advisers. As such, there is a conflict of interest when funds that are paying advisory fees to Principal AM or its affiliated advisers are recommended by the sales staff.

Some Separately Managed Account/Wrap fee programs (“SMA Programs”) include investment styles with respect to which one or more of Principal AM’s affiliated investment advisory firms has expertise and experience. Where that is the case, both Principal AM and the affiliated advisory firm(s) will be involved in the provision of investment advisory services to program participants electing the investment style, with the affiliated advisory firm responsible for providing model portfolio creation and
maintenance services for the style, and Principal AM responsible for placing client account trades, proxy voting (for those clients electing to authorize the investment adviser to vote proxies), implementing reasonable client-imposed investment restrictions, establishing and implementing procedures used to select securities to be liquidated when a client requests partial liquidation of the client's account, and all other responsibilities imposed upon the investment adviser in the particular wrap fee program. In some wrap fee programs, the affiliated advisory firm is also granted authority to handle larger trades, typically those associated with changes to the model portfolio, where appropriate, in order to seek best execution. In those situations, in which one of Principal AM’s affiliated advisory firms provides model portfolio creation and maintenance services, the affiliated advisory firm ordinarily provides those services as a sub-adviser to Principal AM, and the client’s direct agreement ordinarily is with Principal AM as the investment adviser. In those situations, Principal AM is responsible to the client for the actions and decisions of Principal AM’s affiliated sub-adviser and Principal AM is responsible for paying its affiliated sub-adviser out of the fees Principal AM receives as the client’s investment adviser. In the event that Principal AM uses SAMI as a broker on trades for accounts in wrap fee programs, no brokerage commissions will be paid to SAMI in connection with those trades.

Principal AM is part of a diversified, global financial services organization with many types of affiliated financial services providers, including but not limited to broker-dealers, insurance companies and other investment advisers. Principal AM enters into arrangements, as needed, to provide services or otherwise enter into some form of business relationship with these foreign and/or domestic affiliates. Additional disclosure of these relationships will be provided upon request.

Principal AM acts as investment adviser to certain index ETFs for which the NASDAQ Stock Market LLC (“NASDAQ”) serves as index service provider. While Principal AM retains certain intellectual property rights with respect to such indices, there is no expectation that NASDAQ will consult with Principal AM or its affiliates with respect to possible changes to the indices. Neither Principal AM nor any of its affiliates are expected to be in possession of or have access to any non-public information concerning the index methodologies or screening criteria of each index, although the possibility may occur. To the extent separate accounts, mutual funds, ETFs, or other products seek to track the performance of any of the proprietary indexes, or in instances where Principal AM or an affiliate becomes aware of non-public information concerning the NASDAQ indices, there is a potential for conflicts of interests. Potential conflicts include the possibility of misuse or improper dissemination of non-public information about contemplated changes to the composition of an index, such as using information about changes to the index to trade in a personal account, unauthorized access to index information, and allowing index or methodology changes in order to benefit Principal AM or other accounts managed by it. However, Principal AM believes it has adopted policies and procedures to help protect against these conflicts, including implementing information barriers and documentation of index changes as well as restrictions on personal trading.

**Item 11 – Code of Ethics, Participation or Interest in Client Transactions and Personal Trading**
Code of Ethics

Principal AM has adopted a Code of Ethics (the “Code”). The principal purposes of the Code are to provide policies and procedures consistent with applicable laws and regulations, including Rule 204A-1 under the Advisers Act, to prevent conflicts of interests or the appearance of such conflicts when Principal AM’s officers, directors, employees, and certain non-employees of Principal AM with access to client and trading information of Principal AM (“Access Persons”) own or engage in their own personal transactions involving securities. Clients of Principal AM can obtain a copy of the Code of Ethics by contacting the Chief Compliance Officer at 800-533-1390.

Employee Personal Trading

The Code requires all Access Persons to adhere to high standards of honest and ethical conduct, and the interests of our advisory clients must be placed first at all times. All Access Persons of the firm are required to certify upon association/employment and annually thereafter that they have read, understood, and complied with the Code. This includes that they have complied with the requirements and disclosed covered accounts, reportable securities and pre-cleared transactions as required by the Code.

AccessPersons are permitted to personally buy and sell securities of issuers that Principal AM also trades for its clients, so long as those buy and sell transactions are conducted in accordance with the Code.

As such, there are procedures in place to prevent instances where potential conflicts of interest arise between the personal securities transactions of the Access Persons and the securities transactions that Principal AM conducts for the accounts of clients. Compliance monitors personal trading via an online pre-clearance system. The procedures provide for the maintenance of a master securities list that includes all securities traded by Principal AM for purchase or sale on behalf of clients. All Access Persons are required to obtain pre-clearance approval to buy and sell reportable securities (excluding exempt securities and transactions) through the online monitoring system, FIS Personal Trading Assistant, before executing a personal security transaction to make sure the proposed transaction conforms to our Code provisions. There is also a quarterly review of reportable transactions, as well as annual certification of accounts and holdings by Access Persons. Please refer to the Code for a detailed overview of provisions.

From time to time, Principal AM advises clients to purchase securities which could coincide with other client purchases, or when one or more affiliates of Principal AM could also (1) be purchasing or selling and/or (2) holding such securities. Such situations are subject to procedures designed to assure fair allocation of available transactions. Principal AM also advises clients to participate in investment vehicles with other participants (e.g., a Principal Collective Investment Trust), and which potentially include one or more affiliates of Principal AM. Principal AM recommends to its clients the purchase, sale or holding of shares of affiliated mutual funds and/or ETFs for which Principal AM and its affiliates also provide advisory services while considering suitability. Principal AM has policies and procedures that address trading and potential conflicts of interest. These conflicts, along with all potential conflicts of
interest, are overseen according to our relevant policies and procedures.

**Principal AM Interests in Client Transactions**

Principal AM will invest its own financial assets primarily in U.S. Treasury securities that it also recommends to clients. It also invests its own financial assets in a short-term investment pool of its indirect parent company, PFSI, or in a checking account in the name of Principal AM.

From time to time, Principal AM may invest seed money in an account (e.g., a private fund or separately managed account) for the purposes of creating or maintaining a track record that will later be used to market an investment strategy. When seed money is no longer deemed necessary, the seed money may be withdrawn. Principal AM will attempt to do so without impairing its ability to manage the investment strategy or causing harm to any clients or shareholders.

Principal AM furnishes investment advice with respect to various portfolios of its affiliate company, Principal Life. In fulfilling its responsibilities, Principal AM buys and/or sells for Principal Life securities or other investment products that it also recommends to its clients who are not related persons of Principal AM. Also, Principal AM provides investment advisory services to qualified retirement plans funded through Principal Life group annuity contracts.

The investment options offered to these clients include primarily a recommendation to invest in Principal Life separate accounts. Principal AM is the investment manager of various securities portfolios of Principal Life, Principal International, and other related persons. Principal AM is the adviser to a number of the Principal Funds, a family of mutual funds organized by Principal Life and distributed by Principal Securities, Inc. and Principal Funds Distributor, Inc. Principal Life, Principal International, PSI, and PFD are related persons of Principal AM. In carrying out its responsibilities in each of these arrangements, Principal AM buys or sells for related persons securities that it also recommends to its clients who are not related persons of Principal AM.

**Outside Activities**

Principal AM employees have a duty to act solely in the interest of our clients. As such, Principal AM’s Outside Business Activity procedures requires that employees obtain approval from their manager and Compliance before engaging in any outside activities. This allows Principal AM the opportunity to consider whether such activities create actual or potential conflicts of interest.

**Political Contributions**

Principal AM’s Political Contribution Policy establishes the requirements that apply when employees make or solicit U.S. political contributions or engage in political activities in the U.S. The policy prohibits Principal AM’s employees from making or soliciting U.S. political contributions for the purpose of obtaining or retaining business. The policy requires employees to pre-clear U.S. political contributions before the employee, spouse, domestic partner, or dependent children make any contributions to a political candidate,
government official, political party, or political action committee ("PAC") in the U.S.

**Item 12 – Brokerage Practices**

When acting as a discretionary adviser, Principal AM determines which securities or other instruments are bought or sold for an account, the amount of such securities or other instruments and the timing of the purchases and sales, the broker, dealer, underwriter (and in the case of the currency services, the foreign exchange dealer) through which transactions are affected and the commission rates or spreads paid, except as specifically directed by the client. Our discretion in these matters is governed by our responsibility to act in the best interest of our clients in fulfilling their investment objectives.

**Selection of Brokers and Dealers**

Principal AM’s principal objective in selecting broker-dealers and entering client trades is to seek best execution for clients’ transactions. In general, best execution means executing trades at the best net price considering all relevant circumstances. While best execution is our objective for all transactions, it can be evaluated over time through several transactions rather than through a single transaction. In seeking best execution, the key factor is not necessarily the highest bid or the lowest offer, but whether the transaction represents the best qualitative execution for the client. This assessment will be influenced by many factors including current market conditions and the type of instrument in question and the markets in which it trades. In selecting brokers and dealers, Principal AM considers a variety of factors including, but not limited to:

- Financial strength and stability
- Best price for the trade
- Reasonableness of the commission, spreads, or markups
- Ability to execute and clear a trade in a prompt and orderly manner
- Quality of executions in the past and existing relationship to date
- Confidentiality provided by the broker or dealer
- Execution capabilities and any related risks in trading a block of securities
- Broad market coverage resulting in a continuous flow of information concerning bids and offers
- Consistent quality of service, including the quality of any investment-related services provided
- Recordkeeping practices (e.g., timely and accurate confirmations) and
- Cooperation in resolving differences.

