

Morgan Stanley Institutional Liquidity Funds

Treasury Securities Portfolio

Investment Objective

The Morgan Stanley Institutional Liquidity Funds (MSILF) Treasury Securities Portfolio seeks preservation of capital, daily liquidity and maximum income.

Investment Philosophy

A conservatively managed portfolio of debt securities issued by the U.S. Treasury designed to help maximize current income while preserving capital and maintaining liquidity.

Investment Process

The management team follows an investment process that seeks to select maturities based on the shape of the money market fund yield curve and on expectations as to future shifts in the level and shape of the curve, taking into consideration such factors as current short-term interest rates, Federal Reserve policy regarding interest rates and U.S. economic activity.

Fund Highlights

The MSILF Treasury Securities Portfolio offers the following benefits:

Security: the fund is rated AAAm by S&P, Aaa-mf by Moody's and is NAIC-rated, reflecting the credit quality, diversification and security of the fund.

Liquidity: competitive trading deadlines and same-day access give you flexibility and control.

Yield: provides a competitive rate of return.

30-Day Current Yield (%)

	APR 2026	MAR 2026	FEB 2026	JAN 2026	DEC 2025	NOV 2025	OCT 2025	SEP 2025	AUG 2025	JUL 2025	JUN 2025	MAY 2025

Performance data quoted represents past performance, which is no guarantee of future results, and current performance may be lower or higher than the figures shown. For the most recent month-end performance figures, please visit www.morganstanley.com/liquidity. Investment returns will fluctuate and fund shares, when redeemed, may be worth more or less than their original cost. Yield quotation more closely reflects the current earnings of the Portfolio than the total return. Yields are subsidized.

Average Portfolio Maturity

(Month-end figures)

Maturity Distribution

The maturity distribution reflects the final maturity date except for floating rate securities for which the next reset date is reflected.

Expenses are based on the fund's current prospectus, in effect as of the date of this document. For information on the applicable fund's current fees and expenses, please see the fund's current prospectus.

This piece must be preceded or accompanied by the Fund's prospectus.

Fund Facts

Fund number	8355
Total net assets	\$ 63,001.56 million
Purchase deadline	3 PM ET
Redemption deadline	3 PM ET

Share Class

CLASS PT

Inception date	10/27/2008
Ticker	MPRXX
CUSIP	61747C517
Net asset value (\$)	1.00
Dividends declared	Daily
Minimum initial investment (\$)	10,000,000
Management Fee (%)	0.15
Net Expense Ratio (%)	0.70
Gross Expense Ratio (%)	0.71
1-day liquidity (%)	98.51
7-day liquidity (%)	99.93
7-day current yield subsidized (%)	3.01
30-day effective yield subsidized (%)	3.06

Yields are subsidized. As of April 30, 2026, the fund's 7 day and 30 day unsubsidized yields were 3.01% and 3.05%, respectively, and its simple (7-day) yield, gross of all fee waivers and expense reimbursements, was 3.71%.

Yield quotations more closely reflect current earnings of the money market fund than total return quotations. Yields are subject to change.

Recent and any future declines in interest rate levels could cause these funds' earnings to fall below the funds' expense ratios, resulting in a negative yield.

Characteristics

DEFINITIONS

Unsubsidized yield The unsubsidized yield reflects what the yield would have been had a fee and/or expense waiver not been in place during the period shown. **Total return** A measure of a fund's performance that encompasses all elements of return: dividends, capital gain distributions, and changes in net asset value. Total return is the change in value of an investment over a given period, assuming reinvestment of any dividends and capital gain distributions, expressed as a percentage of the initial investment. **Weighted average life** measures the weighted average of the maturities of the portfolio's individual holdings. **Weighted average maturity** measures the weighted average of the maturities of the portfolio's individual holdings, taking into account reset dates for floating rate securities. **Yield definitions** The 7-day current yield is an annualized net yield which assumes dividends are not reinvested in the fund. The 30-day effective yields are annualized net yields that describe 1-year earnings assuming dividends are reinvested at the average rate of the last 30 days. The 7-day simple yield describes the annualized income earned over the last 7 days.

IMPORTANT RATINGS DISCLOSURES

Ratings represent the opinions of the rating agency as to the quality of the securities they rate. Standard & Poor's, Moody's, Fitch and NAIC ratings rate the investment quality of the fund's shares. Independent rating agency ratings include, but are not limited to, a regular analysis of a fund's liquidity, diversification, operational policies and internal controls, its management characteristics and the creditworthiness of its assets. Ratings are not intended as a recommendation and are subject to change. Ratings are relative and subjective and are not absolute standards of quality. The portfolio's credit quality does not remove market risk.

