

# CGCM Large Cap Equity Fund (TLGUX)

Objective: Seeks capital appreciation by investing in large capitalization companies

## OVERVIEW

Six sub-advisers with large-cap mandates and complementary approaches manage the fund's assets

## PROCESS & DIFFERENTIATORS

### BlackRock Financial Management – Russell 1000 Index

- *Process:* Replicates the Russell 1000 Index.

### Lazard Asset Management – US concentrated equity

- *Process:* Targets a concentrated portfolio based on bottom-up, fundamental research that tries to assess the relationship between valuation and financial productivity of companies under consideration.

### ClearBridge – traditional growth

- *Process:* Focuses on consistent growth of capital and lower volatility and seeks to outperform the benchmark over a full market cycle by diversifying across different types of growth stocks.

### Columbia Management Investment Advisers – select large cap growth

- *Process:* Constructs a concentrated portfolio of franchises with above-average earnings growth potential, diversified across growth industry sectors using cross-correlation analysis to manage risk and volatility.

### Delaware Investment Fund Advisers – large cap value

- *Process:* Identifies discrepancies between estimated intrinsic value and price by utilizing a strategy that prefers to buy during times of excessive pessimism and sell during times of undue optimism.

### Lyrical Asset Management – US value equity

- *Process:* Invests in companies on a risk-adjusted basis by identifying companies with temporary investment controversy supported by quality and durable underlying business strategies.

## PORTFOLIO COMPOSITION (BY MARKET CAP) <sup>1</sup>

## SECTOR ALLOCATION <sup>1</sup>

1. Source: FactSet, Morningstar. Data as of 06/29/2018. Allocations shown are subject to change and may not reflect the portfolio's current position. Market capitalization ranges are based on Russell definitions. Percentages may not add to 100% due to rounding. 2. Beta of portfolio is versus the Russell 1000. 3. Distribution rate is defined as the most recent distribution paid, annualized, and then divided by the current market price. Distribution rate may consist of investment income, short-term capital gains, long-term capital gains, and/or return of capital.  
Benchmark: Russell 1000 Index

# Definitions and Disclosures

***Investors should consider the fund's investment objectives, risks, charges and expenses carefully before investing. The prospectus contains this and other information about the fund. To obtain a free prospectus, please call your Financial Advisor or Private Wealth Advisor, visit us online at [www.morganstanley.com/cgcm](http://www.morganstanley.com/cgcm) or call 1-888-454-3965. Please read the prospectus carefully before investing.***

## Consulting Group Advisory Services LLC

The fund's investment adviser is Consulting Group Advisory Services LLC, a business of Morgan Stanley Smith Barney Holdings LLC. Morgan Stanley Smith Barney Holdings LLC is an affiliate of Morgan Stanley Smith Barney LLC (hereafter collectively "Morgan Stanley"). Each CGCM fund may be sub-advised by multiple professional money managers chosen by Morgan Stanley Wealth Management's Manager Solutions team and reviewed and approved by the fund's Board of Trustees. The selection of sub-advisers is based on quantitative and qualitative evaluations of the sub-advisers' skills and investment results in specific asset classes, styles and strategies. Allocation of assets among the sub-advisers is determined by analyzing performance, organizational traits, personnel changes, compliance with the fund's policies and changes in market conditions. The sub-advisers are not affiliated with Morgan Stanley.

## Expense Ratios

Total returns may reflect waivers of certain expenses or, in some cases, waiver and reimbursement of all fund expenses. Such waivers and/or reimbursements of expenses would have the effect of increasing the respective fund's total return. Without the waivers and/or expense reimbursements, the returns would have been lower. Expense waivers may be terminated or revised at any time, at which time expenses will increase and returns may decrease.

## Performance and Other Portfolio Information

The performance shown in this document represents past performance. Past performance is no guarantee of future results, and current performance may be higher or lower than the performance shown. Investment return and principal value will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. To obtain performance current to the most recent month-end, please go to our website at [www.morganstanley.com/cgcm](http://www.morganstanley.com/cgcm). Year-to-Date (YTD) returns are calculated from January 1 of the reporting year. Average annual total returns assume the reinvestment of income dividends and capital gains distributions at net asset value. Performance results are annualized for periods greater than one year. Returns for periods of less than a calendar year show the total return for the period and are not annualized.