Principal AM reviews a variety of internal and external trading reports and forensic tests to evaluate the quality of execution of certain transactions over time. In some instances, Principal AM will pay broker commissions that are higher than the commissions another broker might have charged for the same transaction. Please see the section on Soft Dollar Practices below for additional information about brokerage and research services received by Principal AM.

Principal AM maintains an approved list of brokers and dealers; our traders are required to direct trades only through these approved counterparties. New counterparty
arrangements must be reviewed and approved by Principal AM before trading can begin through the new counterparty. Alternative trading systems that meet the Counterparty Team’s guidelines are also eligible for consideration. Once a broker or dealer is approved, it is added to the Approved Counterparty List and communicated to traders. Counterparties are regularly monitored by the Counterparty Team for signs of deterioration in business operations, creditworthiness, and rating changes.

Principal AM generally does not intend to place portfolio trades for any of its equity or fixed income clients with an affiliated broker-dealer.

Principal AM conducts an annual fixed income broker review that gathers input from key investment staff. Portfolio managers, research analysts and traders rate brokers and dealers based on the value they believe they receive from the broker or dealer through reports, meetings, conference calls, management visits and other research. Traders rate brokers and dealers based on factors that include, but are not limited to, execution quality, information flow, volume of trading in Principal AM’s orders, willingness to take the other side of the trade in a principal transaction, bids and offers and the broker’s execution cost history. Based on their responses, an aggregate score will be calculated for each broker and dealer and a relative ranking determined. In addition to ratings, feedback is gathered on the strengths and weaknesses of each broker and dealer (e.g., research sales, strategy, and trading).

**Brokerage Commissions**

Transactions on stock exchanges and other agency transactions, as applicable, involve the payment by the client of negotiated brokerage commissions. Such commissions vary among different brokers and dealers and a particular broker or dealer often charges different commissions based on the difficulty and size of the transaction or the means of execution (i.e., program, algorithmic or sales trader), among other things. Although commission rates are considered by Principal AM in our brokerage selection process and are reasonable in relation to the value of the services provided, our clients may not realize the lowest possible commission rates as our determination process considers the additional factors outlined above.

**Cross Trades**

Principal AM generally will not arrange for one client to purchase or sell securities to another client (a “cross trade”) unless the clients in question have adopted a policy that permits cross trades and the regulatory authority governing the client accounts clearly permits the cross trade to occur. Principal AM has implemented policies and procedures regarding the execution of cross trades when appropriate for both clients and permissible under applicable law. Cross trades are only considered in circumstances where the transaction is in the best interests of both parties, the purchase and sale of the security satisfies the investment guidelines for each of the portfolios involved, and all applicable regulatory requirements are satisfied (e.g., for mutual funds, the cross trade is consistent with Rule 17a-7 procedures).

When entering into cross trades, Principal AM takes steps to obtain a price it has determined by reference to independent market indicators, and which Principal AM believes is consistent with its duty to seek “best execution” for each party. To the
extent required by applicable law, Principal AM will obtain the necessary clients consents prior to engaging in a cross trade and/or inform clients of the relevant details of the cross trade. For all cross trades that are executed, a form must be completed and signed by the portfolio managers assigned to the portfolios and submitted to Compliance for review. The form requires that the portfolio managers provide written statements regarding the reasons the transaction is beneficial for both parties involved, and requests information regarding any commissions or fees to be paid, if any, and how the market price was determined.

Transactions that involve an ERISA plan have additional requirements that are outlined in the policies and procedures.

Because Principal AM manages different styles of accounts with different portfolio managers, it sometimes happens that two or more portfolio managers initiate orders to buy or sell the same equity security at the same time. If one portfolio manager has entered a buy order for a stock while another portfolio manager has a sell order, the orders will be worked separately to ensure that one account does not buy from the other.

**Principal Transactions**

Principal AM does not generally engage in principal transactions, as defined by Section 206-3 under the Advisers Act, as part of its trading processes for clients. In the event that Principal AM engages in a principal transaction, Principal AM will take action to ensure compliance with the relevant requirements of the Advisers Act. Section 206-3 prohibits any investment adviser from engaging in or effecting a transaction on behalf of a client while acting either as principal for its own account, or as broker for a person other than the client, without disclosing in writing to the client, before the completion of the transaction, the adviser’s role in the transaction and obtaining the client’s consent. An investment adviser is not “acting as broker” if the adviser receives no compensation (other than its advisory fee) for effecting a particular agency transaction between advisory clients.

**New Issues**

Newly issued securities (including new securities sold in reliance on Rule 144A) will normally be purchased directly from the issuer or from an underwriter for the securities. Such transactions involve no brokerage commissions. Purchases from underwriters will typically involve a commission or concession paid by the issuer (and not by clients of Principal AM) to the underwriter. In some new issue transactions, there is only one underwriter and, accordingly, any orders for that new issue security will be placed with that underwriter. In other new issue transactions in which an underwriting group is involved, pricing should be uniform among the underwriters and Principal AM will normally place its orders with the lead manager, in an effort to maximize the prospects for getting the orders filled. Secondary purchases from and sales to dealers will include the spread between the bid and asked prices. In general, Principal AM’s primary objective in exercising any available authority concerning the selection of an underwriter, broker, or dealer is to obtain the best overall terms for the Principal AM’s clients. In pursuing this objective, Principal AM considers all matters it deems relevant.
(both for the specific transaction and on a continuing basis), including the breadth of the market in the security, the price of the security, the financial condition and executing capability of the broker or dealer and the reasonableness of the compensation, if any, received by the underwriter, broker, or dealer.

**Foreign Exchange Transactions**

It is the responsibility of a client’s custodian to handle foreign exchange transactions (“FX Transactions”) for client accounts, to settle trades and to repatriate dividends, interest and other income payments received into the client account to the account’s base currency when necessary. However, Principal AM will, when requested by the client and where Principal AM determines that it is cost effective or efficient, arrange for its trade desk or a third party to handle trade settlement related FX Transactions in unrestricted currencies. Under this type of arrangement, should a client so request, the trade desk is responsible for seeking best execution for FX Transactions, either with the client’s custodian or with third parties. Unless otherwise agreed to, Principal AM will continue to issue standing instructions to each client’s custodian for all other types of FX Transactions in unrestricted currencies, such as those related to dividend and interest repatriation. Because of various limitations regarding transactions in restricted currencies, (generally in jurisdictions where all FX Transactions must be done by the client’s custodian) all FX Transactions in restricted currencies will continue to be affected by each client’s custodian pursuant to standing instructions and Principal AM will not be in a position to seek best execution.

In cases where a client has not requested that Principal AM handle arrangements for trade settlement related FX Transactions in non-U.S. securities, and/or Principal AM has deemed that it is not cost effective to do so, Principal AM will instruct the client’s custodian to execute the necessary FX Transactions. This is done either through standing instructions communicated to the custodian when the account is established, or at the time settlement instructions are sent to the custodian for a particular transaction. The custodian is responsible for executing FX Transactions, including the timing and applicable rate, of such execution pursuant to its own internal processes. As clients generally have arrangements with their custodian regarding the execution of FX Transactions, such arrangements impact the fees and expenses charged to the client by the custodian.

**Trade Errors**

Principal AM maintains a system of checks and balances designed to limit the errors it makes in placing trades for client accounts. It is Principal AM’s policy that the utmost care is taken in making and implementing investment decisions on behalf of our funds and our client accounts. Nonetheless, Principal AM will, from time to time, make such errors. It is Principal AM’s policy to absorb all losses on trades it places in error. In rectifying erroneous trades, Principal AM distinguishes between errors it identifies prior to the time a client’s custodian settles the erroneous trade and posts it to the client’s custodial statement (“Time of Settlement”) and those it identifies after the Time of Settlement. With respect to equity securities, Principal AM maintains an error account and settles into it all erroneous trades it identifies prior to the Time of Settlement. Any
profits from erroneous trades identified before Time of Settlement are retained in the error account and can only be used to offset losses caused by subsequent errors.

It is Principal AM’s policy to accord clients any profitable erroneous trades it identifies after the Time of Settlement, and to net profits and losses of related transactions arising from the same underlying error when calculating client losses.

Principal AM’s policy covering the correction of trading errors generally applies only to the extent that Principal AM has control of resolving errors for client accounts. For the Managed Accounts, the Program Sponsor may have control over the resolution of errors of participating investment managers, including Principal AM.

Because of the actions or omissions of a broker-dealer, a trade executed in the market may materially differ from the instructions or order given by the applicable portfolio manager or the trading desk personnel for that trade. Errors attributable to brokers are not considered trade errors, but Principal AM will oversee the resolution of a broker’s error.

