*The Portfolio will be required to price and transact in their shares at a floating Net asset value ("NAV"). The Portfolio will be required to impose a mandatory liquidity fee when the Fund experiences daily net redemptions that exceed 5% of net assets, unless the Fund's liquidity costs are de minimis.

**The Fund is only available to retail investors.

Yields shown are subsidized, and include reimbursements related to the waiver of certain expenses, and are net of management fees and expenses. Non-subsidized yields exclude such reimbursements. For information regarding non-subsidized yields for each fund, please visit:

Performance data quoted represents past performance, which is no guarantee of future results and current performance may be lower or higher than the figures shown. For the most recent month-end performance figures, please visit www.morganstanley.com/liquidity. Investment returns will fluctuate and fund shares, when redeemed, may be worth more or less than their original cost.

Yields are subject to change.

Stable NAV Funds. You could lose money by investing in the Fund. Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the Fund is not a bank account and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund's sponsor is not required to reimburse the Fund for losses, and you should not expect that the sponsor will provide financial support to the Fund at any time, including during periods of market stress.

Floating NAV Fund. You could lose money by investing in the Fund. Because the share price of the Fund will fluctuate, when you sell your shares they may be worth more or less than what you originally paid for them. The Fund may impose a fee upon sale of your shares. The Fund generally must impose a fee when net sales of Fund shares exceed certain levels. An investment in the Fund is not a bank account and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund's sponsor is not required to reimburse the Fund for losses, and you should not expect that the sponsor will provide financial support to the Fund at any time, including during periods of market stress.

Rating Agencies- S&P, Moody's, Fitch and NAIC. Ratings represent the opinions of the rating agency, as to the quality of the securities they rate. Ratings are relative and subjective and are not absolute standards of quality. The portfolio's credit quality does not remove market risk.

Fitch Ratings (AAAmmf) are only available for Money Market, Prime, Government and Tax-Exempt. Standard & Poor's, Moody's and Fitch ratings rate the investment quality of the fund's shares. Independent rating agency ratings include, but are not limited to, a regular analysis of a fund's liquidity, diversification, operational policies and internal controls, its management characteristics and the creditworthiness of its assets. Ratings are not intended as recommendation and are subject to change. Ratings are relative and subjective and are not absolute standards of quality. The portfolio's credit quality does not remove market risk.

Standard & Poor's. Money market fund ratings are forward-looking opinions about a fixed income fund's capacity to maintain stable principal (net asset value). When assigning a principal stability rating to a fund, Standard & Poor's analysis focuses primarily on the creditworthiness of the fund's investments and counterparties, and also its investments' maturity structure and management's ability and policies to maintain the fund's stable net asset value. Moody's Investors Services Inc.'s. Money market fund ratings are opinions of the investment quality of shares in mutual funds and similar investment vehicles, which principally invest in short-term fixed income obligations. As such these ratings incorporate Moody's assessment of a fund's published investment objectives and policies, the creditworthiness of the assets held by the fund, the liquidity profile of the fund's assets relative to the fund's investor base, the asset's susceptibility to market risk, as well as the management characteristics of the fund. The National Association of Insurance Commissioners (NAIC) conducts credit analysis on securities for the purpose of assigning an NAIC designation and/or unit price. NAIC designations are the specific alphanumeric symbols in use by the NAIC Securities Valuation Office (SVO), to denote a category of credit quality. NAIC designated the MSILF Treasury and Treasury Securities Funds as U.S. Direct Obligations/Full Faith & Credit Exempt and therefore allows these Funds to be exempt from NAIC capital reserve requirements.

For complete information on the methodology used by NAIC, please visit: <http://www.naic.org/svo.htm>

For each MSILF fund shown, it's corresponding prospectus must precede or accompany this material. For an additional copy of the fund's prospectus, please visit www.morganstanley.com/liquidity. The prospectus contains information about the fund, including the investment objectives, risks, charges and expenses. Please read the prospectus carefully before investing.
