### **Annual Update**

The Material Changes section of this brochure will be updated annually when material changes occur since the previous release of the Firm Brochure.

The last annual update was February 21, 2020.

---

### **Material Changes since the Last Annual Update**

The U.S. Securities and Exchange Commission issued a final rule in July 2010 requiring advisers to provide a Firm Brochure in narrative “plain English” format. The new final rule specifies mandatory sections and organization.

There were material changes since the last annual update, dated February 21, 2020.

1. Matthew J. Davis stepped down as Chief Administrative Officer, effective as of June 30, 2020. He will serve as Senior Advisor to the firm.
2. Paul E. Wilson resigned as a Director of the Board of Directors, effective as of December 31, 2020.
3. Jeffrey A. Finley was appointed as a Director of the Board of Directors, effective as of January 28, 2021.
4. Boston Partners’ principal office is 1 Beacon Street, 30<sup>th</sup> Floor, Boston, MA 02108, effective as of March 10, 2021.

### **A. Firm Description and Principal Owners**

Boston Partners Global Investors, Inc. (“Boston Partners”) is an indirect wholly owned subsidiary of ORIX Corporation (“ORIX”). ORIX is a publicly owned Tokyo-based international financial services company established in 1964. ORIX is listed on the Tokyo (8591) and New York (NYSE:IX) stock exchanges.

Boston Partners has been in business, through its predecessor companies, since 1970. Boston Partners has an additional division, Weiss Peck & Greer (“WPG Partners”).

Boston Partners is the parent of Boston Partners Securities L.L.C. (“Boston Partners Securities”), a limited purpose broker-dealer, which offers interests in registered and unregistered funds advised by Boston Partners or its affiliates.

Boston Partners is also the parent of Boston Partners Trust Company (“BPTC”), a non-depository trust company formed in New Hampshire, which offers interests in bank collective investment trusts.

Boston Partners is also the parent of Boston Partners (UK) Limited (“Boston Partners UK”), a private limited company formed in the United Kingdom. Boston Partners UK provides sales and client services to institutional clients in Europe. The actual discretionary investment management services are delegated to Boston Partners UK’s parent company, Boston Partners.

Boston Partners provides certain investment products of its affiliate, Robeco Institutional Asset Management US Inc. (“RIAM US”), to US clients. RIAM US is an indirect wholly owned subsidiary of ORIX and provides investment advice for Robeco Institutional Asset Management B.V.’s (“RIAM”) products in global securities via either a subadvisory relationship with Boston Partners or by contracting directly with US clients. Where Boston Partners is the adviser and RIAM US the subadviser, both Boston Partners and RIAM US claim the assets as part of their respective assets under management in marketing materials. Boston Partners obtains revenue for the servicing of RIAM US portfolios.

Boston Partners assists in selling a pooled vehicle for which it has engaged its affiliate, Transtrend B.V., an indirect wholly owned subsidiary of ORIX, to provide commodity trading advice.

### **B. Types of Advisory Services**

Boston Partners provides investment supervisory services, also known as asset management services.

Boston Partners provides continuous investment advice on a fully discretionary basis to institutions, including registered investment companies, and to high net worth individuals for a variety of investment strategies. Boston Partners primarily provides advice using a value style approach for large cap equity, mid cap equity, small cap equity, long/short equity, global equity, international equity, emerging markets equity and dynamic sustainability equity. WPG Partners primarily provides advice regarding small cap value equity and micro cap opportunities equity.

For balanced account services, Boston Partners maintains the asset allocation between equity and fixed income and provides discretionary investment advice with respect to the equity portion of the account.

Investment strategies are offered through a variety of vehicles, including but not limited to separate accounts, and registered and unregistered funds.

Boston Partners, or an affiliate, serves as general partner or investment adviser and/or sponsor, or has some financial interest in various investment partnerships or limited liability companies, and other separately managed and/or commingled accounts, as discussed further in Item 11 below ("Proprietary Accounts").

Boston Partners typically seeds Proprietary Accounts to develop and implement new investment strategies prior to offering such strategies to clients.

Boston Partners offers investment advisory services to investment companies (or portfolios or series thereof) registered under the Investment Company Act of 1940.

Boston Partners acts as the investment adviser to the Boston Partners All Cap Value Fund, the Boston Partners Small Cap Value Fund II, the Boston Partners Global Equity Fund, the Boston Partners Global Equity Advantage Fund, the Boston Partners Long/Short Equity Fund, the Boston Partners Long/Short Research Fund, the Boston Partners Global Long/Short Fund, the Boston Partners Emerging Markets Fund, the Boston Partners Emerging Markets Dynamic Equity Fund and the WPG Partners Small/Micro Cap Value Fund (the "Boston Partners Mutual Funds").

Boston Partners may provide financial futures advice to various Boston Partners Mutual Funds, private investment funds, and separately managed accounts. Boston Partners may from time to time advise certain of the Boston Partners Mutual Funds on repurchase agreements.

Boston Partners offers advice on a wide-range of securities and contracts. Investments will include: equities (stocks), preferred stock, convertible securities, convertible preferred stock with fixed or adjustable rates, warrants, investment company securities (mutual funds shares), various money market instruments, depository receipts, and common stock issued by foreign issuers, foreign currencies and currency hedges, forward contracts, exchange traded funds or unit investment trusts, and various derivative or hybrid securities and investment techniques, including but not limited to futures contracts, options contracts, swaps and contracts for differences. Initial public offerings (IPOs) are available to Boston Partners' clients in certain circumstances.

Boston Partners' investment personnel share security information internally, or on a more limited basis with RIAM. Information will be shared through periodic reports of holdings, formal meetings, and informal discussions among investment personnel. While the divisions share information regarding a particular security, Boston Partners and each division and RIAM makes its own independent investment decision for the particular client accounts or portions of those accounts that it manages or subadvises. Policies are in place to protect Boston Partners clients when any personal identifiable information is shared with RIAM.

Employees of Boston Partners who are registered representatives of Boston Partners Securities L.L.C. offer investment opportunities to clients in the form of mutual funds and limited partnership or other interests in private investment vehicles.

---

### **C. Tailored Relationships**

Boston Partners offers several products to prospective clients; for example, US large cap equity. Clients generally select Boston Partners to manage money in a particular product category and have undertaken their own asset allocation decisions and due diligence on managers and products. All investment management assignments are governed by client guidelines, either standard Boston Partners guidelines adopted by the client, or guidelines submitted by the client. Clients may impose reasonable restrictions on the types of investments made by Boston Partners. Boston Partners will assess those restrictions and discuss with the client the potential impact on the portfolio of restrictions that Boston Partners deems material. Boston Partners will reject client guideline restriction proposals if they are materially inconsistent with Boston Partners' investment strategy.

---

## D. Wrap Fee Programs

Additionally, Boston Partners provides discretionary, investment management services as part of various wrap-fee programs (“Wrap Programs”) offered by investment adviser/broker-dealers (“Sponsors”). Under these arrangements, the Sponsors provide various services, which typically include investment management, trade execution, custody, performance monitoring, reporting, and other services for an all-inclusive fee. A detailed description of services offered under a specific Wrap Program can be obtained from the Sponsor of such program or from the Sponsor’s Form ADV, Schedule H. Contractual agreements for Wrap Programs are typically between the client and the Sponsor because of the Sponsor’s all-inclusive fee arrangement. The Sponsor, in turn, contracts with Boston Partners for its investment advisory services. Boston Partners receives a portion of the fee received by the Sponsor.