**Soft Dollars – Commission Sharing Agreements**

It is Principal AM’s policy to use all soft dollar credits generated by brokerage commissions attributable to client accounts in a manner consistent with the “safe harbor” established by Section 28(e) of the Securities Exchange Act. Except as discussed below with respect to “mixed-use” products and services, services retained via soft dollar arrangements are exclusively used for either research or in connection with brokerage and trading functions within that “safe harbor.” In using client brokerage commissions to obtain research or other products or services, Principal AM receives a benefit because Principal AM does not have to produce or pay for the research, products, or services directly. Additionally, Principal AM may have an incentive to select a broker-dealer based on Principal AM’s interest in receiving the research or other products or services, rather than receiving most favorable execution. Principal AM has implemented policies and procedures it believes are reasonably designed to address such conflicts of interest. Principal AM has implemented procedures intended to track and evaluate the benefits received by Principal AM and how client commissions are used to pay for eligible research and services.

Principal AM has entered into Commission Sharing Arrangements (“CSA”) with selected broker dealers to generate and use commission credits to pay for research from providers regardless of the trading relationship. Transaction commission rates are negotiated at an execution rate and a commission credit rate with an executing broker. Pursuant to the CSA, the research component of the commission is swept to a centralized commission aggregator account maintained by a third-party on behalf of Principal AM. The centralized commission account is used to pay for approved research and services consumed to support Principal AM’s investment process in accordance with the Principal AM procedures. Principal AM believes the use of CSAs minimizes conflicts of interest inherent in the use of soft dollars as Principal AM directs commissions to the best execution venue and uses accumulated commission credits to pay for research. The use of CSAs allows Principal AM to monitor the cost of the execution relationship as well as the research relationships.
The commission aggregator, under Principal AM supervision, pays for eligible research. This research payment may be made to a provider who is also an executing broker or another third-party research provider. If the broker or third party does not assign a value to the research provided, Principal AM will assign the value based on Principal AM’s assessment of the research. Principal AM utilizes a semi-annual research provider evaluation process to assist in this determination of value. Principal AM maintains records of this valuation process.

In isolated soft dollar arrangements, Principal AM could receive products and services that are considered “mixed use.” These products and services may be included alongside research but have been deemed administrative or somehow ineligible as research within the “safe harbor.” In such cases, Principal AM makes a reasonable allocation of the cost of the product or service according to the use. Principal AM pays for the portion of the product or service that consists of research benefiting Principal AM’s investment decision making processes using commission dollars while paying the portion that is ineligible as research using Principal AM’s own assets. Principal AM maintains records of this process.

**Allocation of Soft Dollar Benefits and Costs**

The aggregation of commission credits may unintentionally result in some Principal AM clients paying a lower amount of commissions compared to another client. Research obtained through CSAs may be used to benefit any Principal AM client and is not limited to the client whose account generated the credits. Research is not allocated to the client accounts in direct proportion to the commission credits that the client account may have earned. Principal AM may also share research across teams such that clients who did not earn commission credits may receive a benefit from such research. Principal AM determines and pays a fair and reasonable amount for research out of its own assets to offset those clients who do not participate in the CSA program and therefore do not earn commission credits.

Principal AM also mutually utilizes research with and/or may sub advise entities that are subject to the European Union’s Markets in Financial Instruments Directive II (“MiFID II”). While Principal AM may not be directly subject to MiFID II provisions, Principal AM has determined it is appropriate and reasonable to pay for research utilized by those investment professionals employed by Principal AM’s affiliated MiFID II subjected entity from Principal AM’s own assets. Such payments may benefit those Principal AM clients not directly subject to MiFID II provisions as these accounts utilize investment decision making provided by the affiliated MiFID II entity.

Principal AM Fixed Income does not accept the use of soft dollar credits and currently does not engage in “deal credit” arrangements in municipal bond transactions.

**Trade Order Aggregation and Allocation for Equity Accounts**

Principal AM acts as investment adviser for a variety of accounts and will place orders to trade securities for each of those accounts from time to time. If, in carrying out the investment objectives of the accounts, occasions arise when purchases or sales of the
same securities are to be made for two or more of the accounts at the same time, Principal AM may submit the orders to purchase or sell to a broker or dealer for execution on an aggregate or “bunched” basis (including orders for accounts in which Principal AM, its affiliates and/or its personnel have beneficial interests). In aggregating trade orders and allocating available securities, Principal AM seeks to provide fair and equitable treatment to all clients participating in the “bunched order.” The fairness of a given allocation depends on the facts and circumstances involved, including the client’s investment criteria and account size and the size of the order. Principal AM aggregates trades to give clients the benefits of efficient and cost-effective delivery of investment management services. By aggregating trades, it is possible for Principal AM to also obtain more favorable execution for clients.

Principal AM may create several aggregate or “bunched” orders relating to a single security at different times during the same day. On such occasions, when not restricted by the client’s investment management agreement, Principal AM generally prepares, before entering an aggregated order, a written allocation statement as to how the order will be allocated among the various accounts. Securities purchased or proceeds of sales received on each trading day with respect to each such aggregate or “bunched” order shall be allocated to the various accounts whose individual orders for purchase or sale make up the aggregate or “bunched” order by filling each account’s order in accordance with the allocation statement. In the event that the aggregated order cannot be completely filled, the securities purchased or sold will generally be allocated among the various accounts on a pro rata basis, subject to rounding to avoid less easily traded lots and individual issuer de minimis limits. Securities purchased for client accounts participating in an aggregate or “bunched” order will be placed into those accounts at a price equal to the average of the weighted prices achieved in the course of filling that aggregate or “bunched” order.

Although, Principal AM generally allocates trades pro rata, trades may be allocated on a basis other than strictly pro rata if we believe such allocation is fair and reasonable to all accounts involved in the order. For example, changes in the availability of cash or liquidity needs subsequent to the initial order, a de minimis holding resulting from such an allocation, or a change in the client’s needs subsequent to an initial allocation could form the basis of a decision to make a non-pro rata allocation.

Principal AM expects aggregation or “bunching” of orders, on average, to reduce the cost of execution. Principal AM generally will not aggregate a client’s order if, in a particular instance, it believes that aggregation will increase the client’s cost of execution. In some cases, aggregation or “bunching” of orders could increase the price a client pays or receives for a security or reduce the amount of securities purchased or sold for a client account.

**Client Directed Brokerage and Managed Accounts**

A client may instruct Principal AM to direct trading for their account to a particular broker. If a client directs Principal AM to use a particular broker or dealer, it is possible Principal AM will be unable to negotiate commissions, obtain volume discounts, ensure best execution, or batch trades on the client’s behalf. Consequently, clients who direct Principal AM to use a particular broker could possibly pay more in
commissions than those who do not. No assurance can be given that transactions executed in accordance with such directed brokerage arrangements result in the best execution available to the client. In addition, client directed brokerage on behalf of employee benefit plan clients may be subject to special requirements under the Employee Retirement Income Security Act of 1974 (“ERISA”).

Managed Accounts occasionally include client directed brokerage provisions. More commonly, these programs pay a fee to the Program Sponsor that covers, among other things, brokerage commissions for trades executed with the Program Sponsor or the Program Sponsor-designated broker-dealer. The fee does not cover brokerage commissions charged on trades executed with other broker-dealers. As a result, best execution decisions by Principal AM for trades for these clients tend to favor use of the Program Sponsor or the Program Sponsor-designated broker-dealer, and Principal AM will only seek to execute transactions with other broker-dealers when Principal AM believes that the execution benefits of executing with another broker-dealer outweigh the cost of the commission paid.

Managed accounts are generally traded less frequently, potentially at different times and pursuant to different triggers than “discretionary trading” accounts. In allocating investments among clients of the same investment strategy (including in what sequence orders for trades are placed), Principal AM will use its best reasonable business judgment and will take into account such factors as the investment objectives and strategies of the clients, position weightings, cash availability, risk tolerance, size of the account, and a client’s request for directed brokerage all in order to provide a result that Principal AM in good faith believes is fair and equitable to each client over time. Under Managed Account programs, the delivery of trading recommendations and changes in model portfolios occur when accounts with discretionary trading are in the process of implementation, or after similar changes have been implemented. Efforts are taken to communicate model changes and directed trade recommendations within a reasonable time as discretionary trades except for time limitations set forth in client agreements with each platform sponsor. A predetermined trade rotation is utilized to communicate directed trading when changes are required across multiple Managed Accounts.

Depending on a variety of factors, including the amount of the wrap fee, the trading activity and the value of custodial and other services, the cost to Managed Accounts that pay a single “wrap” fee may or may not exceed the separate costs of such services.

Fixed income Managed Accounts currently trade at the same time as other fixed income clients, except for time limitations set forth in client agreements. For equity strategies, the delivery of trading recommendations and changes in model portfolios for Managed Accounts occur when accounts with discretionary trading are in the process of implementation, or after similar changes have been implemented. Efforts are taken to communicate model changes and directed trade recommendations within a reasonable time as discretionary trades except for time limitations set forth in client agreements with each platform sponsor. A predetermined trade rotation is utilized to communicate directed trading when changes are required across multiple Managed Accounts, and the specialized investment teams’ “model only” programs are accorded rotation slots on a similar basis as the slots accorded to other Managed Accounts.
It should be expected therefore, that accounts receiving directed trade execution through Program Sponsors will be implemented at different points in time, and therefore may have differences in performance compared to other accounts in the rotation and/or accounts with Principal AM discretionary trading. Such differences may be favorable or unfavorable because of market changes arising from differences in timing of final trade implementation. Although the trading processes noted above are consistent, changes to model portfolios and the manner by which they are implemented may differ by strategy or portfolio manager.

