Note, private investments often present high risks and investors could lose all or a substantial amount of their investment. Before investing, investors should carefully review and consider any available offering memorandum, documents and potential risks of the specific investment. Private investment risks may include but are not limited to - high illiquidity, volatility, use of leverage and other speculative practices, restrictions on transferring interests, potential lack of diversification, absence of information regarding valuations and pricing, complex tax structures and tax reporting delays, less regulation and higher fees than other investments, risks associated with operations, personnel, and processes of the manager and with cybersecurity. Clients should consult their own tax and legal advisors as MSWM does not provide tax or legal advice.

MSWM is not acting as a placement agent or representative of this investment but may act as such for other similar investments which could present a conflict of interest. As a diversified global financial services firm, Morgan Stanley engages in a broad spectrum of activities including financial advisory services, investment management activities, sponsoring and managing private investment funds, engaging in broker-dealer transactions and principal securities, commodities and foreign exchange transactions, research publication, and other activities. In the ordinary course of its business, Morgan Stanley therefore engages in activities where Morgan Stanley's interests may conflict with the interests of its clients, including private investments (including private funds) it manages and private investments it does not manage. Morgan Stanley can give no assurance that conflicts of interest will be resolved in favor of its clients or any such investment.

For any similar investment to this investment Morgan Stanley may receive fees such as a placement fee, portion of management fee, performance incentive compensation, and servicing trail fee paid to the manager of an investment (such as a fund). The type and amount of Morgan Stanley's compensation varies depending on Morgan Stanley's agreement with a particular investment. Potential conflicts of interest exist given Morgan Stanley, or its affiliates, may earn more compensation on one investment option relative to another platform choice. Please consult any offering documents for specific information regarding how we receive and utilize fees.

Please refer to the Program agreement and [ADV](#) for more details on the Program including limitations on the scope of review and potential conflicts. The ADV is also available from your Private Wealth Advisor.