Under a Wrap Program, the Sponsor typically assists the client in defining the client’s investment objectives based on information provided by the client; aids in the selection of one or more investment managers to manage the client’s accounts; and periodically contacts the client to ascertain whether there has been any change in the client’s financial circumstances or objectives that warrant a change in the arrangement or the manner in which the client’s assets are managed. Although Boston Partners does not normally have direct initial client contact, the information obtained by the Sponsor is expected to be sufficiently detailed so that Boston Partners is able to provide individualized investment management services to each client. Boston Partners will take into consideration each client’s investment objectives and other individual circumstances and reasonable restrictions. In addition, Boston Partners makes itself reasonably available to the Sponsor and the client, for joint consultations, to ensure Boston Partners’ ability to maintain individualized investment management services.

In evaluating a Wrap Program, clients should consider a number of factors. A client may be able to obtain some or all of the services available through a particular Wrap Program on an “unbundled” basis through the Sponsor of that program or through other firms and, depending on the circumstances, the aggregate of any separately paid fees may be lower (or higher) than the single, all-inclusive (or “wrap”) fee charged in the Wrap Program.

Furthermore, Boston Partners participates in a Sponsor’s Unified Management Account Program (“UMA Program”). Under a UMA Program, Boston Partners provides a model portfolio to the Sponsor, and the Sponsor executes transactions for its client accounts taking into consideration the individual needs of the particular client. Under a UMA Program, Boston Partners does not render individualized investment management services to the Sponsor’s client.

The process for security selection for accounts for Wrap Programs and UMA Programs is the same as for Boston Partners’ other accounts. Boston Partners will attempt to manage the delivery of trading instructions to the Sponsors to ensure that the trading opportunities are fair and equitable to all clients. This could involve either simultaneous trade instructions or a rotation system.

## **E. Client Assets**

As of December 31, 2020, Boston Partners managed approximately \$66.77- billion on a discretionary basis, and \$7.41 billion on a non-discretionary basis.

## **Item 5 - Fees and Compensation**

### **A. Description**

Boston Partners' fees are generally a percentage of assets under management, based on an annual rate and paid quarterly. Some clients may also be charged a performance fee where Boston Partners is compensated by a portion of the performance of the accounts. The standard fee schedule for the various Boston Partners products is set forth below.

Boston Partners may negotiate fees and minimum account sizes as the situation warrants, taking into consideration various factors such as, but not limited to, multi-product relationships or large account

size. Fees may be higher if significant amounts of customized services are required. Assets for multiple and/or related accounts may be aggregated or stacked for the purposes of calculating fees.

**WPG PARTNERS EQUITY SERVICES ANNUAL FEES**

The amount of prior losses that must be offset will be reduced in proportion to any withdrawal from the account. The profit participation in any fiscal year will not be affected by losses in a subsequent fiscal year.

**BOSTON PARTNERS DELAWARE BUSINESS TRUST SERVICES ANNUAL FEES**

Boston Partners serves as the investment manager of the Boston Partners Portfolio Trust (the "Trust"), a Delaware Statutory Trust. The Trust consists of several series, none of which are charged an investment management fee by Boston Partners. Instead, Boston Partners is entitled to receive compensation for its investment management services with respect to any series directly from the beneficial owners of units of the series in accordance with the fee schedules listed below.

Commingled investment vehicles managed by Boston Partners also incur other expenses that are described in the offering documents. These expenses are paid by the investment vehicle but are borne by all its investors and include administration, custodial, legal, audit, and other customary expenses.

**Boston Partners Global - Commingled**  
**Boston Partners International - Commingled**

Multiple classes. Fees start at:  
.75% on total assets under management

The minimum account size is \$250,000.

**Boston Partners Wrap Account Services Annual Fees**

Boston Partners acts as portfolio manager for certain Wrap Programs in which clients of a Sponsor select Boston Partners to manage a securities portfolio. The client generally pays an all inclusive (“wrap”) fee to the Sponsor which covers services rendered by such Sponsor and portfolio management services rendered by Boston Partners. However, under certain trading circumstances, the client pays an additional fee for commissions as described under Section 12 below.

Upon notice to a Sponsor, a client may terminate its selection of Boston Partners as its investment manager in a Wrap Program. Any prepaid fees are refundable on a pro-rata basis if an account is terminated during a billing period.

The Sponsor pays a portion of the wrap fee to Boston Partners for its portfolio management services. Advisory fees paid to Boston Partners generally range from 0.28%-0.70% of assets under management. The minimum account size is \$100,000. For UMA Programs, fees are generally .27.5%-0.50%, and the minimum account size is \$100,000.

The advisory fee received by Boston Partners from the Sponsor will be lower than Boston Partners’ standard advisory fee. The minimum account size for Wrap Program participants is typically less than the minimum account size imposed by Boston Partners.

---

**B. Fee Billing**

Boston Partners is compensated for its services on the basis of fees calculated as a percentage of assets under management either in arrears or in advance, as negotiated with the client. Fees are generally calculated as of a specific date (usually quarter-end), on an average of the first and last day values of the preceding calendar quarter, or on the average of month end values for the three months in the quarter. Typically, fees are based on the aggregate market value of all assets under management within the client’s account, including but not limited to cash, cash equivalents, securities, and accruals. Adjustments are usually made to reflect additions or withdrawals which exceed certain thresholds during a calendar quarter. To the extent any such assets are invested in a commingled fund not managed by Boston Partners or an affiliated manager, the fund will also charge management fees with respect to such assets. In such cases, the client would be paying two management fees for assets invested in the commingled fund.

Fees are generally calculated and invoices submitted to clients, and/or client custodians or consultants, on a quarterly basis. Compensation is payable within 30 days after presentation of an invoice. Clients may arrange to have such fees debited directly from their account held at the custodian for credit to Boston Partners subject to applicable law. In most cases, both Boston Partners and the client may unilaterally terminate the investment advisory agreement on (usually 30 days) written notice to the other party. If the advisory relationship terminates on other than the end of the specified billing period, fees are prorated and an adjustment made. Any prepaid, unearned fees are refunded to the client. Closing an account does not affect either the client’s or Boston Partners’ responsibilities for previously initiated transactions or for balances due in the account.

---

### **C. Other Fees, including Custodian Fees, Mutual Fund Expenses, Brokerage and Other Transaction Costs**

Boston Partners will not receive any compensation other than management fees and brokerage and research services for managing the assets of the clients' portfolios. The clients will incur other expenses to third parties such as custody, accounting and brokerage costs.

A client will typically pay fees to the custodian holding the client's assets. The client's custodian is selected by the client independent of any actions by Boston Partners and the fees paid by the client are negotiated separately, unless the client's assets are invested in a pooled fund sponsored or managed by Boston Partners subject to applicable laws. For example, Boston Partners offers the Boston Partners Portfolio Trust, a series of Delaware statutory trusts for the pooling of accounts. Boston Partners also manages the Boston Partners Mutual Funds, which are registered investment company mutual funds. Finally, Boston Partners is the manager to three hedge funds. In each case, the funds incur custodial, accounting, transfer agency, audit and administrative fees paid to third parties. These expenses are borne by the investors in those funds.

A client will also be responsible for brokerage transaction fees for transactions done for the client's account. A discussion of Boston Partners' broker selection and trading process is set forth in Question 12.

Boston Partners receives brokerage and research services within the meaning of Section 28e of the Securities Exchange Act of 1934 and the regulations interpreting such section. A client's transaction costs are likely to be higher when Boston Partners receives brokerage and research services as a result of such transactions.

---

### **D. Fees Paid in Advance, and Refunds if Advisory Contract is Terminated Before End of Billing Period**

A client may request to be billed "in advance" or "in arrears". Should the client not have a preference, the client will be billed in arrears.