**Item 13 – Review of Accounts**

**Review of All Accounts**

Principal AM reviews each client account to monitor portfolio performance and to ensure that each portfolio conforms to guidelines established by Principal AM and the client. Separately negotiated contracts with each client contain the precise nature of the advisory services to be furnished to that client. These contracts can specify the criteria and process for the account review furnished by the client. In addition, Principal AM uses its own review processes and procedures during the ongoing management of the client’s portfolio. Principal AM generally sends reports to clients on the investment status of their portfolios quarterly, or more frequently if required under the terms of the client contract.

Principal AM utilizes a compliance system to assist in the automated review and monitoring of portfolios. Many client account investment guidelines can be input into this compliance system. Each equity trade order is submitted into the system and reviewed electronically for compliance with the account’s investment guidelines. This is done prior to the trade order being submitted to Principal AM’s trade desk. The system blocks trades that would cause an explicit breach of client guidelines. Principal AM generates daily reports identifying exceptions for further analysis.

**Reviews by Strategy**

**Equities**

Equity portfolios receive ongoing review during the trading process. The portfolio managers utilize proprietary and third-party portfolio construction tools to monitor pre-trade and post-trade risks before trade orders are sent to the trading desk. These systems allow the team to evaluate the impact of potential trades on the overall portfolio exposures which cannot be monitored through the automated compliance system, yet are a client objective or guideline.

Authorized members of the specialized investment teams can monitor portfolios on an ongoing basis and allow Senior Management to view portfolio positioning for all strategies at any time. Daily performance reports on representative samples of client portfolios are compared to relative benchmarks. Principal AM runs monthly risk analysis and exception reports on a representative sample of portfolios relative to benchmarks, and in addition, portfolio managers formally review a representative group of client portfolios each month.
Fixed Income

Each fixed income portfolio is reviewed daily by its portfolio manager and team members assigned to that portfolio. Principal AM runs daily reports on a sampling of accounts indicating performance of each portfolio, market value and cash for each account included in the sampling. Principal AM has an oversight process to monitor portfolios. Principal AM runs monthly performance reports on all accounts, which are provided to the members who have oversight authority. Risk management reports showing error (tracking error) and characteristics are run at least quarterly. Each portfolio manager meets quarterly to review the activity in the portfolio(s) for which the portfolio manager is responsible.

Asset Allocation

Principal Asset Allocation reviews fund positioning and performance daily. Sector, risk factor, and issuer concentrations are monitored through FactSet. Investment guidelines are established and monitored for each sub-adviser in a Fund that establish criteria for individual security weightings, sector allocation bands, tracking error relative to the benchmark, etc. Quarterly monitoring calls are also held with each sub-adviser.

These calls are supplemented with reviews of managers’ monthly and quarterly attribution and risk management materials, annual face-to-face meetings, and an annual re-underwriting of the investment and operations due diligence. Sub-advisers may be removed or replaced as needed.

The Investment Solutions team reviews the asset allocation process used to develop its investment market outlook and the portfolios developed for its strategies on a quarterly basis. Asset allocation strategies are customized for each client based on their specific goals and objectives. In some instances, asset allocation reviews are performed on a quarterly basis while others may be reviewed annually. The frequency of the review depends on the time horizon and investment strategy for each relevant account.

Reviewers

Principal AM has several committees that review all client portfolios falling within their respective equities or fixed income area of focus. All committee members are officers of Principal AM and generally hold the title of Director, Managing Director, or Executive Director. The appropriate committee assists the Portfolio Manager in reviewing objectives and constraints of the client, investment activity, operational activity, and client relations at least quarterly. The number of accounts each committee reviews varies by committee.

Item 14 – Client Referrals and Other Compensation

Principal AM currently does not anticipate entering into any promoter arrangements with a related or unrelated person(s). However, from time to time, Principal AM has historically entered into arrangements with other persons who may act as promoters of clients when it appears to Principal AM that a promoter could provide access to
clients Principal AM might not otherwise have. Prior to doing so, Principal AM will make applicable regulatory filings and ensure that such arrangements are maintained in compliance with Rule 206(4)(1) and relevant supporting regulatory guidance. This compensation may include paying the promoter (a) a salary; (b) a percentage of the management fee Principal AM has earned for the client that the promoter has introduced; (c) a one-time fee; or (d) any combination of (a), (b), and/or (c).

**Other Compensation**

**Placement Arrangements**

Certain Principal AM affiliates, such as Principal Funds Distributor in the U.S., serve as the appointed distributor to many of the registered investment products. In this capacity, the Principal AM affiliates contract with authorized participants. In the U.S., these activities may be deemed participation in a distribution of a registered investment product for statutory purposes and an affiliate may receive additional compensation.

**Promotional and Educational Cost Reimbursements**

From time to time and consistent with Principal AM’s policy and applicable regulation, Principal AM also pays for, or reimburses broker-dealers to cover, various costs arising from, or activities that may result in, the sale of advisory products or services, including: (i) client and prospective client meetings and entertainment; (ii) sales and marketing materials; (iii) educational and training meetings or entertainment activities with the registered representatives of such broker-dealers and other personnel from entities that distribute Principal AM’s products and/or services; and (iv) charitable donations in connection with events involving personnel or clients of entities that distribute Principal AM’s products and/or services.

**Item 15 - Custody**

Rule 206(4)-2 under the Advisers Act (the “Custody Rule”) defines “custody” to include a situation in which an adviser or a related person holds, directly or indirectly, client funds or securities or has any authority to obtain possession of them, in connection with advisory services provided by the adviser. For example, for purposes of the Custody Rule, we may be “deemed” to have custody of certain client assets because we have the ability to deduct fees from client custodial accounts.

If Principal AM is deemed to have “custody” solely as a consequence of its authority to deduct its fees from client accounts, however, it will not be required to obtain a surprise examination under the Custody Rule. Principal AM urges careful review account statements and a comparison of official custodial records against any Principal AM-provided account statements.

Principal AM does not hold client assets. Principal AM has affiliates which provide custody services for certain Principal AM clients. In these circumstances, Principal AM will receive an Internal Control Report (or equivalent supporting documentation from the affiliate) evidencing it has undergone an independent surprise examination in
accordance with the Custody Rule.

Generally, in circumstances where Principal AM is deemed to have “custody,” (1) Principal AM will have a reasonable basis, after due inquiry, for believing that the client’s custodian sends an account statement, at least quarterly, to such client; and (2) a surprise examination will be conducted annually to verify the existence of assets in the client’s account.

Where Principal AM is deemed to have custody of private funds or certain other pooled investment vehicles, audited financial statements will be distributed to investors within 120 days of the end of the fiscal year.

Item 16 – Investment Discretion

Principal AM generally receives discretionary authority from the client at the outset of an advisory relationship to select the identity and amount of securities to be bought or sold. Principal AM retains limited discretion from clients to allocate retirement plan assets within the group variable annuity contracts issued by Principal Life. In all cases, however, such discretion is to be exercised in a manner consistent with the stated investment objectives, guidelines and restrictions for the particular client account memorialized in a written agreement.

When selecting securities and determining amounts, Principal AM observes the investment policies, limitations, and restrictions of the clients for which it advises.

Principal AM may accept accounts for which it has discretionary authority to purchase securities for the account, but not to select broker-dealers for transactions. These are commonly known as “client directed brokerage relationships” and are described in “Item 12 – Brokerage Practices.” Principal AM may also accept non-discretionary arrangements, such as providing a series of securities recommendations by periodically updating a model portfolio, or where clients retain investment discretion with respect to transactions in the account. In these situations, Principal AM’s lack of investment discretion may cause the client to lose possible advantages that our discretionary clients may derive from our ability to act for those discretionary clients in a more-timely fashion, such as the aggregation of orders for several clients as a single transaction.

Item 17 – Voting Client Securities

Principal AM has adopted and implemented written Proxy Voting Policies and Procedures which are designed to reasonably ensure that Principal AM satisfies its fiduciary obligation with respect to voting proxies for clients which have authorized Principal AM to vote proxies. Clients can choose to retain the right to vote proxies. Principal AM’s guiding principles in performing proxy voting are to make decisions that (i) favor proposals that tend to maximize a company’s shareholder value and (ii) are not influenced by conflicts of interest.

Principal AM’s Proxy Voting Committee (the “Proxy Voting Committee”) shall (i)
oversee the voting of proxies and the Proxy Advisory Firm, (ii) where necessary, make determinations as to how to instruct the vote on certain specific proxies, (iii) verify ongoing compliance with the Policy, (iv) review the business practices of the Proxy Advisory Firm and (v) evaluate, maintain, and review the Policy on an annual basis.

The Proxy Voting Committee, on an annual basis, or more frequently as needed, will direct each investment team to review draft proxy voting guidelines recommended by the Committee (“Draft Guidelines”). Where an investment team has a position which deviates from the Draft Guidelines, an alternative set of guidelines for that investment team may be created. Collectively, these guidelines will constitute Principal AM’s current Proxy Voting Guidelines and may change from time to time (the “Guidelines”). The Proxy Voting Committee has the obligation to determine that, in general, voting proxies pursuant to the Guidelines is in the best interests of clients.

