Part II  Organizational Action
Attach additional statements if needed. See back of form for additional questions.

14  Describe the organizational action and, if applicable, the date of the action or the date against which shareholders' ownership is measured for the action ►
On October 26, 2012, Morgan Stanley Mid Cap Growth Fund ("Target") merged into Morgan Stanley Institutional Fund Trust Mid Cap Growth Portfolio ("Survivor") in a tax-free reorganization. Pursuant to the terms of the merger, common shares of Target were exchanged for common shares of Survivor.

15  Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis ►
The Target shareholders' total basis in the Survivor shares received is the same as their total basis in the old Target shares.
For each Class C share of Target held (DGRCX), shareholders received 0.740376 Class L shares of Survivor (MSKLX). Alternatively, each Survivor share received in the reorganization will have a basis equal to 135,066,699% of the Target shares surrendered.

16  Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates ►
The per share basis calculations are based on the respective net asset values ("NAVs") of the Target and Survivor shares as of the close of business on the merger date of 10/26/2012. These NAVs are determined based on the market value of the underlying securities held by the funds.
The NAV of Target's Class C shares was $24.42 per share and the NAV of Survivor's Class L shares was $32.98 per share on 10/26/2012.
Part II  Organizational Action (continued)

18  Can any resulting loss be recognized?  No.
