

Morgan Stanley Investment Funds

## European Equity Alpha Fund - B Shares

(Accumulation Share Class)

### Investment Objective

Long term growth of your investment.

### Investment Approach

Seeks long-term capital growth, measured in euro, through investment primarily in a concentrated portfolio of equity securities of companies listed on European stock exchanges. Investments will be sought in equity securities that the Company believes to have the highest potential for long term capital appreciation based primarily on fundamental market factors and stock-specific research.

### Class B Shares (% net of fees) vs. Index in EUR

### Investment Performance (% net of fees) in EUR

	Cumulative (%)				Annualised (% p.a.)			
	1 M	3 M	YTD	1 YR	3 YR	5 YR	10 YR	INCEPTION
Class B Shares	1.95	3.28	20.47	10.89	5.25	2.23	5.67	2.80
MSCI Europe (Net) Index	0.86	3.14	20.26	12.63	8.25	6.01	8.04	5.42

Calendar Year Returns (%)

	2018	2017	2016	2015	2014	2013	2012
Class B Shares	-15.57	7.16	-1.83	3.61	1.84	21.16	13.68
MSCI Europe (Net) Index	-10.57	10.24	2.58	8.22	6.84	19.82	17.29

Past performance is not a reliable indicator of future results. Returns may increase or decrease as a result of currency fluctuations. All performance data is calculated NAV to NAV, net of fees, and does not take account of commissions and costs incurred on the issue and redemption of units. The sources for all performance and Index data is Morgan Stanley Investment Management.

This fund received a windfall compensation payment in connection with Prudential Equity Group's settlement with the US SEC relating to market timing charges. Consequently, the net cash injection received in March 2010 and the related withholding tax, accrued in September 2010 and received in August 2011, have increased the fund's AUM by EUR 5,437,850 and EUR 2,455,464 respectively, enhancing the overall 2010 fund's performance by 297bps.

Please refer to the Prospectus for full risk disclosures, available at [www.morganstanleyinvestmentfunds.com](http://www.morganstanleyinvestmentfunds.com). All data as of 31.10.2019 and subject to change daily.

**DEFINITIONS**

The **5 year Earnings Per Share (EPS) growth rate** is the weighted average of earnings per share growth for all securities in the portfolio projected for the past five fiscal years. Earnings per share for a company is defined as total earnings divided by shares outstanding. **Active Share** is a measure of the percentage of stock holdings in a manager's portfolio that differ from the benchmark index (based on holdings and weight of holdings). Active Share scores range from 0%-100%. A score of 100% means you are completely different from the benchmark. Active Share calculation may consolidate holdings with the same economic exposure.

**Share Class B Risk and Reward Profile**

Lower Risk

Higher Risk

**Potentially Lower Rewards****Potentially Higher Rewards**

The risk and reward category shown is based on historic data.

- Historic figures are only a guide and may not be a reliable indicator of what may happen in the future.
- As such this category may change in the future.
- The higher the category, the greater the potential reward, but also the greater the risk of losing the investment. Category 1 does not indicate a risk free investment.
- The fund is in this category because it invests in company shares and the fund's simulated and/or realised return has experienced high rises and falls historically.
- The fund may be impacted by movements in the exchange rates between the fund's currency and the currencies of the fund's investments.

This rating does not take into account other risk factors which should be considered before investing, these include:

- The fund relies on other parties to fulfill certain services, investments or transactions. If these parties become insolvent, it may expose the fund to financial loss.
- There may be an insufficient number of buyers or sellers which may affect the fund's ability to buy or sell securities.
- Past performance is not a reliable indicator of future results. Returns may increase or decrease as a result of currency fluctuations. The value of investments and the income from them can go down as well as up and investors may lose all or a substantial portion of his or her investment.
- The value of the investments and the income from them will vary and there can be no assurance that the Fund will achieve its investment objectives.
- Investments may be in a variety of currencies and therefore changes in rates of exchange between currencies may cause the value of investments to decrease or increase. Furthermore, the value of investments may be adversely affected by fluctuations in exchange rates between the investor's reference currency and the base currency of the investments.