A refund of pre-paid investment advisory fees shall be made where a client has been billed "in advance", has made a full period payment to Boston Partners and has terminated its investment advisory contract, in writing, before the end of the billing period. The investment advisory fee shall be prorated according to the number of days in the billing period during which Boston Partners was responsible for management of the client's assets. Advisory fee refunds are initiated automatically by Boston Partners and can be made by check or federal wire at the client's direction.

---

### **E. Compensation to Supervised Persons**

Boston Partners' staff may be compensated based upon a percentage of the revenue generated from new client assets. This compensation is payable from Boston Partners' advisory fees and not directly by the client. Boston Partners is not compensated based upon commission revenue, although, Boston Partners receives brokerage and research services from the transactions done for a client's account with unaffiliated brokers.

5.E.1. The receipt of compensation for the promotion of Boston Partners' products presents a conflict of interest and gives supervised persons an incentive to recommend investment products based upon the compensation received, rather than a client's needs. Boston Partners addresses such potential conflicts of interest by a supervisory structure that reviews the suitability of each investment product for a prospective client.

5.E.2. A client could purchase certain of Boston Partners' fund products through an unaffiliated entity, although the cost to the client would likely be greater than if the product were purchased directly through Boston Partners.

5.E.3. Not applicable

5.E.4. Not applicable

## **Item 6 - Performance-Based Fees**

---

### **Performance-Based Fees**

Boston Partners may enter into performance-based fee arrangements with institutional clients. These arrangements typically provide for a base fee based on the market value of the account at specified month/quarter ends plus a performance fee based on the gross portfolio return. Performance-based fee arrangements for Boston Partners' hedge funds and fund of funds are outlined in the fund's respective confidential offering memorandum.

Boston Partners manages accounts paying asset-based fees alongside those accounts paying a performance fee. Boston Partners has an incentive to allocate favorable trades or good investment ideas with limited availability to the performance fee accounts because Boston Partners will be paid greater compensation from the performance fee accounts, if the performance is good, than those accounts with an asset-based fee. This presents a conflict between Boston Partners and its clients. Boston Partners recognizes this conflict and has a trade aggregation and allocation policy that requires all accounts to be treated fairly and equitably over time. The Boston Partners compliance team reviews trade allocations regularly for any deviation from this policy of equitable trade allocations.

## **Item 7 - Types of Clients**

---

### **Description**

Boston Partners provides investment advice to institutional clients such as banks or thrift institutions, investment companies, private investment funds, pension and profit sharing plans, trusts, estates, charitable organizations, corporations or other business entities and to natural persons through Wrap Programs and UMA Programs.

### **Account Minimums**

For certain products, Boston Partners requires a minimum asset amount as set forth in Item 5(A) above, although such minimum amount may be waived in whole or in part. Certain of the fund vehicles managed by Boston Partners have minimum investment amounts as set forth in the fund offering document.

## **Item 8 - Methods of Analysis, Investment Strategies and Risk of Loss**

### **A. Methods of Analysis and Investment Strategies Used**

#### **8.A.1. Boston Partners**

Boston Partners' investment philosophy is grounded in certain "fundamental truths" to investing ("Three Circle"), each proven to have worked over meaningful periods of time and in a variety of market environments:

1. Low valuation stocks outperform high valuation stocks
2. Companies with strong fundamentals, e.g. high and sustainable returns on invested capital, outperform companies with weak fundamentals.
3. Stocks with positive business momentum, e.g. rising earnings estimates, outperform stocks with negative business momentum.

Boston Partners constructs well-diversified portfolios that consistently possess these three characteristics; they are simple rules that limit downside risk, preserve capital and maximize the power of compounding.

## **Boston Partners' Investment Process.**

All Boston Partners strategies share the same philosophy and process. A centralized research team of fundamental and quantitative analysts supports the portfolio managers and the firm's value equity discipline.

Boston Partners' investment process is grounded in bottom-up fundamental analysis. Efficient and repeatable, the investment process is designed to identify "characteristics that work": attractive valuation, sound business fundamentals and improving business momentum. The process is executed within a team-oriented culture with individual accountability and clarity of having final decision making portfolio managers.

Boston Partners' investment process begins with quantitative screening to cull a target-rich universe based on the Three Circle characteristics for its fundamental research. Boston Partners casts its net wide, scoring thousands of stocks worldwide every week based on fundamental, valuation and momentum criteria.

Boston Partners validates each candidate's screening score by using customized reporting tools to evaluate the company's financial history. This enables Boston Partners to identify efficiently bona fide candidates within its Three Circle stock selection framework and provides a roadmap for fundamental research.

Boston Partners' fundamental research incorporates the full menu of public filings, industry information and management discussion. Boston Partners uses its professional judgment to formulate an assessment of each company's intrinsic value and, where applicable, its prospects for achieving it. Research findings are formally discussed and debated during Boston Partners' scheduled twice-weekly meetings. Portfolio managers are the final decision makers and every investment professional is accountable for the holdings in Boston Partners' portfolios.

The Dynamic Sustainability offering is designed for investors seeking broad-based exposure to best in class companies across market capitalizations with attractive sustainability profiles. The strategy looks for investments that meet two primary requirements: (1) superior three-circle characteristics relative to the benchmark, (2) high quality and/or improving sustainability characteristics with a clear engagement catalyst to realize fair value.

Boston Partners investment strategies include several long/short equity products which include selling securities short. The securities sold short may not be considered "value" securities but are considered to be overvalued by Boston Partners based on its quantitative screening and fundamental security analysis. For certain long/short portfolios, Boston Partners uses single name security swaps, negotiated on a bilateral basis and not cleared through a central clearing facility. Swaps are used to provide exposure in markets where physical trading is not allowed or to obtain exposure to a security to manage margin requirements more efficiently. Boston Partners' use of such swaps in the emerging markets long/short product (which we call emerging markets dynamic equity) is substantial. The use of swaps adds counterparty risk and additional operational risk to the investment process.

In certain cases, different Boston Partners portfolios may hold a security both long and short. These cases include where the long position is a significant underweight to the index weighting for the security or the portfolio managers have a different proposed holding period, short-term versus long-term. These situations require prior approval of the Boston Partners Chief Investment Officer (the "CIO") and periodic review of the simultaneous long and short positions by the CIO. There will be a conflict between client accounts holding the positions long and short at the same time if two portfolio managers desire to exit the positions at the same time. In order to avoid more favorable treatment for one client over the other, the transactions would generally be placed with two different brokers at the same time, unless trading believes that there would be a substantial risk of a cross trade between accounts occurring or any other circumstances suggest harm to one or more of the clients.

## **8.A.2. WPG Partners Small Cap Value and WPG Partners Micro Cap Opportunities**

### **WPG Partners Small Cap Value**

#### **WPG Partners Small Cap Value Investment Philosophy.**

WPG Partners believes that hands-on, proprietary fundamental research can uncover under valued companies in key value sectors – the least-covered areas of the inefficient small-cap market to achieve exceptional long-term returns. Pursuing superior small cap companies on the cusp of positive change and at attractive valuations, the WPG Partners Small Cap Value Team seeks to exploit market anomalies through both traditional value investments and special situations. WPG Partners invests in a company when it possesses a near-term positive catalyst; its upside potential significantly outweighs its downside risk and when it is selling at prices well below long-term valuation averages.

