

MORGAN STANLEY THEMATIC BASKETS

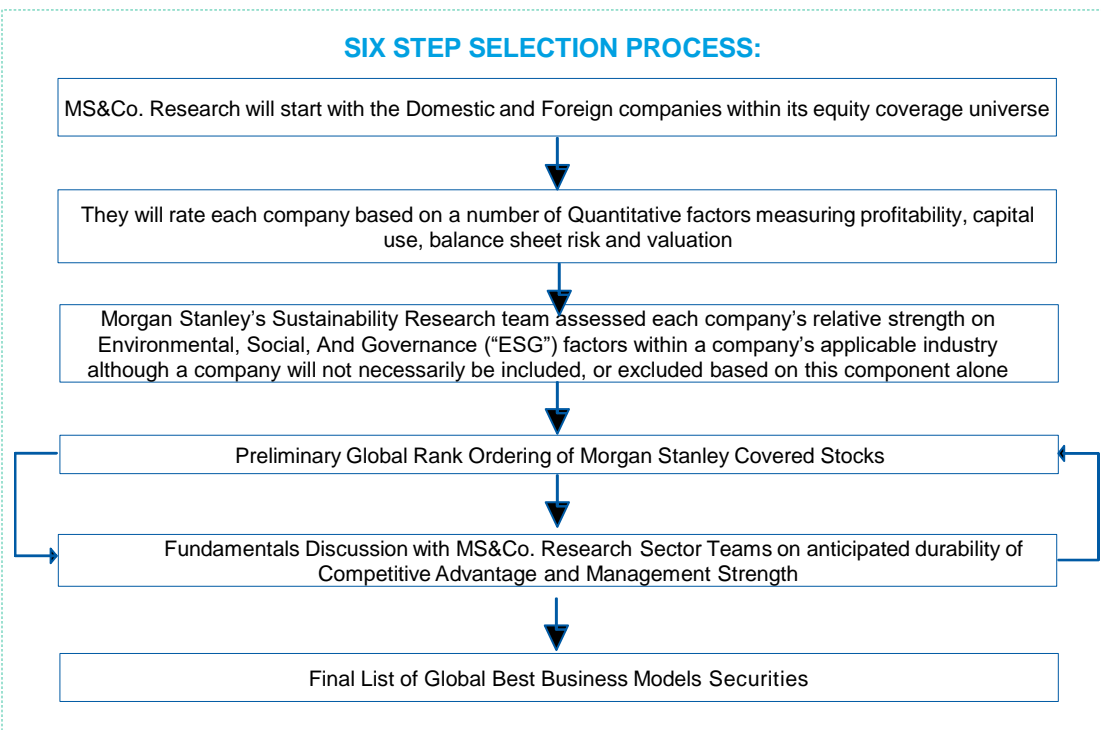

Global Best Business Models, Series 4

INVESTMENT THESIS

- This Thematic Basket will invest in companies that MS&Co. Research believes have the 'Best' Business Models in their global industry groups.
- The investment selections will rely on fundamental, quantitative and Environmental Social and Governance (ESG) analyses by MS&Co. Research (see six step process below)
- This Thematic Basket will take advantage of the research report titled, "Launching Global Best Business Models, Fourth Edition (2022)" by **making it investable** for our financial advisors and their clients.

PORTFOLIO SELECTION CRITERIA

SIX STEP SELECTION PROCESS:

Unit Investment Trust Portfolio Information

| MSCI | MSCI Inc. | 2.86 | | | |

The composition of the Trust's portfolio was determined as of the initial date of deposit and may differ from that shown due to the requirement that only whole shares be purchased for the portfolio. Sector weightings will likely vary thereafter due to market fluctuations in the underlying securities. Please refer to the prospectus for important disclosures regarding Morgan Stanley's and its affiliates' business relationships related to the Trust's securities holdings.

ABOUT UITs

Morgan Stanley UITs offer numerous benefits for clients:

- **Disciplined approach:** Takes the emotion out of the investment process by eliminating the need for buy and sell decisions
- **Fully transparent:** Clients know what the UIT holds for the duration of the UIT's life
- **Defined life:** UITs have a defined maturity date
- **Convenience:** UITs offer one ticket exposure to various asset classes, market sectors, thought leadership and/or investment themes
- **Exclusivity:** Offered only to Morgan Stanley clients

DISCLOSURES | The portfolio is designed to remain fixed over its 24-month term. There is no guarantee it will achieve its objective.

This communication shall not constitute an offer to sell or a solicitation of an offer to buy; nor shall there be any sale of these securities in any state in which such offer, solicitation, or sale would be unlawful prior to registration or qualification under the securities laws of any such state. Investors should consider the investment objectives, risks, and charges and expenses carefully before investing. Clients should contact their Financial Advisor to request a prospectus, which contains this and other information about the Trust. Clients should read it carefully before investing.

RISK CONSIDERATIONS | Choosing a unit investment trust ("UIT") depends on a client's tolerance for risk, among other things. As with any equity investment, unit prices will fluctuate and there is no assurance that prices will appreciate and not decline over the life of a UIT. Stock prices can be volatile and holders can lose money by investing in a UIT. In addition, the amount of dividends a client receives depends on each issuer's dividend policy, the financial condition of the securities and general economic conditions. Clients should understand the potential risks associated with common stocks. In addition, the Trust may invest significantly in one or more sectors. Because of their narrow focus, sector investments tend to be more volatile than investments that diversify across many sectors.

The portfolio is a UIT, which uses a buy and hold strategy that is designed to remain fixed over its 24 month term. The Trust issues redeemable securities or "units" at prices based on net asset value. Units can be sold at any time, in accordance with the prospectus, at a price that will reflect the net asset value less any remaining deferred sales charge and/or other charges as applicable. The proceeds may be more or less than the original value of a client's investment. Clients can opt for dividends to be reinvested in additional units or paid out in cash. The Trust is part of a long-term strategy and clients should consider their ability to remain invested until the Trust reaches maturity. Clients should also consider the tax implications of investing in successive portfolios if one is available. Morgan Stanley Smith Barney LLC and its affiliates do not provide tax or legal advice. Clients should seek advice based on the taxpayer's particular circumstances from an independent tax advisor.

Investors will pay the full amount of any organizational charge, and in brokerage, also the full amount of any sales charge, if the investor redeems their investment in a UIT prior to the termination date.

You should note that the Trust will continue to purchase or hold securities, notwithstanding the fact that MS&Co. Research may revise its opinion with respect to any individual security based on the selection process employed by MS&Co. Research or any subsequent analysis, including changes in any ESG analyses. In particular, any subsequent creation of a similar type of list of securities or an update of any above referenced selection process by MS&Co. Research will not affect the composition of the Trust.

Consulting Group Advisor or Portfolio Manager Accounts – Units may be purchased through a Consulting Group Advisor ("CGA") non-discretionary investment advisory account or a Portfolio Manager ("PM") discretionary investment advisory account. Units that are eligible for purchase through CGA/PM accounts are not assessed sales charges, but CGA/PM accounts are subject to an annual asset-based program fee of up to 2.00% and clients pay UIT organizational and other expenses. Clients should see the CGA/PM program disclosure brochure (available online at www.morganstanley.com/ADV) for more information on the CGA/PM program, including the conflicts of interest associated with offering a proprietary UIT in the CGA/PM program.

Diversification does not guarantee a profit or protect against a loss.