While the Proxy Voting Committee establishes the Guidelines and Procedures, the Proxy Voting Committee does not direct votes for any client except in certain cases where a conflict of interest exists. Each investment team is responsible for determining how to vote proxies for those securities held in the portfolios their team manages. While investment teams generally vote consistently with the Guidelines, there may be instances where their vote deviates from the Guidelines. Clients may instruct Principal AM to utilize a different set of guidelines, request specific deviations, or directly assume responsibility for the voting of proxies. In addition, Principal AM may deviate from the Guidelines on an exception basis if the investment team or Principal AM has determined that it is the best interest of clients in a particular strategy to do so, or where the Guidelines do not direct a particular response and instead list relevant factors.

Principal AM believes a company’s environmental, social and governance (“ESG”) practices may influence the value of the company, and Principal AM may take these factors into consideration when voting.

Principal has retained one or more third-party proxy service provider(s) (the “Proxy Advisory Firm”) to provide recommendations for proxy voting guidelines, information on shareholder meeting dates and proxy materials, translate proxy materials printed in a foreign language, provide research on proxy proposals, operationally process votes in accordance with the Guidelines on behalf of the clients for whom Principal AM has proxy voting responsibility, and provide reports concerning the proxies voted (“Proxy Voting Services”). Although Principal AM has retained the Proxy Advisory Firm for Proxy Voting Services, Principal AM remains responsible for proxy voting decisions.

Where Principal AM is vested with proxy voting authority, it is Principal AM’s policy to attempt to vote all proxies on behalf of the client, unless Principal AM determines in accordance with its policies to refrain from voting. Because of the volume and complexity of the proxy voting process, including inherent inefficiencies in the process that are outside Principal AM’s control (e.g., delays or incomplete information from intermediaries such as custodians, proxy agents or parties involved in Wrap Fee Programs), not all proxies may be voted.

Principal AM does not have authority to vote and does not vote proxies on behalf of qualified retirement plan clients funded through group annuity contracts purchased
from Principal Life.  
With respect to non-U.S. companies, Principal AM makes reasonable efforts to vote 
most proxies and follow a similar process to those in the U.S. However, in some cases it 
may be both difficult and costly to vote proxies due to local regulations, customs or 
other requirements or restrictions, and such circumstances and expected costs may 
outweigh any anticipated economic benefit of voting. The major difficulties and costs 
may include: (i) appointing a proxy; (ii) obtaining reliable information about the time 
and location of a meeting; (iii) obtaining relevant information about voting procedures 
for foreign shareholders; (iv) restrictions on trading securities that are subject to proxy 
votes (share-blocking periods); (v) arranging for a proxy to vote locally in person; (vi) 
fees charged by custody banks for providing certain services with regard to voting 
proxies; and (vii) foregone income from securities lending programs. In certain 
instances, it may be determined by Principal AM that the anticipated economic benefit 
outweighs the expected cost of voting. Principal AM intends to make its determination 
on whether to vote proxies of non-U.S. companies on a case-by-case basis. 
Some clients may have entered into securities lending arrangements with agent lenders 
to generate additional revenue. If a client participates in such lending, the client will 
need to inform Principal AM as part of their contract with Principal AM if they require 
Principal AM to take actions in regard to voting securities that have been lent. If not 
commemorated in such agreement, Principal AM will not recall securities and as such, 
they will not have an obligation to direct the proxy voting of lent securities. In the case 
of lending, Principal AM maintains one share for each company security out on loan by 
the client. Principal AM will vote the remaining share in these circumstances. 

Principal AM maintains proxy voting records and related records designed to meet its 
obligations under applicable law. Where permitted by and in accordance with applicable 
law, Principal AM may rely on third parties to make and retain, on our behalf, a copy of 
the relevant records. Clients may obtain a complete copy of our proxy voting policies 
and other information regarding how their proxies were voted upon request. 

In the rare event that a proxy ballot is received for a fixed income account, the 
relevant portfolio manager will be responsible for voting the ballot. 

**Item 18 – Financial Information**

Registered investment advisers are required in this Item to provide clients with 
certain financial information or disclosures about the firm’s financial condition. 
Principal AM has no financial commitment that impairs its ability to meet contractual 
and fiduciary commitments to clients and has not been the subject of bankruptcy 
proceeding.

Supervised Persons

Public Markets (encompassing all areas below)
David Blake - Global Head of Public Markets

Principal Global Equities

Global Broad Market
(Mustafa Sagun, Melinda Hanrahan, Martin Frandsen, Scott Leiberton)

Global Small-Mid Cap
(Brian Pattinson, Tiffany Lavastida, Phillip Nordhus, David Han)

International & Emerging Markets
(Paul Blankenhagen, Juliet Cohn, Jeffrey Kilkenny, Alan Wang)

Global Systematic
(Jeff Schwarte, Christopher Ibach, Aaron Siebel)

Principal Aligned
(K. William Nolin, Thomas Rozycki)

Principal Edge
(Daniel Coleman, Sarah Radecki, Theodore Jayne, Nedret Vidinli, Lauren Choi)

Principal Dynamic Growth
(Christopher Corbett, Marc Shapiro)

Principal Fixed Income
(Andrew Dion, Timothy Warrick, William Armstrong, Christina Paris, John Friedl, Rob Dowil, Michael Zorich, Craig Dawson, Dan Kang, Jeff Callahan, Mark Denkinger, Darrin Smith, Joshua Rank, Darryl Trunnel, Nicholas Varcoe, Bryan Davis, Zach Gassman, Erika Isley, James Welch, James Noble, Scott Jeffrey Peterson, Tracy Reeg, Scott Bennett, Shane Johnston, Gene Lackershire, Peretua Phillips, Howe Chung Wan, Prakash Gopalakrishnan, Chee Sin Koh, Jon Curran)

This brochure supplement provides information about the “Supervised Persons” of Principal Global Equities and Principal Aligned that supplements the Principal Asset Management brochure. Principal Global Equities, Principal Aligned, Principal Edge, and Principal Dynamic Growth are specialized investment groups within Principal Asset Management. You should have received a copy of that brochure. Please contact us at (800) 533-1390 if you did not receive the brochure or if you have any questions about the contents of this supplement.
This brochure supplement provides information about David Blake, a “supervised person” of Principal Asset Management’s Fixed Income team, and supplements the Principal Asset Management brochure. You should have received a copy of that brochure. Please contact us using the information above if you did not receive the brochure or if you have any questions about the contents of this supplement.

Item 2 – Educational Background and Business Experience
- Year of birth: 1966
- BSBA Finance, St. Louis University
- MBA Business, St. Louis University
- Senior Executive Director and Global Head of Fixed Income, Principal Asset Management, 02/04 to present

Item 3 – Disciplinary Information
The supervised person has not been involved in any legal events or subjected to any disciplinary actions which are material to Principal Asset Management’s clients or prospective clients.

Item 4 – Other Business Activities
This supervised person serves as Director of a Principal Asset Management Commodity Pool Operator and Commodity Trading Advisor and does not receive additional compensation for serving as a Director. This activity is not likely to create an additional conflict as each product investment committee is responsible for allocation decisions within the underlying investment product and the Director does not have input into the day to day discretionary trading decisions.

Item 5 – Additional Compensation
The supervised person receives from Principal Asset Management a regular salary and incentive-based compensation which could in part be derived from account openings, assets under management and potentially new accounts. Additionally, Principal Asset Management employees are eligible for incentive compensation awards including trips and other recognition based at least in part of sales, or accounts obtained or retained.

Item 6 – Supervision
Principal Asset Management uses a team approach to monitor the advice provided by the supervised person. Each fixed income portfolio is reviewed daily by its Portfolio Manager and team members assigned to that portfolio.

Pat Halter, President, Principal Asset Management is responsible for supervising David Blake. He may be reached at (800) 533-1390 or via email at Halter.Pat@principal.com.
Mustafa Sagun

Global Broad Market

This brochure supplement provides information about Mustafa Sagun, a “supervised person” of Principal Global Equities, and supplements the Principal Asset Management brochure. You should have received a copy of that brochure. Please contact us using the information above if you have not received the brochure or if you have any questions about the contents of this supplement.

Item 2 -- Educational Background and Business Experience
- Year of birth: 1966
- BS Electronics and Engineering, Bogazici University, Turkey
- MA International Economics/Econometrics, University of South Florida
- PhD Finance/Economics, University of South Florida
- Chief Investment Officer, Principal Asset Management, 01/06 to present

Item 3 – Disciplinary Information
The supervised person has not been involved in any legal events or subjected to any disciplinary actions which are material to Principal Asset Management’s clients or prospective clients.

Item 4 – Other Business Activities
No supervised person is actively engaged in any other investment-related businesses or other occupations.

Item 5 – Additional Compensation
The supervised person receives from Principal Asset Management a regular salary and incentive-based compensation which could in part be derived from account openings, assets under management and potentially new accounts. Additionally, Principal Asset Management employees are eligible for incentive compensation awards including trips and other recognition based at least in part of sales, or accounts obtained or retained.

Item 6 – Supervision
Principal Asset Management uses a team approach to monitor the advice provided by the supervised person. Each client account is reviewed to monitor portfolio performance and to ensure that each portfolio conforms to guidelines established by Principal Asset Management and the client. All members of the equity group can monitor portfolios on an ongoing basis and allow senior management to view portfolio positioning for all strategies at any time.