**Additional B Share Classes**

CURRENCY	LAUNCH	ISIN	BLOOMBERG
BR	EUR	05.03.2014	LU1033668440

<sup>1</sup> May not sum to 100% due to rounding. Cash & equivalents may include other assets and liabilities of the portfolio.

<sup>2</sup> For additional information regarding sector classification/definitions please visit [www.msci.com/gics](http://www.msci.com/gics) and the glossary at [www.morganstanley.com/im](http://www.morganstanley.com/im).

<sup>3</sup> These securities and percentage allocations are only for illustrative purposes and do not constitute, and should not be construed as, investment advice or recommendations with respect to the securities or investments mentioned.

**Alpha** (Jensen's) is a risk-adjusted performance measure that represents the average return on a portfolio or investment above or below that predicted by the capital asset pricing model (CAPM) given the portfolio's or investment's beta and the average market return. Prior to 6/30/2018 Alpha was calculated as the excess return of the fund versus benchmark. **Beta** is a measure of the relative volatility of a fund to the market's upward or downward movements. A beta greater than 1.0 identifies an issue or fund that will move more than the market, while a beta less than 1.0 identifies an issue or fund that will move less than the market. The Beta of the Market is always equal to 1. **Bloomberg** stands for 'Bloomberg Global Identifier (BBGID)'. This is a unique 12 digit alphanumerical code designed to enable

the identification of securities, such as the Morgan Stanley Investment Funds sub-funds at share class level, on a Bloomberg Terminal. The Bloomberg Terminal, a system provided by Bloomberg L.P., enables analysts to access and analyse real-time financial market data. Each Bloomberg code starts with the same BBG prefix, followed by nine further characters that we list here in this guide for each share class of each fund. **Cash & Equivalents** are defined as the value of assets that can be converted into cash immediately. These include commercial paper, open FX transactions, Treasury bills and other short-term instruments. Such instruments are considered cash equivalents because they are deemed liquid and not subject to significant risk of changes in values. **Dividend yield** is the ratio between how much a company pays out in dividends each year relative to its share price. **Down Capture Ratio** is a statistical measure of an investment manager's overall performance in down-markets. Downside capture indicates how correlated a fund is to a market, when the market declines. **Excess Return** or value added (positive or negative) is the portfolio's return relative to the return of the benchmark. **Information ratio** is the portfolio's alpha or excess return per unit of risk, as measured by tracking error, versus the portfolio's benchmark. **ISIN** is the international securities identification number (ISIN), a 12 digit code consisting of numbers and letters that distinctly identifies securities. **NAV** is the Net Asset Value per share of the Fund (NAV), which represents the value of the assets of a fund less its liabilities. **Number of holdings** provided are a typical range, not a maximum number. The portfolio may exceed this from time to time due to market conditions and outstanding trades. **Price/book (P/BV)** compares a stock's market value to the book value per share of total assets less total liabilities. This number is used to judge whether a stock is undervalued or overvalued. **Price/cash flow (P/CF)** is a ratio used to compare a company's market value to its cash flow. It is calculated by dividing the company's per-share stock price by the per-share operating cash flow. **Price/earnings (P/E)** is the price of a stock divided by its earnings per share for the past 12 months. Sometimes called the multiple, P/E gives investors an idea of how much they are paying for a company's earning power. The higher the P/E, the more investors are paying, and therefore the more earnings growth they are expecting. **R squared** measures how well an investment's returns correlate to an index. An R squared of 1.00 means the portfolio performance is 100% correlated to the index's, whereas a low r-squared means that the portfolio performance is less correlated to the index's. **Sharpe ratio** is a risk-adjusted measure calculated as the ratio of excess return to standard deviation. The Sharpe ratio determines reward per unit of risk. The higher the Sharpe ratio, the better the historical risk-adjusted performance. **Tracking error** is the standard deviation of the difference between the returns of an investment and its benchmark. **Upside/downside market capture** measures annualized performance in up/down markets relative to the market benchmark. **Volatility (Standard deviation)** measures how widely individual performance returns, within a performance series, are dispersed from the average or mean value.