#### **WPG Partners Small Cap Value's Investment Process.**

The WPG Partners Small Cap Value Equity strategy seeks to add value through security selection and this is the primary source of outperformance. The strategy seeks to identify attractive small cap value stocks by applying a bottom-up, fundamental investment approach. Positions are primarily driven by the perceived underlying risk/reward relationship. Through our bottom-up work, in most cases, sectors with strong catalysts, compelling valuations and the most favorable risk/reward characteristics are overweighted, while those with deteriorating industry fundamentals or those viewed as overvalued on an historical basis are underweighted; sectors with no particular bullish or bearish sentiment remain neutral to the benchmark. More specifically, WPG Partners seeks to identify companies with high and/or improving return on invested capital. While the portfolio sector weights will not be more than +/-1,500 basis points versus the benchmark portfolio construction is driven by stock selection, slightly tilting the portfolio toward areas of greatest conviction. Additionally, there are no sectors excluded from the portfolio.

The WPG Partners Small Cap Value product is driven by an investment approach that is both research and team focused. Each team member provides input to the investment process

#### Portfolio Construction

Portfolio construction is driven by stock selection, slightly tilting the portfolio toward areas of greatest conviction. The top ten stocks generally represent approximately 20% of the total portfolio. Sectors with strong catalysts, compelling valuations and the most favorable risk/reward characteristics are over-weighted, while those with deteriorating industry fundamentals or those viewed as overvalued on an historical basis are underweighted; sectors with no particular bullish or bearish sentiment remain neutral to the benchmark. Individual positions, at time of initial purchase, usually range from 0.5% to 3.0% of the portfolio.

The idea flow from generation to purchasing is as follows:

1. Idea Generation
  - Draw on database of over 3,000 to 5,000 companies
  - Over 600 company meetings per year
  - Macro themes
  - Utilize financial screens (less than 10%)
2. Criteria Assessment
  - Return on invested capital (earnings in excess of cost of capital)
  - Solid management track record
  - Conservative leverage
  - Strong cash flow

3. Valuation Analysis
  - Determine downside risk
  - Determine potential reward
4. Investment Decision
  - Intersection of strong fundamental and favorable risk/reward relationship
  - Driven by entry sensitivity

The price of a security is a key factor in the final buy decision. WPG Partners Small Cap Value portfolio managers will be patient until a stock reaches our buy price which is well below long term valuation averages.

Formal weekly meetings are held to review portfolio construction, new buy and sell candidates, changes in company and industry outlooks, stock valuations, and the economic and market environments. Daily communication is focused on the exchange and interpretation of new information. A discussion of a purchase or sell idea can be held at any time. Once a sell decision has been made, WPG Partners will either sell the position entirely or WPG Partners could scale out, depending upon the individual security. Liquidity is always a consideration in this market capitalization range, as are client guidelines.

Small cap stocks may have less liquidity than mid or large cap stocks. Also, the WPG Partners' strategy can result in a high percentage of ownership of the total outstanding shares of an issuer. This may result in having to allocate partial allocations among clients of trades done each day. All partial allocations represent a conflict of interest between WPG Partners and its clients. WPG Partners adheres to Boston Partners' trade allocation procedure to ameliorate the risk of any inequitable allocations. The liquidation by certain clients of their portfolios can have a negative effect on the value of such securities that continue to be held by remaining clients of WPG Partners that hold these securities.

## **WPG Partners Micro Cap Opportunities**

### **WPG Partners Micro Cap Opportunities' Investment Philosophy.**

WPG Partners believes that hands-on, proprietary fundamental research can uncover under valued companies in key value sectors – the least-covered areas of the inefficient micro-cap market to achieve exceptional long-term returns. Pursuing superior micro cap companies on the cusp of positive change and at attractive valuations, the WPG Partners Micro Cap Opportunities Team seeks to exploit market anomalies through both traditional value investments and special situations. WPG Partners invests in a company when it possesses a near-term positive catalyst, its upside potential significantly outweighs its downside risk and when it is selling at prices well below long term valuation averages.

### **WPG Partners Micro Cap Opportunities' Investment Process.**

The WPG Partners Micro Cap Opportunities Equity strategy seeks to add value through security selection as its primary source of outperformance. The strategy seeks to identify attractive micro cap stocks by applying a bottom-up, fundamental investment approach. Positions are primarily driven by the perceived underlying risk/reward relationship. Through its fundamental research, in most cases, sectors with strong catalysts, compelling valuations and the most favorable risk/reward characteristics are overweighed, while those with deteriorating industry fundamentals or those viewed as overvalued on an historical basis are underweighted; sectors with no particular bullish or bearish sentiment remain neutral to the benchmark. More specifically, WPG Partners seeks to identify companies with high and/or improving return on invested capital. ### **8.A.3. Boston Partners and WPG Partners - US Issuer Disclosure**

Many of Boston Partners' clients have restrictions on the percentage of their portfolios that can be invested in foreign securities. However in our global business environment, sometimes what constitutes a US or a non US security becomes somewhat ambiguous. Over time, Boston Partners has found several good companies that are incorporated outside the US, particularly in jurisdictions like Bermuda, but whose operations and other corporate attributes are distinctly related to the US and perfectly appropriate for a portfolio of US securities. Absent any extenuating circumstances, we will typically treat as US issuers the following companies that are incorporated outside the US:

1. Any issuer that reports its principal executive office as located in the US; or
2. Any issuer that we reasonably believe meets 4 of the following criteria:
  - a. common stock of the issuer is essentially solely publicly traded in the US. Issuers that have listings in non US markets but for which there is no meaningful volume in those markets will also be treated as being solely publicly traded in the US.
  - b. common stock of the issuer is not listed in an index of non US securities by MSCI;
  - c. the issuer is listed as being a US issuer by Factset;
  - d. the Chief Executive Officer and 2 of the other top 5 executives of the issuer work a material portion of their time from a US office;
  - e. at least 35% of revenue, on average over the preceding 3 years, is generated from US sources;
  - f. at least 25% of employees are located in the US.

### **B. Material Risks for Investment Strategies or Method of Analyses Used**

Boston Partners seeks to manage investment risk defined as the loss of capital. The underlying sources of risk are *valuation risk* (risk of over paying), *balance sheet risk* (inadequate liquidity, excessive leverage, asset-liability mismatch) and *business risk* (operational risk inherent in the business that could result in economic losses that threaten its viability as a going concern or the sustainability of its economic profits).

Boston Partners believes that the best way to mitigate these three sources of risk is to apply a characteristics-based investment process which results in diversified portfolios that consistently possess superior valuation, fundamental quality/profitability and improving business momentum. Characteristics on both the security and portfolio levels are continually monitored through our proprietary quantitative tools and the ongoing fundamental analysis of our research team. Quantitative measures help us quickly identify potential red flags such as decreasing earnings estimates or deterioration of quantitative value or business momentum scores. Further, Boston Partners assigns a target price based on intrinsic value, and specify monitoring tools and exit strategies. Risk management is the responsibility of each member across our entire investment team.

Client guidelines are implemented on an individual account basis, in addition to the product's own investment guidelines.

For those products using swaps, there is also counterparty risk; this risk is mitigated by the use of financially strong counterparties.

There will also be liquidity risk for certain positions held across multiple portfolios resulting in a large holding for which Boston Partners has discretionary management or voting control. The Boston Partners Financial Risk Manager reviews the liquidity risk of each investment strategy monthly.

Areas in which we do business are susceptible to natural disasters (e.g., fire, flood, earthquake) and outbreaks of serious contagious disease (e.g., MERS, COVID-19, etc.). The occurrence of a natural disaster or outbreak could adversely affect and severely disrupt the business operations, economies and financial markets of many countries,

even beyond the site of the disaster or outbreak, and could adversely affect our investment program and/or our ability to do business. Similarly, terrorist attacks, or precautions taken to prevent them, could adversely affect industries in which we invest or could affect the areas in which we do business. Other acts of war could also have a material adverse impact on the financial condition of industries or countries in which we invest.