Kamal Bhatia, Head of Global Investments, is responsible for supervising Mustafa Sagun. He may be reached at (800) 533-1390 or via email Bhatia.Kamal@principal.com.
Global Broad Market

This brochure supplement provides information about Melinda Hanrahan, a “supervised person” of Principal Global Equities, and supplements the Principal Asset Management brochure. You should have received a copy of that brochure. Please contact us using the information above if you have not received the brochure or if you have any questions about the contents of this supplement.

Principal Asset Management uses a team approach to monitor the advice provided by the supervised person. Each client account is reviewed to monitor portfolio performance and to ensure that each portfolio conforms to guidelines established by Principal Asset Management and the client. All members of the equity group can monitor portfolios on an ongoing basis and allow senior management to view portfolio positioning for all strategies at any time.

Mustafa Sagun, Chief Investment Officer, PGI Equities, is responsible for supervising Paul Blankenhagen. He may be reached at (800) 533-1390 or via email at Sagun.Mustafa@principal.com.
Global Small Cap

This brochure supplement provides information about Brian Pattinson, a “supervised person” of Principal Global Equities, and supplements the Principal Asset Management brochure. You should have received a copy of that brochure. Please contact us using the information above if you have not received the brochure or if you have any questions about the contents of this supplement.

Item 2 – Educational Background and Business Experience
- Year of birth: 1972
- BA Finance, University of Iowa
- MBA, University of Iowa
- Portfolio Manager, Principal Asset Management, 03/06 to present

Item 3 – Disciplinary Information
The supervised person has not been involved in any legal events or subjected to any disciplinary actions which are material to Principal Asset Management’s clients or prospective clients.

Item 4 – Other Business Activities
No supervised person is actively engaged in any other investment-related businesses or other occupations.

Item 5 – Additional Compensation

The principal business of Principal Asset Management is that of an investment adviser. As a member of Investment Solutions the supervised person provides asset allocation and manager selection advice to clients on behalf of Principal Asset Management.

Item 5 – Additional Compensation
The supervised person receives from Principal Asset Management a regular salary and incentive-based compensation which could in part be derived from account openings, assets under management and potentially new accounts. Additionally, Principal Asset Management employees are eligible for incentive compensation awards including trips and other recognition based at least in part on sales, or accounts obtained or retained.

Item 6 – Supervision
Principal Asset Management uses a team approach to monitor the advice provided by the supervised person. Each portfolio is reviewed by its Portfolio Strategist and team members assigned to that account.

Owais Rana, Managing Director – Investment Solutions, is responsible for supervising Steve Guggenberger. He may be reached at (800) 533-1390 or via email at rana.owais@principal.com.

## WHAT DOES PRINCIPAL DO WITH YOUR PERSONAL INFORMATION?

### Why?

Financial companies choose how they share your personal information. Federal law gives consumers the right to limit some but not all sharing. Federal law also requires us to tell you how we collect, share, and protect your personal information. Please read this notice carefully to understand what we do.

### What?

The types of personal information we collect and share depend on the product or service you have with us. This information can include:

- Social Security number, credit history, credit scores, income, or payment history
- Account transactions, account balances, and account investment experience
- Medical information

### How?

All financial companies need to share customers’ personal information to run their everyday business. In the section below, we list the reasons financial companies can share their customers’ personal information; the reasons Principal chooses to share; and whether you can limit this sharing.

### REASONS WE CAN SHARE YOUR PERSONAL INFORMATION

<table>
<thead>
<tr>
<th>REASONS WE CAN SHARE YOUR PERSONAL INFORMATION</th>
<th>DOES PRINCIPAL SHARE?</th>
<th>CAN YOU LIMIT THIS SHARING?</th>
</tr>
</thead>
<tbody>
<tr>
<td>For our everyday business purposes—such as to process your transactions, maintain your account(s), respond to court orders and legal investigations, or report to credit bureaus</td>
<td>Yes</td>
<td>No</td>
</tr>
<tr>
<td>For our marketing purposes—to offer our products and services to you</td>
<td>Yes</td>
<td>No</td>
</tr>
<tr>
<td>For joint marketing with other financial companies</td>
<td>No</td>
<td>We don’t share</td>
</tr>
<tr>
<td>For our affiliates’ everyday business purposes—information about your transactions and experiences</td>
<td>Yes</td>
<td>No</td>
</tr>
<tr>
<td>For our affiliates’ everyday business purposes—information about your creditworthiness</td>
<td>No</td>
<td>We don’t share</td>
</tr>
<tr>
<td>For our affiliates to market to you</td>
<td>No</td>
<td>We don’t share</td>
</tr>
<tr>
<td>For nonaffiliates to market to you (All entities other than Principal Securities, Inc.)</td>
<td>No</td>
<td>We don’t share</td>
</tr>
<tr>
<td>For nonaffiliates to market to you (Applies only to Principal Securities, Inc. (“PSI”), and only if your financial professional changes their affiliation and leaves PSI.)</td>
<td>Yes</td>
<td>Yes</td>
</tr>
</tbody>
</table>

### To limit our sharing

To limit Principal Securities, Inc.’s sharing with nonaffiliates, call 1-800-986-3343 or visit [https://www.principal.com/optout-principalsecurities/](https://www.principal.com/optout-principalsecurities/).

**Please note:**
If you are a new customer, we can begin sharing your information 45 days from the date we sent this notice. When you are no longer our customer, we continue to share your information as described in this notice. However, you can contact us at any time to limit our sharing.

### Questions?

Call 1-800-986-3343 or visit [https://www.principal.com/privacy-policies/](https://www.principal.com/privacy-policies/) for additional information.

### Who we are

The following Principal Financial Group companies: Principal Life Insurance Company; Principal National Life Insurance Company; Principal Funds, Inc.; Principal Global Investors, LLC; Principal Real Estate Investors, LLC; Principal Securities, Inc.; Principal Advised Services, LLC; Principal Trust Company; Principal Funds Distributor, Inc.; Spectrum Asset Management, Inc.; Employers Dental Services, Inc.; and Principal Dental Services, Inc. Additional entities to which this notice applies are listed in the “Other important information” section below.
### What we do

<table>
<thead>
<tr>
<th><strong>What we do</strong></th>
<th><strong>Explanation</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>How does Principal protect my personal information?</strong></td>
<td>To protect your personal information from unauthorized access and use, we use security measures that comply with federal and state laws. These measures include computer safeguards and secured files and buildings.</td>
</tr>
</tbody>
</table>
| **How does Principal collect my personal information?** | We collect your personal information, for example, when you  
- Open an account, apply for insurance, or seek advice about your investments  
- Direct us to buy securities or make deposits or withdrawals from your account  
- File an insurance claim  
We also collect your personal information from others, such as affiliates, credit bureaus or other companies. |
| **Why can’t I limit all sharing?** | Federal and state laws give you the right to limit only  
- sharing for affiliates’ everyday business purposes—information about your creditworthiness  
- affiliates from using your information to market to you  
- sharing for nonaffiliates to market to you  
State laws and individual companies may give you additional rights to limit sharing. See below for more on your rights under state law. |
| **What happens when I limit sharing for an account I hold jointly with someone else?** | Your choices will apply to everyone on your account. |

### Definitions

<table>
<thead>
<tr>
<th><strong>Definitions</strong></th>
<th><strong>Description</strong></th>
</tr>
</thead>
</table>
| **Affiliates** | Companies related by common ownership or control. They can be financial and nonfinancial companies.  
- Our affiliates include companies of Principal Financial Group and other companies of Principal name. |
| **Nonaffiliates** | Companies not related by common ownership or control. They can be financial and nonfinancial companies.  
- Your financial professional and their new financial institution if he/she changes his/her affiliation and leaves Principal Securities. |
| **Joint marketing** | A formal agreement between nonaffiliated financial companies that together market financial products or services to you.  
- Principal does not jointly market. |

### Other important information

**In addition to the companies listed above, this notice applies to:** All funds or other vehicles advised, organized, or managed by Principal Global Investors, LLC, Principal Real Estate Investors, LLC, or their affiliates; Principal Diversified Select Real Asset Fund; Principal Life Insurance Company Variable Life Separate Account; Principal National Life Insurance Company Variable Life Separate Account; and Principal Life Insurance Company Separate Account B.

**Nevada Residents:** You may request to be placed on our internal Do Not Call list. Send an email with your phone number to connect@principal.com. You may request a copy of our telemarketing practices. For more on this Nevada law, contact Bureau of Consumer Protection, Office of the Nevada Attorney General, 555 E. Washington St., Suite 3900, Las Vegas, NV 89101; phone number: 1-702-486-3132; email: BCPINFO@ag.state.nv.us.

**For Vermont Customers:** We will not disclose information about your creditworthiness to our affiliates and will not disclose your personal information, financial information, credit report, or health information to nonaffiliated third parties to market to you, other than as permitted by Vermont law, unless you authorize us to make those disclosures.

**California:** Under California law, we will not share information we collect about you with companies outside of Principal, unless the law allows. For example, we may share information with your consent, to service your accounts, or to provide rewards or benefits you are entitled to. We will limit sharing among our companies to the extent required by California law.