Standard & Poor's money market fund ratings are forward-looking opinions about a fixed-income fund's capacity to maintain stable principal (net asset value). When assigning a principal stability rating to a fund, Standard & Poor's analysis focuses primarily on the creditworthiness of the fund's investments and counterparties, and also its investments maturity structure and management's ability and policies to maintain the fund's stable net asset value. For more information, please visit: <https://www.spglobal.com/ratings/en/credit-ratings/about/understanding-credit-ratings>.

Moody's Investors Services Inc.'s money market fund ratings are opinions of the investment quality of shares in mutual funds and similar investment vehicles which principally invest in short-term fixed income obligations. As such, these ratings incorporate Moody's assessment of a fund's published investment objectives and policies, the creditworthiness of the assets held by the fund, the liquidity profile of the fund's assets relative to the fund's investor base, the assets' susceptibility to market risk, as well as the management characteristics of the fund. For more information, please visit: <https://www.moodys.com/web/en/us/solutions/ratings/mmfa.html>.

The **National Association of Insurance Commissioners (NAIC)** conducts credit analysis on securities for the purpose of assigning an NAIC designation and/or unit price. NAIC designations are the specific alphanumeric symbols in use by the NAIC Securities Valuation Office (SVO), to denote a category of credit quality. NAIC designated the MSILF Treasury Fund as U.S. Direct Obligations/Full Faith & Credit Exempt and therefore allows the fund to be exempt from NAIC capital reserve requirements. For complete information on the methodology used by NAIC, please visit: <http://www.naic.org/svo.htm>.

RISK CONSIDERATIONS

You could lose money by investing in the Fund. Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the

Fund is not a bank account and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund's sponsor is not required to reimburse the Fund for losses, and you should not expect that the sponsor will provide financial support to the Fund at any time, including during periods of market stress.

Market values can change daily due to economic and other events (e.g. natural disasters, health crises, terrorism, conflicts and social unrest) that affect markets, countries, companies or governments. It is difficult to predict the timing, duration, and potential adverse effects (e.g. portfolio liquidity) of events. The prices of fixed income securities respond to interest rate changes. Indeed, prices tend to be inversely affected by changes in interest rates. Accordingly, the portfolio is subject to interest rate risk, and in a rising interest rate environment, portfolio shares can decline in value.

OTHER CONSIDERATIONS

Morgan Stanley Institutional Liquidity Funds (MSILFs) MSILFs are institutional mutual funds offering seven different cash management portfolios.

Fund adviser The Morgan Stanley Institutional Liquidity Funds (MSILFs) are managed by Morgan Stanley Investment Management, Inc.

MSILF returns are net of fees and assume the reinvestment of all dividends and income. Returns for less than one year are cumulative (unannualized). MSILF returns are reported for Participant class shares. Performance for the other classes will differ. The Portfolio's "Adviser" and "Administrator," Morgan Stanley Investment Management Inc., has agreed to reduce its advisory fee, its administration fee and/or reimburse the Portfolio's Participant Class so that Total Annual Portfolio Operating Expenses, excluding certain investment related expenses, taxes, interest and other extraordinary expenses (including litigation), will not exceed 0.70%. The fee waivers and/or expense reimbursements will continue for at least one year or until such time as the Board of Trustees of Morgan Stanley Institutional Liquidity Funds (the "Fund") acts to discontinue all or a portion of such waivers and/or reimbursements when it deems such action is appropriate.

Where the net expense ratio is lower than the gross expense ratio, certain fees have been waived and/or expenses reimbursed. These waivers and/or reimbursements will continue for at least one year from the date of the applicable fund's current prospectus (unless otherwise noted in the applicable prospectus) or until such time as the fund's Board of Trustees acts to discontinue all or a portion of such waivers and/or reimbursements. Absent such waivers and/or reimbursements, returns would have been lower. Expenses are based on the fund's current prospectus, in effect as of the date of this fact sheet. For information on the applicable fund's current fees and expenses, please see the fund's current prospectus.

This material must be preceded or accompanied by a prospectus for the Morgan Stanley Institutional Liquidity Funds. The prospectus contains information about the funds, including the investment objectives, risks, charges and expenses. For an additional copy of the prospectus, please visit www.morganstanley.com. Please read the prospectus carefully before investing.
