

## MORGAN STANLEY THEMATIC BASKETS

# Growth at a Reasonable Price Strategy, Series 1 (“GARP”)

### PRODUCT OVERVIEW

- This Thematic Basket will invest in companies that Morgan Stanley Wealth Management Global Investment Office (“MSWM GIO”) believes to be “Growth at a Reasonable Price” (or “GARP”) stocks due to having certain fundamental growth, quality and valuation characteristics.
- A GARP investment strategy typically emphasizes investment in companies characterized by consistent earnings and sales growth, favorable valuation metrics, and solid financial strength and profitability.

### PORTFOLIO SELECTION

- To make its selections, MSWM GIO utilized a proprietary stock scoring system that seeks to provide an objective, quantitative methodology to identify companies with strong fundamental characteristics, centering on attractive earnings growth and favorable valuation metrics. Specifically, MSWM GIO took the following steps:

The large-cap growth segment of the U.S. equity universe (“The Selection Universe”)

Rank stocks within each sector by the below criteria

Select top 30% of stocks from each sector that meet various constraints

RANKING CRITERIA	CALCULATION	FACTORS
<b>Dividend Growth</b>	Three-year annualized growth rate in dividend levels	Growth & Quality
<b>Estimated Excess Returns</b>	Estimated by MSWM GIO Proprietary Tool	Growth, Momentum, Quality & Value
<b>Free Cash Flow Yield</b>	Ratio of free cash flow to price over the last 12 months	Quality & Value
<b>Estimated Long-Term Growth</b>	Median long-term earnings growth forecast as determined by an independent financial data provider	Growth
<b>Estimated Near-Term Value</b>	Estimated by MSWM GIO Proprietary Tool	Momentum & Value
<b>Quality</b>	Estimated by MSWM GIO Proprietary Tool	Quality
<b>Return on Equity</b>	Reported earnings to common equity divided by the average of the most recent reported shareholders’ equity and the reported shareholders’ equity from the prior year	Quality

- When selecting the top-scoring 40% of the stocks in each sector, MSWM GIO was subject to a number of constraints that included ensuring the portfolio has a weighted average estimated forward valuation<sup>5</sup> lower than that of the Selection Universe and a weighted average estimated long-term growth similar to or greater than that of the Selection Universe. MSWM GIO also required the portfolio to be subject to limits on the number of securities held, the size of each position and its sector weights. MSWM GIO also intended portfolio volatility not to be materially greater than that of the broader stock market and anticipated tracking error not significantly deviate from the Selection Universe.

### Unit Investment Trust Portfolio Information

**SPONSOR:** Morgan Stanley Smith Barney LLC  
**ASSET CLASS:** U.S. Equities  
**INITIAL DATE OF DEPOSIT:** June 30, 2022  
**TERMINATION DATE:** October 3, 2023  
**SECURITIES:** 65

#### CUSIPs

Cash accounts 61774G100  
 Fee accounts<sup>3,4</sup> 61774G118

#### MORGAN STANLEY SYMBOLS

Cash accounts MGARP1  
 Fee accounts MGARP1F  
 NASDAQ ticker MSGPAX

#### SALES CHARGES FOR BROKERAGE ACCOUNTS<sup>1,2,4</sup>

The composition of the Trust's portfolio was determined as of the initial date of deposit and may differ from that shown due to the requirement that only whole shares be purchased for the portfolio. Sector weightings will likely vary thereafter due to market fluctuations in the underlying securities. Please refer to the prospectus for important disclosures regarding Morgan Stanley's and its affiliates' business relationships related to the Trust's securities holdings.

## Disclosures | Growth at a Reasonable Price Strategy, Series 1 (“GARP”)

### ABOUT UITs

Morgan Stanley UITs offer numerous benefits for clients:

- **Disciplined approach:** Takes the emotion out of the investment process by eliminating the need for buy and sell decisions
- **Fully transparent:** Clients know what the UIT holds for the duration of the UIT's life
- **Defined life:** UITs have a defined maturity date
- **Convenience:** UITs offer one ticket exposure to various asset classes, market sectors, thought leadership and/or investment themes
- **Exclusivity:** Offered only to Morgan Stanley clients

**DISCLOSURES** | The portfolio is designed to remain fixed over its 15-month term. There is no guarantee it will achieve its objective.

**This communication shall not constitute an offer to sell or a solicitation of an offer to buy; nor shall there be any sale of these securities in any state in which such offer, solicitation, or sale would be unlawful prior to registration or qualification under the securities laws of any such state. Investors should consider the investment objectives, risks, and charges and expenses carefully before investing. Clients should contact their Financial Advisor or call Morgan Stanley Smith Barney LLC at 1-800-869-0690 to request a prospectus, which contains this and other information about the Trust. Clients should read it carefully before investing.**

**RISK CONSIDERATIONS** | Choosing a unit investment trust (“UIT”) depends on a client’s tolerance for risk, among other things. As with any equity investment, unit prices will fluctuate and there is no assurance that prices will appreciate and not decline over the life of a UIT. Stock prices can be volatile and holders can lose money by investing in a UIT. In addition, the amount of dividends a client receives depends on each issuer’s dividend policy, the financial condition of the securities and general economic conditions. Clients should understand the potential risks associated with common stocks. In addition, the Trust may invest significantly in one or more sectors. Because of their narrow focus, sector investments tend to be more volatile than investments that diversify across many sectors.

The portfolio is a UIT, which uses a buy and hold strategy that is designed to remain fixed over its 15 month term. The Trust issues redeemable securities or “units” at prices based on net asset value. Units can be sold at any time, in accordance with the prospectus, at a price that will reflect the net asset value less any remaining deferred sales charge and/or other charges as applicable. The proceeds may be more or less than the original value of a client’s investment. Clients can opt for dividends to be reinvested in additional units or paid out in cash. The Trust is part of a long-term strategy and clients should consider their ability to remain invested until the Trust reaches maturity. Clients should also consider the tax implications of investing in successive portfolios if one is available. Morgan Stanley Smith Barney LLC and its affiliates do not provide tax or legal advice. Clients should seek advice based on the taxpayer’s particular circumstances from an independent tax advisor.

Investors will pay the full amount of any organizational charge, and in brokerage, also the full amount of any sales charge, if the investor redeems their investment in a UIT prior to the termination date.

You should note that the Trust will continue to purchase or hold securities, notwithstanding the fact that MSWM GIO may revise its opinion with respect to any individual security based on the selection process employed by MSWM GIO or any subsequent analysis. In particular, any subsequent creation of a similar type of list of securities or an update of any above referenced selection process by MSWM GIO will not affect the composition of the Trust. Although MSWM GIO identified the securities based upon a 12-month outlook, the Trust has a maximum duration of 15 months and does not intend to change its composition prior to termination.

**Consulting Group Advisor or Portfolio Manager Accounts** – Units may be purchased through a Consulting Group Advisor (“CGA”) non-discretionary investment advisory account or a Portfolio Manager (“PM”) discretionary investment advisory account. Units that are eligible for purchase through CGA/PM accounts are not assessed sales charges, but CGA/PM accounts are subject to an annual asset-based program fee of up to 2.00% and clients pay UIT organizational and other expenses. Clients should see the CGA/PM program disclosure brochure (available online at [www.morganstanley.com/ADV](http://www.morganstanley.com/ADV)) for more information on the CGA/PM program, including the conflicts of interest associated with offering a proprietary UIT in the CGA/PM program.

Diversification does not guarantee a profit or protect against a loss.