#### **1. broker-dealer**

Boston Partners Securities is registered as a broker-dealer under the Securities Exchange Act of 1934 as amended (the “Exchange Act”) and is a member of the Financial Industry Regulatory Authority (“FINRA”) and the Security Investor Protection Corporation (“SIPC”). Certain officers or employees of Boston Partners are also registered representatives of Boston Partners Securities and in this capacity recommend registered and unregistered securities advised by Boston Partners and its affiliates. Boston Partners Securities is responsible for ensuring its registered representatives comply with its applicable policies and procedures while acting on its behalf.

Boston Partners does not effect security transactions for client portfolios through any of its affiliated broker-dealers.

**2. investment company or other pooled investment vehicle (including a mutual fund, closed-end investment company, unit investment trust, private investment company or “hedge fund,” and offshore fund)**

Boston Partners acts as an investment adviser or sub-adviser to various registered investment companies.

Boston Partners has arrangements that are material to its advisory business or its clients as follows:

WPG Opportunistic Value Fund Manager, L.L.C. is the general partner of WPG Partners Opportunistic Value Fund, L.P.

Boston Partners Hedged Equity L.L.C. serves as the general partner to the Boston Partners Long/Short Equity L.P. Boston Partners is the sole member of the general partner Boston Partners Hedged Equity L.L.C.

Boston Partners Global Investors, Inc. serves as the general partner of Alpha Blue Capital L.P.

**3. other investment advisor or financial planner**

RIAM US is an investment adviser registered with the U.S. Securities and Exchange Commission (the “SEC”). From time to time, Boston Partners refers clients to this affiliate or hires this affiliate as a subadviser.

Boston Partners UK is a private limited company that provides sales and client services to institutional clients in Europe. The actual discretionary investment management services are delegated to Boston Partners UK’s parent company, Boston Partners.

**4. futures commission merchant, commodity pool operator, or commodity trading advisor**

Boston Partners is not a futures commission merchant.

Boston Partners is registered with the Commodities Futures Trading Commission (“CFTC”) as a Commodity Pool Operator (“CPO”) and a Commodity Trading Adviser (“CTA”) and regulated by the National Futures Association (“NFA”).

**D. Material Conflicts of Interest**

There are no conflicts regarding the relationship of Boston Partners with its corporate affiliates that would be considered material because the corporate affiliates do not engage in businesses that present a direct conflict with the interests of Boston Partners' clients. There can be potential conflicts for Boston Partners in taking actions on behalf of its clients, as addressed in the subsequent sections.

---

**Item 11 - Code of Ethics, Participation or Interest in Client Transactions and Personal Trading**

**A. Code of Ethics**

Boston Partners employees have committed to a Code of Ethics (the "Code"). Boston Partners will provide a copy of the Code to any client or prospective client upon request.

The Code requires Boston Partners' staff to act for the client's benefit as well as to place the financial interests of Boston Partners' clients ahead of their own interests at all times.

The Code sets forth trading limitations and/or prohibitions on certain types of securities for personal accounts, defines holding and blackout period limitations, requires mandatory pre-clearance of certain securities, and mandates reporting of initial holdings information upon employment, quarterly transaction reporting, and annual holdings reporting. Boston Partners reviews these reports to ensure appropriate pre-approvals were obtained and to identify conflicts of interest. Furthermore, upon employment, and annually thereafter, individuals are required to certify compliance with the Code.

Individuals may directly or indirectly through investments in Proprietary Accounts or Boston Partners Mutual Funds own, buy and/or sell securities which Boston Partners recommends to its clients, subject to the personal trading limitations noted above. Such transactions may also include trading in securities in a manner that differs from or is inconsistent with advice given to clients.

Boston Partners periodically becomes privy to material nonpublic information of securities issuers. This results in Boston Partners being unable to transact in such securities until such time as the information becomes public. The Code defines policies to monitor, restrict, if necessary, and educate with respect to acquiring and investing when in possession of material, non-public information.

Boston Partners has three funds where the portfolio manager has a significant investment in such fund: the Boston Partners Long/Short Equity, L.P.; WPG Partners Opportunistic Value Fund, L.P.,

and Alpha Blue Capital L.P.. In the case of Alpha Blue Capital L.P., the assets of the Fund are solely those of Boston Partners and the Fund manager. Boston Partners treats these accounts as client accounts for purposes of the Code of Ethics employee personal trading requirements, as each fund is available for client investments and are considered marketable strategies. These funds present a conflict because a portfolio manager could allocate a limited opportunity investment to the fund rather than to all clients. Boston Partners reviews these funds for allocation decisions to address this conflict.

---

## **B. Participation or Interest in Client Transactions**

Boston Partners will buy or sell securities or investment products for clients in which Boston Partners or a related person has some financial interest, and buys or sells for itself securities that it also purchases for clients.

Boston Partners recognizes that potential conflicts arise from its participation in client interests and has taken reasonable measures to mitigate such conflicts.

Employees of Boston Partners who are registered representatives of Boston Partners Securities sell securities in the form of limited partnership interests, limited liability company interests or shares in its registered or unregistered funds in which Boston Partners or any affiliate may have an investment which may be substantial. From time to time, Boston Partners, or an affiliate, provides seed money to a new investment company, separate account or other pooled investment vehicles managed by Boston Partners and receives in exchange shares or other interests issued by such vehicles. Boston Partners has an incentive to encourage clients to invest in its these investment funds in order to increase the size of such funds. Increasing the size of such funds may (a) lower overall expenses of the fund, some of which Boston Partners may have responsibility for; (b) permit greater marketing of the fund which will generate greater fee revenue for Boston Partners, or (c) allow Boston Partners or an affiliate to redeem its investment capital in such vehicle. Boston Partners maintains client suitability procedures to address these potential conflicts.

Boston Partners will not obtain any transaction-based compensation for any investment in any separate account or private investment vehicles in which it solicits clients to invest by prohibiting trading through affiliated broker-dealers as noted in its affiliated brokerage policy. While Boston Partners does not place trades through affiliated brokers, it executes securities trades through brokerage firms with which it maintains other advantageous relationships, such as commission share arrangements for brokerage and research services more commonly referred to as soft dollars. In these cases, the broker may expect commission business in return or Boston Partners may be incented to use client commission dollars for non-research items or inappropriately allocate mixed use items. Boston Partners has established a Trade Management Oversight Committee to evaluate brokerage services and to review commissions paid to brokers. In addition, Boston Partners maintains a Best Execution Policy and Client Commissions Practices to assist in its monitoring efforts.

Where appropriate, Boston Partners recommends that clients purchase shares of the Proprietary Accounts or Boston Partners Mutual Funds for which Boston Partners, or an affiliate, receives an investment management fee and/or certain performance-based fees for its services. In addition, Boston Partners recommends the purchase or sale by a client of securities purchased, sold, or owned by the Proprietary Accounts or Boston Partners Mutual Funds. Boston Partners will not recommend or cause a client to enter into transactions for the purpose of benefiting the direct or indirect securities holdings of Boston Partners or its affiliates or employees and addresses these conflicts through its suitability, affiliated investments, and allocation policies. Portfolio transactions by the Proprietary Accounts or Boston Partners Mutual Funds will not be subject to restrictions on employee trading as a result of any beneficial interest that Boston Partners or its principals or employees may have as outlined in the firm's personal trading policies.

## **C. Personal Trading**

Please see response to Item 11(A).

---

## **D. Recommendations of Securities to Clients**

From time to time senior executives of public or certain private companies such as hedge funds, investment advisers, broker-dealers, or investment banks (Value-Added Investors) may invest in Boston Partners' private funds. Their investment could create a potential conflict if Boston Partners were to invest in the securities of companies affiliated with these investors. To address potential information sharing issues, Boston Partners has developed Value-Added Investor Procedures to identify and monitor potential conflicts.

