An investment in a money market fund is neither insured nor guaranteed by the FDIC or any other government agency. Although money market funds seek to preserve the value of your investment at \$1.00 per share, there can be no assurance that will occur and it is possible to lose money should the fund value per share fall. Moreover, in some circumstances money market funds may be forced to cease operations when the value of a fund drops below \$1.00 per share. In that event, the fund's holdings would be liquidated and distributed to the fund's shareholders. This liquidation process could take up to one month or more.

Portfolio holdings are subject to change at any time without notice. This information is provided for informational purposes only and should not be construed as a recommendation to purchase or sell any security.