**For insurance customers in AZ, CT, GA, IL, ME, MA, MT, NV, NJ, NM, NC, ND, OH, OR, and VA only:** The term “information” means information we collect during an insurance transaction. We will not use your medical information for marketing purposes without your consent. We may share your Information with others, including insurance-support organizations, insurance regulatory authorities, law enforcement, and consumer reporting agencies, without your prior authorization as permitted or required by law. Information obtained from a report prepared by an insurance-support organization may be retained by the insurance-support organization and disclosed to other persons.

**For MA Insurance Customers only.** You may ask, in writing, for the specific reasons for an adverse underwriting decision. An adverse underwriting decision is where we decline your application for insurance, offer to insure you at a higher than standard rate or terminate your coverage.

**For insurance customers, to request access to or deletion of your personal information,** send a written letter to Privacy Officer, P.O. Box 14582, Des Moines, IA 50306-3582. Include your name, address, and your policy, contract, or account number, and describe the information you wish to access or delete. You may correct inaccurate personal information by sending a written letter identifying the information to be corrected. We can’t change information other companies, like credit agencies, provide to us. You’ll need to ask them to change it.
Introduction
Principal Global Investors (“PGI”) is an investment adviser registered with the U.S. Securities and Exchange Commission (“SEC”) pursuant to the Investment Advisers Act of 1940 (the “Advisers Act”). As a registered investment adviser, PGI has a fiduciary duty to act in the best interests of its clients. PGI recognizes that this duty requires it to vote client securities, for which it has voting power on the applicable record date, in a timely manner and make voting decisions that are in the best interests of its clients. This document, Principal Global Investors’ Proxy Voting Policies and Procedures (the “Policy”) is intended to comply with the requirements of the Investment Advisers Act of 1940, the Investment Company Act of 1940 and the Employee Retirement Income Security Act of 1974 applicable to the voting of the proxies of both US and non-US issuers on behalf of PGI’s clients who have delegated such authority and discretion.

Effective January 1, 2021, Finisterre Investment Teams adopted the policies and procedures in the Adviser’s compliance manual except for the following proxy policies and procedures. Finisterre Investment Teams will continue to follow the previously adopted proxy policies and procedures until amended. Please see the Appendix to the compliance manual for Finisterre specific proxy policies and procedures.

Relationship between Investment Strategy, ESG and Proxy Voting
PGI has a fiduciary duty to make investment decisions that are in its clients’ best interests by maximizing the value of their shares. Proxy voting is an important part of this process through which PGI can support strong corporate governance structures, shareholder rights and transparency. PGI also believes a company’s positive environmental, social and governance (“ESG”) practices may influence the value of the company, leading to long-term shareholder value. PGI may take these factors into considerations when voting proxies in its effort to seek the best outcome for its clients. PGI believes that the integration of consideration of ESG practices in PGI’s investment process helps identify sources of risk that could erode the long-term investment results it seeks on behalf of its clients. From time to time, PGI may work with various ESG-related organizations to engage issuers or advocate for greater levels of disclosure.

Roles and Responsibilities

Role of the Proxy Voting Committee
PGI’s Proxy Voting Committee (the “Proxy Voting Committee”) shall (i) oversee the voting of proxies and the Proxy Advisory Firm, (ii) where necessary, make determinations as to how to instruct the vote on certain specific proxies, (iii) verify ongoing compliance with the Policy, (iv) review the business practices of the Proxy Advisory Firm and (v) evaluate, maintain, and review the Policy on an annual basis. The Proxy Voting Committee is comprised of representatives of each investment team and a representative from PGI Risk, Legal, Operations, and Compliance will be available to advise the Proxy Voting Committee but are non-voting members. The Proxy Voting Committee may designate one or more of its members to oversee specific, ongoing compliance with respect to the Policy and may designate personnel to instruct the vote on proxies on behalf the PGI’s clients (collectively, “Authorized Persons”). The Proxy Voting Committee shall meet at least four times per year, and as necessary to address special situations.

Role of Portfolio Management
While the Proxy Voting Committee establishes the Guidelines and Procedures, the Proxy Voting Committee does not direct votes for any client except in certain cases where a conflict of interest exists. Each investment team is responsible for determining how to vote proxies for those securities held in the portfolios their team manages. While investment teams generally vote consistently with the Guidelines, there may be instances where their vote deviates from the Guidelines. In those circumstances, the investment team will work within the Exception Process. In some instances, the same security may be held by more than one investment team. In these cases, PGI may vote differently on the same
Proxy Voting Guidelines

The Proxy Voting Committee, on an annual basis, or more frequently as needed, will direct each investment team to review draft proxy voting guidelines recommended by the Committee (“Draft Guidelines”). The Proxy Voting Committee will collect the reviews of the Draft Guidelines to determine whether any investment teams have positions on issues that deviate from the Draft Guidelines. Based on this review, PGI will adopt proxy voting guidelines. Where an investment team has a position which deviates from the Draft Guidelines, an alternative set of guidelines for that investment team may be created. Collectively, these guidelines will constitute PGI’s current Proxy Voting Guidelines and may change from time to time (the “Guidelines”). The Proxy Voting Committee has the obligation to determine that, in general, voting proxies pursuant to the Guidelines is in the best interests of clients. Exhibit A (Base) and Exhibit B (Sustainable) to the Policy sets forth the current Guidelines.

There may be instances where proxy votes will not be in accordance with the Guidelines. Clients may instruct PGI to utilize a different set of guidelines, request specific deviations, or directly assume responsibility for the voting of proxies. In addition, PGI may deviate from the Guidelines on an exception basis if the investment team or PGI has determined that it is the best interest of clients in a particular strategy to do so, or where the Guidelines do not direct a particular response and instead list relevant factors. Any such a deviation will comply with the Exception Process which shall include a written record setting out the rationale for the deviation.

The subject of the proxy vote may not be covered in the Guidelines. In situations where the Guidelines do not provide a position, PGI will consider the relevant facts and circumstances of a particular vote and then vote in a manner PGI believes to be in the clients’ best interests. In such circumstance, the analysis will be documented in writing and periodically presented to the Proxy Voting Committee. To the extent that the Guidelines do not cover potential voting issues, PGI may consider the spirit of the Guidelines and instruct the vote on such issues in a manner that PGI believes would be in the best interests of the client.

Use of Proxy Advisory Firms

PGI has retained one or more third-party proxy service provider(s) (the “Proxy Advisory Firm”) to provide recommendations for proxy voting guidelines, information on shareholder meeting dates and proxy materials, translate proxy materials printed in a foreign language, provide research on proxy proposals, operationally process votes in accordance with the Guidelines on behalf of the clients for whom PGI has proxy voting responsibility, and provide reports concerning the proxies voted ("Proxy Voting Services"). Although PGI has retained the Proxy Advisory Firm for Proxy Voting Services, PGI remains responsible for proxy voting decisions. PGI has designed the Policy to oversee and evaluate the Proxy Advisory Firm, including with respect to the matters described below, to support the PGI’s voting in accordance with this Policy.

Oversight of Proxy Advisory Firms

Prior to the selection of any new Proxy Advisory Firm and annually thereafter or more frequently if deemed necessary by PGI, the Proxy Voting Committee will consider whether the Proxy Advisory Firm: (a) has the capacity and competency to adequately analyze proxy issues and provide the Proxy Voting Services the Proxy Advisory Firm has been engaged to provide and (b) can make its recommendations in an impartial manner, in consideration of the best interests of PGI’s clients, and consistent with the PGI’s voting policies. Such considerations may include, depending on the Proxy Voting Services provided, the following: (i) periodic sampling of votes pre-populated by the Proxy Advisory Firm’s systems as well as votes cast by the Proxy Advisory Firm to review that the Guidelines adopted by PGI are being followed; (ii) onsite visits to the Proxy Advisory Firm office and/or discussions with the Proxy Advisory Firm to determine whether the Proxy Advisory Firm continues to have the capacity and competency to carry out its proxy obligations to PGI; (iii) a review of those aspects of the Proxy Advisory Firm’s policies, procedures, and methodologies for formulating voting recommendations that PGI consider material to Proxy Voting Services provided to PGI, including factors considered, with a particular focus on those relating to identifying, addressing and disclosing potential conflicts of interest (including potential conflicts related to the provision of Proxy Voting Services, activities other than Proxy Voting Services, and those presented by affiliation such as a controlling shareholder of the Proxy Advisory Firm) and monitoring that materially current, accurate, and complete information is used in creating recommendations and research; (iv) requiring the Proxy Advisory Firm to notify PGI if there is a substantive change in the Proxy Advisory Firm’s policies and procedures or otherwise to business practices, including with respect to conflicts, information gathering and creating voting recommendations and research, and reviewing any such change(s); (v) a review of how and when the Proxy Advisory Firm engages with, and receives and incorporates input from, issuers, the Proxy Advisory Firm’s clients and other third-party information sources; (vi) assessing how the Proxy Advisory Firm considers factors unique to a specific
issuer or proposal when evaluating a matter subject to a shareholder vote; (vii) in case of an error made by the Proxy Advisory Firm, discussing the error with the Proxy Advisory Firm and determining whether appropriate corrective and preventive action is being taken; and (viii) assessing whether the Proxy Advisory Firm appropriately updates its methodologies, guidelines, and voting recommendations on an ongoing basis and incorporates input from issuers and Proxy Advisory Firm clients in the update process. In evaluating the Proxy Advisory Firm, PGI may also consider the adequacy and quality of the Proxy Advisory Firm’s staffing, personnel, and/or technology.