## INDEX INFORMATION

The **MSCI Europe (Net) Index** is a free float-adjusted market capitalization index that is designed to measure developed market equity performance in Europe. As of September 2002, the MSCI Europe Index consisted of the following 16 developed market country indices: Austria, Belgium, Denmark, Finland, France, Germany, Greece, Ireland, Italy, the Netherlands, Norway, Portugal, Spain, Sweden, Switzerland, and the United Kingdom.

**INFORMATION MEMORANDUM**  
**Morgan Stanley Investment Funds (the "Company")**  
Société d'investissement à Capital Variable Luxembourg

**IMPORTANT**

This Singapore information memorandum is authorised for distribution only when accompanied by the Luxembourg prospectus for the Company, as amended or modified from time to time (the "**Prospectus**"). Please read this document and the Prospectus for full information on the Funds (as defined below). Capitalised terms used herein which are not defined shall have the meanings attributed to them in the Prospectus.

The Funds are not authorised or recognised by the Monetary Authority of Singapore ("MAS") and shares in the Funds ("Shares") are not allowed to be offered to the retail public. Moreover, this Information Memorandum which relates to the offer of Shares in the Funds is not a prospectus as defined in the Securities and Futures Act, Chapter 289 of Singapore, as amended or modified from time to time (the "**SFA**"), and accordingly, statutory liability under the SFA in relation to the content of prospectuses would not apply. You should consider carefully whether the investment is suitable for you.

The Shares are classified as capital markets products other than prescribed capital markets products (as defined in the Securities and Futures (Capital Markets Products) Regulations 2018) and Specified Investment Products (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products).

This Information Memorandum has not been registered as a prospectus by the MAS, and the offer of the Shares is made pursuant to the exemptions under Sections 304 and 305 of the SFA. Accordingly, the Shares may not be offered or sold, nor may the Shares be the subject of an invitation for subscription or purchase, nor may this Information Memorandum or any other document or material in connection with the offer or sale, or invitation for subscription or purchase of the Shares be circulated or distributed, whether directly or indirectly, to any person in Singapore other than under exemptions provided in the SFA for offers made (a) to an institutional investor (as defined in Section 4A of the SFA) pursuant to Section 304 of the SFA, (b) to a relevant person (as defined in Section 305(5) of the SFA), or any person pursuant to an offer referred to in Section 305(2) of the SFA, and in accordance with the conditions specified in Section 305 of the SFA, or (c) otherwise pursuant to, and in accordance with, the conditions of any other applicable provision of the SFA. First sales of the Shares acquired pursuant to Section 304 of the SFA are subject to the requirements under Section 304A of the SFA.

Where the Shares are acquired by persons who are relevant persons specified in Section 305A of the SFA, namely:

- (a) a corporation (which is not an accredited investor (as defined in Section 4A of the SFA)) the sole business of which is to hold investments and the entire share capital of which is owned by one or more individuals, each of whom is an accredited investor; or
- (b) a trust (where the trustee is not an accredited investor) whose sole purpose is to hold

investments and each beneficiary of the trust is an individual who is an accredited investor,

the securities (as defined in Section 2(1) of the SFA) of that corporation or the beneficiaries' rights and interest (howsoever described) in that trust shall not be transferred within six months after that corporation or that trust has acquired the Shares pursuant to an offer made under Section 305 of the SFA except:

- (1) to an institutional investor or to a relevant person as defined in Section 305(5) of the SFA, or which arises from an offer referred to in Section 275(1A) of the SFA (in the case of that corporation) or Section 305A(3)(i)(B) of the SFA (in the case of that trust);
- (2) where no consideration is or will be given for the transfer;
- (3) where the transfer is by operation of law;
- (4) as specified in Section 305A(5) of the SFA; or
- (5) as specified in Regulation 36A of the Securities and Futures (Offers of Investments) (Collective Investment Schemes) Regulations 2005 of Singapore.

