Side Letters

The Company does not enter directly into side letters with investors.

Liquidity Risk

The Company and the Management Company have established a liquidity risk process to assess and monitor the liquidity risk profile of the relevant Fund on an on-going basis. A summary of the liquidity management tools that may be implemented by the Management Company and/or the Company is set out below. Such liquidity management tools may be implemented in exceptional circumstances and in the best interest of the relevant Fund and its Shareholders and will have the corresponding effect on investors described below. Please refer to Sections 2.3 and 2.4 of the Prospectus for further information on these liquidity management tools.

Redemption fee and conversion fee

A redemption fee or conversion fee of up to 2% of an individual redemption or conversion (as the case may be) may be applied where the Management Company, in its discretion, determines that the shareholder has engaged in trading practices which adversely affect the interests of the Company's shareholders or where it is otherwise appropriate to protect the interest of the Company. Such redemption fee and conversion fee will be retained for the benefit of continuing Shareholders of the relevant Fund.

Suspension of redemption

The Company shall suspend the redemption of Shares of the Company during any period when the calculation of the Net Asset Value per share of the relevant Class is suspended under circumstances set out in section 2.7 of the Prospectus headed "Net Asset Value Determination". Shareholders will not be able to redeem Shares in the affected Fund(s) during the period when the calculation of the Net Asset Value is suspended.

Gating

Shareholders may not be able to redeem or convert their Shares where application(s) for redemption or conversion in respect of any one Dealing Day is more than 10% of the Net Asset Value of any one Fund. In the event that such 10% threshold in respect of a Dealing Day is exceeded, the Company may scale down each application with respect to such Dealing Day pro rata so that not more than 10% of the Net Asset Value of the relevant Fund be redeemed or converted on such Dealing Day.

Alternatively, the Company may ask such Shareholder(s) affected by the abovementioned gating procedure to accept payment in whole or in part by an in-kind distribution of securities in lieu of cash. No Shareholder can be required to accept an in-kind distribution against their will, and where a Shareholder refuses such in-kind payment, the redemption proceeds will be paid in the Reference Currency of the Fund or, if applicable, in the currency which the Currency Hedged Share Class is denominated from which the Shareholder is redeeming.

Anti-dilution pricing measure

The Management Company may adjust the Net Asset Value of a Fund (“**Swing Pricing**”) to reflect the estimated dealing spreads, costs and charges to be incurred by the Fund in liquidating or purchasing investments (“**Swing Factor**”) to satisfy the net transactions received in respect of a particular Dealing Day. Under normal market circumstances, the Swing Factor shall not exceed 2% of the Net Asset Value of the relevant Fund on the relevant Dealing Day. When net redemptions in a Fund exceed a threshold determined by the Management Company on a given Dealing Day, the Net Asset Value of the Fund may be adjusted downwards by the Swing Factor. If the Net Asset Value of the Fund is adjusted downwards, the redemption proceeds paid to affected Shareholders would likewise be adjusted in a manner proportionate to the then applicable Swing Factor.

Restrictions on conversion

The Company may refuse to accept a conversion application if it is detrimental to the interests of the Company or the Shareholders, taking into account the monetary amount or number of Shares to be converted, market conditions or any other circumstances (e.g., short-term trading).