Furthermore, Boston Partners as well as various affiliates and employees of Boston Partners or its affiliates own units or shares in the Proprietary Accounts or Boston Partners Mutual Funds. In addition, Boston Partners or its affiliates or employees have a managerial interest in such Proprietary Accounts as a general or supervising partner, or have an otherwise financial interest, including but not limited to the receipt of investment management and/or certain performance-based fees, in the Proprietary Accounts or Boston Partners Mutual Funds. The interests of Boston Partners, its affiliates and its employees is, at times, significant in such investment vehicles. This investment provides an incentive for Boston Partners to favor such Proprietary Accounts and Boston Partners Mutual Funds when allocating investment opportunities. Furthermore, while Boston Partners typically aggregates client orders of separately managed accounts with Proprietary Accounts and Boston Partners Mutual Funds, there are instances whereby Boston Partners places orders independently for different accounts and/or strategies. In such circumstances, trades for one group of accounts, including but not limited to Proprietary Accounts or Boston Partners Mutual Funds, is placed before trades for another group of accounts. As a consequence, one group of accounts may be trading in a more or less favorable trading environment than the other or may receive a more favorable allocation than the other. Boston Partners addresses these conflicts through its trade aggregation and allocation procedures as well as its simultaneous management and principal transaction policies.

Boston Partners manages portfolios that invest on a "long-only" basis and also manages portfolios that use short sales. In certain cases, Boston Partners may be purchasing or holding certain securities for its long only portfolios while simultaneously selling those securities short for other portfolios. Generally, the Boston Partners portfolios purchasing or holding the securities would have a long-term favorable view of the price of the stock while the portfolios selling the stock short would have a negative trading view of the stock or may be selling the stock short as part of a strategy involving other securities transactions. Typically, the portfolios that are allowed to sell securities short also pay Boston Partners a performance-based fee. Boston Partners has an incentive to favor the portfolios selling the securities short or otherwise paying Boston Partners a performance fee with respect to the allocation of execution opportunities. Boston Partners manages these conflicts through its short sales and simultaneous management policies.

Various subsidiaries of ORIX Corporation also own the same securities that Boston Partners selects for investment. Aggregate holdings among the subsidiaries, including Boston Partners, may cause ownership to be significant. In these instances, Boston Partners might need to impose limitations on holdings, possibly precluding strategies from being fully implemented.

Boston Partners regularly seeks new clients, including corporate securities issuers with pension funds and/or general operating assets which require investment management advice. Boston Partners' investment recommendations policy precludes Boston Partners from investing in the securities of those issuers in order to enhance Boston Partners' ability to be appointed a manager of the assets of such corporate issuers. Additionally, Boston Partners or its employees have an

opportunity to invest in limited opportunity securities of various issuers. Boston Partners' trade allocation and aggregation and personal trading policies are designed to mitigate these conflicts.

Accounts managed by Boston Partners have different fee structures. Certain accounts pay Boston Partners a greater fee than other accounts. In addition, Boston Partners may charge certain accounts a performance fee. Differing fee structures cause an incentive for Boston Partners to allocate certain investment opportunities to higher fee paying accounts. Similarly, Boston Partners has an incentive to effect cross transactions between clients in order to position profitable trades into higher paying and/or performance fee accounts. Even in situations in which Boston Partners believes there is no disadvantage to its clients, such transactions nonetheless create an inherent conflict of interest because Boston Partners has a duty to obtain the most favorable price for both the selling client and the purchasing client. Boston Partners has developed allocation and aggregation policies to mitigate these conflicts. Boston Partners will not undertake cross transactions except at a client's request for two or more accounts of the client.

Boston Partners periodically discusses securities which are held in client accounts with external investment professionals including, but not limited to, broker-dealers and investment professionals at other registered and non-registered investment advisory firms when sourcing and analyzing investment ideas. These discussions may include but are not limited to economic factors, market outlook, sector and industry views, and general and/or specific information regarding securities which are held in client accounts. Discussion of specific securities creates a conflict which could disadvantage Boston Partners' clients if the external parties were to act upon this non-public information, including but not limited to front-running and scalping either particular securities or numerous securities in a similar sector to the extent such information is known about Boston Partners' holdings. Boston Partners' Investment Recommendations Policy, Selective Disclosure Policy, and Conduct Codes establish policies prohibiting discussion of client investments for non-business purposes. Boston Partners permits discussions with and disclosure of security holdings to sell-side brokers. However, Boston Partners precludes disclosing to buy-side investment professionals whether or not Boston Partners owns a particular security when discussing investment ideas, disclosing its immediate intent to purchase or sell a particular security, or making consensus decisions to trade a security in a particular direction.

Boston Partners typically provides investors in its funds with monthly letters and quarterly commentaries and capital statements. In addition, participants receive annual Audited Financial Statements and annual Schedule K-1s for private funds. Unitholders can negotiate their level of client reporting directly with Boston Partners. As a result, certain unitholders may invest on terms that provide access to information that is not generally available to other unitholders and, as a result, may be able to act on such additional information (i.e., request withdrawals) that other unitholders do not receive. In addition, the portfolio manager may advise other Proprietary Funds and/or separately managed accounts pursuant to substantially the same strategy as is employed by a particular single strategy hedge fund, and unitholders of such Proprietary Funds and/or separately managed accounts may have greater access to information and/or more advantageous liquidity rights than other unitholders investing in the strategy, resulting in certain persons potentially having the ability to exit the strategy or liquidate positions in advance of other unitholders in a similar strategy.

## **Item 12 - Brokerage Practices**

---

### **A. Selecting Brokerage Firms**

Boston Partners generally has authority to select broker-dealers and to negotiate rates of commissions, commission equivalents, and other transaction-related charges ("commissions") to be paid. When Boston Partners is responsible for broker selection, best execution (i.e., prompt and reliable execution at the most favorable prices reasonably obtainable considering prevailing market conditions, liquidity characteristics of the investment, brokerage and research services provided, and portfolio manager objectives) is the primary consideration in placing portfolio transactions with a particular broker-dealer.

Boston Partners attempts to achieve these results by choosing broker-dealers to execute transactions based on various factors, including but not limited to: (1) the value, quality and breadth of their services, (2) their professional capabilities (including use of capital), and (3) the comparative brokerage commission rates which they offer. Accordingly, transactions will not always be executed at the lowest available price or commission, but will be within a generally competitive range as Boston Partners does not adhere to any rigid formula in making the selection of any particular broker-dealer for portfolio transactions, but weights a combination of the preceding (and other) factors.

Boston Partners has no duty or obligation to seek in advance competitive bidding for the most favorable commission rate applicable to any particular portfolio transaction or to select any broker-dealer on the basis of its purported or “posted” commission rate, but will endeavor to be aware of the current level of the commissions of eligible broker-dealers and to minimize the expenses incurred for effecting client transactions to the extent consistent with the interests and policies of the accounts. Although Boston Partners generally seeks competitive commission rates, it will not necessarily pay the lowest commission. Transactions may involve specialized services on the part of the broker-dealer involved and thereby entail higher commissions than would be the case with other transactions requiring more routine services.

---

### **12.A.1. Research and Other Soft Dollar Benefits**

Boston Partners may use client commissions to acquire both proprietary research created by a broker-dealer firm and other research products created by non broker-dealer third parties as defined by the July 18, 2006 interpretive guidance issued by the SEC regarding the “soft dollar” safe harbor of Section 28(e) of the Exchange Act. When Boston Partners obtains brokerage and research services as a result of client transactions, Boston Partners receives a benefit, as Boston Partners does not have to pay for such services. Boston Partners uses client commission arrangements (“CCAs”) for both proprietary and third-party research services.