**Gross and Net Performance.** Gross returns are calculated net of fund internal fees and expenses (such as management fees paid to the manager and 12b-1 fees) but are gross of an annual investment advisory fee ("Advisory Fee") charged by Morgan Stanley. Net returns are net of fund internal fees and expenses and a maximum Advisory Fee of 2.5%. Consulting Group Capital Markets Funds are only available within the following Morgan Stanley advisory programs: TRAK® CGCM, Select UMA, Consulting Group Advisor, and Portfolio Management. In addition to the Advisory Fee, Select UMA accounts are also subject to a 0.07% Overlay Manager Fee, but this fee is not reflected in the performance shown herein. For specific information about each of these programs, the applicable ADV brochure is available from your Morgan Stanley Financial Advisor or Private Wealth Advisor, or online at <http://www.morganstanley.com/adv>. The Advisory Fee is calculated by assessing the fee quarterly in the month after quarter end and then compounding those monthly net return rates for various time periods.

**Minimum Investment Amount.** The minimum initial investment in TRAK CGCM is \$5,000. The minimum initial aggregate investment in the Select UMA, CGA and PM programs is \$10,000.

## Definitions

**Russell 1000 Index** – The Russell 1000 Index measures the performance of the 1,000 largest US companies based on total market capitalization.

**Russell 1000 Growth Index** – Russell 1000 Growth Index measures the performance of companies in the Russell 1000 Index with higher price-to-book ratios and higher forecasted growth values.

**Lipper Large-Cap Core Funds Average** – These are equally weighted total returns using all the active funds available within the category. Funds that, by portfolio practice, invest at least 75% of their equity assets in companies with market capitalizations (on a three-year weighted basis) greater than 300% of the dollar-weighted median market capitalization of the middle 1,000 securities of the S&P SuperComposite 1500 Index. Large-cap core funds have more latitude in the companies in which they invest. These funds typically have an average price-to-earnings ratio, price-to-book ratio, and three-year sales-per-share growth value, compared to the S&P 500 Index.

**Lipper Large-Cap Growth Funds Average** – These are equally weighted total returns using all the active funds available within the category. Funds that, by portfolio practice, invest at least 75% of their equity assets in companies with market capitalizations (on a three-year weighted basis) greater than 300% of the dollar-weighted median market capitalization of the middle 1,000 securities of the S&P SuperComposite 1500 Index. Large-cap growth funds typically have an above-average price-to-earnings ratio, price-to-book ratio, and three-year sales-per-share growth value, compared to the S&P 500 Index.

**S&P SuperComposite 1500 Index** – An investable U.S. equity benchmark, the S&P Composite 1500 combines three leading indices, the S&P 500®, the S&P MidCap 400, and the S&P SmallCap 600 to cover approximately 90% of the U.S. market capitalization. It is designed for investors seeking to replicate the performance of the U.S. equity market or benchmark against a representative universe of tradable stocks.

**S&P 500 Index** – The S&P 500 Index is an index that consists of 500 stocks chosen for market size, liquidity, and industry group representation. The S&P 500 Index is a market value weighted index with each stock's weight proportionate to its market value. The S&P 500 Index is one of the most widely used benchmarks of U.S. equity performance. The performance of the index does not account for any management fees, incentive compensation, commissions, or other expenses that would be incurred pursuing such strategy.

**Beta** is a measure of a portfolio's sensitivity to the market's returns (represented by the benchmark); i.e., systematic risk. A beta of 1.0 suggests that a portfolio generally moves in tandem with the broader market, while a beta of zero indicates that moves are independent of the market.

## Consider Your Own Investment Needs

This profile is not intended to be a client-specific suitability analysis or recommendation, an offer to participate in any investment, or a recommendation to buy, hold or sell securities (includes securities of Morgan Stanley and/or its affiliates if shown in this profile).