**Procedures for Voting Proxies**

To increase the efficiency of the voting process, PGI utilizes the Proxy Advisory Firm to act as its voting agent for its clients’ holdings. Issuers initially send proxy information to the clients’ custodians. PGI instructs these custodians to direct proxy related materials to the Proxy Advisory Firm. The Proxy Advisory Firm provides PGI with research related to each resolution.

PGI analyzes relevant proxy materials on behalf of their clients and seek to instruct the vote (or refrain from voting) proxies in accordance with the Guidelines. A client may direct PGI to vote for such client’s account differently than what would occur in applying the Policy and the Guidelines. PGI may also agree to follow a client’s individualized proxy voting guidelines or otherwise agree with a client on particular voting considerations.

PGI seeks to vote (or refrain from voting) proxies for its clients in a manner that PGI determines is in the best interests of its clients, which may include both considering both the effect on the value of the client’s investments and ESG factors. In some cases, PGI may determine that it is in the best interests of clients to refrain from exercising the clients’ proxy voting rights. PGI may determine that voting is not in the best interests of a client and refrain from voting if the costs, including the opportunity costs, of voting would, in the view of PGI, exceed the expected benefits of voting to the client.

**Procedures for Proxy Issues within the Guidelines**

Where the Guidelines address the proxy matter being voted on, the Proxy Advisor Firm will generally process all proxy votes in accordance with the Guidelines. The applicable investment team may provide instructions to vote contrary to the Guidelines in their discretion and with sufficient rationale documented in writing to seek to maximize the value of the client’s investments or is otherwise in the client’s best interest. This rationale will be submitted to PGI Compliance to approve and once approved administered by PGI Operations. This process will follow the Exception Process. The Proxy Voting Committee will receive and review a quarterly report summarizing all proxy votes for securities for which PGI exercises voting authority. In certain cases, a client may have elected to have PGI administer a custom policy which is unique to the Client. If PGI is also responsible for the administration of such a policy, in general, except for the specific policy differences, the procedures documented here will also be applicable, excluding reporting and disclosure procedures.

**Procedures for Proxy Issues Outside the Guidelines**

To the extent that the Guidelines do not cover potential voting issues, the Proxy Advisory Firm will seek direction from PGI. PGI may consider the spirit of the Guidelines and instruct the vote on such issues in a manner that PGI believes would be in the best interests of the client. Although this not an exception to the Guidelines, this process will also follow the Exception Process. The Proxy Voting Committee will receive and review a quarterly report summarizing all proxy votes for securities for which PGI exercises voting discretion, which shall include instances where issues fall outside the Guidelines.

**Securities Lending**

Some clients may have entered into securities lending arrangements with agent lenders to generate additional revenue. If a client participates in such lending, the client will need to inform PGI as part of their contract with PGI if they require PGI to take actions in regard to voting securities that have been lent. If not commemorated in such agreement, PGI will not recall securities and as such, they will not have an obligation to direct the proxy voting of lent securities.

In the case of lending, PGI maintains one share for each company security out on loan by the client. PGI will vote the remaining share in these circumstances.

In cases where PGI does not receive a solicitation or enough information within a sufficient time (as reasonably determined by PGI) prior to the proxy-voting deadline, PGI or the Proxy Advisory Firm may be unable to vote.

**Regional Variances in Proxy Voting**

PGI utilizes the Policy and Guidelines for both US and non-US clients, and there are some significant differences between voting U.S. company proxies and voting non-U.S. company proxies. For U.S. companies, it is usually relatively easy to vote proxies, as the proxies are typically received automatically and may be voted by mail or electronically. In most
cases, the officers of a U.S. company soliciting a proxy act as proxies for the company’s shareholders.

With respect to non-U.S. companies, we make reasonable efforts to vote most proxies and follow a similar process to those in the U.S. However, in some cases it may be both difficult and costly to vote proxies due to local regulations, customs or other requirements or restrictions, and such circumstances and expected costs may outweigh any anticipated economic benefit of voting. The major difficulties and costs may include: (i) appointing a proxy; (ii) obtaining reliable information about the time and location of a meeting; (iii) obtaining relevant information about voting procedures for foreign shareholders; (iv) restrictions on trading securities that are subject to proxy votes (share-blocking periods); (v) arranging for a proxy to vote locally in person; (vi) fees charged by custody banks for providing certain services with regard to voting proxies; and (vii) foregone income from securities lending programs. In certain instances, it may be determined by PGI that the anticipated economic benefit outweighs the expected cost of voting. PGI intends to make their determination on whether to vote proxies of non-U.S. companies on a case-by-case basis. In doing so, PGI shall evaluate market requirements and impediments, including the difficulties set forth above, for voting proxies of companies in each country. PGI periodically reviews voting logistics, including costs and other voting difficulties, on a client by client and country by country basis, in order to determine if there have been any material changes that would affect PGI’s determinations and procedures.

Conflicts of Interest

PGI recognizes that, from time to time, potential conflicts of interest may exist. In order to avoid any perceived or actual conflict of interest, the procedures set forth below have been established for use when PGI encounters a potential conflict to ensure that PGI’s voting decisions are based on maximizing shareholder value and are not the product of a conflict.

Addressing Conflicts of Interest – Exception Process

Prior to voting contrary to the Guidelines, the relevant investment team must complete and submit a report to PGI Compliance setting out the name of the security, the issue up for vote, a summary of the Guidelines’ recommendation, the vote changes requested and the rational for voting against the Guidelines’ recommendation. The member of the investment team requesting the exception must attest to compliance with Principal’s Code of Conduct and the has an affirmative obligation to disclose any known personal or business relationship that could affect the voting of the applicable proxy. PGI Compliance will approve or deny the exception in consultation, if deemed necessary, with the Legal.

If PGI Compliance determines that there is no potential material conflict exists, the Guidelines may be overridden. If PGI Compliance determines that there exists or may exist a material conflict, it will refer the issue to the Proxy Voting Committee. The Proxy Voting Committee will consider the facts and circumstances of the pending proxy vote and the potential or actual material conflict and decide by a majority vote as to how to vote the proxy – i.e., whether to permit or deny the exception.

In considering the proxy vote and potential material conflict of interest, the Proxy Voting Committee may review the following factors:

- The percentage of outstanding securities of the issuer held on behalf of clients by PGI;
- The nature of the relationship of the issuer with the PGI, its affiliates or its executive officers;
- Whether there has been any attempt to directly or indirectly influence the investment team’s decision;
- Whether the direction of the proposed vote would appear to benefit PGI or a related party; and/or
- Whether an objective decision to vote in a certain way will still create a strong appearance of a conflict.

In the event that the Proxy Advisor Firm itself has a conflict and thus is unable to provide a recommendation, the investment team may vote in accordance with the recommendation of another independent service provider, if available. If a recommendation from an independent service provider other than the Proxy Advisor Firm is not available, the investment team will follow the Exception Process. PGI Compliance will review the form and if it determines that there is no potential material conflict mandating a voting recommendation from the Proxy Voting Committee, the investment team may instruct the Proxy Advisory Firm to vote the proxy issue as it determines is in the best interest of clients. If PGI Compliance determines that there exists or may exist a material conflict, it will refer the issue to the Proxy Voting Committee for consideration as outlined above.
Availability of Proxy Voting Information and Recordkeeping

**Disclosure**
On a quarterly basis, PGI publicly discloses on our website https://www.principalglobal.com/eu/about-us/responsible-investing a voting report setting forth the manner in which votes were cast, including details related to (i) votes against management, and (ii) abstentions. For more information, Clients may contact PGI for more information related to how PGI has voted with respect to securities held in the Client’s account. On request, PGI will provide clients with a summary of PGI’s proxy voting guidelines, process and policies and will inform the clients how they can obtain a copy of the complete Proxy Voting Policies and Procedures upon request. PGI will also include such information described in the preceding two sentences in Part 2A of its Form ADV.

**Recordkeeping**
PGI will keep records of the following items: (i) the Guidelines, (ii) the Proxy Voting Policies and Procedures; (iii) proxy statements received regarding client securities (unless such statements are available on the SEC’s Electronic Data Gathering, Analysis, and Retrieval (EDGAR) system); (iv) records of votes they cast on behalf of clients, which may be maintained by a Proxy Advisory Firm if it undertakes to provide copies of those records promptly upon request; (v) records of written client requests for proxy voting information and PGI’s responses (whether a client’s request was oral or in writing); (vi) any documents prepared by PGI that were material to making a decision how to vote, or that memorialized the basis for the decision; (vii) a record of any testing conducted on any Proxy Advisory Firm’s votes; (viii) materials collected and reviewed by PGI as part of its due diligence of the Proxy Advisory Firm; (ix) a copy of each version of the Proxy Advisory Firm’s policies and procedures provided to PGI; and (x) the minutes of the Proxy Voting Committee meetings. All of the records referenced above will be kept in an easily accessible place for at least the length of time required by local regulation and custom, and, if such local regulation requires that records are kept for less than six years from the end of the fiscal year during which the last entry was made on such record, we will follow the US rule of six years. If the local regulation requires that records are kept for more than six years, we will comply with the local regulation. We maintain the vast majority of these records electronically.