CCAs are a mechanism that enables Boston Partners to accrue research commission credits with an executing broker providing best execution services and later direct the executing broker to pay other brokers/vendors for qualifying proprietary and third-party research services. These arrangements enable Boston Partners to determine more accurately the value of brokerage services by separating the traditional bundled commission into two components, execution and research.

Research services and products include, but are not limited to: 1) research reports on particular industries and companies, 2) comprehensive database services which provide current and/or historical information on securities and companies, SEC filings, and earnings estimates, 3) quotation, trading and news systems which provide current market data and news, 4) economic surveys and analysis which provide economic and political forecasting tools, 5) fundamental industry analysis, 6) quantitative technical analysis, 7) Boston Partners order management system, and 8) various other products and services providing assistance to Boston Partners in the performance of its investment decision-making responsibilities and/or trade execution and settlement. Where a product or service obtained with commission dollars provides both research and non-research assistance, Boston Partners makes a reasonable allocation of the cost which may be paid for with commission dollars. The portion of the cost of a mixed-use product that is not allocable to research is paid by Boston Partners.

Broker-dealers who provide research services would be eligible to receive a commission which is in excess of the commission another broker-dealer would charge if, in the judgment of Boston Partners, the higher commission is reasonable in relation to the value of all the brokerage and research services rendered.

Boston Partners maintains a fluid commission budget that fluctuates in size subject to the nature, quantity, and quality of the brokerage execution and research services acquired throughout the year. These services are evaluated on a continuous basis as follows:

- Execution Services: the execution capabilities of each broker are continuously monitored by the Director of Equity Trading and the actual transaction costs are analyzed by a third-party provider to ensure the costs are commensurate with industry standards. Key criteria for execution include: access to natural liquidity, electronic trading tools, expertise in stocks/sectors, client access, program trading capabilities, capital commitment, derivatives trading, international trading expertise, and anonymity. The Director of Equity Trading is responsible for negotiating the commission rates for these services with each broker.
- Broker Research / Independent Research Provider (IRP): research services utilized by Boston Partners portfolio managers, analysts, and traders are evaluated on a service by service basis and individually rated by the event consumer via an on-line voting application. A limited number of research services are acquired through a packaged subscription whereby the fee is negotiated based on the nature, quantity, and quality of the research offering. The aggregated result of these two research valuation methodologies forms the overall compensation level assigned to each provider. Typical research services consumed include: access to corporate management, analyst calls, conferences, idea generation, bespoke research, models, macro research and stock/industry analysis.
- Brokerage Services, Market Data, Quotation Systems, and Analytics: this component of the budget is initially established at the beginning of the year and will fluctuate as new services are added and existing services are maintained/terminated at their renewal period.

Research services utilized by Boston Partners from the execution of transactions for client accounts are used by Boston Partners to manage all of its clients' accounts without differentiation between clients whose transactions generate such research and those that do not. Accordingly, certain brokerage commissions paid by one account are applied towards payment for research services that are not used in the service of that account. Nor does Boston Partners attempt to allocate the relative costs or benefits of research services among its clients, believing that the research services received will help Boston Partners fulfill its overall duties to client accounts over which it has discretionary authority. Furthermore, advisory fees are not reduced as a result of Boston Partners' use of such research services.

Boston Partners does not engage expert networks to provide research to it. Boston Partners does not accept a client that will not allow Boston Partners to obtain brokerage and research services as a result of transactions in the client's account, except in certain cases involving sub-advisory relations with European affiliates.

## **12.A.2. Brokerage for Client Referrals**

Not applicable.

---

## **12.A.3. Directed Brokerage**

### **12.A.3.a.**

Not applicable.

### **12.A.3.b**

In some circumstances, clients designate a particular broker-dealer through which trades are to be effected or introduced, typically under such terms as the client negotiates with the particular broker-

dealer. Clients do so for several reasons, including defraying consulting fees or participating in a commission recapture program.

Where a client directs that Boston Partners use a particular broker-dealer, Boston Partners is generally not in a position to negotiate commissions or spreads or to select brokers-dealers based on best execution. Under these circumstances a disparity typically exists between the commissions or spreads charged to clients who direct brokerage transactions and the commissions or spreads charged to Boston Partners' other clients who do not instruct Boston Partners to use a particular broker-dealer. As a result, Boston Partners may be unable to achieve most favorable execution of client transactions. Direction of transactions to brokers by clients may cost clients money.

Boston Partners typically fills directed or preferred trades at the end of block trading activity for a particular security which is being traded by the product line. Accordingly, transactions for clients that direct or prefer brokerage may be subject to price movements, particularly in the case of illiquid securities or large orders, which could result in the client receiving a price that is less favorable than the price obtained for a block order. Under these circumstances, the direction by a client of a particular broker or dealer to execute trades may result in higher commissions, greater spreads, or less favorable net prices than might be the case if Boston Partners were able to negotiate commission rates or spreads freely, or to select brokers or dealers based on best execution.

### **Wrap Programs**

Wrap fee account transactions are typically executed with the Sponsor due to the all inclusive fee structure. Boston Partners will trade away from the Sponsor when the Sponsor does not have the capability to effect transactions in a particular security or when Boston Partners believes that trading away will provide it with best price, and/or execution of orders taking into consideration all of the factors Boston Partners typically considers in its best execution analysis which are described in Boston Partners' Best Execution Policy, a copy of which is available upon request.

When Boston Partners trades its Wrap Program accounts away from the Sponsor and alongside its other client separately managed, Proprietary Accounts and Boston Partners Mutual Funds, the trade may be stepped out to the Sponsor, and the execution price is generally marked up or marked down to reflect the commission charged on the transaction by the executing broker dealer. Commissions, and other expenses, incurred in connection with any transactions executed with broker dealers other than the Sponsor, are typically borne by the client. Therefore, it is important for clients who enroll in a Wrap Program where Boston Partners serves as the investment adviser to satisfy themselves that the program is suitable for them due to the additional commission incurred by them when Boston Partners trades away from the Sponsor.

When execution occurs through the Sponsor, Boston Partners does not have the ability to negotiate commissions or other costs for the execution of transactions in the client's account since such execution costs are included in the all-inclusive fee charged by the Sponsor. Therefore, it is essential the clients in a Wrap Program satisfy themselves that the Sponsor is able to provide best price and execution of orders.

### **New Issues**

Boston Partners participates from time to time in IPOs for either short-term trading or for investment purposes. Product lines participate to varying degrees, and some product lines generally do not participate at all, such as Alpha Blue Capital LP, and Wrap Program product lines. Other product lines may only participate to a limited degree, including but not limited to the Boston Partners Large Cap strategies, Mid Cap, Global, International and Emerging Market Equity strategies. The amount of performance contribution varies from year-to-year depending on IPO availability and prevailing market conditions. Boston Partners cannot guarantee continued access to IPOs or any ability to profit from them in the future.

In determining its indication of interest and allocation, WPG Partners primarily considers: (i) the account's investment objectives and restrictions, (ii) risk and turnover tolerance; (iii) cash availability; (iv) size of the account; (v) nature and size allocation of the new issue; (v) FINRA Rules 5130 and 5131; and (vi) commitment to the security.

When participating for short-term trading, Boston Partners primarily takes into consideration the market capitalization of the security when determining the suitability of an IPO for a particular product line. For IPOs that are suitable for two or more product lines, the amount of shares received from the broker will be split pro-rata based on the assets of the participating product lines. The distribution of shares from the IPO is then allocated among client accounts within a product line. If sufficient shares are available, all accounts within the product line participate pro-rata based on their assets under management, subject to cash availability and investment suitability.