## **Offer of Funds in Singapore**

For the purposes of the offer in Singapore to (i) to an institutional investor (as defined in Section 4A of the SFA) pursuant to Section 304 of the SFA, (ii) to a relevant person (as defined in Section 305(5) of the SFA), or any person pursuant to an offer referred to in Section 305(2) of the SFA, and in accordance with the conditions specified in Section 305 of the SFA, only the following Funds shall be available:

#### **Redemption of Shares**

Please refer to Section 2.3 of the Prospectus.

#### **Charges and Expenses**

Please refer to Section 2.5 of the Prospectus.

#### **Past Performance**

Past performance figures may be obtained in the annual and semi-annual reports of the Company at [www.morganstanleyinvestmentfunds.com](http://www.morganstanleyinvestmentfunds.com).

#### **Side Letters**

The Company does not enter directly into side letters with investors.

#### **Liquidity Risk**

The Company and the Management Company have established a liquidity risk process to assess and monitor the liquidity risk profile of the relevant Fund on an on-going basis. A summary of the liquidity management tools that may be implemented by the Management Company and/or the Company is set out below. Such liquidity management tools may be implemented in exceptional circumstances and in the best interest of the relevant Fund and its Shareholders and will have the corresponding effect on investors described below. Please refer to Sections 2.3 and 2.4 of the Prospectus for further information on these liquidity management tools.

#### **Redemption fee and conversion fee**

A redemption fee or conversion fee of up to 2% of an individual redemption or conversion (as the case may be) may be applied where the Management Company, in its discretion, determines that the shareholder has engaged in trading practices which adversely affect the interests of the Company's shareholders or where it is otherwise appropriate to protect the interest of the Company. Such redemption fee and conversion fee will be retained for the benefit of continuing Shareholders of the relevant Fund.

#### **Suspension of redemption**

The Company shall suspend the redemption of Shares of the Company during any period when the calculation of the Net Asset Value per share of the relevant Class is suspended

under circumstances set out in section 2.7 of the Prospectus headed "Net Asset Value Determination". Shareholders will not be able to redeem Shares in the affected Fund(s) during the period when the calculation of the Net Asset Value is suspended.

#### Gating

Shareholders may not be able to redeem or convert their Shares where application(s) for redemption or conversion in respect of any one Dealing Day is more than 10% of the Net Asset Value of any one Fund. In the event that such 10% threshold in respect of a Dealing Day is exceeded, the Company may scale down each application with respect to such Dealing Day pro rata so that not more than 10% of the Net Asset Value of the relevant Fund be redeemed or converted on such Dealing Day.

Alternatively, the Company may ask such Shareholder(s) affected by the abovementioned gating procedure to accept payment in whole or in part by an in-kind distribution of securities in lieu of cash. No Shareholder can be required to accept an in-kind distribution against their will, and where a Shareholder refuses such in-kind payment, the redemption proceeds will be paid in the Reference Currency of the Fund or, if applicable, in the currency which the Currency Hedged Share Class is denominated from which the Shareholder is redeeming.

#### Anti-dilution pricing measure

The Management Company may adjust the Net Asset Value of a Fund ("**Swing Pricing**") to reflect the estimated dealing spreads, costs and charges to be incurred by the Fund in liquidating or purchasing investments ("**Swing Factor**") to satisfy the net transactions received in respect of a particular Dealing Day. Under normal market circumstances, the Swing Factor shall not exceed 2% of the Net Asset Value of the relevant Fund on the relevant Dealing Day. When net redemptions in a Fund exceed a threshold determined by the Management Company on a given Dealing Day, the Net Asset Value of the Fund may be adjusted downwards by the Swing Factor. If the Net Asset Value of the Fund is adjusted downwards, the redemption proceeds paid to affected Shareholders would likewise be adjusted in a manner proportionate to the then applicable Swing Factor.

#### Restrictions on conversion

The Company may refuse to accept a conversion application if it is detrimental to the interests of the Company or the Shareholders, taking into account the monetary amount or number of Shares to be converted, market conditions or any other circumstances (e.g., short-term trading).