Do not use this profile as the sole basis for investment decisions. Do not select an investment strategy based on performance alone. Consider all relevant information, including your existing portfolio, investment objectives, risk tolerance, liquidity needs and time horizon.

**Benchmark Index.** Depending on the composition of your account and your investment objectives, any indices shown in this profile may not be an appropriate measure for comparison purposes and are therefore

# Definitions and Disclosures

presented for illustration only. Indices are unmanaged. They do not reflect any management, custody, transaction or other expenses, and generally assume reinvestment of dividends, accrued income and capital gains. Past performance of indices does not guarantee future results. You cannot invest directly in an index. Performance of indices may be more or less volatile than any investment strategy. The risk of loss in value of a specific investment strategy is not the same as the risk of loss in a broad market index. Therefore, the historical returns of an index will not be the same as the historical returns of a particular investment strategy.

**Securities Holdings.** Holdings are subject to change daily. Holdings lists indicate the largest security holdings in the Fund. Sector weightings are based on industry standard sector identification codes. Top ten holdings, allocation and geographic exposure are measured as a percentage of the total portfolio in terms of asset value. These holdings and allocations are subject to change at any time and may not reflect the Fund's current composition. The securities identified and described do not represent all of the securities purchased, sold or recommended for client accounts. The reader should not assume that the securities identified were or will be profitable.

**Other Data.** Other data in this profile is accurate as of the date this profile was prepared unless stated otherwise. Data in this profile may be calculated by Morgan Stanley Smith Barney LLC or a third party service provider.

## Key Risk Considerations

**Asset allocation and diversification do not assure a profit or protect against loss.**

**Loss of money is a risk of investing in the Fund. The Fund's principal risks include:**

**Market risk,** which is the risk that stock prices decline overall. Markets are volatile and can decline significantly in response to real or perceived adverse issuer, political, regulatory, market or economic developments in the U.S. and in other countries. Market risk may affect a single company, sector of the economy or the market as a whole.

**Equity risk,** which is the risk that prices of equity securities rise and fall daily due to factors affecting individual companies, particular industries or the equity market as a whole.

**Investment style risk,** which means large cap and/or growth stocks could fall out of favor with investors and trail the performance of other types of investments.

**Foreign investment risk,** which means risks unique to foreign securities, including less information about foreign issuers, less liquid securities markets, political instability and unfavorable changes in currency exchange rates.

**Securities lending risk,** which includes the potential insolvency of a borrower and losses due to the reinvestment of collateral received on loaned securities in investments that default or do not perform well.

**Manager risk,** which is the risk that poor security selection by a Sub-adviser will cause the Fund to underperform. This risk is common for all actively managed funds.

**Multi-manager risk,** which is the risk that the investment styles of the Sub-advisers may not complement each other as expected by the Manager. The Fund may experience a higher portfolio turnover rate, which can increase the Fund's transaction costs and more taxable short-term gains for shareholders.

**Issuer risk,** which is the risk that the value of a security may decline for reasons directly related to the issuer, such as management performance, financial leverage and reduced demand for the issuer's goods or services.

For more information on the risks of investing in the Fund please see the "Fund Details" section in the Prospectus.

**No Obligation to Notify.** Morgan Stanley Smith Barney LLC has no obligation to notify you when information in this profile changes.

**Sources of Information.** Material in this profile has been obtained from sources that we believe to be reliable, but we do not guarantee its accuracy, completeness or timeliness. Third party data providers make no warranties or representations relating to the accuracy, completeness or timeliness of data they provide and are not liable for any damages relating to this data.

**No Tax Advice.** Morgan Stanley Smith Barney LLC and its affiliates do not render advice on tax and tax accounting matters to clients. Each client should consult his/her personal tax and/or legal advisor to learn about any potential tax or other implications that may result from acting on a particular recommendation.

**No Redistribution.** Morgan Stanley Smith Barney LLC material, or any portion of it, may not be reprinted, sold or redistributed without Morgan Stanley Smith Barney LLC's written consent.