When the amount of shares allocated to Boston Partners is insufficient for all accounts to participate pro-rata, the allocation will be based on an account receiving the lesser of a 0.1% position weighting at cost, or 10 consecutive flipped IPO allocations, whereby the account is the sole participant in the trade, again subject to cash availability and investment suitability. An account will continue to be "filled" until the aforementioned target ("target") is reached before proceeding to the next account in the rotation. In reaching the target, an account may have an opportunity to participate in 10 consecutive flipped IPOs. Advisory clients with large accounts usually receive a greater number of allocations in flipped IPO securities and the cash proceeds that result from such transactions. Conversely, clients with small accounts typically receive a lesser number of IPO allocations and the cash proceeds that result from such transactions. Additionally, clients with smaller accounts may not receive any flipped IPOs for an extended period depending how many large accounts are in the same product line and listed before them in the rotation.

If the IPO is an investment that will be held as part of Boston Partners' regular investment strategy and the issue is suitable for two or more product lines, the shares received from the broker-dealer will be split based upon the indication of interest submitted by the portfolio manager for his particular product line. IPOs retained for investment purposes adhere to Boston Partners' investment strategies.

### **Cross Trades**

Boston Partners will not undertake cross transactions except at a client's request for two or more accounts of the client.

---

## **B. Order Aggregation**

### **Allocation and Aggregation of Orders**

Boston Partners manages numerous accounts, including separately managed accounts, Proprietary Accounts, Boston Partners Mutual Funds, and Wrap Fee Programs. Accounts in these distribution vehicles have similar investment objectives. Additionally, accounts in different product lines with different investment objectives frequently trade in the same securities. Despite such similarities, portfolio decisions relating to Boston Partners accounts are made independent of each other in light of differing conditions and the performance resulting from such decisions will differ from client to client.

There are instances where Boston Partners will not purchase or sell securities at the same time or in the same proportionate amounts for all eligible clients or will purchase long for one investment strategy while selling short for another investment strategy. Therefore, not all clients will necessarily participate in the same investment opportunity or participate on the same basis. In allocating investments among clients of the same investment strategy (including in what sequence orders for trades are placed), Boston Partners will use its best reasonable business judgment and will take into

account such factors as the investment objectives and strategies of the clients, position weightings, cash availability, risk tolerance, size of the account, and a client's request for directed brokerage all in order to provide, on balance, a result that Boston Partners in good faith believes is fair and equitable to each client over time.

If the same investment decision is made for two or more accounts within or across investment strategies, Boston Partners will seek to aggregate such transactions for the same security into a single "bunched" order to obtain best execution and/or price for participating accounts. However, various factors including, but not limited to, portfolio construction or liquidity contribute to Boston Partners' decision on whether to advance or delay the purchase or sale of a security for one group of Boston Partners accounts.

Boston Partners generally groups client accounts of a product line into the following categories: I) accounts for which Boston Partners has full trading authority without any direction as to the brokers to be used by Boston Partners; II) accounts for which Boston Partners has been directed to use one or more particular brokers; and III) accounts that are part of a Wrap Fee Program or similar program where the client pays a fee to the Sponsor that includes all execution costs.

Boston Partners generally fills directed or preferred trades (Category II trades) at the end of block trading activity for a particular security and does not combine these trades with a block order ("sequenced" trades).

Category III trades are normally transmitted to the Wrap Fee Sponsor for execution at the same time Category I trades are executed by Boston Partners' institutional trading desk. Accordingly, Category I and III trades may compete against one another in the marketplace and may result in less favorable prices for either category. Boston Partners will generally rotate the trading order of Category III groups each calendar day so that one group will not be advantaged or disadvantaged by consistently trading before or after another group of accounts. Each Wrap Fee Program will be considered a separate group for purposes of the rotation sequence.

There are certain exceptions to this aggregation/rotation methodology. For example, one or more of the accounts in Category II may be aggregated with accounts in Category I for certain transactions if Boston Partners believes it is reasonably likely that such aggregation will result in best execution. This may not be likely for Category III accounts that are part of a Wrap Fee Program for which Boston Partners manages substantial assets or where the Sponsor has discouraged or prohibited trading away from the Sponsor because of cost, administrative, or other client relations issues.

In addition, an account's position in the rotation is skipped if there is an issue with the readiness of the account to trade, including but not limited to questions regarding suitability, reconciliation issues, and communication systems failures with the particular account.

When aggregating orders of a particular strategy is determined to be in the best interest of clients, the following allocation guidelines generally are followed for all portfolios which are participating in the execution under the same trading circumstances (i.e., price limits, time of entry, etc.):

- Aggregated orders filled in their entirety will be allocated among the participating accounts as determined by either: i) pro-rata by account market value or ii) an account's target weighting for a particular security.
- With respect to partial allocations, the executed portion of the transaction will be allocated on i) a pro-rata basis with each portfolio involved receiving a percentage of the executed portion of the order based upon each portfolio's percentage of the original order or ii) by an account's target weighting for a particular security. In the event of a de minimus allocation, the trader has the authority to determine an appropriate allocation methodology.

Transaction costs, including brokerage commission allocations, are shared pro-rata based upon each client's participation in the executed portion of the transaction. The allocation generally will be made at the average execution price, or at prices mathematically closest to the average price, for accounts participating in a particular aggregated transaction. Every effort will be made to use a single average price for such allocations, and the trader has the responsibility for all necessary documentation.

Notwithstanding any of the foregoing, an aggregated order may be allocated on a basis different from noted above if all clients receive fair and equitable treatment over time. The trader is charged with making this determination.

## **Item 13 - Review of Accounts**

---

### **A. Periodic Reviews**

Boston Partners accounts are reviewed regularly, generally daily, by the assigned portfolio manager and/or management team.

### **B. Review Triggers**

Supplementary in-depth reviews by the manager are triggered by various factors such as contributions to or distributions from an account, changing economic or market conditions or revised client objectives. Exception reporting is reviewed by the Compliance Department.

### **C. Regular Reports**

Boston Partners typically provides clients with a report of account holdings, transaction summaries, and performance data either monthly or quarterly.

All reports from Boston Partners are in addition to any communication which a client receives from their other service providers, such as custodians and prime brokers. At a client's reasonable request, Boston Partners provides additional information as mutually agreed between the client and Boston Partners. Investors in Boston Partners private funds will receive reports directly from the fund administrator which, in the case of the Boston Partners private funds, may be supplemented by reports from Boston Partners.

Wrap Program clients receive reporting directly from the Sponsor.

## **Item 14 - Client Referrals and Other Compensation**

---

### **A. Third Party Payments**

Not applicable.

### **B. Retention of Solicitors**

Boston Partners does not use third party solicitors to obtain new clients or fund investors. There will be an intercompany revenue transfer where an affiliated company of Boston Partners provides sales and marketing for Boston Partners products.

## **Item 15 - Custody**

---

Boston Partners does not have custody of its clients' assets. Boston Partners does act as the general partner of certain hedge funds for which it will be deemed to have custody under certain rules promulgated by the SEC. All such funds have audited financial statements.

## **Item 16 - Investment Discretion**

---

### **Discretionary Authority for Trading**

Boston Partners accepts investment discretion for client assets. All discretionary accounts are required to execute an investment management agreement granting Boston Partners the authority to act as a discretionary investment manager. Boston Partners will accept reasonable limitations on its authority through client guideline restrictions, provided that the restrictions are essentially consistent with Boston Partners' investment process.
